Notice.

A COMPETITIVE examination for admission to the Indian Railway Service of Engineers, the Transportation (Traffic) and Commercial Department, the Electrical Engineering and Signalling Departments of the Superior Revenue Establishment of State Railways will be held in Delhi beginning on the 28th January 1929, under the regulations published with the Railway Department (Railway Board) Resolutions No. 4048 E., dated the 6th July 1927, and No. 2894 E., dated the 9th November 1927. Candidates accepted for admission to the examination will be informed at what place in Delhi and at what hour they should present themselves.

The number of candidates to be selected at the examination will be announced hereafter.

No candidate will be admitted to the examination from whom the authority mentioned below has not received, on or before 21st September 1928, an application on the prescribed form accompanied by necessary documents. Copies of the regulations and application form may be obtained from that authority.

The application shall be made to the authority of the area in which the candidate's parents reside at the time of his application, or have previously resided for a period of not less than three years, or in which he has himself resided (otherwise than as a student at a University only) for a like period.

The authority is in the case of a Governor's Province, the Chief Secretary; in the case of Coorg, North-West Frontier Province, Delhi, Ajmer-Merwara or British Baluchistan, the Chief Commissioner; and in the case of a State in India, the Political Officer or Agent, who shall be addressed through the Durbar.

No allegation that an application form or letter respecting such form has been lost or delayed in the post will be considered unless the person making such allegation produces a Post Office certificate of posting.

Candidates who delay their application until a late date will do so at their own risk.

Note.—Candidates for the Indian Railway Service of Engineers or the Transportation (Traffic) and Commercial Departments must have attained the age of 21 and must not have attained the age of 25 on the 1st August 1928.

Candidates for the Electrical Engineering or Signalling Engineering must not have attained the age of 24 on 1st August 1928.

J. H. WISE,

Secretary, Public Service Commission.

Simla, the 18th July 1928.

Notice.

A SELECTION of candidates for appointment as Special Class Apprentices in the Mechanical Engineering and Transportation (Power) Departments of the Superior Revenue Establishment of State Railways will shortly be made under the regulations published in the *Gazette of India* under Railway Department Resolution No. 2894-E, dated the 9th November 1927.

Candidates must have passed the Intermediate Examination in Arts, Science or Engineering of any Indian University or the Cambridge Higher School Certificate Examination or the Higher Diploma Examination of the Mayo College, Ajmer, and must not have attained the age of 19 on the 1st January 1928.

Application forms, which together with copies of the regulations and particulars as to conditions of service can be obtained from local Governments and Political Officers or Agents, must be submitted in accordance with the regulations not later than the 10th September 1928.

J. H. WISE, Secretary,

Public Service Commission.

Simla, the 18th July 1928.

Midnapore, the 24th July 1928. (1502—1)

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

Notice to creditors under section 10A of Act IX (B.C.) of 1879.

WHEREAS under sections 27 and 35 of the Court of Wards Act, IX (B.C.) of 1879, as amended up to date, the Court of Wards has assumed charge of the property of Babous Debaprosad Garga and Sakti Prosad Garga, minor sons of late Raja Sati Prosad Garga Bahadur, and Babus Bhabani Prosad Garga and Bhupal Prosad Garga, minor sons of late Babu Gopal Prosad Garga, of Mahisadal, in the district of Midnapore, notice is hereby given under section 10A of the said Act that all creditors having claims against the said proprietors or their immoveable properties are required to submit the same in writing to the Collector of Midnapore at his office at Midnapore within six months from the date of publication of this notice.

Creditors are also hereby warned that claims not submitted as required by this notice may be deemed to have ceased to carry interest.

S. W. GOODE, Collector.

Midnapore, the 18th July 1928. (1440—2)

The Commissioners for the Port of Calcutta.

NOTICE is hereby given that a flat branded "Dewan" which has been lying on the foreshore near the Fort William Jute Company's Jetty at Shibpur as an obstruction to the wharf and river bed, will be sold by the Commissioners for the Port of Calcutta in their capacity as conservators of the Port by public auction under sections 10 and 11 of the Indian Ports Act, XV of 1908, on or after Monday, the 6th August 1928, unless removed by the owner in the meantime after payment of all charges due.

The date, place and conditions of sale will be notified in the *Exchange Gazette*.

M. D. N. WYATT, Deputy Secretary (offg.)

7-1, Koilaghat Street, Calcutta, the 27th July 1928

RESOLUTION ON THE SEVENTH QUINQUENNIAL REVIEW ON THE PROGRESS OF EDUCATION IN BENGAL FOR THE YEARS 1922-23 TO 1926-27.

GOVERNMENT OF BENGAL.

EDUCATION DEPARTMENT.

Education.

CALCUTTA, THE 3RD JULY 1928.

RESOLUTION—No. 1918 Edn.

Minister in charge: The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

READ—

The seventh Quinquennial Review on the Progress of Education in Bengal for the years 1922-23 to 1926-27.

General Remarks.—Although in the period under review no far-reaching reform in education was possible owing to unfavourable financial and political conditions, yet there were both development and progress in several branches of the subject, the most noteworthy being the great increase in numbers in all branches of education of the "backward" classes of Hindus and the growing interest taken by all

communities in the education of their girls. The financial difficulty arising out of the Meston Award led to the appointment of the Bengal Retrenchment Committee, which recommended drastic economies in the Education Budget. But, though certain measures of economy were given effect to, no great reduction in educational activities was found either necessary or disirable. During half of this period, there were no Ministers, and Education had then to be administered as a Reserved subject, while the non-co-operation movement, which had almost spent its force, had left behind a spirit of unrest and indiscipline.

The Legislative Council, by its budget debates, its criticisms of educational policy and administration, its resolutions, and interpellations, exercised a considerable influence on the educational policy of the province. Occasionally by its decision it made the administration of the Department extremely difficult, *e.g.*, when it refused the salaries of the Inspecting officers (Transferred) during the year 1924-25 (which was, however, restored later as a supplementary grant); but on the whole the members took much interest in matters educational, especially in the affairs of Calcutta University, the question of Primary education, compulsory Physical education of children, problems of Moslem education, etc. In 1923, two private Bills were introduced to reconstitute Calcutta University on a popular basis, but were ultimately withdrawn. The debate showed a desire for reform on the lines of the recommendations of the Sadler Commission. The motion of Mr. A. C. Banerjee in 1926 to make "physical education compulsory for boys between 12 and 18 in all schools affiliated to the University and in all maktabs and madrasahs" and that of Maulvi Rajibuddin Tarafdar recommending to Government that "steps be taken with as little delay as possible for the inauguration of a system of compulsory primary education in Bengal," which were both adopted by the Council, were the two most important educational pronouncements. Government have decided to give effect to them as soon as the necessary funds are available.

The review has brought into relief one special feature of the educational activities of the province that is peculiar to Bengal; 31 per cent. of the total expenditure on education is spent on University work, 45·2 per cent. on secondary and 23 8 per cent on primary education, while in the rest of India the proportion is 15·6 : 39·6 : 44·8. Obviously in Bengal education is top-heavy, a disproportionately large amount being spent on University and Secondary education at the cost of the education of the masses.

2. **University Education.**—The most important events are—(1) the passing of the Dacca University (Amendment) Act, 1925, which provided for a statutory annual recurring grant of five and a half lakhs, and placed the finances of the University on a stable basis and enabled it to push ahead safely with its academic programme; (2) the sanction of a recurring grant of Rs. 2,43,000 with a contingent liability of Rs. 37,000 in 1925-26, to Calcutta University, which went a great way to make up the loss in the fee-income due to considerable decline in the number of students in the postgraduate classes; and (3) the deaths of Sir Asutosh Mukherjee and Mr. Bhupendra Nath Basu, both Vice-Chancellors of Calcutta University, which removed from the field of Education two great personalities, the University suffering an irreparable loss, especially on account of the sudden death of Sir Asutosh, who had by his great imagination and self-denying labour developed Calcutta University from a purely examining body to a teaching University and infused a great spirit of research in the University, especially on the Arts side.

There was much discussion in the earlier years of the quinquennium between Calcutta University and Government to bring about reform on the lines of the recommendations of the Sadler Report, but nothing came out of it in concrete form. The Postgraduate department continued to be worked on the old lines and the control over Secondary and Intermediate education still remained in the hand of the University, which however lacks the agencies necessary to exercise any effective control.

There was a marked fall in the number of students in the Postgraduate classes of Calcutta University. In 1916-17 there were 1,722 students reading for the M.A. and M.Sc. Examinations; in 1921-22 the number was 1,234, while the figure for 1926-27 was only 989. There was, however, a steady growth in the science classes during the same period. The Bengali graduate has begun to find that the M.A. degree does not help him much in his economic difficulties. The lure of a purely academic course in Science has not yet disappeared and

the day is not perhaps far distant when it will be recognised that the ordinary University course in Science, like that in Arts, with few industrial ramifications in the country, can only bring disappointment to the vast majority. The beaten track of the University brings prizes only to the best few. The ordinary professions are over-crowded and there is hardly any opening in Government and commercial offices for the vast crowd of unemployed graduates. Bengal seems to have realised the economic waste of the present system of University education, but the remedy has not been discovered nor any serious attempt made to find ways and means to make the educational system of the country conform to the demands of modern conditions. There are clear indications that the old complacency and satisfaction with the existing order of things has gone for ever, but what should take place and how the necessary funds are to be made available, are issues which are not yet near solution.

There are, however, certain redeeming features in the activities of the Postgraduate department of Calcutta University and a large amount of research work was done in almost all the branches of the Postgraduate department. The results of the examinations indicate a noticeable raising of the standard. The Senate is to be congratulated on the proposal for the creation of two Professorships in the name of Sir Asutosh Mukherjee, one for Sanskrit and the other for Islamic culture, which are destined to extend the bounds of knowledge in these subjects.

The young University of Dacca continues to make fairly satisfactory progress. The number of students rose from 1,030 in 1921-22 to 1,415 in 1926-27, and here again the popularity of Science was unmistakable. The number of students in residence in the Halls rose from 336 to 569 and there was marked progress in the corporate and social activities of the University. The number of books in the library has been increased and a large number of periodicals have been made available. Considerable additions were made to the buildings, especially to the Chemical laboratories, and preliminary work was done in connection with a large underground sewerage scheme for the University area. Arrangements were made for the accommodation of 12 women students and funds were allotted for the provision of a Moslem Hall, which is now under construction. A one-year course leading to an examination for a diploma in Practical English was instituted and much valuable original research work was done by nearly every department.

Sir P. J. Hartog, who, as first Vice-Chancellor, gave Dacca University its present form and to whom most of the credit for the building up of a first-class residential University in Bengal is due, retired at the end of 1925. The thanks of the Government are due to him for the excellent services rendered by him and the great personal care with which he fostered the growth of the infant University.

An Advisory Committee for High Education was constituted in 1924 by His Excellency the Earl of Lytton, Chancellor of both the Universities, to advise Government on points of mutual interest in connection with higher education, to "co-ordinate the work of the two Universities, to see that all unnecessary duplication in the work of the University is avoided and to ensure that all available resources are distributed between the two Universities in some equitable ratio." It held several meetings in 1924 and 1925 and discussed two important questions—the conditions of the Dacca University Provident Fund and the standardising of Honours courses in the two Universities. On the former question it was decided that teachers at Dacca University should contribute 8⅓rd per cent. to the fund, on condition that the same rate was adopted by those of Calcutta University and that some attempt should be made to start a provident fund for teachers of colleges affiliated to the latter University. As regards the Honours course, which is of 2 years at Calcutta and 3 years at Dacca, there were difficulties in the way of standardisation and no agreement could be reached.

Collegiate Education for Indian boys.—The most marked feature in the field of collegiate education is the multiplication of Arts colleges, especially in the mufussal. Seven new Intermediate colleges were started during the period, three under Calcutta University and four affiliated to the Dacca Intermediate Board, three of the latter being for the teaching of Islamic subjects and one for the ordinary arts subjects. Two degree colleges—the Islamia College and the Feni College were established, so that the total number of colleges increased from 36 in 1922 to 45 in 1927. Of the 45 colleges, 11 were Government institutions,

21 aided and 13 unaided. Four of these colleges, those at Bagerhat, Midnapore, Pabna and Hetampore, were raised to the first grade rank during the quinquennium, and many colleges extended their affiliation in Honours and could thus offer a wider range of courses to their students.

The number of students rose from 16,942 to 22,420 during the quinquennium. Muhammadans numbered 3,131 and their proportion to the total rose from 12·8 to 13·9 per cent. The demand for science courses increased considerably. "Between 1922 and 1925, about half the colleges in the mufassal obtained affiliation in the I.Sc., or B.Sc., or both; and the number of candidates at the I.Sc. Examination jumped from 1,922 to 4,332 in five years." On financial and other grounds it was not possible to make corresponding provision at the B.Sc. stage, and the result was that many students who had passed the I.Sc. and found it impossible to get admission to the few Medical and Engineering colleges, had no other option than to take up the Arts course at the B.A. stage. The lure of Government service through the competitive examinations has also begun to attract the better class of students from Science to Arts, since it is now widely believed that a course in Arts pays better than one in Science for these examinations.

The results of the University Examinations show a decisive raising of the standard; thus in 1921-22, the percentages of success in I.A., I.Sc., B.A., and B.Sc. Examinations were 65·1, 74·9, 72·3 and 68·8, while in 1926-27 they were 46·7, 46·05, 37·3 and 47·5, respectively. The examinations in Calcutta tended in the past to be too easy. It is hoped that the raising of the standard will lead to a corresponding improvement in the quality of teaching, as well as, in the end, a higher average standard of mental effort among the students. A special feature of the last quinquennium is the lead given to other colleges by the Presidency College, on the recommendation of the Presidency College Committee appointed in 1923, by raising its fees considerably. Other colleges followed suit, but hardly to the degree that is desirable for financial stability. Expenditure had increased considerably in these colleges, owing to the opening and extension of Science courses, the starting of provident funds, and the improvement of pay and prospects of teachers. To add to their difficulties, there was a considerable loss in fee-income, due to the stricter standard of examination and the increase in the number of colleges. Compared with the figures for the previous quinquennium, the contribution from the provincial revenues towards collegiate education increased by 20·2 per cent. while that from fees increased by 54·4 per cent. The total growth in fee-income was 69 per cent. in Government colleges, 108·1 per cent. in aided colleges and 15·5 per cent. in unaided colleges.

The total expenditure on education in Arts colleges increased from Rs. 26,51,435 in 1921-22 to Rs. 35,16,844 in 1926-27 making up about 16·7 per cent. of the total expenditure on education. Of the total expenditure, 35·6 per cent. came from Provincial revenues, 55·8 per cent. from fees and 8·5 per cent. from other sources. The average annual cost per student was Rs. 379 in Government colleges, Rs. 117 in aided colleges and Rs. 101 in unaided colleges, of which Rs. 250, Rs. 26 and nil, respectively, came from public funds.

4. **Secondary Education for Indian boys.**—As compared with 1921-22, the number of high schools increased from 878 to 985, Middle English schools from 1,468 to 1,616, while the number of Middle Vernacular schools diminished from 217 to 74. The number of pupils increased from 190,630 to 233,343 in High schools, from 108,582 to 142,684 in Middle English schools, while it diminished from 10,632 to 4,802 in Middle Vernacular schools. The figures are significant. The Middle Vernacular schools, which numbered 349 in 1916-17 with 21,253 pupils, are fast disappearing and it is obvious that they have ceased to meet public demand; in a few years they will inevitably disappear. The Middle English schools, which seemed unpopular in the previous quinquennium, as the numbers of institutions and pupils had diminished from 1,602 and 160,359 in 1916-17 to 1,468 and 108,582, respectively, in 1921-22, showed an unexpected revival in 1926-27 and it seems clear that they will continue to function as useful institutions in the educational system of the province. The fear expressed in the last report that high school education had ceased to be popular seems unfounded. The number of High schools has increased by 107 and the number of pupils has grown by 42,713. The average strength of a High school has increased from 217 to 237, though this latter figure is still below the minimum average of 300 that is necessary for financial stability. Of the high schools, 52·5 per cent. are aided against 43·1 in 1921-22. The proportion of aided Middle English schools in 1921-22 was 62·7 per

cent., while the corresponding figure for 1926-27 is 70·5 per cent. The extension of the aided system was possible mainly on account of the recurring grant of Rs. 3 lakhs sanctioned in 1925-26 for the improvement of the pay of teachers in non-Government secondary schools. The grant was distributed on the following principles:—

(1) Middle English schools were to receive a small part of the total grant.

(2) No aid was to be given to any school unless its permanency was assured and, in the opinion of the Inspector, it was needed for the locality.

(3) A minimum scale of Rs. 540 (and 11 teachers) was insisted on in the case of High schools to which a new grant was given.

(4) No grant, old or new, was to be given where the rate of fees fell below a certain minimum scale.

(5) No grant was to be given unless the school had a provident fund for teachers.

(6) The minimum grant to a High school was fixed at Rs. 100 a month.

The control of secondary education, except in the Dacca University area, continued to be exercised jointly by the Department and the University of Calcutta, and the question of placing High and Intermediate education under a Board to be specially constituted for the purpose remained unsolved. The University, however, showed considerable interest in the welfare of High schools. It insisted on the establishment of a provident fund for teachers and a minimum scale of expenditure as a condition of recognition; and the introduction of the School Code to regulate the management of schools and to safeguard the interests of the teachers was a distinct move in advance.

The Dacca Board carried on its work in the midst of considerable difficulties. The uncertainty of its existence prevented it from planning any sound constructive scheme, nor could adequate funds be placed at its disposal. The Board has, however, succeeded in reorganising the Intermediate colleges and their courses on the lines recommended by the Sadler Commission. It has reduced the size of the classes so as to enable individual attention being paid to the pupils and has added to the school the indispensable subjects of History (both English and Indian) and Geography. It has also arranged for a course in practical English and instituted an oral test in that language and has introduced Elementary Science as an optional subject for the High School Examination. The thanks of Government are due to the President and the members for the keen interest they have taken in this work. The achievement of the Board, considering the limitations under which it has been working, was not small. It has also instituted a course in Islamic Studies, which has been taken up by Madrasahs even beyond the Dacca University area.

The total expenditure on secondary education rose from Rs. 84,90,022 in 1921-22 to Rs. 1,07,37,075 in 1926-27, of which about 18 per cent. (about 19 lakhs) came from public sources, 66 per cent. from fees and 16 per cent. from other sources. The High schools absorbed most of the increase. The average cost per boy was Rs. 35·7 in High schools, Rs. 16·3 in Middle English schools and Rs. 13·6 in Middle Vernacular schools.

5. **Primary Education for Indian boys.**—A certain amount of progress has taken place during the quinquennium in the development of primary education. A new and improved curriculum has been put into force and the number of schools has risen during the quinquennium by 2,572 and the pupils by 234,345 and the proportion of boys to the total male population of school-going age has increased from 17 per cent. to 20·5 per cent. But about 79·5 per cent. of boys of school-going age are still unschooled, and the enormous preponderance of pupils in the lowest class is a serious defect in the system of primary education. As the review points out, "out of 10 boys who join a primary school, 7 get only a year's schooling or less and for all practical purposes are illiterate." The proportion of wastage seems as high as 70 to 80 per cent.—an appalling loss, considering the little that Bengal spends at present on primary education. The problems of extending literacy can never be solved simply by multiplying schools and bringing in additional students, unless the boys could be made to go through the full course to prevent lapse to illiteracy. At present the system, whether it is on the lines of the Panchayati union schools or of the Biss Scheme,

allows extraordinary waste and, as circumstances are, very little progress towards universal literacy is possible. The problem is extremely difficult and nothing short of a well-organised and adequately financed frontal attack can solve the problem. The resolution of the Legislative Council on the motion of Maulvi Rajibuddin Tarafdar recommending early introduction of compulsory primary education has given, however, a silver lining to the dark horizon. A Primary Education Bill providing for funds by taxation and creating duly authorised and competent agencies to utilise the money in accordance with a definite and systematic plan is the only solution of the problem. In September 1926, Government issued a resolution sketching the outlines of the Compulsory Primary Education Bill. The main features of the proposed Bill are:—

(1) In each district a District School Board is to be set up, which will be an essentially non-official body with an official element, to survey the educational needs of the district and to prepare a scheme to provide the necessary schools and teachers.

(2) The Board, in addition to the money already allotted for primary education, will be financed by a special cess of 5 pice in the rupee of the annual value of lands and net profits of mines, and an assessment on the non-agricultural classes.

(3) With this money the Board will develop primary education within the district.

It has since been decided that the Bill will be placed before the Council in the current year. In the meantime steps have been taken to introduce a public examination at the end of the primary course in the hope that the prospect of earning a departmental certificate would tend to prolong the connection of the boys with the school and reduce the wastage.

6. **Education of Indian Girls and Women.**—The number of schools has increased and so has the number of pupils. There were 364 girls in Colleges in 1926-27 against 228 in 1921-22, 4,801 in High schools against 2,647, 8,269 in Middle schools against 6,640, and 396,056 against 332,694 in Primary schools. In the Colleges and High schools the progress was to the extent of 50 per cent., while in the primary stage the increase was slight. Adding the figures for the primary stages in Secondary schools, it appears that 99 per cent. of the girls at school are in the primary stage, only 1 in 185 is in the middle stage, and only 1 in 278 in the high class. Of the number at the primary stage, an overwhelming majority leave school after the 1st year and, in all probability, never attain literacy. The increase in the number of girls and of schools is, therefore, no measure of the advance made. What is wanted is a more equitable distribution of girls over the different stages, but the social conditions and the general apathy of the people stand in the way of improvement.

The most hopeful event in the quinquennium is the interest shown by Bengal women in the problems of female education. The first conference of the Bengal Women Educational League was held in 1927, when the various problems of women's education were discussed by women and a continuation committee to carry out a constructive programme was appointed. It is hoped that the women of Bengal will be able in time to transform the present man-made system of women's education into a form more acceptable to the women of the country.

The demand for higher education among Hindu women is slowly increasing—6 women passed the M.A. Examination during the period and a small number went abroad for further study, Government awarding two scholarships for the purpose. Among Muhammadans, higher education for women has made little progress, only one person graduating in the period under review. In the primary stage they outnumbered the Hindus, but that only in the lower classes. At the middle and high stages the Moslems are at present in a hopeless minority. It is time that the Muhammadan community should seriously consider this aspect of the question and try to evolve means to overcome the obstacles that stand in the way of progress.

The experiment on Zenana Education on the lines of the "Parents' National Union Scheme of England" continued under the direction of the Principal, Dacca Training College, and the needle work teachers rendered useful service.

The total expenditure on schools for girls rose from Rs. 17,11,666 in 1921-22 to Rs. 22,07,483 in 1926-27, of which 58·7 per cent. came from public funds.

7. **Muhammadan Education.**—The number of Muhammadan pupils rose from 880,374 to 1,139,949, *i.e.*, by 29·4 per cent. The increase is most marked in Universities, Arts and Professional colleges, and progress at the primary stage is apparent, while there was a relative decline in the high and middle stages, which looks like a continuation of the same tendency noticed in the last quinquennium. The numbers in the High Madrasahs rose from 1,196 to 4,204 and in the Junior Madrasahs from 23,840 to 46,795, showing that the Muhammadans still are anxious to retain connection between religion and learning. Even allowing for this, one feels that the preferential assistance and the special facilities that are offered for the spread of Muhammadan education might be more adequately utilised than at present. Only 115 students passed out from the 17 Higher Madrasahs and 731 from the 521 Junior Madrasahs, a very poor outturn.

The most noteworthy events during the quinquennium are—(1) the inauguration of a special course of Islamic studies under the Dacca Intermediate and Secondary Board, equivalent to the ordinary Intermediate Arts course and the affiliation of the Islamic Colleges at Dacca, Chittagong and Serajganj to the Board in this course; (2) the starting of the Islamia College, Calcutta, affiliated to Calcutta University up to the B.A. standard; (3) the creation of 88 special scholarships for Moslems of values varying from Rs. 5 to Rs. 25; and (4) the inauguration of the Lord Lytton Fund by Nawab Musharruf Hosain, now Hon'ble Minister in charge of Education, to be utilised for sending a Muhammadan to Europe for study for 2 years.

8. **European and Anglo-Indian Education.**—The number of schools was 62 against 87 in 1921-22, the difference being due to the fact that supplementary and technical classes are no longer counted as separate schools. The number of pupils has shown little increase; the number in 1926-27 was 10,821 as against 10,702 in 1921-22. Though there was little progress, a considerable amount of reorganisation and reform was effected. The apathy of the Anglo-Indian community towards University education showed signs of gradual disappearance and some links of connection with the University of Calcutta were established. The Loreto House and St. Joseph's College, Calcutta, prepared boys for the Calcutta Matriculation and Intermediate Examinations. St. Joseph's College at Darjeeling has also followed suit and there are indications that others may follow. On condition that the admission would be cancelled if a student failed to pass the Cambridge examinations, the University have decided to allow students appearing for the Cambridge Senior Local in December to join the first year class in January and those appearing for the Higher Certificate to join the 3rd year class in August, though the usual College session begins in July. The way from the Cambridge Local Examinations to the Calcutta degrees has thus been made easy.

An important advance is the creation of a higher grade school course leading the curriculum through the last two years "along lines of pre-vocational preparation, with the intention of providing a direct entry into the ranks of skilled industry, for that class of child which must work immediately on leaving school." The high grade schools have primary, middle and upper departments, and it is in the last two classes that in addition to the conventional subjects of English, Arithmetic and Drawing, special attention is given to one or other of the vocational courses, such as Commerce, Domestic Economy, Mechanical Industry and Telegraphy. Experience has shown that there are some defects in the scheme, but the experiment is full of promise.

The total expenditure in 1926-27 was Rs. 38,94,104 against Rs. 36,11,840 in 1921-22. Of this, less than one-third, Rs. 10,63,381 came from Provincial revenues, Rs. 32,443 from Municipal grants, Rs. 15,96,792 from fees and Rs. 12,01,488 from endowments.

In 1924 the Legislative Council rejected the sum of Rs. 99,000 provided in the budget for direct grants to non-Government primary schools for Europeans, but the money was eventually found by re-appropriation.

9. **Backward Classes.**—Considerable progress occurred in the education of backward classes. The number attending schools and colleges in 1926-27 was 344,179 against 96,552 in 1921-22. Much of the credit of the progress is due to missionaries and to the Society for the Improvement of Backward Classes. The progress among the Namasudras continued unabated; in the Chittagong Division the Namasudra pupils

increased by 110 per cent., while in Dacca Division the increase was 68·1 per cent. The Sonthals in the Burdwan and Rajshahi Divisions received due attention at the instance of the local Christian Missionaries. The Pods have started schools in Khulna and Jessore.

10. **Professional and Technical Education.**—In the two teachers' training colleges for men—the David Hare Training College and the Dacca Training College—there were 136 students in 1926-27 against 118 in 1921-22. They turn out about 100 trained teachers every year. But as the number of teachers in Secondary schools is about 22,000, it is obvious that at this rate it will take more than a century to have half the number trained. Obviously there is need for more training centres. The David Hare Training College was removed to its new habitation at Ballyganj and is now a well-equipped training college with hostels and play ground attached. The Dacca Training College continued to be a centre of research in educational subjects and did excellent work.

During each of the years 1925, 1926 and 1927 two State Scholarships were awarded to one Moslem and one non-Moslem teacher to enable them to take a course of training in Great Britain for two years.

There is little progress to record in the Normal and the Guru- and Muallim-training schools. In 1926 a committee of educational officers was appointed to report on the whole question of training schools, but no decision was arrived at during the quinquennium on their report, owing to lack of funds.

The Diocesan College and the Loreto House continued to do useful work for the training of women B.T. and L.T. teachers respectively.

The number of Law Colleges remains the same, *viz.*, 3, but the number of students has risen from 2,439 to 3,638, *i.e.*, by about 50 per cent.

The school of Tropical Medicine entered the field of Medical Education during the quinquennium. The Calcutta Medical College had 939 students, the Carmichael Medical College 598 and the School of Tropical Medicine 79. The Medical School at Mymensingh was provincialised during this period.

The Bengal Engineering College, Sibpur, continued to impart higher training in Engineering. Twenty-one students passed the B. E. Examination in 1927 and 22 the I.E. The First Diploma Examination at the end of the third year of the course in Mechanical and Electrical Engineering was held in 1923 and the First Associateship Examination after an additional year in Mechanical Engineering in 1924. The Mining class was abolished in 1927, on account of the opening of the Indian School of Mines at Dhanbad. The total number of students was 291 as against 356 in 1921-22; of these, 245 were Hindus, 15 Europeans and Anglo-Indians, 2 Indian Christians and 29 Muhammadans. The rate of fees was increased in 1926. The total expenditure during 1926-27 was Rs. 3,38,692, of which Rs. 33,257 came from fees, Rs. 3,01,825 from Provincial revenues and the rest from other sources.

The number in the Ahsanullah School of Engineering at Dacca has increased from 375 in 1921-22 to 440 in 1926-27, the increase being mainly due to the closing of the subordinate classes at the B. E. College at Sibpur. The classes had to be duplicated and the staff strengthened in consequence. Fresh hostel accommodation became necessary and the construction of a new hostel for 200 students was sanctioned in 1926 at an estimated cost of Rs. 3,60,000. The cost to Government in 1926-27 on account of the school was Rs. 91,821.

The demand for the introduction of Agriculture into the curricula of secondary schools led Government to send to the Punjab a small committee of educationalists and agricultural experts to study the scheme followed in that province. The report submitted by them recommending the introduction of a four years' course in Agriculture in secondary schools, displacing Science, Drawing and Drill, and covering classes V and VI of the Middle English schools with a two years' extension course, or classes V to VIII of a High school, was accepted by Government.

The Government School of Art, Calcutta, was re-transferred to the Education Department in 1923. A commercial section has been started as an experimental measure to train students in subjects like Designing, Poster-drawing, Advertising and Illumination. Fees were raised in 1924, but the number of pupils increased during the period from 268 to 335. Obviously there is an increased public demand for Art education on more practical lines.

Commercial education has grown considerably during the period. The two Universities have started departments of Commerce, and the Dacca Secondary and Intermediate Board has a Commerce group in its course. Several colleges have secured affiliation in Commerce subjects and a number of commercial schools have been opened.

The Government Commercial Institute, Calcutta, was retransferred to the Education Department in 1923 and an expert committee was appointed to report on its future. Their recommendation was against the deprovincialisation suggested by the Bengal Retrenchment Committee. The Institute prefers not to be affiliated to the University, since it believes that "commercial education would have nothing to gain by such affiliation unless this department of the University was reconstructed as a Faculty of Commerce controlled by commercial men as suggested by the Sadler Commission." Classes have been opened to train candidates for the examination of the London Institute of Bankers and for the Bombay Government Diploma in Accountancy. The number on the rolls has fallen from 254 and 545 in the day and evening classes, respectively, in 1922 to 117 and 353 in 1927, while the expenditure has increased from Rs. 37,556 to Rs. 61,523.

11. **Pay and prospects of Teachers.**—On the recommendation of the Lee Commission, recruitment to the Indian Educational Service has ceased and it has been decided that the posts now included in the All-India services in the Transferred departments should be provincialised. Of the 67 posts in the Indian Educational Service (Men's branch) 43 are now held by members of the service, 3 have been held in abeyance, 8 are vacant, 11 have been filled up on the Bengal Educational Service basis and 2 on special rates of pay. Seven European members retired on proportionate pension. In the Women's branch all the 4 posts are occupied. In 1926-27 there were 24 Europeans and 23 Indians as against 33 Europeans and 27 Indians in 1921-22. There has been little change in the Bengal Educational Service. The teaching and the inspecting branches of the Subordinate Educational Service were reorganised during the quinquennium. The clerical and miscellaneous branches were also reorganized, with effect from 1st September 1921, in terms of Government resolutions Nos. 119 Edn. and 122 Edn., dated the 13th January 1923.

The percentage of Muhammadans holding appointments in Government schools and as inspecting officers is 31·8 in the teaching line and 47·3 in the Inspectorate. The proportion of Muhammadan inspecting officers is not unsatisfactory, but the proportion of teachers needs to be raised.

The staff in non-Government Arts colleges has increased in number from 739 in 1922 to 955 in 1927. The staff is more permanent, better paid, and the creation of provident funds has made the profession more attractive.

The number of teachers in Secondary schools was 21,873 in 1927, which gave an average of 1 teacher to 17 pupils compared to 1 to 16 in 1922. The great majority of the secondary school teachers are not graduates, and trained men are too few. Teaching is still regarded as an unskilled profession and many take it up only to fill up time till more remunerative work is available. Few regard teaching as a satisfactory vocation. The reason is not far to seek. "The salary of the school teachers in Bengal is a miserable pittance, often lower than that of a menial servant or even a casual labourer." Money coming from Government grants has, however, to a certain extent raised the scale of salary in the aided schools, grants being given in many cases when there is an agreement to raise fees and salaries.

The number of primary school teachers has increased during the quinquennium from 44,446 to 52,822, *i.e.*, by 18·8 per cent. The number of trained teachers increased from 10,685 to 14,261, *i.e.*, by 33·4 per cent. In 1922 the trained teachers formed 24 per cent. of the whole body; in 1927 the number has risen to 26·9. The increase is encouraging, but the pay usually given still remains below a living wage.

12. **Physical and Moral Training.**—The report of the Students' Welfare Committee of Calcutta University is extremely discouraging. Roughly 25 per cent. of the students in colleges are physically ill-developed; 45 per cent. stoop; about one-third have defective eye-sight; one in three again have bad teeth and one in 20 suffer from some affection of the heart. Only about one in three are of really sound health. These figures make one extremely anxious for the future of Bengal. There is immediate need for both prevention and cure and it is at the school stage that the problem has to be tackled. The resolution passed by the Council on the motion of Mr. A. C. Banerjee to make physical education compulsory for all boys between 12 and 18

reading in schools, madrasahs and maktabs is the Council's pronouncement on the matter and Government are only awaiting the time when improved financial conditions enable funds to be provided to bring a scheme of compulsory physical education and health examination of school children into operation.

The Boy Scout movement has made fair progress during the quinquennium, thanks to the energy of the Provincial Organising Secretary, Mr. N. N. Bhose. There are 47 local Associations, with 3,384 Scouts, 281 Rovers and 961 Cubs. The Guide movement is also spreading among Indian girls, especially in the larger towns.

Active moral influences in schools and colleges in Bengal are few. The Scout movement as a moral and social instrument has not progressed enough to make an impression on the moral tone of the student population. Of religious instruction there is little except in Mission schools, madrasahs, maktabs and *tols*. Intercourse between the teacher and the boy is of a purely official kind—"the closing bell rings and each goes his own way."

13. **Conclusion.**—The thanks of Government are due to the various officers who have administered the Education Department during the quinquennium under review and to Mr. K. Zachariah, M.A., Professor, Presidency College, for a very able and illuminating report.

ORDER.—Ordered that copies of the resolution be forwarded to the Government of India, Department of Education, Health and Lands, to the Director of Public Instruction, Bengal, to all Commissioners of Divisions, and to the Local Self-Government Department of this Government for information.

Ordered, also, that the resolution, together with the Report, be published in the *Calcutta Gazette*.

By order of the Government of Bengal
(Ministry of Education),

J. H. LINDSAY,
Secretary to the Government of Bengal.

Seventh Quinquennial Review on the Progress of Education in Bengal, 1922-23—1926-27.

CHAPTER I.

Introductory.

1. **General statistics.**—The Presidency of Bengal, excluding the Native States, has an area of 76,843 square miles and a population, according to the census of 1921, of 46,695,536. The area is smaller and the population larger than that of most other Indian provinces.

The Muhammadans form the majority of the population, especially in East Bengal—25,210,802; the Hindus come next with 20,203,527; Christians number 147,081 and other communities 1,134,126.

The population is mainly rural. There are 116 municipalities, 130 towns with a population of 3,186,300 and 84,981 villages. There are 5 administrative divisions and 25 district boards.

2. **Educational statistics: pupils—**

(i) Percentages of pupils to total population.

	Men and boys to total male population.	Women and girls to total female population.	Both sexes under instruction to total population.
1921-22 ..	6·38	1·54	4·05
1926-27 ..	7·94	1·88	5·02

It should be noted that, for the total population, the census figures of 1921 are taken throughout; so the increase is, to some extent, fictitious.

(ii) Institutions and pupils.

	Institutions.			Pupils.		
	1922.	1927.	Increase or decrease	1922.	1927.	Increase or decrease.
Universities	2	2	..	1,687	1,714	+27
Arts colleges	36	45	+9	16,942	22,420	+5,478
Professional colleges ..	10	17	+7	4,653	6,322	+1,669
Secondary schools ..	2,678	2,805	+127	328,166	403,440	+75,274
Primary schools ..	47,783	52,809	+5,026	1,435,906	1,741,504	+305,598
Special schools ..	1,420	3,155	+1,735	49,350	114,476	+65,126
Unrecognised schools ..	1,840	1,610	−230	55,437	53,504	−1,933
Total ..	53,769	60,443	+6,674	1,892,141	2,343,380	+451,239

(iii) Stages of instruction.

	1922.	1927.	Increase or decrease.
College stage ..	23,282	30,456	+7,174
High school stage ..	92,811	104,633	+11,822
Middle stage ..	78,477	97,569	+19,092
Primary stage ..	1,592,784	1,942,742	+349,958
Special schools ..	49,350	114,476	+65,126
Unrecognised institutions	55,437	53,504	−1,933

(iv) Pupils according to race or creed.

	1921-22.	1926-27.
Europeans	9,443	9,610
Indian Christians	13,517	13,588
Hindus—		
Educationally advanced ..	882,425	823,323
Educationally backward ..	82,852	344,179
Muhammadans	880,675	1,140,140
Buddhists	9,565	10,005
Others	13,664	2,535
Total ..	1,892,141	2,343,380

3. **Expenditure.**—The sanctioned estimate of receipts in the Government Education budget for 1921-22 was Rs. 11,00,000 and of expenditure Rs. 1,26,05,000. For 1926-27, the estimated receipts were Rs. 11,81,000 and expenditure Rs. 1,36,95,000.

(v) Total Expenditure by sources.

	Government funds.	Board funds.	Fees.	Other sources	Total expenditure.
	Rs.	Rs.	Rs.	Rs.	Rs.
1921-22	1,35,45,045	16,53,897	1,28,33,684	53,54,480	3,33,87,106
1926-27	1,47,94,686	22,75,653	1,62,19,593	64,86,136	3,97,76,068
Increase ..	+12,49,641	+6,21,756	+33,85,909	+11,31,656	+63,88,962

(vi) Expenditure according to objects.

	1921-22.			1926-27.		
	For males.	For females	Total.	For males.	For females.	Total.

	2,24,26,789			2,86,06,595		

4. **General forces affecting education.**—At the beginning of the period, the non-co-operation movement had already begun to ebb; and very soon it became clear that, as an active schismatic force in the sphere of education, it had lost its power. But its effects were not so rapidly effaced. A vague unrest, a slackening of discipline, are still evident; and it is perhaps not a bad thing that the old complacency and satisfaction with things as they are have gone for ever. Numerically, too, it took years to repair the losses of 1921; but they have at last been made good and, generally speaking, the figures for 1926-27 surpass all previous records.

But the non-co-operation movement had no sooner passed than another great cloud darkened the horizon. Under the Meston Award, the financial condition of the province was such as rightly alarmed those in charge of its government. Retrenchment was an inevitable necessity; and the Bengal Retrenchment Committee urged educational economies in no sparing measure. Fortunately, however, the cloud lifted in some degree and the financial burdens of the province were eased. It was not necessary to adopt the drastic regimen proposed. But, meanwhile, all schemes of advance had to be suspended and valuable time was lost.

5. **Progress of the quinquennium.**—It was partly owing to these reasons that no large scheme of reorganisation was undertaken. The report of the Calcutta University Commission urged far-reaching reforms affecting the whole system of secondary and University education. One change was immediately carried into effect—the institution of Dacca University; and, as a corollary to it, the creation of a Board of Intermediate and Secondary Education for the Dacca University area. But Calcutta University continued unchanged. Many difficult questions were raised by the proposals of the report, on which opinions differed; vested interests were conservative and strongly entrenched; the money, necessary for radical changes, was not forthcoming; and perhaps there was an unfortunate idea that any reform would weaken the independence of the University or be a confession of failure. Nor could any general reorganisation of secondary education be attempted. The political conditions were unfavourable and ministries were short-lived; and Government could come to no agreement with the University on the principles involved. Primary education has witnessed no striking developments. The scheme outlined in Mr. Biss's report was put into operation, only to fall rather flat; and no great progress could

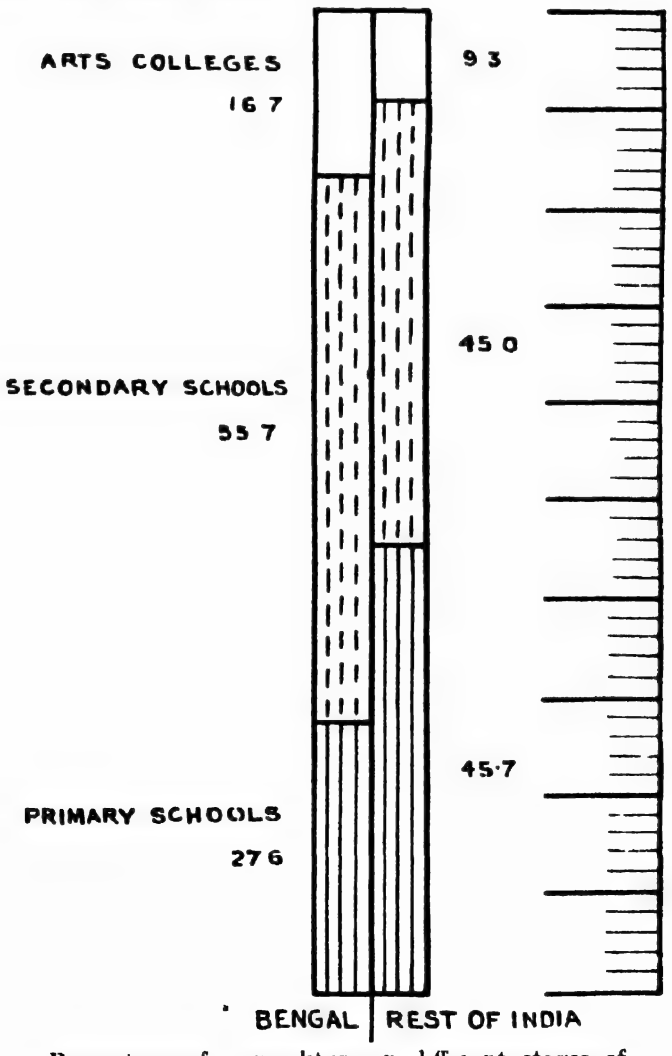
be made towards the ideal of a free and compulsory system of elementary education for all the children of Bengal.

The period, therefore, was one of quiet recuperation and slow development and not one of revolutionary changes or extraordinary progress. But in nearly every department of education, there is something to record, a few yards painfully won and consolidated.

6. (*i*) **Primary Education.**—Table (*i*) shows that the number of primary schools increased by over 5,000 and the number of pupils in the primary stage by about 3 lakhs or more than a fifth. This is no inconsiderable achievement. Two schemes for the expansion of primary education have been steadily followed, so that the growth has been systematic and according to plan.

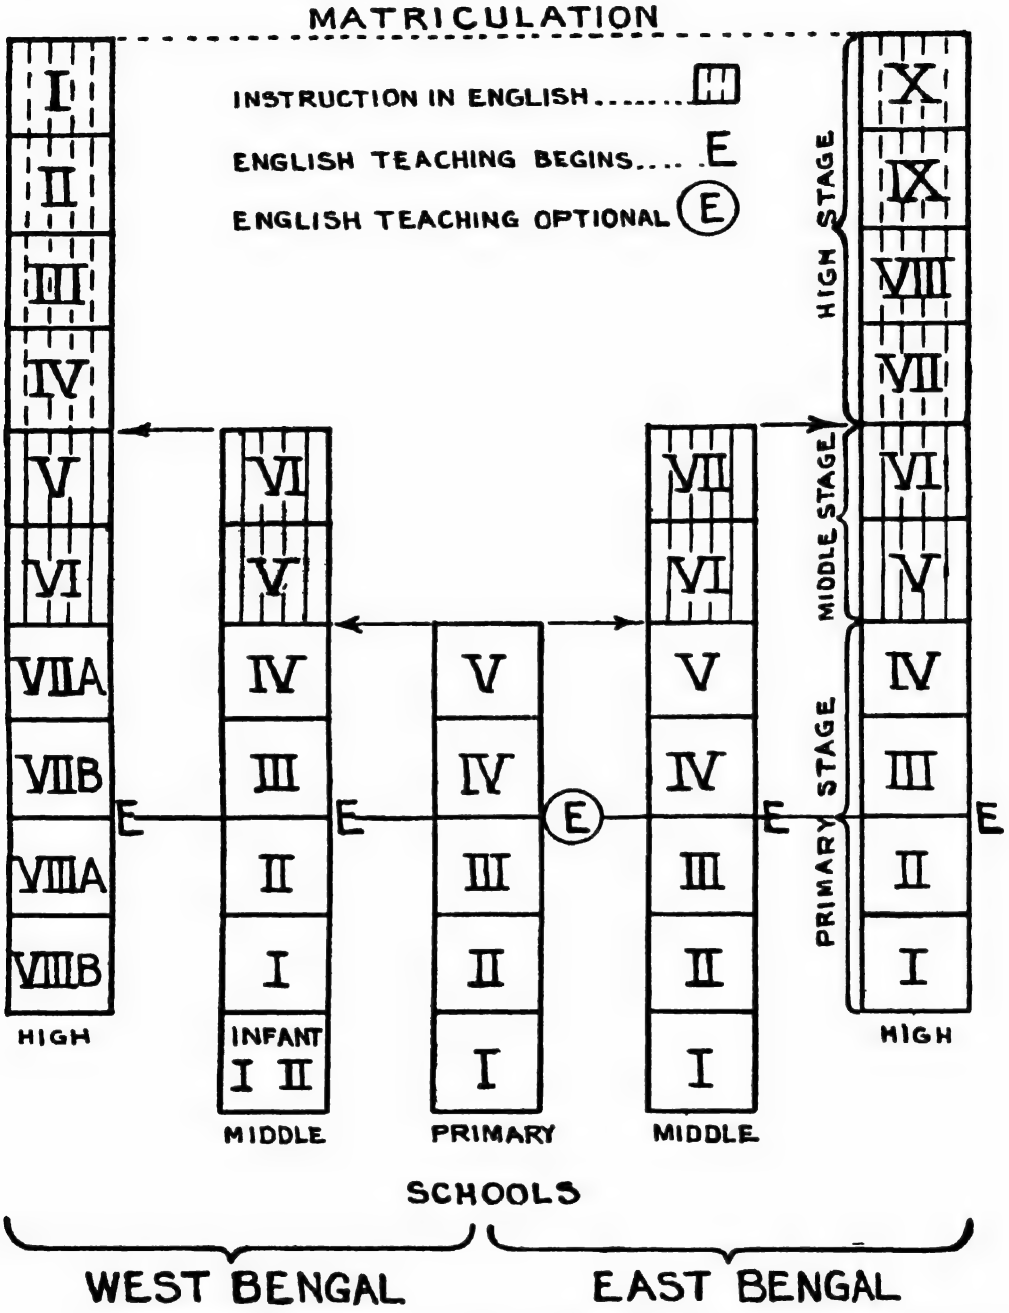
But, on a closer view, it is evident that there is much to be done. There is the problem of the relapse into illiteracy, to which perhaps sufficient attention has not yet been given. Out of 10 boys who join a primary school, 7 get only a year's schooling or less and, for all practical purposes, are illiterate; out of 20 girls, 17 stop with class I. This is a serious defect in the system, but its causes are many—economic and social, as well as educational. To some extent the remedy depends on a change of feeling and of social custom in the country at large.

In Bengal, again, a large proportion of the funds available for education have been appropriated by secondary and University education. In 1926-27, the expenditure on University and intermediate education was, in round numbers, Rs. 66 lakhs, secondary schools absorbed Rs. 1,28 lakhs and primary schools only Rs. 68 lakhs. The proportion is as 1:2:1. From this it is clear that the educational system in Bengal is top-heavy; about twice as much is spent on secondary education as on primary. The diagram shown below compares the proportion spent on different stages of education in Bengal and in the rest of British India generally. As the figures for 1926-27 for India are not available, the figures for 1924-25, the latest available, are taken for both province and country.



Proportion of expenditure on different stages of education, 1924-25.

Among improvements should be mentioned the new syllabus for primary schools, which unified the primary course in East and West Bengal. The diagram shown below shows the educational ladder in the province up to the Matriculation stage.

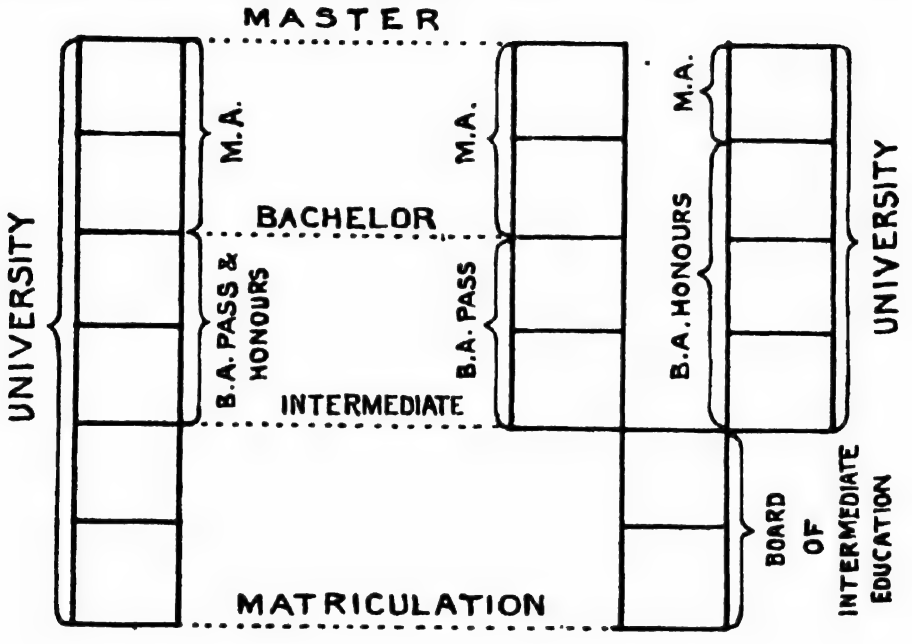


(*ii*) **Secondary education.**—The decline of middle vernacular schools continues; but English secondary schools increased in number and, to some extent, in quality—partly as a result of the more stringent conditions imposed for the grant of aid, which many more schools are now anxious to obtain. But perhaps the most noteworthy event is the proposal to substitute the vernacular for English as the medium of instruction and examination in schools, which should come into force in 1930. This is a change of far-reaching importance and, in a province with practically a single vernacular (leaving apart the comparatively small Urdu-speaking population and the minor languages) and that a developed vernacular like Bengali, the experiment starts under the fairest auspices. The period of transition will, no doubt, produce difficulties, but probably none that may not be solved with time, energy and faith. Meanwhile, the problem of the control of secondary education remains in an unsatisfactory state, which the existence of the Dacca Board of Intermediate and Secondary Education has only made more acute.

(*iii*) **University education.**—In the sphere of higher education, there is nothing remarkable to record. Dacca University has found itself, and sketched out its own lines of development. In several directions, Calcutta University and its colleges have made advances,

in more general provision for science and honours work, in greater attention to health and physical exercise, in the institution of tutorial instruction. The standard of examinations has also, in recent years, been appreciably raised. But, on the other hand, the recommendations of the Calcutta University Commission seem further from realisation than ever; and the multiplication of mufassal colleges, while bringing education nearer to the homes of the scholars, will make it more difficult in future to initiate any scheme for the concentration of higher studies in a few chosen centres.

The diagram below shows the educational sequence and the agencies of control above the Matriculation stage:—



(*iv*) **Professional education.**—It is interesting to estimate the volume of the currents that flow from the universities to the higher professional institutions. Exact calculations are difficult, as admission to some professional colleges is after graduation and to others after the Intermediate Examination. But a rough idea is possible. In 1926-27, the number of graduates from the universities was 3,451; in the same year, 786 passed the B.L., 216 obtained the M.B. degree, 109 qualified for the B.T. and 21 for an Engineering degree. The total of professional graduates was thus 1,132. It appears that about one graduate in three qualifies for a professional degree. The proportion between the professions was as follows:—

Engineering, 1; Teaching, 5; Medicine, 10; Law, 37.

No radical change has taken place in the system of professional education.

(*v*) **Industrial and secondary professional education.**—Nor has any comprehensive scheme yet been evolved for linking up ordinary primary or secondary education with vocational or professional studies. There has been a considerable development of technical education, but in other respects one can trace no progress. The problem, however, is one of the most difficult that faces the educational statesman and it may be confidently said that no simple solution exists. Only by experiment, by study of the schemes and experiences of other provinces and countries, by the pressure of necessity, by a fresh orientation of primary and secondary education, can any satisfactory solution be discovered.

Pupils in professional and industrial schools:—

	1921-22.	1926-27.
Normal and training schools ..	2,733	2,391
Schools of Art	424	567
Medical schools	1,415	2,282
Engineering schools	428	518
Technical and industrial schools ..	3,631	6,234
Commercial schools	1,774	1,705
Agricultural schools	56	117
Total ..	10,461	13,814

7. **Education of special classes.**—In the education of women, progress was chiefly noticeable in the university and high school stages :—

	1921-22.	1926 27.
Collegiate stage	228	384
High stage	1,044	1,484
Middle stage	1,716	2,243
Primary stage	333,704	409,521

In the high stage, there was an increase of nearly 50 per cent. In the primary stage, the increase is slight and unreal. Roughly, out of 7 girls in class I only 1 passes on to class II. But the new interest shown by cultured women in the education of their sex is full of significance.

In Muhammadan education, what advance there is is at the top, in collegiate education, at the bottom, at the primary stage, and in the Madrasahs :—

Males.	1921-22.	1926-27.
Collegiate stage	2,613	4,298
High stage	15,691	16,015
Middle stage .. .	15,994	18,468
Primary stage	611,747	774,123
In special institutions (including Madrasahs) .. .	29,047	75,074

The new Islamia College has been established for the education of Muhammadans.

The whole system of European education is undergoing revision and reorganisation. A new type of pre-vocational school has been created and a closer connection with the Indian universities is being established.

The backward classes are taking more and more advantage of the educational facilities offered to them and some of them are fast reaching a stage of literacy which will justify their removal from this category.

The following chapters will survey in more detail the different aspects of the educational system of the province, the general features of which have here been sketched.

CHAPTER II.

Administration and Control.

1. **Members and Ministers.**—The different aspects of education which come within the purview of this report are not all under the same control or entrusted to the same authority. Thus, the Weaving Institute at Serampore is in the charge of the Director of Industries and ultimately of the Minister in charge of Industries. Over Reformatory Schools and Borstal Institutions the Political Department exercises control. European education, as a "Reserved" subject, is left in the charge of a "Member of Council." But education generally is a "Transferred" subject; and the intention of the Government of India Act was that it should be controlled by a Minister, dependent on the Legislature.

But, during about half the period under review, there were no Ministers in Bengal. In August 1924, the Council refused, for the second time, to vote the salaries of Ministers, who thereupon resigned; and, till the appointment of new Ministers in January 1927, education was, except for a brief interlude in March 1925, placed in the charge of His Excellency the Governor or of a Member of Council and became for a considerable time a "Reserved" subject.

2. **Legislative Council.**—The Minister in charge has, naturally, to explain and defend his educational policy in the Legislative Council, which, as long as Ministers exist, becomes thus the final controlling authority. By virtue of its power to pass, amend or reject the budget, to criticise all parts of educational policy and administration, to move resolutions and to ask questions, the Council may, if it wishes, exercise a supreme direction and influence on the education of the province.

3. **Budget debates.**—The annual budget debate provides the best opportunity for a discussion of the educational system; and it was usually taken advantage of, except when political tactics stood in the way. Thus the untimely end of the Budget Session of 1925 prevented any of the numerous motions for refusal or reduction of the items of the Education budget from being actually moved. Much the same thing happened in the Budget Session of the next year, as the opposition withdrew from the Council during the course of the debate.

A very serious situation was created in 1924, when the Council reduced the amount provided in the budget for 1924-25 under the head, "Salaries of Inspecting Officers" (Transferred) by Rs. 6,35,400. The Bengal Retrenchment Committee had recommended practically the same reduction and Government felt it should be accepted, if the Council persisted; notices of discharge were accordingly issued on all inspecting officers whose pay was voted.

This action naturally created a sense of insecurity in all Transferred Departments. In August 1924, however, since the staff affected were essential to the working of the Department, a supplementary demand was put forward and the amount was then voted. The action of the Council led, however, to a careful consideration of the possibility of economy in the Inspecting department. The same year, the sum of Rs. 99,000, provided for grants to non-Government European primary schools was refused—but European education is a "Reserved" subject and Government announced that the money necessary would be found by reappropriation and a supplementary grant submitted for any balance not so made available.

4. **Dacca University (Amendment) Act.**—The one important Act of the period was the Dacca University (Amendment) Act, 1925, which provided for a statutory recurring grant of Rs. 5½ lakhs annually for Dacca University. There was considerable criticism, which was perhaps due to the feeling that the University would thus be rendered unamenable to public opinion and exempt from the ultimate financial control of the Legislature. But the Bill passed when it was made clear that these results would not ensue and that the object was to stabilise the finances of the University and enable it to make contracts ahead with safety.

5. **Interest in Calcutta University.**—The affairs of the University of Calcutta also came up for discussion. There was perhaps a fear that Dacca was being treated with partiality; and the finances of Calcutta University were in fact in a state which required aid from Government.

A motion for an additional capital grant of Rs. 2½ lakhs to Calcutta University in 1923 provoked a lively discussion. The conditions attached were criticised, on the one hand, as ungenerous; and, on the other hand, the University was accused of reckless expenditure. A settlement was eventually reached and the grant was paid. In 1925 a resolution was carried for an annual recurring grant of Rs. 3 lakhs to Calcutta University in aid of postgraduate studies and research.

In 1923, two private Bills were introduced to reconstitute Calcutta University on a popular basis and to improve its financial administration; but both were withdrawn. There was considerable criticism of the strength of the nominated element in the Senate and a demand for a Bill on the lines of the recommendations in the Sadler Report.

6. **Other motions.**—A motion of Dr. Hari Dhan Dutt, July 1923, to abolish the Dacca Training College and to transfer the duties of the Dacca Board of Secondary Education to the Vice-Chancellor, Dacca University, was withdrawn. In February 1926, a motion of Mr. A. C. Banerjee was passed, that steps be taken to introduce compulsory physical exercise for boys between 12 and 18 in all schools affiliated to the University and in all maktabs and madrasahs. In August 1926, a motion of Maulvi Rajibuddin Tarafdar for free and compulsory primary education was accepted by Government and passed in the form: "This Council recommends to the Government that steps be taken with as little delay as possible for the inauguration of a system of free and compulsory primary education in Bengal." A motion of Shah Syed Imdadul Haq for the annual provision of Rs. 3 lakhs for madrasahs of the old type was lost.

7. **Questions.**—Every year, numerous questions on educational topics were asked, covering a wide range of ground, but often betraying a local or communal bias. Members wished for information on the proportion of educational posts reserved for Muhammadans, the respective number of tols and maktabs and the expenditure on them,

the provision of educational facilities for the backward classes, compulsory physical training, text-book committees, Government contributions to teachers' provident fund and so forth.

8. **Director or Secretary.**—There remains to be mentioned an important motion, brought forward by Babu Jatindra Nath Bose and passed by the Council in 1923. It ran thus: "This Council recommends to the Government that the post of the Director of Public Instruction, Bengal, be not filled, on the post becoming vacant by reason of Mr. Hornell's retirement or departure on leave." This resolution raised the large and important problem—who was to be the administrative head of the Education Department? The Reforms had transferred the duty of defending the educational policy of the Government in the Council from the Director to the Minister. Now the question was, whether the Director was to remain "the administrative head of the department and technical adviser to the Minister" or whether these functions were to devolve on the Secretary. Some experiments had been tried, in Bengal or elsewhere. In the Punjab, the Director is also the Secretary to Government in the Education Department. In Bengal, on the introduction of the Reforms in 1921, the Director was made an *ex-officio* Deputy Secretary to Government and submitted his cases directly to the Minister; but, after a year, the combination of the two offices was found unworkable in the condition of Bengal, the work being too heavy for one man to carry out. The effect of the resolution would have been not to revive the experiment and make the Director the Secretary as well, but to make the Secretary also the Director. Apart from the tremendous amount of work this would have concentrated on the same shoulders, the influence of educationists on educational policy would have been much diminished—for, in Bengal, the Secretary must, by statute, be a member of the Indian Civil Service. After careful consideration, therefore, the Government found itself unable to accept the resolution.

9. **The Retrenchment Committee.**—The proposal to dispense with the post of Director may have been actuated in part by reasons of economy. It arose to some extent out of one of the recommendations of the Bengal Retrenchment Committee, as well as from the fact that Mr. Hornell, the Director, was retiring. When the quinquennium opened, the financial sky was dark; there was no prospect of a balanced budget; and retrenchment was felt to be imperative. The Bengal Retrenchment Committee, constituted to advise Government, did not spare the axe; and their recommendations regarding the possibilities of economy in educational expenditure were drastic to a degree. After a thorough inquiry, many of them were rejected; but certain measures were decided upon, the chief of which were these:—

(1) The abolition of a few teaching posts in Government colleges.

(2) The gradual reduction of some college posts from the Bengal to the Subordinate Educational Service.

(3) The abolition of certain teaching posts in secondary and training schools.

(4) The abolition of two Government middle English schools.

(5) The abolition of circle schools, model maktabs and girls' model primary schools.

(6) The abolition of certain posts of Sub-Inspectors of Schools.

(7) The gradual abolition of posts of Assistant Sub-Inspectors of Schools and Inspecting Maulvis.

10. **The Educational Services.**—The future of the services will be profoundly affected by the decisions reached as a result of the work of the Lee Commission. On their recommendation, the Secretary of State has decided that posts now included in all-India services operating in the transferred departments should be provincialised. Recruitment to the Indian Educational Service has therefore ceased and local Governments are empowered to constitute new educational services on a provincial basis. At present, when no member of the Indian service is available, an appointment is made either on a special rate of pay or in the Bengal Educational Service. Government is considering the question of the establishment of a new provincial educational service in Bengal.

11. **Indian Educational Service.**—The end of the Indian Educational Service is thus in sight. But the interests and prospects of existing permanent members have been safeguarded by statutory rules framed by the Secretary of State under the Government of India Act. But the

numbers are steadily dropping. The number of posts in the men's branch remains the same on paper, 67. The post of Head Master of the Victoria School at Kurseong was included in the ordinary cadre as from 29th January 1923, but the post of Professor of Physiology, Presidency College, was abolished with effect from 4th March 1927. But, of the 67, only 43 are now held by members of the Service. Three posts are held in abeyance, 8 are vacant, 11 have been filled on the Bengal Educational Service basis and 2 on special rates of pay. Seven European members retired on proportional pension during the period.

No change has been made in the pay of the service and the number of posts in the selection grade remains the same.

In the women's branch, the cadre consists of 4 appointments, which are all occupied.

Year.	Europeans.		Indians.		Vacant.		Total.	
	Men.	Women.	Men.	Women.	Men.	Women.	Men.	Women.
1921-22 ..	30	3	27	..	10	1	67	4
1926-27 ..	21	3	22	1	24	..	67	4

12. **Bengal Educational Service.**—In the men's branch of the Bengal Educational Service, there were in 1922, 211 posts, of which 5 were temporary. During the period 11 posts were added to the cadre and 5 abolished. The strength on March 31, 1927, was thus 217, including one temporary post.

The cadre of the women's branch continued the same, 20 posts.

No change has been made in the scale of salaries.

13. **Subordinate Educational Service.**—The last review recorded the details of the reorganisation of the teaching and inspecting branches of the Subordinate Education Services. The clerical and miscellaneous branches were reorganised, with effect from 1st September 1921, in terms of Government resolutions dated 13th January 1923. The establishments of the Government Commercial Institute and the Government School of Art, Calcutta, which were re-transferred to the Education Department from the Department of Industries, were also reorganised, with effect from 1st September 1921, in terms of a Government order dated 19th March 1926.

At the beginning of the period, the appointments in the Subordinate Service numbered 2,345. But, as a result of the retrenchments already mentioned, the number was reduced to 2,169 on 31st March 1927—1,359 teaching posts, 327 inspecting, 403 ministerial and 80 miscellaneous.

At the end of the quinquennium, there were 53 appointments on special rates of pay, of which 41 have been declared *special posts*.

14. **Direction.**—The new administrative and political conditions have thrown much additional burden on the headquarters staff and the capacity of the office and officers was strained almost to breaking point. Time could not be found for touring and touch with the local institutions was interrupted.

The staff was therefore strengthened in 1926 by the appointment of an additional Assistant Director of Public Instruction on a temporary basis on the special rate of pay of Rs. 800 per month.

The pay of the headquarters office establishment was revised, with effect from 1st January 1922, on the lines of the recommendations of the McAlpin Committee.

15. **Control of Schools.**—(1) **Board of Intermediate and Secondary Education, Dacca.**—Three bodies exercise some kind of control over schools generally or over certain types of schools. The Board of Intermediate and Secondary Education, Dacca, controls the intermediate colleges and high schools in the Dacca University area as well as the High Madrasahs throughout the province. It prescribes the curriculum, conducts examinations, makes rules for the admission and transfer of pupils. But its area—apart from the madrasahs—is limited and, for inspection, it is obliged to rely on the departmental staff. The Board was created in the first instance as a temporary expedient, but, owing to the failure of attempts to establish a provincial board for secondary education, its existence has been prolonged from year to year.

(2) **Calcutta University.**—Over all other high schools, Calcutta University exercises some supervision by virtue of its right to grant or refuse "recognition" of schools for the purpose of the Matriculation Examination. In the past, the University has often been criticised for granting recognition too easily to schools which, judged by any test, fell below the reasonable minimum of efficiency. Having no inspecting staff of its own, the University utilised the services of the departmental inspectors, but often acted against their advice. It appeared to aim rather at an increase in the number of high schools than at any improvement of their quality. During the last five years, however, a marked change has taken place; and later chapters will relate the efforts of the University to ameliorate the position of the teachers and improve the management of schools.

(3) **Government.**—Thirdly, Government have wide powers of supervision over schools and colleges. A small number of institutions are under its direct management; a far larger number are aided by Government. Certain conditions, express or implied, are always attached to the grant-of-aid, conditions which enable the Government to influence the constitution of schools, to prescribe curricula, to insist on the adequate remuneration of teachers, and so forth. One of the most notable features of the quinquennium was the increase in the number and proportion of aided institutions.

(*a*) *The District Magistrate.*—The control of Government is exercised partly through the District Magistrate, who, as the chief executive officer in the district, has a large voice in the grant of aid and in the constitution of the managing committees of schools. To some extent under him are also the khasmahal schools and municipal schools. But the chief agency in the exercise of Government control over education is the inspectorate of the Education Department.

(*b*) *The inspecting agency.*—We have referred to the reduction of the inspecting staff as a measure of retrenchment. Reference to the table below will show that the axe fell mainly on Sub-Inspectors and Assistant Sub-Inspectors, a class which the Retrenchment Committee proposed, in its zeal, to abolish altogether:—

Year.	Inspectors and second Inspectors.	Assistant Inspectors for Muhammadan Education.	District Inspectors.	Subdivisional Inspectors.	Sub-Inspectors.	Assistant Sub-Inspectors and Inspecting Maulvis.	Assistant Inspectresses.	Inspectresses.	Inspector for European Schools.
1921-22 ..	14	5	28	61	268	27	12	2	1
1926-27 ..	14	5	28	61	243	19	12	2	1

In each division, there are, besides the Divisional Inspector of Schools, one or more Second Inspectors and one Assistant Inspector of Schools for Muhammadan Education. Each of the two Inspectresses has six assistants under her.

16. **Duties of different classes of Inspectors.**—The Inspector is the chief controlling educational officer in the division and on him, assisted by the Second Inspector, falls the general burden of administration and the inspection of high schools in particular. The Assistant Inspector for Muhammadan Education inspects the special institutions for the community and is empowered also to visit all classes of schools to safeguard the interests of Muhammadans.

The District Inspector has general charge of the educational work in the district. He controls all institutions, save high schools and senior madrasahs; he supervises the work of the Subdivisional Inspectors and may even have direct charge of certain areas; he is also, theoretically, the educational adviser to the District Board. But, under the Amended Rules of the Local Government Act, he has ceased to be an *ex-officio* member of the District Board, although he still is a member of its Education Committee. His duties have of late become heavier; for instance, he has to visit a large number of high schools in connexion with the submission of reports to the University.

The Subdivisional Inspectors are in charge of middle English schools, junior madrasahs and guru-training schools. The schools immediately under them are few, but they supervise the work of the Sub-Inspectors and form a useful link between the District Inspector and the Sub-Inspectors.

The Sub-Inspectors are the lowest rank in this hierarchy and their chief business is to inspect primary schools and maktabs.

The reduction in their number and the increase of schools have added to their burdens considerably. The complaint is general that they have far too many schools to inspect and consequently their visits tend to be perfunctory. The Conference of Directors at Allahabad some years ago laid down 100 schools as a reasonable number for a Sub-Inspector; but in practice this is far exceeded, especially in East Bengal.

For instance, in Mymensingh, the average is 235 schools, in Faridpur 251, in Bakarganj 266 and in Chittagong as many as 340. But, in addition to the inspection of schools, the Sub-Inspector has other duties to perform. This is the summary of the Inspector for Rajshahi: "He has to supply the statistics and data for the statements called for from time to time, in addition to the figures for the annual return, and he has to prepare the proposition statement and the aid bills of primary schools and carry on correspondence with the District Inspector and the District Board." 200 days in the year the Sub-Inspector is required by the rules to be out on tour; but, partly owing to the inadequacy of the allotment for travelling allowances and partly owing to the increase of office work, very few Sub-Inspectors actually satisfy the Regulations; in Rajshahi Division, last year only 1 did so. The conditions for which the rules were framed have passed beyond recall. If the duties of the post remain undiminished, it is clear there must be more Sub-Inspectors. The complaint is sometimes made that "inspecting officers merely investigate statistics and do not criticise or help in the teaching work, which, after all, is the real part of a school." Insofar as this is true, it is partly to be explained by the pressure of duties—but partly also, no doubt, by the lack of proper training and qualification. It is by no means easy to get the right type of man for an inspecting appointment.

The total cost of inspection during 1926-27 was Rs. 10,65,785 against Rs. 12,48,195 in 1921-22.

17. **Management of institutions.**—Apart from general supervision and control, educational institutions are managed by different bodies. The following table supplies the figures:—

	Public management				Private management.				Total institutions.	
	Government		District Boards and Municipalities		Aided.		Unaided.			
	1921-22.	1926-27.	1921-22.	1926-27.	1921-22.	1926-27.	1921-22.	1926-27.	1921-22.	1926-27.
Universities ..	..	..	..	..	2	2	..	..	2	2
Arts colleges ..	8	11	1	..	13	21	14	13	36	45

Total ..	383	329	3,230	4,090	41,547	45,427	6,769	8,987	51,929	58,833
Unrecognised institutions	..	..	..	..	..	..	..	..	1,840	1,610
GRAND TOTAL ..	..	..	..	..	..	..	..	..	53,769	60,443

(1) **Government.**—It will be noticed that Government manage a high proportion of professional colleges and a few institutions of each of the other types, which are intended either as models or to serve localities or communities which would otherwise be left schoolless. There is no doubt that, in general efficiency, Government schools are usually superior and they certainly are considerably more expensive, the staff being much better paid and equipment being more generously provided.

(2) **District and Local Boards.**—The local bodies, District Boards, Local Boards, Union Boards and municipalities, have often their own schools and, in many cases, give aid to private schools. The great majority of the schools they manage or aid are primary schools; and over primary education in general large powers have been given to

them. This is as it should be, but the position of the District Inspector, where he is not a member of the District Board, is anomalous. Sub-Inspectors are often under a dual control, that of the Department and that of the Board. Nor has the District Board enough funds to aid all the schools adequately; the temptation to which they generally succumb is to give small and inadequate grants to a large number of schools, so that few of them are financially stable. Some of the powers of District Boards have been delegated to Local Boards, which now pay the stipends of primary school teachers; but the report comes in from several quarters that this has led to unnecessary delay in payment. The Union Boards, which are gradually coming into being, have similar duties. A few of them have started primary schools under the Biss scheme.

The total expenditure of District Boards on education was Rs. 16,41,190.

(3) **Municipalities.**—Municipalities have, in educational matters, the same powers and duties in urban areas as District Boards have in rural areas. Their educational budget is communicated to the District Inspector and his proposals are generally accepted; 3·2 per cent. of the ordinary income is a common proportion of municipal expenditure on education; some fall below even this very modest figure. Only a few, notably Calcutta in recent years, have given a proper place to education in their budgets. The total municipal expenditure on education was Rs. 6,34,463.

(4) **Private agencies.**—The part played by missionary agencies in education is still prominent, although relatively less important than 20 or even 10 years ago. In many parts of the country and in several distinct fields of education, Christian missions led the way; but the very success of their efforts has broken down the comparative monopoly they once enjoyed. In recent years also, the missionary societies have suffered financially from the post-war stringency at home and the vagaries of the exchange; and, in consequence, many of their lower grade schools have had to be abandoned. But missionary institutions are still doing valuable, indeed indispensable, work, as is shown by the appearance in the sphere of education of Hindu, Moslem and other missions, which is a marked feature of the quinquennium. They, and scarcely any other, provide that religious training, the absence of which from the general system all educationists deplore. Their schools and colleges keep up a high standard and command the services of devoted and self-sacrificing men. And it is largely the missions that still do pioneer work in educational experiments of different kinds, for example, in the Project method, which has spread far and wide from Moga. But their means are generally straitened; and it is with some difficulty that missionary institutions now pay their way.

The following table gives statistics of the educational activities of missions for the year 1926-27:—

	Colleges	High schools.	Middle schools.	Primary schools.	Training schools.	Other schools.	Total.
Christian.

CHAPTER III.

University and College Education.

1. **Calcutta University: Postgraduate work.**—In higher education, there was steady progress in many directions, but no memorable new developments.

This was not for want of desire or discussion. During the earlier years of the quinquennium, the Sadler Report was discussed by both University and Government and draft schemes proposed—but the schemes differed widely in character and no agreement could be reached. This led to an *impasse;* and, since then, in spite of occasional alarums, things have gone on quietly, along the accustomed way. The postgraduate departments have not been remodelled nor the University shorn of its control over secondary and intermediate education. The instability of ministries in Bengal has, perhaps, also contributed to this immobility.

A remarkable feature was the decline in the number of postgraduate students. In 1916-17, before the concentration of postgraduate teaching in the University, there were 1,258 students in the University classes, not counting 464 attached to colleges. In 1921-22, there were altogether 1,234 postgraduate students. The figures for the period are shown below:—

	M A. classes.	M. Sc. classes.	Total.
1922-23	881	170	1,051
1923-24	1,051	199	1,250
1924-25	994	205	1,199
1925-26	604	234	838
1926-27	696	293	989

Thus, there was a small, but steady, growth in the science classes and violent fluctuations, indicating in effect a considerable drop, in the arts classes. The increase in science is part of a wider movement sciencewards during the period. The general decrease cannot be explained merely or even mainly by the foundation of Dacca University; it is partly an indication of a growing disillusionment. The M.A. degree, once it becomes a common and not a rare possession, is not a great asset and brings one no nearer an appointment. In part, also, it is due to the smaller numbers who now pass the degree examinations.

Whatever the causes, the decrease in numbers caused a serious financial problem. A large number of postgraduate lecturers had been appointed, but when the number of students began to fall it became more and more difficult to balance income and expenditure. The staff had to be reduced; and equilibrium was finally achieved only by the sanction of a recurring grant of Rs. 3 lakhs in August 1925 by the Legislative Council. This placed the University, it is hoped, on a comparatively stable basis.

A proportion of the postgraduate students are still attached, for tutorial and residential purposes, to colleges. In 1926-27, Presidency College had 202 such students and the Scottish Churches College 112. The Muhammadan postgraduate students numbered 59. Women are proceeding to higher studies in steadily growing numbers and in 1926-27, there were 10 of them in the University classes. In addition to the postgraduate students, there were 209 undergraduate students in the Commerce classes of the University.

The results of the postgraduate examinations show a noticeable raising of the standard:—

	M. A.		M. Sc.	
	1921-22.	1926-27.	1921-22.	1926-27.
Candidates	548	424	89	151
Passes	426	265	56	72
Percentage of passes	77·7	62·5	62·9	47·6

Two heavy losses were sustained by the University by the death in 1924-25 of Sir Asutosh Mukherjee and of Mr. Bhupendra Nath Basu, both Vice-Chancellors, the former for many years. This is not the place to appraise the value of the work of Sir Asutosh; but his loss is irreparable; and no one else can take the place he filled in the counsels and in

the activities of Calcutta University. His name is commemorated in the new Asutosh Buildings of the University, where most of the post-graduate classes are now lodged and by the creation of two professorships by the Senate, an Asutosh Mukherjee chair of Sanskrit and an Asutosh Mukherjee chair of Islamic culture.

2. **Arts Colleges: Undergraduate Work**—(1) **Number.**—In 1921-22, there were 36 colleges, 33 for men and 3 for women; five years later, there were 4 women's colleges and 41 men's colleges. Of these, 13 were second grade or intermediate colleges. Seven new intermediate colleges were started during the period, the Nursing Dutt College, Howrah, Saadat College, Karatia, Probhat Kumar College, Contai, all affiliated to Calcutta University, and four others under the Dacca Intermediate Board. Four second grade colleges were raised to the first grade rank—Bagerhat College, Midnapore College, Edward College, Pabna and Krishna Chandra College, Hetampur. Two new degree colleges were established—the Islamia College, Calcutta, and Feni College.

Of the 45 colleges, 11 were under Government management, 21 aided and 13 unaided. The Midnapore College, which was managed by the municipality, was in 1923 placed under a separate Committee of Management with the District Magistrate as President.

The total number of pupils rose from 16,942 to 22,420 during the quinquennium. But the highest figure was for 1925-26—23,437. The Muhammadans numbered 3,131 and their proportion to the total rose from 12·8 to 13·9 per cent. The Government colleges had 3,636 students or 16 2 per cent. of the total.

(2) **General features.**—The history of the colleges in Bengal in recent years resembles that of the queen in the Arabian Nights who prolonged her life from day to day by promising a new story. The highest number of students reached in the previous quinquennium was 21,557 in 1920. Then came the non-co-operation movement, threatening many institutions which depended on fees with destruction. This danger had no sooner passed than another appeared in the shape of a demand for science. The arts classes were emptied and colleges, which wished to retain their students, found themselves obliged to open science sections, at any rate for the I.Sc. Between 1922 and 1925, about half the colleges in the mufassal obtained affiliation in I.Sc. or B.Sc., or both; and the number of candidates at the I.Sc. Examination jumped from 1,922 to 4,332 in five years. The consciousness of the depreciation of the B.A. degree as a marketable asset caused students to flock to a course which they vaguely hoped would have some "vocational" value. The same attraction had been exercised for similar reasons by the subject of Economics. The tendency was marked in the previous period, but it accelerated greatly after the non-co-operation movement, perhaps partly as a result of it. But the hopes built on science were doomed to, at least partial, disappointment. It was easier to start I.Sc. classes than B.Sc. and many who had passed the I.Sc. found it impossible to get admission to B.Sc. classes in the few colleges which possessed them. It became clear also that a science degree by itself, especially if it became common, had no more value than an arts degree. Only about one-fourth of those who appeared for the I.Sc. were able to proceed to the B.Sc. course:—

			I. Sc. candidates.	B. Sc. candidates.
1916 17	..	..	1,269	426
1921 22	..	..	1,922	527
1926 27	..	..	4,332	1,194

There came a reaction, which only began recently, but is already perceptible. The better students again showed a distinct preference for the arts course. As a result, colleges tried to increase their attractiveness by offering honours courses; and, during the last years of the quinquennium, many colleges obtained affiliation in honours subjects.

All this may be a blessing in disguise. That many more colleges have now a wider range of courses to offer is a good thing. But the full measure of the blessing will be realised only when colleges and the public generally become aware of the inner meaning of these movements. "There's something rotten in the state of Denmark;" and these fluctuations indicate a feeling, often unanalysed, that the present courses of higher education are of little practical value for many students.

(3) **Financial condition.**—Meanwhile, the colleges have in many cases found it difficult to make ends meet. The expenses of new science laboratories and equipment were partly borne by Government; but the recent drop in numbers, due to causes already mentioned and to the stricter standard of examinations and the increase in the number of colleges, have hit them hard. A few instances will make this clear. During the last two years, numbers fell in the City College from 2,007 to 1,731, in the Krishnath College, Berhampore, from 1,066 to 937, in the Edward College, Pabna, from 439 to 332. On the other hand, expenses have risen by rise in salaries at some colleges and by the institution of provident funds. There are still a few institutions which have no provision for such a fund and in some the contribution of the college is only half of that of the teachers but, as a rule, most colleges pay into the provident fund an anna in the rupee, while the teacher pays an equal amount. The financial position of many colleges is thus precarious few of them have any considerable endowments or reserve funds. Fees have, in general, been slightly raised; but, for any extraordinary expenditure, most colleges have to depend on Government grants. Local generosity may respond to the appeal to start a college, but is not equal to the creation of an endowment or to the continued drain of annual maintenance. In a few cases, to the Krishnath College, Berhampore, the Burdwan Raj College, the Comilla Victoria College, the local zamindars give substantial help. The new Saadat College, Karatia, is maintained by Maulvi Wajid Ali Khan Panee, whose deed of *waqf* made provision for the establishment and support of the institution. The Probhat Kumar College, Contai, is the child of the liberality of two local patrons. But the great majority of institutions depend on fees and Government grants. Government aid varies from Rs. 2,400 to Rs. 24,000 a year; and in 1926-27, the total recurring grant to aided arts colleges under Calcutta University amounted to Rs. 1,90,182.

The following tables show the expenditure according to sources and on different types of colleges:—

	Provincial revenues	Proportion to Total	Fees	Proportion to Total	Other sources	Proportion to Total	Total.
	Rs		Rs.		Rs.		Rs.
1921-22	10,41,711	39 3	12,71,953	48 0	3,87,771	12 7	26,51,435
1926-27 ..	12,52,277	35 6	19,64,228	55 8	3,00,339	8 5	35,16,844
Increase or decrease .	+ 2,10,566	..	+6,92,275	..	— 37,432	..	+8,65,409
Percentage of increase or decrease .	20 2	..	54 4	..	— 11·1	..	+32 6

The total expenditure on arts colleges has increased by a third. But the rise in the fee income is the most noteworthy feature, by more than half; four-fifths of the total increase is due to the increase from fees. The growth of the fee income is greatest, as the following tables prove, in aided colleges, least in unaided colleges. It is not due to the increase in the number of students alone. In 1921-22, the fees worked out at an average of Rs. 75 per head; in 1926-27, they rose to Rs. 87 per student. Ten years ago they were only Rs. 57:—

Government Colleges.

	Provincial revenues.	Fees.	Other sources.	Total.
	Rs.	Rs.	Rs.	Rs.
1921-22	8,56,673	2,80,223	18,685	11,55,581
1926-27	9,66,757	4,73,631	21,062	14,61,450
Increase	+1,10,084	+1,93,408	+2,377	+3,05,869
Percentage of increase	12·8	69·0	12·7	26·4

The total expenditure increased by little over a fourth, while the fee income increased by more than two-thirds. This is due partly to the increase in students and partly to higher rates of fees.

Aided Colleges.

	Provincial revenues.	Fees.	Other sources.	Total.
	Rs.	Rs.	Rs.	Rs.
1921-22	1,68,895	3,77,696	1,99,054	7,45,645
1926-27	2,62,373	7,86,334	1,68,596	12,17,303
Increase or decrease	+93,478	+4,08,638	−30,458	+4,71,658
Percentage	55·3	108·1	−15·3	63·2

The fee income has more than doubled.

Unaided Colleges.

	Provincial revenues.	Fees.	Other sources.	Total.
	Rs.	Rs.	Rs.	Rs.
1921-22	..	6,09,596	1,17,046	7,26,642
1926-27	23,147	7,04,263	1,10,681	8,38,091
Increase or decrease	23,147	+94,667	−6,365	+1,11,449
Percentage	..	15·5	−5·4	15·3

The average annual cost per student in different types of institutions is as follows:—

	Government colleges.		Aided colleges.		Unaided colleges.
	Public funds.	Total.	Public funds.	Total.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.
1921-22	278	375	29	127	89
1926-27	250	379	26	117	101

(4) **Teaching.**—There is little doubt that the quality of teaching has improved in the last five years. The staff is more permanent, better paid and more attached to the institution by the creation of provident funds. Thanks to grants, libraries have been enlarged and are, on the whole, better used. Special mention must be made of the Hindu Academy, Daulatpur—an institution with many attractive features—the library of which contains some rare historical works and manuscripts as well as a small archæological annexe. Nearly everywhere some attempt has been made to introduce the tutorial system, and informal instruction is given to small groups of students. But it must be confessed that the aims and methods of tutorial work are too often misunderstood and tutorial work in groups of 25 (as is done in some colleges) is a mere travesty of the real thing. The name is there, but not the substance. The Rector of St. Xavier's College honestly acknowledges that "there is neither sufficient time nor room nor teachers to carry out tutorial work to the extent required by the University Inspectors." And even their demands are modest, they only ask for groups of not more than ten. The large colleges especially—and there are some with nearly 2,000 students—find it difficult to arrange for proper tutorial work. The fact is, the whole existing system is hostile to it—the crowded classes, the variety of subject groups, the University regulations about lectures, the nature of the examinations. The teachers are far too few for tutorial work of the kind done at Oxford.

The number of teachers has, however, increased from 739 to 955, although, owing to the great increase in the number of students, the ratio of teachers to students has fallen from 1 : 22·9 to 1 : 23·4.

The realisation that mass lectures are no longer sufficient is, however, the first step in the right direction.

(5) **Social life.**—There is marked improvement also in the conditions of student life. While none of the arts colleges can be properly called "residential," there are a few which may almost justify that description. St. Paul's College, Calcutta, has splendid hostels which house about half its students. At Daulatpur, there is accommodation for 385 boarders. The Carmichael College, Rangpur, has 4

well-built hostels and an attractive students' club-house. The Scottish Churches College maintains 5 hostels and 2 messes; and the Krishnath College, Berhampore, no fewer than 9 hostels. The supervision of hostels is also more satisfactory. In most colleges, common rooms for students are provided. The interest in, and opportunities for, games, physical exercise and recreation are greater than ever before. Especially in the mufassal, ample playgrounds and varied sports (including rowing) are now the rule rather than the exception. Two or three colleges have had the wisdom and the resources to acquire large grounds—the Hindu Academy has 130 bighas and the Carmichael College an extensive compound of 950 acres. In many Calcutta Colleges, and at Hooghly there are platoons of the University Training Corps. Some of them, notably the Vidyasagar College, the City College and St. Xavier's College in recent years, have a proud record of athletic success. Social service has been encouraged in some institutions, and the " Little Brothers of the Poor " at the Braja Mohan College, Barisal, does social work which does not altogether belie the name they share with the order of St. Francis.

The missionary colleges give religious teaching; and the same ideal of education pervaded by the spirit of religion animates the Daulatpur Academy.

(6) **Examinations.**—The raising of the standard, which we have noticed in the M.A. and M.Sc. Examinations, is more marked in the other University Examinations:—

	I. A.		I. Sc.		B. A.		B. Sc.	
	1921-22.	1926-27.	1921-22.	1926-27.	1921-22.	1926-27.	1921-22.	1926-27.
Candidates	3,768	3,930	1,922	4,332	2,586	2,903	527	1,194
Passes	2,455	1,838	1,440	1,995	1,870	1,083	363	568
Percentage	65·1	46·7	74·9	46·05	72·3	37·3	68·8	47·5

Examinations may be made too hard; on the other hand, examinations in Calcutta tended in the past to be too easy. And in so far as the raising of the standard may lead to a corresponding improvement in the teaching, it is all to the good. The last quinquennium revealed a movement in the opposite direction, the percentage of passes steadily rose. Now the tide has begun to ebb. But it must not be forgotten that a low percentage of passes is not an end in itself and is only one of many forces that can help to improve the quality of the teaching.

(7) **Government colleges.**—Of the Government colleges, a more detailed description is necessary. The general statistics are given below:—

	Number of students.	Total expenditure.	Expenditure from Provincial funds.	Total average cost per pupil.	Cost per pupil to public funds
		Rs.	Rs.	Rs.	Rs
Presidency College ..	1,044	4,94,167	2,35,606	468	223
Islamia College ..	164	43,674	31,143	252	180
Sanskrit College ..	103	59,704	55,616	590	550
Hooghly College ..	273	1,37,631	1,13,787	506	418
Krishnagar College ..	235	1,49,571	1,25,208	623	522
Chittagong College ..	604	1,26,580	72,833	207	119
Rajshahi College ..	828	1,79,275	1,06,267	222	131

It is worth noting that in the Presidency College, of the total cost, high though it is, less than half is met from provincial funds.

3. **Presidency College.**—The numbers in the Presidency College have remained more or less steady. In 1921-22, there were 979 students and five years later 1,044, including attached postgraduate students in each case. No considerable additions have been made to the College buildings, except the provision of a dark room for the astronomical Laboratory.

As a result of the alarming state of things revealed by the examination of students by the University Welfare Committee, it was decided to make physical exercise compulsory for the first and third

year students. Since 1925 this has been in progress and, after the close of the period, a fully-qualified Instructor was appointed. The ordinary athletic activities of the College were carried on, with keenness and good will, if without any striking success. A second platoon has been started in connexion with the University Training Corps.

The College Union was completely overhauled and reorganised in 1925-26. The Founders' Day was celebrated each year, the Visitor—His Excellency Lord Lytton—presiding in 1925. A special attempt was made to attract old students to this and other functions at the College; and in 1926 a remarkable gathering was held of ex-students who had graduated at least 50 years ago. The compilation of a Historical Register of the College was taken in hand—no small task and perhaps the first of its kind in India—and the work was published after the end of the period. The different college societies, now all amalgamated in the Union, have continued their activities without interruption.

The academic work of the College maintained its high level. The results in the University Examinations were uniformly good. The library, which now contains nearly 45,000 volumes, was well used. Tutorial work was done regularly for all students and in all subjects, and careful records were kept.

The discipline of the College throughout the period was excellent.

But the most significant event in the history of the College was the appointment of the Presidency College Committee in 1923 as a result of the report of the Bengal Retrenchment Committee, which proposed indeed the retention of the College, but maintained there was room for economy. The Committee was unable to meet earlier than August 1924, but 19 meetings were held altogether and two *ad interim* reports and one final report were submitted to Government, covering all matters connected with the administration and working of the College.

The Committee recommended, not without the dissent of a minority, that ultimately the full control of the College should be devolved on the Governing Body under conditions which secure the future position and usefulness of the College, an adequate statutory grant being given by Government and the improvements suggested by the Committee being first carried through. This is a large question and Government has, as yet, taken no action on it.

To put the College in a satisfactory position, the Committee proposed that the scheme of extension planned before the war, but interrupted by financial stringency, should be completed at an approximate cost of Rs. 15 lakhs. Room would then be provided for the much-needed College Hall, new lecture and tutorial rooms, quarters for the Principal, servants' quarters, as well as for two playing-fields in the College area. A beginning has already been made and, in 1926-27, a block of land jutting into the College area was acquired at a cost of nearly 2 lakhs. In the budget of 1927-28, provision has been made for the acquisition of more land, for a new observatory building and other minor improvements.

The proposed increase in the maximum number of students admitted was sanctioned by Government. The new maxima are 420 in arts and 480 in science, not including 225 attached postgraduate students. The fees were also increased in accordance with the recommendation of the Committee. The admission fee was raised from Rs. 10 to Rs. 16. For the classes, instead of the previous uniform rate of Rs. 12, the following scale was adopted:—

	Rs.		Rs.
I. A. ..	.. 14	I. Sc. ..	.. 15
Pass B. A. ..	.. 15	Pass B. Sc. ..	.. 16
Honours B. A.	.. 16	Honours B. Sc.	.. 17
M. A. ..	.. 17	M. Sc. ..	.. 18

As a corollary, provision was made in the report for a much larger number of studentships. Instead of 12 free studentships of Rs. 12 each, it was proposed to have 60 half-free studentships for undergraduates of Rs. 7 each and 15 for postgraduates of Rs. 8 each.

Muhammadan students were to have 100 half-free studentships, including 60 Mohsin stipends. On this point, Government have yet passed no orders.

Far-reaching changes were recommended in the staffing of the College, the principle being the gradual substitution of a college cadre for the existing service system. The 15 existing posts in the Indian Educational Service were to be replaced by the more economic grade of professors on Rs. 650—50—1,000, 4 carrying an allowance of Rs. 50—50—200. The Bengal Educational Service posts were to give place to a grade of Readers and Lecturers on Rs. 250—700, 4 of the senior Readers getting an allowance of Rs. 100. The 7 teaching laboratory assistants were to be called demonstrators and placed in the grade of Rs. 150—10—400. The non-teaching assistants were to have a salary on the scale Rs. 50—5—150. The last two of these proposals have been carried into effect and new appointments of lecturers are now made on the scale Rs. 250—700.

The staff has also been materially strengthened. Government have sanctioned the conversion of the Astronomy demonstratorship into a lecturership and the appointment of an additional lecturer in Mathematics, Physics, Sanskrit, Arabic; and of another demonstrator in Chemistry and in Physics. Some extra non-teaching assistants' posts have been sanctioned for the Science departments.

The Committee also made proposals for co-operation between the College and the University, on the general principle of reciprocity. But on this point, no fresh action has yet been taken.

4. **Sanskrit College.**—In the Sanskrit College, there are signs of reviving popularity. The number of students in the English department rose from 72 to 103, although even the latter figure is far below that for 1917, when there were 238 students. The small number is accounted for by the absence of science classes, the lack of hostel accommodation and the fact that students of the College have in addition to the ordinary University courses, to undertake a special course in Sanskrit. Owing to the fall in numbers, and in pursuance of the policy of retrenchment, the staff was reduced. Three posts were abolished, a professorship in Sanskrit in the Bengal Educational Service and a lecturership in Philosophy and in English. But the reduction of staff has, in the opinion of the Principal, affected the efficiency of the teaching especially in Sanskrit. Affiliation in Mathematics was secured up to the I.A. and a lecturer on the subject appointed. Honours students in different subjects attend the Presidency College, as before.

A College Union was established in 1924, the centenary year of the College, which runs a debating club and a magazine. The Union has done good work in developing the social side of the College and in fostering a spirit of comradeship. In spite of the lack of playing space, considerable attention has been given to games, especially to such as do not require a large field—basket ball, badminton and gymnastics. In basket ball the College has had some good teams.

Many of the students are very poor, and during the period Government created in the College department 20 concession rates of fees at Rs. 2 per month, in addition to 40 permanent concession rates, for the benefit of the sons of poor pandits.

The Oriental or Tol department is described in Chapter XIII.

The results of examinations are given below:—

1926-27.	Appeared.	Passed.	Percentage.
I. A.	18	11	61·1
B. A.	21	9	42·8

The future of the Sanskrit College caused Government some anxiety and, in August 1923, a Committee was appointed to consider the whole question of the English department and the Sanskrit department and of Sanskritic studies in Bengal generally. The Committee investigated the points at issue very thoroughly in 43 meetings and presented a report in October 1926, a preliminary report having been submitted in March 1924.

About the College department, the report recommends its retention and affiliation in several new subjects, especially in English, Philosophy and History to the Honours standard and in Mathematics to the Pass standard. This will involve a considerable addition to the existing staff. Provision should also be made for advanced Sanskrit studies, for which the College should be affiliated to the M.A. standard. The University should give credit for the extra Sanskrit courses in the College by allowing its students to offer a subject less. There should be a hostel for mufassal students. It is

also recommended—though not without strong dissentient opinions—that the Principal should be an orthodox Brahmin.

Such are the chief proposals of this interesting report. No action has yet been taken by Government.

5. **Islamia College.**—The Islamia College, for Moslem students only, started work in July 1926. Accommodation has been provided in the College building for 400 students and affiliation was obtained in I.A. and I Sc. and B.A. in the following subjects:—

I.A.—English, Bengali, Urdu, Logic, Persian, History, Arabic, Civics, Mathematics, Commercial Geography, Commercial Arithmetic, Book-keeping.

I. Sc.—English, Bengali, Urdu, Mathematics, Physics, Chemistry.

B.A.—English, Philosophy, Economics, Persian, Arabic, Mathematics, History—all Pass and Honours—as well as Vernacular.

The College began with first and third year class students only and the total number in 1926-27 was 164.

The teaching staff consists of a Principal, 9 Professors, 9 Lecturers and 2 Laboratory Assistants; the ministerial staff, of a Head clerk, a Librarian, a Cashier and Accountant, a Second clerk and a Third clerk and typist.

The laboratories were equipped with a grant of Rs. 24,000 and the library was given Rs. 20,000 for a start; the annual library grant amounts to Rs. 3,000. The books are ranged on steel shelves.

In all the arts subjects, there is tutorial work. The attached hostel is under the charge of a Superintendent and an Assistant and can accommodate 78 students.

6. **Rajshahi College.**—It is not often that a Government college in Bengal is so fortunate as to retain the same Principal for a great number of years; the tenure of office of Rai Kumudini Kanta Banerji Bahadur provided a rare exception. With the exception of 11 months, he was Principal of Rajshahi College from 1897 till he retired—in December 1924; and it is one of the tragic ironies of fate that he died within a few weeks of his retirement. To his long service the College owes not only its present high estate, but also many of its plans for the future.

There has been no permanent increase in numbers. In 1921-22, the students numbered 819 and in 1926-27, 828. But in the intervening years there was a very considerable rise, which reached its climax in 1924-25 with 966 students. The chief cause of the subsequent fall was the raising of the Matriculation Examination standard, which has affected most colleges in Bengal.

Nor was affiliation obtained during the period in any new subject, although affiliation in Honours Economics is expected next year. The staff has thus remained more or less unchanged. A History post was reduced from the Bengal Educational Service to the Subordinate Educational Service; and for the better organisation of tutorial work, Government have sanctioned the appointment of an additional lecturer in Mathematics, with effect from July 1927.

But, if not much has been done during these five years to extend the scope of the teaching, this was not for want of schemes. Two in particular deserve mention. A comprehensive plan was submitted for the starting of M.A. classes in several arts subjects and in Chemistry and of Law classes; and considerable local support was promised. But the support was far from equal to the expense that the scheme would have eventually involved and the plan dwindled down to an attempt to start a post-graduate course in History only as well as Preliminary and Intermediate Law classes. It is one of the curiosities of the system of education in Bengal that a considerable number of post-graduate students was reckoned as hopeless at Rajshahi unless Law classes were also established at the same time. Presumably, the M.A. classes were educationally desirable; but the Law classes were mainly a bribe. Finally, some of the promised donations were diverted and nothing could be done.

The other large scheme was for the establishment of an Agricultural department of the College in accordance with the wishes expressed in the will of the late Kumar Basanta Kumar Ray of Dighapatiya Junior Raj, who had in 1920 made a donation to Government of Rs. 2½ lakhs for the purpose. Plans were formulated by the Principal, in consultation with the Professor of Agriculture in Calcutta University, and modified by the Executors of the Basanta Kumar Ray Trust and the

Governing Body of the College. The former have offered an additional lakh. The whole scheme is now before Government; and the next period will probably see some fruitful developments.

Much attention was given to the conditions under which students live; and between 1921-22 and 1923-24, extensive new hostel accommodation was provided by the erection of five new blocks for Hindu students and one for Moslem students at a cost of nearly Rs. 4½ lakhs. Each block houses 50 students and there are quarters for the Superintendents, kitchens, servants' quarters, common room and so forth. In addition, the College has two old hostels and one attached mess and there are two other hostels in the town, one run by the Ramkrishna Mission Society and the other by the Presbyterian Mission, which provide accommodation for some more. Altogether, in 1927, 391 students were in residence in the College hostels alone, about half the total number, a proportion that surpasses that which most other colleges in Bengal can show.

The local Government Assistant Surgeon is in charge of the general medical supervision of the hostels; but the new hostels are in the special charge of a resident doctor, who is also the medical examiner of the College. A dispensary is attached to the hostels.

Besides hostels, some other material improvements have been made or are in prospect. An additional room for Chemistry practical classes was constructed out of a College fund; and a scheme for a new building for arts classes at a cost of over Rs. 85,000 was completed in 1925. As a result, the library has been housed in more spacious quarters, which provide also for a large reading room.

The examination results were satisfactory:—

1926.	Total.	Passes.	Percentage.
B. A.	124	67	54
B. Sc.	112	81	72·3
I. A.	95	63	66·3
I. Sc.	189	151	80

A small experiment in devolution was made when in 1925 Government placed a consolidated grant of Rs. 17,200 at the disposal of the Governing Body for the next three years, giving it the power to make reappropriations. If the experiment proves successful, larger duties may be laid on the Governing Body.

In general, the tone of the College was satisfactory. The students rendered splendid service when cholera broke out in the town and are always ready to nurse the sick and join in other forms of social work. But there was a serious outbreak of indiscipline in 1926, when the students "struck" for two days; but the agitation presently subsided and since then things have been quiet.

7. **Krishnagar College.**—The history of Krishnagar College during the period was one of uneventful, but steady, progress. The loss in numbers caused by the non-co-operation movement and mentioned in the last review has been to a great extent redressed. The figures speak for themselves:—

Students.—1918, 234; 1920, 281; 1922, 204; 1923, 181; 1925, 256; 1927, 235.

The proximity of Krishnagar to Calcutta affects numbers adversely and so did the lack of proper hostel accommodation. But a Hindu hostel for 65 students and Superintendent's quarters has recently been erected in the College compound and a scheme for the construction of a Muhammadan hostel has received administrative approval. At present most of the 20 or so Muhammadan students in the College live in a rented house.

No attempt was made to obtain affiliation in any new subject; but to meet the demand for science, additional accommodation was provided in the Chemistry Practical Laboratory, so that the number of places was increased from 15 to 30 in each of the B.Sc. classes. But the enthusiasm for science soon waned all over Bengal and some of the places have remained vacant. A new gas plant was also added.

The small size of the College makes it possible to have a proper tutorial system. Arrangements have been made to give an hour's tutorial work in each subject in all classes—but in the first year class, each group of not more than ten students is taken twice a week in English. The College has excellent playing-fields and the students show much interest in games. Drill is compulsory for first year students. In the library the accommodation has become insufficient for both readers and books.

The results have been very satisfactory:—

	Candidates.	Passed.	Percentage.
I. A.	26	11	42·3
I. Sc.	45	35	77·7
B. A.	21	18	85·7
B. Sc.	20	14	70

During the period, 3 students secured first class Honours, and 1 stood first among the successful I.A. and I.Sc. candidates of his year.

8. **Chittagong College.**—The Chittagong College has grown very rapidly, at any rate in numbers. In 1917, there were 275 students, in 1922, 353, and in 1927, no fewer than 604. The growth was equally marked in the case of B.A. and B.Sc. as of I.A. and I.Sc. students. There was great pressure for admission to the science classes, in particular. For the first time women students were admitted and there are now 2 girls, 1 Hindu and 1 Muhammadan, in the College.

Affiliation was obtained in History Honours; but the affiliation in Physics and Chemistry in the I.A. and B. A. courses was discontinued. A lecturer was added in English in the Subordinate Educational Service and in Philosophy a professor in the Bengal Educational Service. There is a strong demand for affiliation in Botany and Geology.

The growth of the College has rendered the accommodation inadequate. A scheme for a three-storied building, including more classes, science practical rooms, common room and reading room is before Government. Additional accommodation is urgently necessary.

During the quinquennium, a Moslem hostel for 60 boarders was constructed and is a great addition to the amenities of the College, which has about 200 Muhammadan students. The Hindu hostel has only room for 42 boarders, which is insufficient. A plan for a Buddhist students' hostel has been proposed, as well as for a house for the Principal. Altogether 120 students were in the College hostels in 1927.

Every student is required either to attend the gymnastic classes or to play out-door games. Tutorial classes in English are held throughout the year and in other subjects from January to April. The library appears to be smaller than those of other Government colleges. There is no convenient reading room for students. The College Union displayed much energy and life and the College magazine continued to flourish.

The chief need of Chittagong College is the need for more spacious buildings. The increase in numbers both requires and justifies expenditure for that purpose. As the Calcutta University Commission Report pointed out, the College has possibilities; for it is the only College in "the remote Eastern region of Bengal, which is differentiated from the rest of the Presidency, not only by trade interests, but, to some extent, also by social and religious distinctions." There is a good case for careful and well-considered development.

9. **Hooghly College.**—The Hooghly College has done useful work along the old lines. The number of students rose from 234 in 1922 to 273 in 1927, of whom the Hindus numbered 244 and the Muhammadans 28. Affiliation was granted in three new subjects in the Honours course —English, History and Philosophy; it has been applied for in Honours Physics. For Chemistry, a new gas plant has been erected. The accommodation is insufficient; but, if and when the Madrasah is removed, the Arts and Physics classes will have more space. The gymnasium has been improved with the assistance of a grant of Rs. 500 given by His Excellency Lord Lytton on the occasion of his visit to the College in 1924. The College, however, has no playing-ground of its own, but has to share a maidan with other clubs. The Principal started a platoon of the Calcutta University Training Corps in the College, which has flourished during the last three years. Some valuable research work has been published by members of the College staff.

The results of the University Examinations were as follows, in 1927:—

	Candidates.	Passed.	Percentage.
I. A.	19	16	84·2
I. Sc.	57	36	63·1
B. A.	36	17	47·2
B. Sc.	16	14	87·5

10. **Dacca University.**—Dacca University has to its credit solid, if not showy, achievements. The number of students in the Arts and

Science classes rose from 625 in 1921-22 to 710 in 1926-27. In addition, there were 442 Law students, 39 students in the Commerce classes, 79 students in the department of Education (reading in the Teachers' Training College), 130 students of the Medical school, who are taught Physics and Chemistry in the University and 15 Research students. The total number receiving instruction was thus 1,415 as against 1,030 at the end of the last quinquennium. Here, again, the popularity of science is unmistakable. The B. Sc. and M.Sc classes rose from 100 to 237 and from 30 to 51, respectively.

The examination results were as follows:—

	Candidates.	Passed.	Percentage of passes.
July 1926.			
M. A. Final	68	56	82·3
M. Sc. Final	28	23	82·1
March 1927.			
M. A. Preliminary	60	35	58·3
M. Sc. Preliminary	28	19	67·8
B. A. Honours Final ..	39	21	53·8
B. Sc. Honours Final ..	37	15	40·5
February 1927.			
B. A. Honours Subsidiary ..	45	43	95·5
B. Sc. Honours Subsidiary ..	30	28	93·3
B. A. Ordinary	130	72	48·4 (*a*)
B. Sc. Ordinary	114	64	46·4 (*b*)

(*a*) Excluding 9 Honours candidates who obtained the ordinary degree.
(*b*) Excluding 11 Honours candidates who obtained the ordinary degree.

The library has been largely increased and contained nearly 46,000 carefully-selected volumes in 1927. A large number of periodicals were also available. To the valuable Sanskrit and Bengali manuscript section of the library, reference is made in Chapter XIII.

Considerable additions were made to the buildings, especially to the chemical laboratories. A new science library was also provided. A large underground sewerage scheme is in contemplation.

The University intends to open departments of Botany and Bacteriology in the near future. The institution of a one-year course leading to an examination for a diploma in Practical English has been sanctioned. Valuable original work has been done by nearly every department.

Dacca University was intended to be mainly residential and the proportion of resident students—it is gratifying to observe—has greatly increased, as the following figures show:—

	1921-22.	1926-27.
Students in residence—		
Dacca Hall ...	148	150
Jagannath Hall ...	101	211
Muslim Hall ...	87	208

Muslim Hall was enlarged by the addition of Ramna House in 1925-26 and of Burdwan House in 1926-27. The nucleus of the Hall is a section of the upper part of the central University building, but the need of a separate home has been recognised and funds have been sanctioned and plans made for its construction. Special provision has been made for women in the shape of a house which can accommodate 12 students. In 1922-23 a small hostel was set apart for Anglo-Indian students, but no advantage was taken of it. The members of the different Halls conduct admirable social service leagues. There seems to be no doubt that as an organisation for fostering corporate and social activities and creating real *esprit-de-corps* the Hall system of Dacca University has justified itself.

In Chapter II the Dacca University Amendment Act of 1925 was mentioned. The stabilising of the finances of the University has contributed greatly to the security of this young and growing institution.

Sir P. G. Hartog, who, as Vice-Chancellor, had steered the University from its launching, retired at the end of 1925, having done not a little to bring the vessel into prosperous seas.

11. **Advisory Committee for higher education.**—There are thus two Universities in Bengal; it seemed desirable to have some liaison between them. It was with this object that a permanent Committee was created in 1924, consisting of 17 members, to advise Government and the Universities on questions connected with higher education. The annual report for 1923-24 summarised its duties thus: " (1) to co-ordinate the work of the two Universities of Bengal; (2) to see that all unnecessary duplication in the work of the Universities is avoided; and (3) to ensure that all available resources are distributed between the two Universities in some equitable ratio." The Committee held several meetings in 1924 and 1925 and discussed two important questions—the conditions of the Dacca University provident fund and the standardising of Honours courses in the two Universities. On the first point, it was finally decided that Dacca University should contribute 8⅓ per cent. to the provident fund, on condition that the same rate was adopted for Calcutta University and that some attempt should be made to start a provident fund for colleges. No decision was reached about the Honours courses. At Calcutta, the course is of two years and at Dacca of three—but at Calcutta, students who obtain the Honours degree almost invariably proceed to the M.A. Although there are difficulties in the way, some agreement may eventually be reached.

12. **Board of Intermediate and Secondary Education, Dacca.**—In the colleges affiliated to Calcutta University, intermediate classes are included and the methods of teaching followed are the same as for the higher classes. Dacca University, however, is limited by statute to education above the intermediate stage; and as the Dacca University area was withdrawn from the control of Calcutta University, the creation of a separate board to manage intermediate education became necessary. Following the recommendation of the Sadler Report, intermediate education was regarded as a part of secondary education and the newly-created Board was entrusted with the charge of both. In this Chapter, we are, however, mainly concerned with the activities of the Board in connexion with intermediate education.

The Sadler Report, however, did not contemplate a separate Board for a small area like the Dacca University area—and the arrangement was regarded as purely provisional. The Board was therefore, appointed for only a year and the majority of the members were nominated by Government. The failure, however, of the authorities concerned to reach any agreement about the character and powers of a general provincial board led to the prolongation of the life of the Dacca Board year by year and it still survives.

But it is clear that no certain conclusions about the validity of the recommendations of the Calcutta University Commission can be drawn from the experience of the Dacca Board. For one thing it has only been in existence for six years, a period too short for the full fruition of the seed sown. Then, its area is very limited, too small to allow it to go its own way or to ignore the influence of the Calcutta system of education all round it. Its annual tenure has prevented it from planning any large constructive scheme, such as must necessarily take years to mature. Nor were the financial resources at its disposal adequate to the needs of any thorough-going reform and reorganisation. The one clear lesson is that the Board cannot go on as it has done—and the cry has been raised, "End or extend."

There has been abundant criticism, partly justified, but partly interested and partly misinformed. It is not true that, under the Board, the standards of teaching and examination have sunk. The annual report of the Board for 1926-27 conclusively disproves this charge with the help of statistics. On the other hand, much has been done to improve the teaching and to carry out the recommendations of the Sadler Commission, as will be evident from the following extract from the quinquennial report of the Board:—

" (1) It organised the intermediate classes of the colleges that were partly incorporated in the Dacca University, into intermediate colleges of one of the types suggested by the Commission and raised the Eden High School for Girls into an intermediate college of another of the types recommended. (2) It rearranged the intermediate courses so as to vary them, as suggested by the Commission. (3) It opened two ' vocational ' courses at one of the intermediate colleges under its jurisdiction. (4) It reduced the size of the classes so as to enable individual attention to be paid to the pupils. (5) It completed the school courses by adding subjects which are now considered indispensable for that stage, namely, History (both of England and India),

and Geography. (6) For training in the practical use of English, it instituted an oral test in English and included in the general English course selected prose works of present-day English writers. (7) It introduced Elementary Science as an optional subject for the High School Examination."

This is no mean achievement. Nor does it represent all the work of the Board—for Government placed under it all the reformed madrasahs of the province. Its labours in this connexion are summarised in a later Chapter.

The number of intermediate colleges (not including the Islamic Intermediate Colleges) under the Board were 4, 3 for men and 1 for women. The total number of pupils in the intermediate classes was 994, including 211 Muhammadans. At the Intermediate Examination of 1927, 546 candidates appeared, of whom 230 were successful. The total expenditure of the Board for 1926-27 was Rs. 57,430 and the net cost to Government Rs. 28,759.

Of the 3 men's colleges, 1, the Imperial Salimullah College, was opened in 1925; but, as a result of the small number of students applying for admission and of the decrease in the grant given by Government, it is in a precarious financial condition; and, unless local support is forthcoming, it may be compelled to abandon its intermediate classes. The Jagannath Intermediate College received from Government in 1926-27 a grant of Rs. 48,072 and has 617 students. Besides the ordinary Arts and Science courses, it maintains two vocational courses, in Dyeing and in Commerce. The Dacca Intermediate College is managed by Government and has at last been properly housed in New Government House. Botany has been introduced as an additional science subject. The 2 hostels, 1 for Hindus and 1 for Muhammadans, have together 128 boarders. The total number of students was 316. The expenditure in 1926-27 was Rs. 1,34,469, of which Rs. 1,05,122 came from provincial revenues. The average annual cost per pupil was Rs. 403. The College is now adequately equipped and staffed.

CHAPTER IV.

Secondary Education: Indian Boys.

1. **General statistics and comments.**—The total number of secondary schools is as follows:—

	High schools.	Middle English.	Middle vernacular.	Total.
1916-17	698	1,602	349	2,649
1921-22	878	1,468	217	2,563
1926-27	985	1,616	74	2,675

The number of pupils is shown below:—

	High schools.	Middle English.	Middle vernacular.	Total.
1916-17	218,070	160,359	21,253	399,682
1921-22	190,630	108,582	10,632	309,844
1926-27	233,343	142,684	4,802	380,829

These figures are interesting, although some of them are perplexing. The general drift of the last five years is clear, secondary schools and pupils have increased considerably in number. The ground lost during the previous quinquennium has been recovered, and at some points a little fresh ground won. But there are cross-currents (to vary the metaphor) and a closer analysis of each type of school is necessary.

(1) **Middle Vernacular schools.**—The figures for the middle vernacular schools allow only one interpretation. The decline is continuous and even gathers momentum as it proceeds. Thus, between 1917 and 1922, the middle vernacular schools decreased by 132 or 38 per cent.; but between 1922 and 1927, they fell by 143 or 66 per cent. Already in the fifth quinquennial report, Mr. Hornell declared that their doom was sealed. Of this there can now be no possible manner of doubt. The middle vernacular school has ceased to meet any public demand and in a few years will vanish, at any rate in its present shape. It is altogether unlikely that even the substitution of the vernacular as the medium of instruction in high schools will have any vivifying effect on this dying species.

(2) **High schools.**—More curious is the history of the high schools. Between 1916-17 and 1921-22, their number rose by 180, although the pupils diminished by more than an eighth. The increase in schools was the result and symptom of the growing desire for English secondary education and numbers would also have risen were it not for the non-co-operation movement; in fact, till 1919-20, numbers did rise. Now that the movement has ceased to exert any appreciable influence on education, the number of schools and the number of pupils have both increased in proportion. The last report diagnosed that "the apparently decreased popularity of the secondary school is a thing enforced by economic causes;" and with the gradual return of material prosperity, this force again is now not so widely operative.

(3) **Middle English schools.**—But the most curious figures are those of the Middle English schools. Between 1917 and 1922, not only did the number of pupils diminish, but also the number of schools. This was attributed in the last report to the transformation of many middle schools into high schools—but the question remains why other middle schools did not arise to take the vacant places. In this quinquennium, we notice an unexpected revival; there is a distinct increase in middle English schools, which have passed the figures for 1916-17; but the number of pupils, while it has risen by more than a third, is still below the figure for 1916-17. It seems clear, however, that the middle English school will not become obsolete, like the vernacular school; as an organ of the educational system, it shows no signs of atrophy.

(4) **Miscellaneous statistics.**—The general increase in the number of schools is shared by all parts of Bengal; the average per district is higher in every division. The highest is Dacca, with 165 English secondary schools per district, the lowest Rajshahi, with 52.

The increase in schools is almost wholly an increase of private schools. The Government institutions, in 1921-22, numbered 46, in 1926-27, 45. The details are given in the table below:—

	High schools.			Middle English schools.			Middle vernacular schools.		
	1921-22.	1926-27.	Increase or decrease.	1921-22.	1926-27.	Increase or decrease.	1921-22.	1926-27.	Increase or decrease.
Government ..	40	41	+1	6	4	−2	..	..	..
Municipal and District Board.	4	3	−1	50	46	−4	28	14	−14
Private ..	834	941	+107	1,412	1,566	+154	189	60	−129
Total ..	878	985	+107	1,468	1,616	+148	217	74	−143

The average strength of each type of school is greater than before, although in two cases still less than in 1916-17:—

	High schools.	Middle English.	Middle vernacular.
1916-17	312	100	61
1921-22	217	74	49
1926-27	237	88	65

In the last report, it was pointed out that a reduction of the average strength of schools may be a good thing where it is not accompanied by a proportionate reduction of the staff; for "the smaller the class, the greater the teachers' opportunity." But, on the other hand, it must not be forgotten that the great majority of schools depend mainly on fees for their income and cannot afford to pay their teachers adequately unless they have a fairly large number of pupils.

When we look at the number of pupils in different stages of education, it is seen that the chief gain is in the middle stage, where the chief loss was suffered in the previous quinquennium. The inference from these figures is that there is not a great deal of wastage during the course of secondary education:—

	1916-17.	1921-22.	1926-27.
High	99,309	91,134	102,655
Middle	96,071	73,969	94,421

2. **Control of secondary schools—(1) Government and the growth of the grant-in-aid system.**—The supervision of, and control over,

secondary schools has become much more efficient during the quinquennium. For one thing, while the number of private schools has increased, the number of aided schools has grown far more than in proportion. The movement is not new, but it has accelerated enormously. In 1921-22, 42·2 per cent. of English secondary schools and 56·9 per cent of high schools were unaided; the sgures for 1926-27 are, respectively, 34·4 and 47·5. In Chittagong Division, there were five years ago 38 aided high schools and 68 unaided; now there are 64 aided high schools and only 43 which do not receive aid. At last the balance is on the right side.

The grant of aid to a school means not only that its finances are placed on a more stable basis; it implies also that the school conforms to certain standards and is liable to periodical inspection.

In the past, there was no clear policy to regulate the grant of aid; it was often given haphazard and, once given, was rarely withdrawn. But, in 1925-26, when a recurring grant of Rs. 3 lakhs was sanctioned for the improvement of the pay of teachers in non-Government secondary schools, the following principles were laid down for its distribution :—

(1) Middle English schools were to receive only a small part of the total grant.

(2) No aid was given to any school, unless its permanency was assured and necessary in the opinion of the Inspector.

(3) A minimum scale of Rs. 540 (11 teachers) was insisted on in the case of schools to which a new grant was given.

(4) No grant, old or new, was to be given where the rate of fees fell below a certain minimum scale.

(5) No grant was to be given unless the school had a provident fund for teachers.

(6) The minimum grant to a high school was fixed at Rs. 100 a month.

Thus, only schools which deserved to survive were helped and the schools which have been helped have been made better fitted to survive.

The time is almost past when a school was regarded as a productive enterprise, yielding a regular income to its proprietor. It is competition that has killed the school as a business concern. The multiplication of schools was accompanied by a decline in their strength, caused partly by this multiplication, partly by the failure of illusions as to the material prospects of educated men, and partly by other causes. In spite of sweated labour, the fee income no longer equals the working cost. For most schools, public aid is becoming a necessity—and this necessity knows laws; it provides the opportunity for insistence on a higher standard.

(2) **The University.**—Much remains to be done; and Government can never do every thing—public opinion and the University, which "recognises" high schools, must co-operate. During the quinquennium, there have been welcome signs that the University is alive to its responsibilities. It has insisted that every recognised school should establish a provident fund for teachers and maintain a minimum scale of expenditure.

(3) **Managing Committees.**—All high schools are now controlled by managing committees; but the Inspectors' reports make it clear that these committees cannot be regarded as an unqualified success. They are too often "the battle-ground of opposing factions." "Hardly an election passes, but one or more petitions are received asking for it to be set aside for various reasons." Recently, however, the University has drawn up a "School Code" to regulate the management of schools and to secure for teachers larger rights of representation and tenure. There are some small differences between the provisions of this Code and the grant-in-aid rules of the Department; and it has not yet been put completely into force. Its adoption will, undoubtedly, produce considerable improvement at a point where improvement is sorely needed.

(4) **Dacca Board of Secondary Education.**—The schools in the Dacca University area are under the control of the Board of Intermediate and Secondary Education, Dacca. During the period, their number has risen from 10 to 14 and the number of pupils from 4,561 to 5,652. The Board has introduced History (both of England and India) and Geography as compulsory subjects in the High School course and

Elementary Science as an optional subject. An oral test in English is also included. During 1923-24, a comprehensive inspection of the schools under the Board was carried out by the inspecting staff of the Department.

But the limitation of the area under the Board, while it makes careful supervision of the schools possible, yet creates difficulties, which are neither few nor light. If any attempt is made to raise standards, the boys take fright at once and can easily transfer themselves to schools just outside the area and affiliated to Calcutta University. Further, the Board, as pointed out in earlier Chapters, has been appointed for only a year at a time, as a provincial Board was fancied to be in near prospect; and the uncertainty of its tenure has prevented it from planning any broad constructive scheme extending beyond the narrow limits of a single year. Nor has it been supplied with the large funds that any comprehensive scheme would necessarily entail.

3. **Teachers and their position**—(1) **Qualifications of teachers.**—The number of teachers increased, but not in proportion to the number of pupils. The total was 21,873 teachers, which gives an average of 1 teacher to 17 pupils, compared with 1 : 16 in 1921-22.

Taking secondary school teachers as a whole, they can scarcely be described as well-qualified. The great majority are not graduates; the trained graduates—and indeed trained teachers generally—are a mere sprinkling, too few in numbers, even if they had the ability or power, to act as a leaven. In the Chittagong Division, with 2,818 teachers, only 437 were graduates and only 48 of them had trained for their profession. There were 59 trained graduates in Rajshahi Division out of a total of 3,182. These figures, which are taken at random, speak for themselves. Teaching is still regarded as an unskilled profession.

Teachers in different classes of high schools.

Management.	Trained teachers.	Percentage of trained teachers.	Average number of teachers to a school.
Government	277	42·4	16
District Board and Municipal	10	16·4	20
Aided	732	12·2	12·7
Unaided	437	7·5	12·5

There is also reason to believe that few teachers regard their work as a vocation, a high calling. Many, even of the graduate teachers, turn to teaching as an occupation which may be obtained without much trouble, demands no arduous application and conveniently bridges over the interval between college and some settled and more remunerative work. Hence the body of teachers is largely a floating body, including many men who are in it from necessity rather than of choice and will presently leave it without regret. This still further reduces the efficiency of the teachers.

(2) **Salary of teachers.**—But, on the other hand, when one considers their position, it is hard to blame them. It has been pointed out, over and over again, that the salary of the school master in Bengal is a miserable pittance, often lower than that of a menial servant or even a casual labourer. Here, figures are available which need no comment. In Chittagong Division, the average salary of a high school teacher is Rs. 51·7, of a middle school teacher Rs. 18·2. In Rajshahi, 70 per cent. of the high school teachers receive between Rs. 20 and Rs. 70 and the actual average is Rs. 44·5. Nor are these salaries always paid. "It is well known that in many cases the item 'subscriptions' (in school accounts) consists of forced levies upon the teachers' salaries." And the averages are appreciably raised by the far higher salaries paid in Government schools.

Pathetically inadequate as these figures are, they yet represent an advance on the salaries of ten or even five years ago.

(3) **Provident funds.**—In one respect, definite progress has been achieved. Both University and Government have insisted on the institution of provident funds in schools, with considerable success. As a rule, the teacher contributes one anna in the rupee and the school half

an anna; but attempts are being made to raise the school contribution also to an anna. In some division, thanks to Government grants, this has been done. A general scheme for the province has been sanctioned.

4. **Curriculum and subjects of study**—(1) **Vocational subjects.**—There has been no great change in the curriculum during the period under review, partly because of the indifference to small changes that accompanies the expectation of far-reaching changes like the long-awaited Board of Secondary Education and partly as a result of a change of feeling on the subject. At one time, the idea was widely current that the solution of the problem of a growing educated proletariate was to be sought in the creation of "vocational" schools, which would train boys for practical occupations. But a truer conception of education, a deeper analysis of the situation and actual experiment have combined to prove that this solution is illusory. Under the sway of the ideas that produced the non-co-operation movement, spinning, weaving and other "vocational" classes were started in many schools; but they soon returned to their first love—the Matriculation curriculum—and the discarded spinning-wheels were put discreetly out of sight. The issue of a similar recent experiment is interesting. Artisan and spinning classes were opened in a certain high school in Pabna; but, in a very short time, they detached themselves from the uncongenial parent and set up as a separate institution.

If, however, it is neither wise nor practical to regard secondary education as immediate preparation for a vocation, on the other hand, there can be no doubt that a purely literary training does not afford a complete education and that manual arts of various kinds have a high cultural and educational value. In about 22 schools, manual training, of various kinds, has been given—but this needs to be widely extended. The Conference of Educational Officers, February 1925, advised that, while vocational training might more properly be given in special institutions after the school course, some subjects which train the hand and the eye and give scope for the creative joy of the "artist," should be introduced into schools. To this desire, the University has added its powerful voice. Subjects like carpentry or metal-work, spinning and weaving, gardening and agriculture, drawing and painting, will show the boy that he can educate himself through his finger-tips as well as through the ear and the eye, add variety and diversion to a course now intolerably monotonous and hum-drum and, by accustoming him to manual work, teach him the dignity, the joy and the productive worth of labour.

(2) **Science subjects.**—Six Government schools in the province had "B" classes or Science courses attached to them at the end of the period. They were intended to be the nucleus of a "modern" side in schools, but the intention remains unrealised. One Head Master "reports with regret that the public do not appreciate the utility of the classes and the demand for admission is not very keen." The truth is, no alternative scheme of small dimensions can hope to hold its own against the attraction of the enormous mass of Calcutta University.

5. **Methods of teaching**—(1) **Inefficiency of teaching.**—The methods of study and teaching are more important than the subjects. The most perfect curriculum would be rendered valueless by the methods of teaching practised in many schools. It is possible to work in marble and fail to create an Apollo Belvedere. "Of the practice of teaching as a science there is practically none." The Inspector for Chittagong goes on to point out that this is not wilful neglect. "They (the teachers) are not provided with the necessary appliances and they have no conception of modern developments in the art of teaching and of the skilled technique it is possible to develop. They themselves were never well-taught, they have never seen good teaching and they are unaware of the defects present in their own methods."

(2) **Private coaching.**—It is partly the inefficiency of teaching and partly the vogue of "cram" that has led to the almost universal prevalence of private coaching. In one way, this may appear a good thing, because the teacher gets a sorely-needed addition to his salary from the wealthier pupils, while schools can afford to keep fees low—but, in every other way, it is unsatisfactory and harmful. An arrangement which tends to make teachers and schools satisfied with the present wage-scale is, after all, wrong; and private coaching is both result and cause of bad teaching in schools.

(3) **School Libraries.**—The reports of Inspectors draw attention to the inadequacy of school libraries; and yet perhaps they should not be called inadequate, for the few books have fewer readers. This is again part of "the wheel," the chain of cause and effect, for the general system of cram makes extra reading superfluous for examinations and indisposes the boy to read for the pleasure of it. The result is seen in the appalling lack of general knowledge of the graduate, as revealed, for instance, in competitive examinations, in such statements as these: "St. Francis of Assisi is the lady who recently swam across the English Channel;" "The chief poisonous snakes of India are cobras, pantheons and dragons;" "Mr. N. N. C. (The M. C. C.) came to play cricket in India."

(4) **The vernacular as medium.**—It has long been recognised that cramming was encouraged, in fact made almost inevitable, by the practice of teaching in a medium very imperfectly understood. The strain of assimilating knowledge thus imparted was too great; the boy merely attempted, by an effort of memory, to retain the exact form of words. The information remained external to his mind; there was no inducement to think. What went in through the ear and the eye came out at the end of the pen, unaltered and undigested. One of the most hopeful things in the future, therefore, is the use of the vernacular as the medium of instruction, which should begin in 1930. In some quarters there is a fear that this will not be an unmixed good and that the standard of English, already low, will fall lower still. But, even if that happens, it is far the lesser evil.

(5) **The Dalton plan and experiments thereon.**—Here and there attempts have been made to introduce modern methods of teaching as experiments, largely under the inspiration of a circular, issued at the instance of Lord Lytton, late Governor of Bengal. The most notable of these was the trial of the Dalton Laboratory Plan in different schools, most of them Government institutions. The reports received vary. In some schools, especially in the Armanitola High School, Dacca, and the Hindu School, Calcutta, where the scheme was worked under skilled guidance it seems to be on the whole a success. In others, the results obtained were not proportionate to the time, labour and equipment involved. In the Jalpaiguri Zilla School, the Dalton Plan was, after a brief trial, abandoned and in its place a modified scheme of supervised study introduced, which appears to have possibilities. But, whether these schemes succeed or fail is a comparatively small matter—the significant thing is that they have been tried, that schools in Bengal, so long content to walk along the broad and easy way that leads nowhere, are now striking off, by ones or twos, on paths of their own to explore the possibilities of a more fruitful education.

To other schemes, one can make only a brief reference. Some schools under the Dacca Board have tried the plan of "grading" boys for teaching according to their proficiency in different subjects. Elsewhere, the "project" method has been put into operation, especially in the American Baptist Mission School at Bhimpore, where the Santhal boys form admirable subjects for the experiment of supplementing book learning by village industrial arts and making education concrete by linking it up with the familiar facts of everyday life and work.

6. **Examinations.**—(1) **the Matriculation.**—One great obstacle in the way of radical experiments is the dominance of the Matriculation Examination over the school course. Every pupil is anxious to pass this examination; every school is judged by its Matriculation results. And the standard of the examination was so low, the percentage of passes so high, that the test was no true indication of educational efficiency and schools were induced by success into an attitude of inert self-complacency. One records, therefore, with satisfaction any attempt to improve the examination. The Senate has passed a draft Regulation to revise the character of the Matriculation which is now under the consideration of Government; and during the quinquennium, the percentage of passes has steadily fallen.

Year.	Candidates appeared.	Candidates passed.	Percentage.
1921-22	17,926	14,063	78·4
1922-23	17,569	12,987	73·9
1923-24	17,207	13,061	75·9
1924-25	17,748	12,874	72·5
1925-26	15,147	8,537	56·3
1926-27	14,290	7,537	52·7

This will not only prevent the admission into colleges of a number of those unfitted for higher education, but probably also lead to an increase of efficiency in schools.

(2) **The Dacca examination.**—The percentage of passes at the High School Examination of the Dacca Board does not show an equal decrease. The Board has always been haunted by "the fear (by no means a causeless fear) of driving students away from its diminutive area."

Year.	Percentage of passes.
1921-22	78·2
1922-23	81·0
1923-24	87·4
1924-25	85·6
1925-26	68·2
1926-27	73·6

The middle examinations are not public examinations and their results do not invite special comment. Nor has there been any important change in the scholarship system.

(3) **Minimum age.**—One change in the Regulations deserves notice. During 1924-25, the rule which debarred boys under 16 from appearing at the Matriculation Examination was relaxed and boys of 15 and over were declared eligible in future on production of a certificate from the Head Master of their fitness for college life.

7. **Expenditure**—

Total expenditure according to sources:—

	1921-22.	Proportion to total.	1926-27.	Proportion to total.
	Rs.	Per cent.	Rs.	Per cent.
Provincial revenues ..	12,52,566	18·3	15,80,308	17·9
Municipal funds ..	28,316		27,791	
District funds	2,66,902		3,22,238	
Fees	54,62,675	64·3	70,72,943	65·9
Other sources	14,79,563	17·4	17,33,795	16·2
Total ..	84,90,022		1,07,37,075	

From this table, it appears that the expenditure on secondary schools has increased very considerably during the quinquennium, by no less than Rs. 22,47,053 or 26·5 per cent. Roughly, during the previous quinquennium, expenditure rose by a sixth, in this by more than a fourth.

The amount that is derived from provincial revenues has increased in almost exact proportion, by 26·2 per cent. But the largest increase is in the fee income, 29·5 per cent. This means that, while education has become more expensive, parents are prepared to pay a rather larger part of the expense than before. In 1921-22, the fees averaged Rs. 17·6 per boy, in 1926-27 they have increased slightly to Rs. 18·6. The motive force was, no doubt, largely the pressure of the policy of insistence on higher fees as a condition of a grant-in-aid.

Total expenditure according to types of schools.

	1921-22.	1926-27.	Increase or decrease.
	Rs.	Rs.	Rs.
High schools ..	63,75,938	83,35,947	+19,60,009
Middle English ..	19,68,591	23,35,361	+3,66,770
Middle vernacular ..	1,45,493	65,767	−79,726

This table shows that the high schools have absorbed most of the total amount and most of the increase. Their expenses have grown

by Rs. 19,60,009. In the previous quinquennium, the expenditure on middle schools actually fell; in this it has risen by Rs. 2,87,044. The expenditure on middle vernacular schools is fast dwindling as a result of the rapid diminution in their numbers.

Average costs.

	Cost per month per school.		Cost per year per boy.	
	1921-22.	1926-27.	1921-22.	1926-27.
	Rs.	Rs	Rs.	Rs.
High schools	605	705	34·6	35·7
Middle English	111	120	18·1	16 3
Middle vernacular ..	56	74	14·2	13·6

It is clear that the total increase in expenditure is not accounted for wholly by the increase of schools; the cost of maintaining a school is also greater now than five years ago. This is a move in the right direction, for a cheap school is usually also a bad school. Even now, the average expenses of a high school per month are only Rs. 705, which include not only the salaries of the staff, but the cost of equipment, the wages of servants, books for the libraries, furniture, games, and so forth. In this instance, as so often, the more expensive article is the better. The higher cost of a school, again, is only partly explained by the increase in the average strength of schools; the cost per boy has increased and is now, roughly, almost double what it was in 1911-12.

Expenditure on high schools according to management.

Management.	Total cost per year.	Income from fees	Income from other sources	Net cost to Government.	Cost per head		Cost per head to Government.	
					1921-22	1926-27.	1921-22.	1926-27.
	Rs.	Rs	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Government ..	10,33,599	3,93,170	4,392	6,36,037	74 01	76·06	48 04	46 8

Private—unaided	32,77,633	26,02,877	6,74,756	..	29 3	30 2	..	..

The inferences are the same as in the last report—Government schools are much more expensive than any other type and, in all other classes of schools, about three-fourths of the total expenses are met by fees.

The question naturally suggests itself: would it not be possible to save money without sacrificing efficiency by deprovincialising Government high schools? One thing is clear, Government alone pays an attractive scale of salaries to its teachers and, presumably, obtains the services of the best qualified. This presumption is generally, but not always, true. The Bengal Retrenchment Committee proposed the deprovincialisation of all schools; but Government decided to retain one high school in each district. It was intended to hand over control of the others, but the proposal was dropped in deference to public protests. Thus the scheme to deprovincialise the high school at Jamalpur in Mymensingh was held in abeyance. But, in 1924-25, after buildings had been constructed at a cost of over Rs. 2 lakhs, it was decided to substitute an aided school for the proposed zilla school at Burdwan.

Something has already been said about grants-in-aid. Much of the improvement, such as it is, of the quinquennium, is the result of a judicious distribution of grants on condition that fees were also raised. The amount given is, as a rule, not very large; in Dacca Division, the average grant per high school is Rs. 1,556 a year or Rs. 129 a month. This is a very material help to a struggling school, depending on an unstable fee income, but not enough to put it on a sound financial basis. And a great number of schools still continue

to be unaided. It would appear that public money, available for secondary education, could not be more usefully spent than in improving and extending the system of grants-in-aid. In 1925, the Council voted an extra Rs. 3 lakhs for secondary education, thanks to which many fresh grants were given, on conditions which have been summarised above. Further grants have been made subsequently.

8. **The future.**—It is easy enough to criticise the existing system, but it is much harder to suggest lines of reconstruction, which will be practicable. The problem bristles with difficulties. There is the difficulty of finance, for a great many improvements are possible only if schools can obtain a larger income. Money may come from Government, from fees or from private or corporate benefactions. From the last source, much more cannot be expected, as things are at present. The missionary societies have contributed generously in the past, but are hard hit by financial stringency at home and by the rate of exchange. And secondary education has as yet made little or no appeal to wealthy Bengalis as a fit object for their munificence. Fees have risen steadily in the past decade and cannot be raised much higher without a more liberal allowance of scholarships to keep the way open for the higher education of the intelligent poor, Government may provide a little more, but not all that can be profitably used, without fresh taxation. Then there is the problem of control, a thorny problem which at once places in opposition Government, the University, and the local committees of management. Strictly speaking, the University is not concerned with secondary education, but through the Matriculation Examination it exercises a control which is powerful, if not always immediate, effective if indirect. The University, however, is already over-burdened with its own, more appropriate, work and cannot undertake a reconstruction of the secondary system. But it has steadily opposed any independent Board of Secondary Education. On the other hand, the history of the Dacca Board teaches the futility of piecemeal attempts at decentralisation. Then, there is the problem of waste, of misdirected effort, of a training that fits a boy for college (even this hardly may one concede) and almost unfits him for everything else, that takes boys away from the normal and natural occupations of the country and leaves them hopeless and helpless at the end. The first question that the educationalist must ask is: "What should and does it all lead to"? and this is the question which, in Bengal, is constantly shirked or to which, at any rate, no answer has yet been found. The existing system refuses to recognise that it has had its day and must cease to be, at any rate as a general system for the whole province; there must be changes or alternatives. And, not least, there is the problem of the lack of professional skill and pride, of a sense of vocation, of knowledge and imagination. The methods of teaching are hackneyed and pedestrian in the extreme. The teacher does not care whither it is all tending nor seeks to make the way pleasant to the young feet that perforce tread it.

Some kind of general controlling body seems necessary, able to give time and thought—much time and deep, sane, fearless, informed thought to the whole problem, able to view it without prejudice, by itself and in relation to the environment. But in such unified control, there is a danger, which the past has illustrated only too vividly. It is largely the tyranny of the Matriculation that has reduced all schools to a mechanical dead level; and, above all, what is wanted is variety, bold experiment and freedom to experiment, schools aiming at different objects and using different methods and developing their own traditions. Only thus, shall we have a satisfactory solution—when we cease to think of *a system* of education and are content to believe that, in the infinite variety characteristic of living organisms, there is more hope than in the uniformity of machine-made objects, so dear to indolent and unimaginative minds. What is needed is the widest possible variety within an integrated organisation of national education.

CHAPTER V.

Primary Education: Indian Boys.

1. **Statistics and comments.**—In nearly every direction, primary education made progress during the period under review. The number of primary schools rose from 35,615 in 1921-22 to 38,187 in 1926-27 and this, in spite of the fact that the night schools, which were classed as primary schools in the last review, now fall into the category of

" adult schools " and have not been reckoned in the total. The two figures are, therefore, not exactly comparable. Taking them as they stand, there was an increase of 2,572 schools or 7·2 per cent.

The number of pupils in primary schools increased from 1,164,597 to 1,398,942, by 234,345 or 20·1 per cent. If we add the 183,753 (in 1921-22, 142,937) pupils in the primary classes of secondary schools, the total number of pupils in the primary stage of instruction is 1,582,695 as against 1,307,534 at the end of the previous quinquennium, that is, an increase of 21·04 per cent. or more than a fifth. Between 1917 and 1922 there was some retrogression; but 1927 sees us a long way ahead of any earlier record.

As pupils have increased by a fifth and schools only by a fourteenth, it follows that the average strength of a primary school is greater. While in 1921-22, 32·6 pupils attended a school on the average, in 1926-27 there are 36·6. To each school there are four pupils more.

As the only figures available for the total male population are those of the census of 1921, no accurate deduction can be made as to the proportion of boys in primary schools to the total number of boys of school-going age. The figures are given below for what they are worth :—

	(1) Male population.	(2) Males of school-going age.	(3) Boys in primary schools.	(4) Percentage of (3) to (2).
1921-22	24,151,222	6,520,829	1,109,521	17·0
1926-27	24,151,222	6,520,829	1,340,499	20·5
Increase or decrease	....	....	+230,978	....

The number of Muhammadan pupils is 746,053 or 53·3 per cent. of the total, of Hindus 642,538 or 45·9 per cent. In 1921-22, the respective figures were 51·7 and 46·4 per cent. To put it in another way, the Hindu pupils have increased by a little over a sixth during the quinquennium, the Muhammadans by almost a fourth.

Nearly all types of schools have shared in the increase in numbers, as the following table shows :—

	1921-22.		1926-27.			Increase or decrease or proportion to total.
	Number.	Proportion to total.	Number.	Increase or decrease.	Proportion to total.	
Government	108	8·9	97	−11	10·2	+1·3
Local and Municipal ..	3,054		3,783	+729		
Aided	28,012	81·2	29,984	+1,072	78·5	−2·7
Unaided	3,541	9·9	4,323	+782	11·3	+1·4
Total ..	35,615	100	38,187	+2,572	100	..

The next table shows the proportion of schools to area and number of villages in the different divisions :—

	1921-22.		1926-27.	
	Area in square miles.	Towns and villages.	Area in square miles.	Towns and villages.
Presidency	2·8	2·1	2·7	2·1
Burdwan	1·6	2·6	1·6	2·5
Dacca	1·7	2·1	1·5	1·8
Chittagong	2·2	1·4	1·9	1·1
Rajshahi	2·7	3·5	2·7	3·4

In the whole province, there is 1 school to 2·01 square miles and to 2·2 towns and villages. From division to division, there is evidently considerable variation; if we take the district as the unit, the variation

is much greater. Thus, in Bakarganj district, there are 10 primary schools to every 9 square miles and eight villages, a proportion three or four times as high as that of the province.

Two diagrams (see pages 895 and 896) before we conclude this statistical section. It illustrates the enormous preponderance of pupils in the lowest class and is significant as revealing the proportion of wastage. Of 10 boys in class I only 3 reach class II and only 2 of them pass on to class III. Here is something to make one pause and think—primary education too often means merely a year in the lowest class. As the Inspector for Dacca writes: "The stagnant depths at the bottom of primary schools should be vigorously stirred." It is really in the first four primary classes that there is most loss.

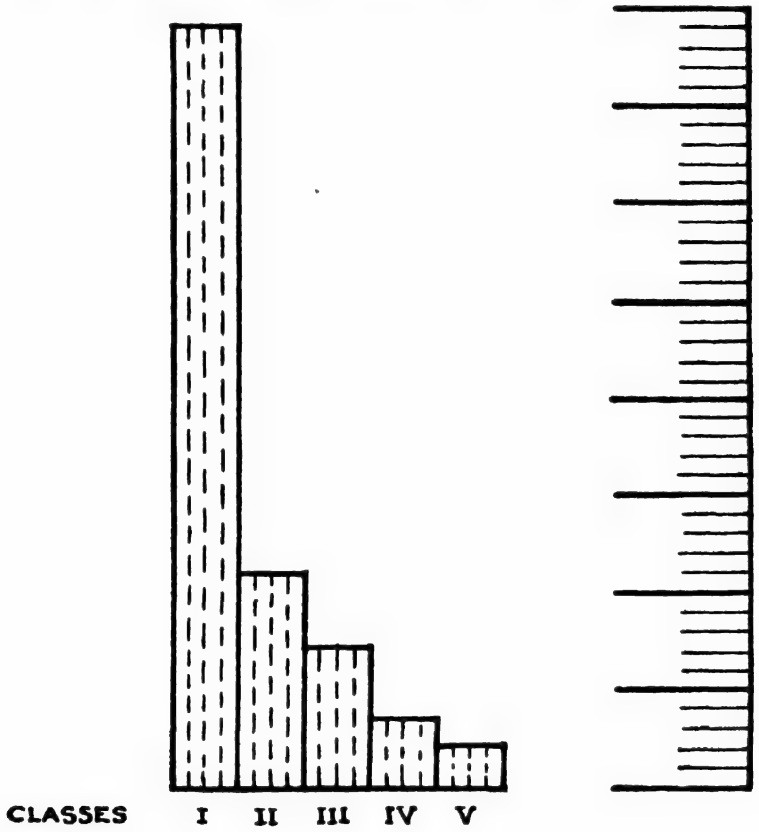

Diagram to show the proportion of Indian pupils in the different primary classes.

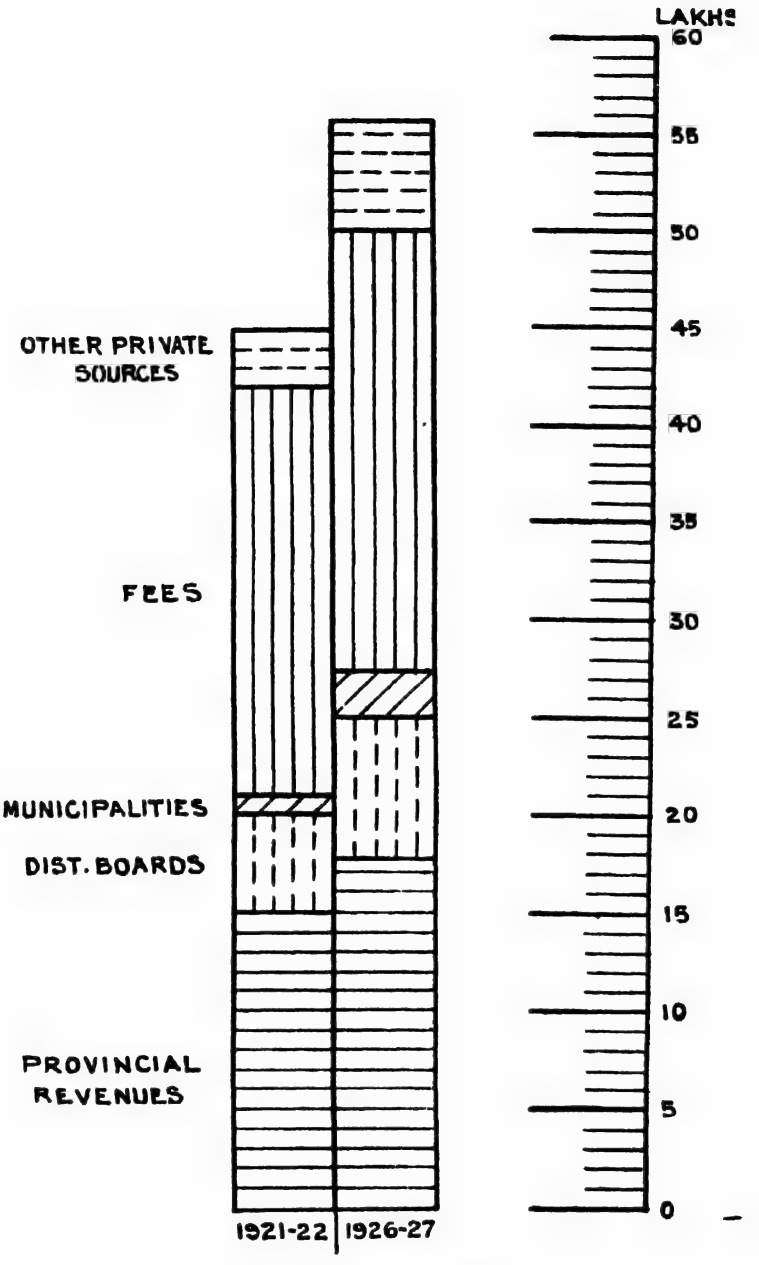
2. **Curriculum and examination.**—In January 1923, the revised curriculum (referred to in paragraph 164 of the last review) was introduced into the schools in nearly all districts. The exceptions have also fallen into line from January 1925.

The compulsory subjects are, Reading, Writing, Arithmetic, Geography, History, Hygiene, (for boys) or Hygiene and Domestic Economy (for girls), Observation lessons (for boys), Drill (for boys) or Drill or Needlework (for girls). Two of the following optional subjects have to be taken for the Primary Final Examination—Drawing, Manual Work (for boys) or Manual Work, including Clay-modelling (for girls), Science or Nature Study based on school gardening, English and Zamindari and Mahajani accounts.

The enforcement of the new curriculum is a noteworthy event. True, it is a compromise—as many other things are—between the two Bengals, a compound of the curricula formerly followed in East and West Bengal. But it makes certain important changes. First, in place of two courses covering, between them 6 years, it provides a uniform unbroken course lasting 5 years. The old division of primary schools into upper and lower primary has thus become irrelevant and obsolete; and the length of the primary course has been reduced by a year. Next, it introduces English as an optional language, a measure which has proved popular. In Dacca Division, about 1,000 schools teach English, in Rajshahi over 500. History, formerly neglected, is now a compulsory subject in the last two school years, Geography and Hygiene in the last three. On the other hand, the

course has been simplified by making certain other subjects optional and more attention is directed to the elements of education, reading, writing and arithmetic.



Amount and sources of expenditure on primary schools

There are, of course, criticisms. One Inspector tersely says: "Nothing human is perfect and the curriculum is certainly not an exception." Apart from the imperfection of all things human, the particular criticisms fall into two classes, those which assert that the course is too heavy and those which maintain that the teaching is inefficient. Here are some comments from the Inspectors' reports. Writing of English, "Pupils learnt letters of the alphabet and could spell a few simple words; beyond this results are not satisfactory, as most of the teachers appointed are not properly qualified to teach anything more in that language." "The revised curriculum lays considerable stress upon the methods of teaching various subjects, which require careful preparation and the undivided attention of a trained teacher. But this is hardly possible." "Unless sufficient improvement takes place in the general mental equipment of a primary school teacher, it will be idle to expect more satisfactory results from the curriculum." It is also pointed out that few schools have any arrangements for Science and Nature Study, and that Mental Arithmetic, "so very necessary for the people in their daily transactions," is not practised as much as it used to be.

These criticisms are not trivial, but they are inevitable—and there is little doubt that the new curriculum marks an improvement on the old. Bad teaching—there's the rub. But, during the period, a measure was approved—though not yet enforced—which may have far-reaching effects on the quality of the teaching. The conference of educational officers in February 1925 suggested, and Government approved of, the revival of the old public examination at the end of the primary course. This will be first held in November 1927.

3. **Teachers.**—The total number of primary school teachers has risen during the quinquennium from 44,446 to 52,822, an increase of 18·8 per cent. But it is gratifying that the number of trained teachers increased from 10,685 to 14,261, by 33·4 per cent. In 1922, the trained teachers formed 24 per cent of the whole body, in 1927 26·9 per cent. The increase is small, but appreciable. The teachers with no certificate now number 2,382 or 4·5 per cent. and those who have only passed the Lower Primary Examination are few, being only 1,606.

Far the great majority of primary school teachers are not men of any large mental calibre. Their qualifications are small; they are neither capable of nor receive any very advanced training. But it could not be otherwise, for primary teaching—as was pointed out in the last Review—is a sweated industry. It is perhaps not sweated in the sense that the teacher has no time for any other avocation, but it is sweated in the sense that the pay given for the work is generally not a living wage. During the last five years, there has been a small increase, an increase, as a rule, of about a rupee per month or less. In some districts there is a positive decline. Some of the figures are so low as to be almost incredible—for instance, in Chittagong Division, the average monthly emoluments (was there ever a bigger word for a smaller thing?) of a teacher in an unaided school is Rs. 3 3. In an aided school it is as much as Rs. 6.

Small wonder is it, then, that primary school teachers are not often well-educated or well-trained themselves and are unable to give their whole time to their work. Many of them, perhaps most of them, have perforce to supplement their exiguous salaries by the profits of other occupations. Some hundreds of them—unfortunately a smaller number than in 1922*, 246 against 331—act also as village post masters and earn an additional income ranging from Rs. 4 to Rs. 16.

The object which Government has set before itself is the provision of Rs. 6 per mensem for each trained teacher in addition to his income from local funds and fees and a minimum of Rs. 2 for each untrained teacher. An additional grant of Rs. 5,51,000 was secured for the purpose, of which Rs. 2,81,000 was made available in 1926-27, but it was far from adequate, and the actual improvement effected was small.

4. **Scholarships.**—The upper primary scholarship is now called the final and the lower the preliminary scholarship.

The final primary scholarship is of the value of Rs. 3 and is awarded by the Inspector of Schools on the result of an examination. No school may send more than two candidates, but as the total number of candidates must not be more than four times the number of scholarships, many schools have to be content with only one or even no representative. There seems to be a case for adding to the number of scholarships, both final and preliminary. A certain proportion is reserved for Muhammadans and backward classes.

The preliminary scholarships are of the value of Rs. 2 and tenable generally for two years. They are awarded by the local bodies. As, however, the Accounts Department objected to the payment of scholarships from Municipal and District Board funds as *ultra vires*, their cost is now met by Government, the amount being deducted from the grants made to local bodies for the improvement of primary education. The same object is achieved by a round-about procedure.

The total number of scholarships is 1,376 and the expenditure Rs. 41,854, of which Rs. 41,498 came from public funds.

5. **Schemes of primary education.**—During the period, two schemes for extending primary education were in operation, one new and one taken over from the previous quinquennium. The new scheme is that proposed in Mr. Biss's report and approved by Government; the old one is the Panchayati Union scheme.

The report for Rajshahi Division supplies a concise summary of the history of the latter. "The scheme was first initiated by Sir

* Altogether 519 teachers, secondary as well as primary, worked as school postmasters in 1926-27 against 556 in 1921-22.

Henry Sharp, then Director of Public Instruction, Eastern Bengal and Assam, and the schools started under the scheme were called by him class I lower primary schools. The name was changed by Mr. C. H. Browning, the then officiating Director of Public Instruction, to Board primary schools. At a conference of the Divisional Commissioners, it was decided to proceed on a more definite geographical basis, viz., panchayati unions. The schools constructed after 1917-18 have come to be known as panchayati union schools."

The plan is to provide each union with a school of a cheap type, the expenses being borne wholly by Government. The amount allotted for a building is Rs. 1,000, but this has been described as "quite inadequate." Further, the complaint is generally made that it is not always a central site that is chosen, but one that can most easily be spared. There are other difficulties. In some districts, the panchayati unions are being reduced or enlarged or replaced by Union Boards under the Village Self-Government Act. The fact that the schools, once constructed, are placed under the District Board, has an injurious effect on their efficiency and popularity. The local public do not feel any special interest in their school or any obligation to repair the building. District Boards, on the other hand, are often unable to provide money for keeping the school houses in proper condition. New schools are built, while old ones are in some cases falling into disrepair. The pay of the Board primary teacher is often lower than that of the trained teacher of an aided school. Another difficulty that arose was that the panchayati union schools, which were started on the lower primary basis of 3 years, are unable to teach the full 5 years' course of the new curriculum, unless indeed District Boards undertake to supplement the Government aid by contributions from their own funds for the maintenance of the extra 2 years' course.

But, when so much has been granted, we may still recognise that the Panchayati Union scheme represents a well-considered attempt to spread elementary education and has made appreciable progress during the quinquennium. Funds to the extent of Rs. 5,18,000 were allotted for the construction of 467 boys' schools and 51 girls' schools. At present, there are altogether 3,584 schools of this type in the province, rather unequally distributed. Thus, Rajshahi Division possesses 1,143 such schools, the Dacca Division 1,243, whereas the Chittagong Division has only 559 and the Presidency Division only 294. One Inspector says: "Board primary schools are generally better housed, better equipped and better staffed than most of the aided primary schools." The summary of the annual report for 1924-25 may be here repeated: "The Panchayati Union School scheme, as a contribution towards the solution of the problem of the spread of literacy, has solid merits, but it also possesses defects, most of them fortunately remediable with increased funds."

Similar in character, but more ambitious, is Mr. Biss's scheme. The aim is, again, the creation of a network of primary schools all over Bengal, but the unit school area is roughly a circle with a half mile radius; each municipal or Union Board area is eventually to have one central school and as many ancillary schools as are needed. The schools are controlled by these local bodies and the cost is to be shared equally by Government and the local authority, the latter having the option of levying an education cess under the Bengal Primary Education Act of 1919. But progress under this scheme has been slow, the chief hindrance being the reluctance of local bodies to meet their share of the cost or to levy a cess. There is "apathy, if not antipathy." In many districts, again, Union Boards have not yet come into existence or begun to function. In certain cases some of the Biss schools have been abandoned.

Nevertheless, here also some progress was made. Government gives nearly a lakh of rupees annually to further this scheme. The municipalities of Rangpur, Berhampore and Budge-Budge have accepted the scheme in its entirety, others are experimenting with one or two schools. A few Union Boards have imposed a cess for primary education and many others have made tentative beginnings. Altogether, in about 60 municipalities and Union Boards, the Biss scheme has come into operation, wholly or in part. In Dacca Division, no fewer than 64 Biss schools have been started in the last 5 years; and, though elsewhere, the number is much smaller, the total number of schools sanctioned under the scheme during the quinquennium is 223.

A few municipalities have awaken to their responsibilities. Chittagong has made primary school attendance compulsory as well

as free. Rangpur municipality has 6 free schools and was the first in its division to resort to taxation for the purpose. There are 11 schools in the Madaripur municipality. But the largest and most comprehensive scheme is that inaugurated in 1924-25 by the Calcutta Corporation, which now runs 94 free primary schools with 11,561 pupils. Most of these meet in the mornings in the buildings of other schools and have no habitation of their own. No fees are charged and the schools are largely attended, the minimum strength fixed by the Corporation being 100 pupils per school. The teachers are better paid and better qualified than elsewhere. The Corporation also employs 5 inspecting officers to supervise the work of its schools and of other schools aided by it. The other schools in Calcutta, mostly proprietary, it is difficult to commend. The competition of the free Corporation schools and high rents have hit them hard; and their general condition is unsatisfactory.

6. **Financial aspects of primary education.**—The total expenditure on primary schools has increased very rapidly in the last 15 years, in fact has more than doubled. In 1911-12, it was, in round numbers, Rs. 27 lakhs, but rose in 1916-17 to 38 lakhs or by two-fifths. In the next 5 years, a period of financial stringency, it increased at a slower rate to Rs. 45 lakhs. In 1926-27, the figure is Rs. 56 lakhs, an increase of almost a fourth during the quinquennium.

Of the total of Rs. 55,90,162, a little less than half or Rs. 27,59,723 came from public funds, a slightly smaller proportion than in 1921-22. The expenditure from provincial revenues rose from Rs. 15,16,657 to Rs. 17,74,820 or by a little over a sixth. The District Board funds contributed Rs. 7,27,857 and municipal funds Rs. 2,57,046, of which far the largest share was borne by the Calcutta Corporation. From private funds came the balance of Rs. 28,30,439, 50·6 per cent. of the total, and of this the fee income supplied Rs. 22,64,433, an increase of 17 per cent.

The increase in expenditure and in fee income is much more marked in some divisions than in others. The most striking is Dacca Division, where the total expenditure has jumped from Rs. 9,50,748 to Rs. 13,29,610 or increased by more than one-third. The fees rose from Rs. 2,71,577 to Rs. 5,66,726, that is, have more than doubled. Elsewhere, the progress is not nearly so impressive.

The average monthly cost of the different types of primary schools according to management are set forth below:—

	1921-22. Rs.	1926-27. Rs.
Government	71·4	69·5
District Board	15·9	18·6
Municipal	50	101·08
Aided	10·5	11·7
Unaided	3·8	5·0
General average	10·5	12·2

The average annual cost per pupil was Rs. 4 in 1921-22 and Rs. 3·9 in 1926-27.

7. **General considerations.**—When we survey primary education in Bengal, certain features stand out in high relief. First, its extraordinary cheapness. For a little over Rs. 20, a child can spend 5 years at a primary school and acquire the status of a literate person. In a comparatively poor province, such as Bengal, cheapness is a necessity for any general scheme of education. Secondly, a high proportion of the expenses are met by the parents, 40·5 per cent. of the total expenditure coming from fees; and when we remember that many schools are free, the proportion contributed by those who do pay will appear more striking. Thirdly, attention has already been drawn to the wastage, which means that, of the large number of pupils at school, only a small fraction effectually share in the benefits of primary education. Fourthly, the basis of the cheapness is cheap labour; and, beyond a certain point, cheap labour is inefficient. As a rule, the teachers are men of poor qualifications, untrained or ill-trained and compelled to seek other ways of supplementing an inadequate income. But, on the other hand, it should be remembered that higher salaries will not necessarily produce better men -it may create a demand from the wrong type of man, the man with perhaps a degree, but with no local ties, no touch with the conditions of rural life and no personal interest in his pupils or his work. The belief that money can solve all difficulties of this nature is particularly insidious and dangerous, because it contains a half-truth.

In planning for the future, two aspects have to be considered—the extension of primary education and its efficiency. If primary education is to be made universal, more schools are wanted and larger schools. Not perhaps a great many more, for at present there is, on the average, a school to every 2 square miles. But the distribution is uneven here a large area barren of schools, there two or three schools within call of each other. The schemes to provide for a judicious distribution have, in part, failed, because their progress has been very slow. The average strength of a school is now 36, but it is obviously more economical and efficient to raise the strength of each school than to multiply thinly-attended institutions.

A sufficiency of schools will not by itself lead to universal education. Many parents prefer their children to earn wages than to spend several years in school—often, this is an economic necessity. Hence arises the question of compulsion. Education cannot be universal unless it is compulsory but, in a country like India, compulsion will be difficult to enforce unless it has the weight of widespread popular opinion behind it. There is need, therefore, not only for more schools, but for more propaganda.

Compulsory education must, of course, be largely or wholly free. Government, local bodies or private agencies should provide the money. At present, a large number of children pay fees, which amount in the aggregate to a considerable sum. But this money will not be lost; it will be realised for the same purpose under the guise of a new tax or local cess. For, it must be admitted that the existing or probable future resources of the Government would be unequal to the drain of any compulsory free scheme of education. If, eventually, 60 instead of 16 lakhs of children have to be taught and teachers have to be paid at least twice as much as they are at present, the total expenditure will be enormous.

Primary education should not only be free, it must be good. The commodity given away must be intrinsically valuable if it is to prove desirable and the ultimate success of any compulsory scheme must largely depend on the general usefulness of the curriculum, its relation to the village environment, the quality of the teaching, the results of the training on the character, mental development and material prospects of the pupil.

On these lines, action or at least discussion has already been initiated. In September 1926 Government issued a resolution for the information and criticism of the public, sketching the outlines of proposed legislation on primary education. In each district a District School Board is to be set up, "essentially a non-official body with an official element," which would first survey the educational needs of the district and prepare a scheme for providing the necessary schools and teachers. Then power would be given to the Board to impose and collect a special cess of the value of about 5 pice in the rupee on the annual value of lands and net profits of mines; and the non-agricultural classes would also be assessed. The Board would dispose of the proceeds as well as the sums at present spent by Government or other public bodies on primary education. When the scheme is on its way, compulsion would be introduced and enforced.

Such, very briefly, are the main features of this measure, which, as yet, exists only on paper.

8. **Adult schools.**—The night schools are, as a rule, primary schools held in the evening and attended by a considerable proportion of adults. In some places, the adult pupils only come during the "off season," when other work is scarce. The attendance is thus often irregular and, as a rule, not more than 2 hours a day can be given to school work. The night schools leave much to be desired and yet, as the Inspector for Rajshahi puts it, "the spread of literacy among the illiterate adults seems to be one of the most effective methods of securing for mass education the backing of popular sympathy and support." They deserve greater attention. The total number of night schools in 1926-27 was 1,533, the number of pupils 35,276, and the expenditure Rs. 47,216. The corresponding figures in 1921-22 were 1,551, 34,936 and Rs. 44,732.

Continuation schools, intended for those who have already had some schooling, exist only in the Presidency Division and in Calcutta. Group I schools, on paper meant for boys below 15, but actually attended by adults as well and by many who have not been through school at all, are growing in popularity and now number 125 with 3,434 pupils. Group II schools, on the other hand, which give instruction of an elementary kind in one or two technical subjects,

as well as in Arithmetic, are generally condemned as serving no useful purpose in their present shape. They number 44 with 1,058 pupils, a decline since 1921-22. There is indeed room and need for schools to continue the education of adults along practical lines, but the existing schools are not of the right type. Some reorganisation seems necessary.

CHAPTER VI.

Education of Indian girls and women.

1. **Statistics and their analysis—**

Year.	Arts and professional colleges.	High schools.	Middle schools.	Primary schools.	Other institutions.	Private institutions.	Total.
Institutions for girls.							
1921-22	4	13	57	12,151	55	474	12,754
1926-27	6	19	70	14,605	48	292	15,040
Increase or decrease ..	+2	+6	+13	+2,454	−7	−182	+2,286
Girls in girls' and boys' schools.							
1921-22	228	2,647	6,640	322,694	1,661	9,992	343,862
1926-27	364	4,801	8,260	396,056	1,990	8,737	420,217
Increase or decrease ..	+136	+2,154	+1,620	+73,362	+329	−1,255	+76,355

These figures reveal general progress, as far as numbers are concerned; the number of schools has increased and the number of girls attending schools. A more careful examination, however, tempers one's satisfaction—for the increase is greatest in the primary schools and in the lowest classes of all schools generally. For instance, in Dacca Division, out of 122,492 pupils in girls' schools, no fewer than 98,826 or 80·68 per cent. are in the lowest class. In Chittagong, 95·04 per cent. are in class I. In the whole province, of the girls at school, 96·6 per cent. are in the primary stage; of the scholars in girls' schools, only 1 in 234 is in the high stage and only 1 in 1,516 in the Matriculation class.

An analysis of the pupils by religion makes the picture still more sombre.

Year.	Total number of girls at school.	Hindus.	Muhammadans.
1921-22	343,862	153,890	180,888
1926-27	420,217	186,430	226,031
Increase ..	+76,355	+32,540	+45,143

At first sight, each creed seems to hold its own; the numbers of Hindu and Muhammadan girls at school are roughly in proportion to the size of each community. But a comparison of the numbers in different stages of instruction shows an extraordinary disparity. Thus, in the whole of the Burdwan Division, there was not a single Musalman girl above the primary stage; and in the Presidency Division, out of 19,759 Muhammadan girls in school, only 6 were in high schools and 33 in middle schools. In the Dacca Division, only 3·7 of the total number of girls in secondary schools were Muhammadans. Interesting figures are available for the Chittagong Division. Here, during the quinquennium, the number of Hindu girls increased by 23·5 per cent. and that of Muhammadan girls by no less than 48·8 per cent. But a qualitative analysis brings to light a very different state of things.

	Female population.	Primary stage.		Middle stage.	High stage.
		Class I.	Classes II, III, IV.		
Muhammadans ..	2,174,658	60,931	1,695	5	0
Hindus	7,04,647	23,134	2,347	115	66

In that Division, only 1 Muhammadan girl in 37 goes beyond the lowest class and only 1 in 13,000 survives the primary stage. Among Hindus, 1 in 140 goes on to the middle school. The diagram shown below shows the proportion of Hindus and Muhammadans in the different stages of instruction. In face of these figures, it can scarcely be asserted with confidence that there is as yet in Bengal any strong or wide-spread demand for the education of girls, especially among Muhammadans. The proportion of wastage is pathetic—but perhaps it should not be reckoned as wastage. The fact seems to be that "the primary school is regarded as a convenient nursery for young children rather than as an educational institution." But it must be remembered that an over-whelming majority of girls leave school after the first year and soon relapse into ignorance. No certain conclusions as to the spread of literacy among women can be drawn from general statistics of the number of girls at school.

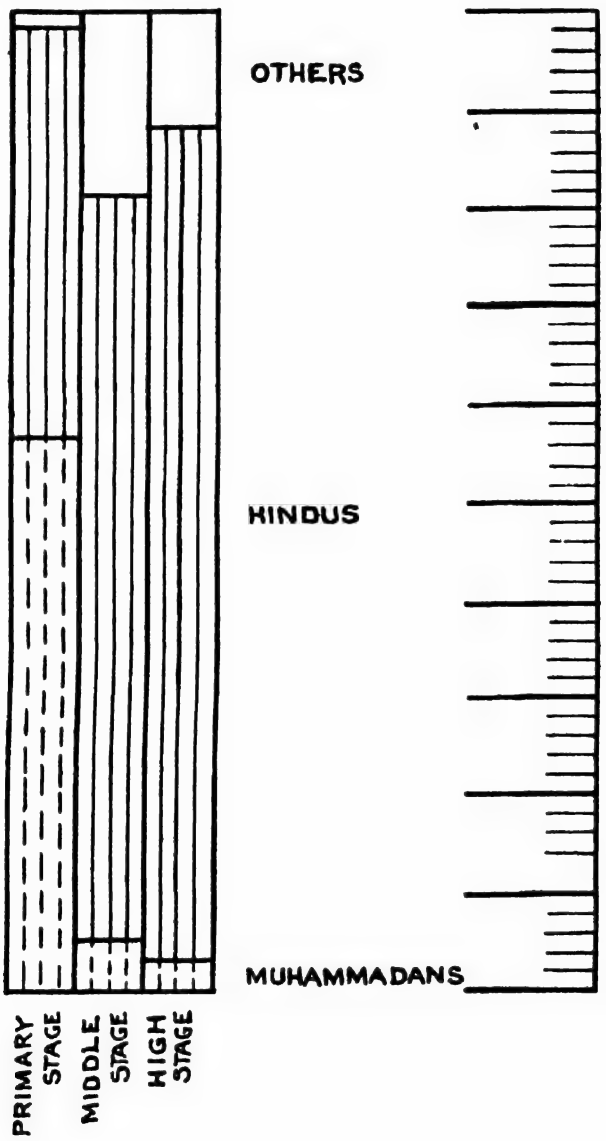


Diagram showing proportions of girls of different communities in schools for Indian girls

A certain number of girls attend boys' schools and some girls' schools accept small boys. But this is merely "a matter of convenience and not of policy" and can scarcely be called "co-education."

2. **Collegiate education.**—During the period there were, as before, 3 arts colleges in Calcutta teaching up to the B A. standard and the intermediate department of the Eden High School for Girls at Dacca. But, while the number of institutions remained unchanged, the number of students in them increased from 213 in 1922 to 289 in 1927. To this should be added the women students in the University classes and in the men's colleges, in all 321.

The demand for higher education for women is thus steadily, if slowly, growing stronger. A particularly noteworthy feature is the increase in the number of Hindu women who attend college. The Principal of the Bethune College reports that the long record of Brahmo majority in the College has been broken and Hindus now outnumber any other single community. This is encouraging, because women's colleges have hitherto been chiefly fed by Brahmos, Europeans and Indian Christians—all small communities; and any great advance in women's higher education depends on the readiness of orthodox Hindu society to welcome it. Among Muhammadans, on the other hand, higher education for women is, as shown above, still a thing almost unknown.

The increase in the number of women students is, however, still so slow that it can be adequately met by the existing women's colleges, if they are developed to the limit of their capacity. For different reasons, a small number of women will probably continue to enter men's colleges. But the number of those who are kept out of women's colleges by lack of accommodation is not likely to be so large as to require the establishment of a new college, at any rate in the near future. On the other hand, there is urgent need for the expansion of hostel accommodation in women's colleges.

At present, the subjects of study and the courses in women's colleges are the same as in other colleges; and they suffer from the same defects and the same difficulties. A peculiar difficulty is, however, created by the lack of a sufficient supply of qualified women teachers. It is, therefore, gratifying to note that 6 women passed the M. A. Examinations of the University during the period. A small number also went abroad for further study and between 1922 and 1927 Government awarded two scholarships to women for this purpose.

The following table shows the number of women students who passed University Examinations during the quinquennium:—

	1917-21			1922-26.			Average per year 1922-26.		
	Number of candidates.	Number of passes.	Percentage of passes.	Number of candidates.	Number of passes.	Percentage of passes.	Number of candidates.	Number of passes.	Percentage of passes.
M. A.	8	7	87·5	7	6	85 7	1 4	1 2	85·7
M. Sc	..	..	..	.	.	.	.	.	..
B. A.	167	130	82·8	266	221	83·08	53 2	44 2	83·8
B. Sc. ..	..	..	..	1	1	100	2	2	100
I. A. ..	292	225	77·1	388	308	79 3	77 6	61 6	79 3
I. Sc.	..	..	..	28	18	64 2	5·6	3 6	64·2
Matriculation ..	485	391	80·6	668	574	85 9	133 6	114 8	85·9

3. **Bethune College.**—Bethune College, which is a Government institution, is the largest of the women's colleges in Bengal. Its history during the last 5 years has been one of steady progress. Affiliation was secured in B.A. Honours, Philosophy and I.Sc. Chemistry and applied for in I.Sc. Physics. For the further development of scientific studies a strong case can be made out, for there can be no question that at least one women's college should provide the opportunity for scientific training. The numbers in the college increased from 114 in 1922 to 135 in 1927. The Principal complains that this was made possible only "by a process of squeezing, which outrages all one's hygienic instincts;" and, in truth, the need for increased classroom and hostel accommodation has long been recognised, although little has yet been done. A scheme has, however, been prepared for the expansion of the College at a cost of about Rs. 8 lakhs. Two new outside hostels were recently opened, capable of accommodating about 50 students. The substitution of motor buses for horse buses has not only "materially shortened the College and school day for non-resident students," but enabled them to take a more effective interest in different College activities, like the Debating Society. The College magazine has been revived. The Old Students' Guild helps poor students and holds a successful reunion in September of each year. The interest in physical culture steadily develops and about 20 students have joined a voluntary drill class.

In University Examinations, the College maintains its high reputation. The Principal emphasises the difficulties caused by the low

standard of the Matriculation, the neglect of Geography, the very imperfect knowledge of the medium of education, English, possessed by first year students. To remedy the last defect, special coaching is given to students in small groups of 12 to 14. These weaknesses have led to the rejection of a considerable proportion of second year students when candidates were selected to appear for the University Examinations.

Perhaps partly owing to this careful weeding out, the University results have been excellent. The following table shows the results of 1926:—

	Number of candidates.	Number of passes.	First Division.	Second Division.	Third Division.	Failed.
I. A. ..	24	22	9	10	3	2
I. Sc. ..	6	4	3	1	..	2
B. A. Pass ..	22	21(*a*)	..	..	..	1
B. A. Honours	9	7(*b*)	..	7	..	..

(*a*) Seven of these obtained distinction
(*b*) Seven obtained second class Honours, 2 got their Pass degree

4. **Diocesan College.**—The number of students in the Diocesan College varied within small limits, going as high as 76 in 1923 and falling to 62 in 1925. During the period affiliation was secured in History Honours. There are a Historical Society and a Debating Society, a Games Club and a Magazine Club, as well as an Old Girls' Guild. Classes in Home Nursing are held during the rains term.

Here, again, the lack of sufficient hostel space presents a serious problem. The College hostel has room for only 30 students and the attached U.M.S. hostel can take only another 15. There was another outside hostel for a time, which had, however, to be given up on the score of expense.

The financial position of the College is, in fact, by no means secure, in spite of the low cost of maintenance possible for a missionary institution.

5. **Loreto House.**—The Loreto House recently acquired an adjoining house and grounds, into which the kindergarten classes were moved, leaving the old building free for the college department. There are now 47 students on the rolls and the institution is steadily gaining in popularity. The expenditure during 1926-27 was Rs. 12,360. Twenty students were sent up for the I.A., of whom 19 were successful; and all the 7 candidates passed in the B. A. Examination.

6. **Eden Girls' Intermediate College, Dacca.**—During the quinquennium, the intermediate classes attached to the Eden Girls' School, Dacca, were made permanent and the institution raised to the status of an intermediate college. A wide range of arts subjects is taught, but no money has yet been available for the starting of Science classes, for which administrative approval has been given. The college classes are gradually becoming more popular and candidates from the College have taken very high places in the intermediate examinations of the Dacca Board, one of them being placed first in 1927. There is a small attached hostel. Regular courses of Home Nursing and Hygiene are given, as well as lantern lectures on Village Sanitation and Hygiene. But the institution still inhabits rented buildings and the office staff appears to be inadequate.

7. **Secondary education.**—In West Bengal, there are now 9 girls' high schools instead of 8 in 1921-22; but 8 of them are in Calcutta. In East Bengal, however, the number has risen from 5 to 10. Four of the 19 schools are Government institutions, in Calcutta, Chittagong, Mymensingh and Dacca. In Dacca, there is another school and both are under the Dacca Board of Intermediate and Secondary Education. The total number of girls in high schools has increased from 2,640 in 1921-22 to 4,789 in 1926-27, the number in the higher classes being respectively 629 and 1,068.

8. **Distribution of schools.**—One remarkable feature is the concentration of schools in Calcutta and their almost complete absence in the rest of West Bengal. It is natural and right that Calcutta should

possess several institutions, but it is not right that the mufassal should be neglected. The consequence is, girls requiring higher education are obliged to come to Calcutta and schools in Calcutta find it necessary to maintain hostels. To draw girls away from the healthy open-air life of the country to the conditions of crowded city-life in Calcutta is an act of very doubtful wisdom. Most of the Calcutta schools have very small play-grounds and can offer few facilities for exercise or games.

It is, therefore, of hopeful augury to note that, in 1926, a new high school was started at Krishnagar, the Lady Carmichael Girls' High School; that the conversion of the Coronation Girls' School at Khulna to a high school is in near prospect; and that plans are ready for the transfer of the Christ Church Girls' School from Calcutta to a spacious and admirable site at Dum-Dum. In East Bengal, the schools are more judiciously scattered.

9. **The curriculum.**—The sixth quinquennial report drew attention to the failure of an attempt, well-considered and carefully prepared, to introduce into some girls' schools a curriculum, alternative to the Matriculation and better adapted to the environment and actual needs of Indian girls, most of whom do not proceed to a college course. The experiment failed, because parents were anxious that their daughters should pass a recognised examination, the Matriculation, and were suspicious of the value of any training which did not directly lead to this end. The experiment has not been revived; but there are signs that the desire for a wider curriculum is becoming more general. The Bengal Women's Educational Conference approved "the steps already taken towards greater elasticity in the curriculum of secondary schools for girls and desires to see further progress in the same direction." Vocal and instrumental music has been introduced into all the schools in West Bengal. Many schools now teach girls to draw, sketch and embroider; and the work done in these subjects is often of admirable quality and reveals an inherent talent that deserves to be developed. On the other hand, the time is not yet when any school can refuse to concern itself with the Matriculation. The Gokhale Memorial School, which was founded in Calcutta in 1920, was deliberately intended to train girls for life rather than to prepare them for an examination; but in 1925-26, it found itself compelled to send up girls for the first time for the Matriculation. Such is the extent of "the dominance of examinations" in Bengal.

10. **Physical culture.**—There is no doubt that many girls suffer from the unwonted strain of school work and school life. In 1923-24, a systematic inspection of the Bethune Collegiate School by Dr. (Miss) Cohen of the Public Health Department showed an alarming number of cases of throat trouble, bad eyes and bad teeth. It is gratifying, therefore, that regular medical examination is now carried on in most schools in West Bengal—East Bengal lags sadly behind in this matter. Attention is being given, in larger measure, to health and the care of the body. To the syllabuses, a course in Hygiene, First Aid and Home Nursing has been added. The Girl Guide movement is spreading gradually. In this connexion, special mention should be made of the work of Miss Carswell, Physical Directress of the Young Women's Christian Association, who has, during the last year, conducted a physical training class for teachers. She gave theoretical and practical instruction to them and inspected their own drill classes; and in the examination which concluded the course, many teachers were successful. Miss Carswell gave demonstrations at various places in addition to her work in Calcutta, visiting the Eden Girls' School at Dacca, and other schools. The result has been not only a supply of teachers qualified to take drill and games classes in schools, but a general awakening of interest in the whole subject. The Principal of the Bethune College writes of the attached school: "Numerous letters from parents express delight at the proposed organisation of drill classes in the school and readiness to meet the small outlay necessary for a special dress for members of competing teams."

Along these and similar lines, much remains to be done. A grant of Rs. 15 was given to five schools for a teacher in First Aid; and many girls appear for and hold the certificate of the St. John's Ambulance Association. But the Inspectress for West Bengal draws attention to the lack of competent hygiene teachers and suggests the award of Government scholarships for women for a special course of Hygiene study abroad to qualify them to organise such teaching in Bengal. Something, meanwhile, is being done. At the Bethune College and School, special courses of lectures on "Health in the

Home" have been given under the auspices of the Bengal Social Service League.

During the quinquennium, 789 girls appeared for the Matriculation Examination and 629 were successful.

11. **Middle schools.**—The middle schools, which form a distinct feature of the system of girls' education, have, on the whole, maintained and even extended their position. But the middle vernacular schools are declining in popularity and losing ground. Many of them are being raised to the middle English standard, no fewer than 8 in West Bengal during the period. On the other hand, if a middle English school acquires high school status, its place is at once taken by a new middle English school. In 1921-22, there were 57 middle schools altogether, 28 middle English and 29 middle vernacular; in 1926-27, the total is 70, of which no fewer than 48 are middle English schools and only 22 middle vernacular.

The importance of middle schools is not only that they constitute the level beyond which few Hindu and Muhammadan girls are able to study, as was pointed out in the last report, but that, as the staff is generally composed of women teachers, married girls can and do attend them in growing numbers. They are also considerably less expensive than high schools and are, therefore, more widely scattered all over the province.

A suitable curriculum has been drawn up and will come into force shortly.

12. **Primary schools.**—The number of primary schools in 1921-22 was 12,151; in 1926-27 14,605. The number of girls in the primary stage in 1926-27 was 406,137, of whom 347,270 were in girls' schools and 58,867 in boys' schools. The corresponding numbers in 1921-22 were 330,338, 274,919 and 55,419.

13. **Types of schools.**—In the province, there are different types of primary schools, classified according to the source from which they receive aid. The model primary schools, managed by Government, well-staffed, well-housed and well-equipped, were deprovincialised in 1924 and handed over to local committees. They have merged, therefore, in the general class of schools which receive a grant-in-aid from the department, of which there are now 286 in West Bengal alone. During the period, 10 new schools received building grants. Then come the schools which receive aid from District Boards or municipalities; but the aid from these sources is, as a rule, trifling and the Inspectresses report that the condition of these schools remains unsatisfactory. The bigger municipalities are, however, more alive to their responsibilities. The schools in Dacca have improved greatly; and, in Calcutta, the Corporation in 1924-25 inaugurated the policy of establishing free primary schools. Staffed with well-paid teachers and offering gratuitous instruction, these schools have rapidly won a great measure of success. Closely akin to the District Board aided schools are the Board model or panchayati union schools; these have been established in selected centres, with a preliminary grant of Rs. 1,000 for a building and a maintenance grant of Rs. 16 per month. Although latterly no funds have been forthcoming for the purpose, a considerable number of such schools were created during the quinquennium. Then, let us note the free peasant girls' schools of West Bengal, which it is difficult to staff with female teachers, as they are situated in comparatively remote places; the urban girls' schools peculiar to East Bengal; the home girls' schools consisting of classes taught by a single mistress; the schools for backward classes, which have spread largely in certain parts of West Bengal; the schools established by the Nari Siksha Samiti and those maintained by the various missionary societies. These two last classes and some of the others receive aid from Government as well. The financial difficulties which most missionary societies still have to face have led, unfortunately, to the cessation of a considerable part of their educational work.

14. **Progress.**—Generally, little has been done to improve the condition of primary education as a whole. Here, a new school has arisen; there an additional grant given; the pay of some teachers has been raised; the equipment of some schools improved; but in the standard of primary education as a whole—in the nature of the buildings, the training and prospects of the teachers, the quantity and quality of the equipment—there has been no marked rise of level. It is needless to labour the oft-made point that primary education cannot be satisfactory, as long as teachers (and there are such now) are paid, in some cases, only Rs. 5 a month.

The hindrances are, on the one hand, a lack of vision and imagination and, on the other, a lack of money. The demand for primary education which undoubtedly exists, for girls as well as for boys, has not hitherto become to any large extent an effective demand—that is, a demand prepared to pay the price, whether in the nature of increased fees, private benefactions or local taxation. But there are signs that Bengal is beginning to realise its responsibilities in this matter. The Inspectress for West Bengal mentions two instances, where private individuals have started and maintained schools at their own expense; and a few public bodies have arisen, like the Nari Siksha Samiti, which make it their object to develop the system of girls' education. These things are full of cheer and promise. But the general tendency is still to depend on Government for whatever money is necessary.

15. **Curriculum.**—Since 1925, a revised curriculum has been in force in primary schools. One interesting feature is that English is introduced as an optional language; and both Inspectresses agree that there is a considerable demand for the teaching of English, although qualified teachers are still far too few. Hygiene is compulsory, but, for some reason, needlework is optional. The work of the needlework teachers, who go round from school to school and spend about a month in each, has been much appreciated; and the quality of needlework in schools has improved markedly in consequence. The salary and allowances of these teachers appear to be inadequate. Cooking is taught in many schools and some progress has been made in drawing, painting and clay-modelling. The scholarship system remains the same.

16. **Education of Muhammadan girls.**—In the sixth quinquennial report, it was pointed out that, of girls in public institutions in 1921-22, more than half were Muhammadans. In 1927, the figures are these: Arts colleges, 7; high schools, 172; middle schools, 501; primary schools, 220,330; and special schools, 196. Total, 221,206 or 53·7. (Other communities, 190,274.) The increase is more marked in some divisions than in others. Thus, in Chittagong, the increase is 48·8 per cent., in Burdwan 40 per cent., in Dacca 30·3 per cent., but in the Presidency Division only 11·3 per cent. And let it be remembered also that 96·7 per cent. of the Muhammadan girls at school are in the primary stage and a vast proportion of these have to be content with a single year in the lowest school class. What growth there is, is growth at the bottom and not at the top; in 1921-22, in the Chittagong Division, there were 2 Muhammadan girls above the primary stage; in 1926-27, there were 5. Meanwhile, the number in the primary schools had risen from 42,069 to 62,483.

But, if almost imperceptible, there is still advance, not retrogression. The two middle English schools for Moslems in Calcutta carried on their work. At the Shamshea Zenana Madrasah, middle English classes have been opened, and middle vernacular classes at the maktab at Sonatore. A junior madrasah for girls was started last year at Sutiakati in the Dacca Division. The Hussamia Girls' School at Comilla is meant for better-class *purdanashin* Muhammadan girls. Primary schools have multiplied, most of them unsatisfactory. The aid given by the District Boards or from the primary or maktab funds is scanty; and the resources of Government are equal only to grants to a few schools. The Inspectress for East Bengal comments on the growing number of Muhammadan girls who join training schools. The general supervision, however, appears to be inadequate. The Inspectress for West Bengal complains that the single Assistant Inspectress in charge of Muhammadan and Zenana Education in West Bengal finds it impossible to supervise the 833 aided maktabs under her charge.

17. **Zenana education.**—The object of the present system of zenana education is to give an elementary training to married *purdah* women. With the spread of education the time may come when every girl will have the chance of receiving some education before she is married. But that time is not yet; and, even when it comes, there will be room for a scheme to give more advanced instruction in zenanas. The existing system is thus "a temporary makeshift" and the difficulties in the way are many and serious—the shortage of suitable teachers (and here, more perhaps than anywhere else, personality counts), the waste of time involved in house-to-house visits, the distractions of married life, and so forth. And, thus, a centre which flourishes one year may suddenly fade the next. The Zenana Agency at Krishnagar was described in the annual report for 1922-23 as a

unique success; but in 1926 it had to be closed down owing to the lack of local interest.

Something, however, has been achieved. First, the position of the teachers was improved by the introduction of better pay on a time-scale. Secondly, an experiment is being tried, on lines based partly on the Parents' National Union scheme of England. The idea is to institute a correspondence system of instruction from a centre supplemented by a certain amount of visiting. Fortnightly assignments are given in Reading, Writing, Arithmetic, Hygiene and general information; and the visits of zenana governesses are to become gradually less frequent, so as to encourage independent work. Under the direction of Mr. West, Principal of the Dacca Training College, this scheme has met with some success—but it is not likely immediately to supplant the older methods of zenana education.

18. **Private schools.**—A certain number of private schools continued to exist. The total number of girls in them in 1926-27 was 8,737. A large proportion were Muhammadan girls in *Koran* schools. A new Mahakali *pathsala* was established at Faridpur, on the model of the one at Mymensingh. The aim of these institutions is to teach the domestic and religious duties of Hindu womanhood and the number of pupils in them is 256.

19. **Finance.**—The total expenditure on schools for girls rose from Rs. 17,11,666 in 1921-22 to Rs. 22,07,483 in 1926-27. Of this, Rs. 12,97,200 or 58·7 per cent. came from public funds, as against 61·97 in 1921-22.

The expenditure on the Bethune College in 1926-27 was Rs. 84,369, Government contributing Rs. 74,118. The cost per head has increased steadily; in 1916-17, it was Rs. 461, in 1921-22, Rs. 555, in 1926-27, Rs. 649. Towards this, fees paid Rs. 79: the balance was met from provincial revenues. As long as the number of pupils is small, the cost per pupil in Government colleges will remain high. But the expenses of the missionary colleges are comparatively small, largely owing to the much lower scale of salaries.

The total expenditure on high schools and secondary schools generally is shown in the following table:—

All secondary schools.

Year.	Expenditure on high schools.	Total expenditure.	Contribution from public funds.	Cost per pupil.
	Rs.	Rs.	Rs.	Rs.
1921 22 ..	3,24,795	5,84,889	2,94,191	64
1926-27	4,31,095	7,82,284	3,72,831	60
Increase or decrease ..	+1,06,300	+1,97,395	+78,640	−4

The cost per pupil varied very considerably in different divisions. In 1921-22, the average cost in Chittagong Division was as high as Rs. 114, but in 1926-27 it fell to Rs. 70. This is the most striking reduction; elsewhere, there is either a small rise or a small fall. In Rajshahi, the cost per head is only Rs. 37·2, instead of Rs. 42·8, whereas in Burdwan it rose from Rs. 28·2 to Rs. 39·8. It is worth while to compare these figures with the corresponding ones for boys. The cost per pupil in boys' schools is Rs. 28·1. But, whereas in Chittagong, it costs Rs. 47 more to educate a girl than a boy, in Rajshahi the difference is only Rs. 7·6.

The total expenditure on primary schools in 1921-22 was Rs. 8,45,232, of which Rs. 6,01,638 or 71·2 per cent. came from public sources. The figures for 1926-27 are Rs. 10,76,463 and Rs. 7,19,008 or 66·7 per cent., respectively.

The cost of maintaining a primary school was Rs. 73·7 instead of Rs. 69·5 in 1921-22. Here again, the cost varied from Rs. 33 per school in Chittagong Division to Rs. 125·1 in Burdwan Division. The cost per head in 1921-22 was Rs. 3·3, in 1926-27, Rs. 3·2. The

lowest was in Chittagong, with an average of Re. 1·4, the highest in Burdwan with Rs. 5·3 The expenditure per head in many girls' primary schools is smaller than in boys' schools, for the reason that many girls' schools are maintained by the teachers of the boys' schools, who are paid only a small sum for the additional work.

20. **Public interest.**—The work of the Nari Siksha Samiti has already been referred to; it indicates the arousal of indigenous interest in the vital problem of women's education. The Tripura Hitashadhini Sabha of Tippera has also rendered service, chiefly by examining girls and awarding prizes. The Inspectress for East Bengal reports that a friendly feeling has taken the place of the strained relations between parents and teachers during the non-co-operation period and parents can now often be persuaded to visit schools and make suggestions. But the most significant event of the quinquennium was the first conference of the Bengal Women's Education League in February 1927, when educated women of all religions and races met to discuss the problems of women's education. Papers were read, resolutions passed and a continuation committee appointed. Already the League has received two references from Government and it is preparing to embark on a large, constructive programme. That women have begun to talk and think of the education of women is perhaps the most hopeful feature in this chapter of our educational survey.

CHAPTER VII.

The education of Muhammadans.

1. **Statistics and comments.**—The number of Muhammadan pupils in all educational institutions for Indians rose, during the period, from 880,374 to 1,139,949, an increase of 29·4 per cent. Of this, 9,13,918 were males and 226,031 females. The increase, if not remarkable, is yet satisfactory at first sight. But, on a nearer view, the picture appears much less roseate.

Moslem pupils are found in general institutions side by side with Hindus and others, but they have their own special and exclusive institutions as well. Let us reckon the number of Muhammadan pupils in the former:—

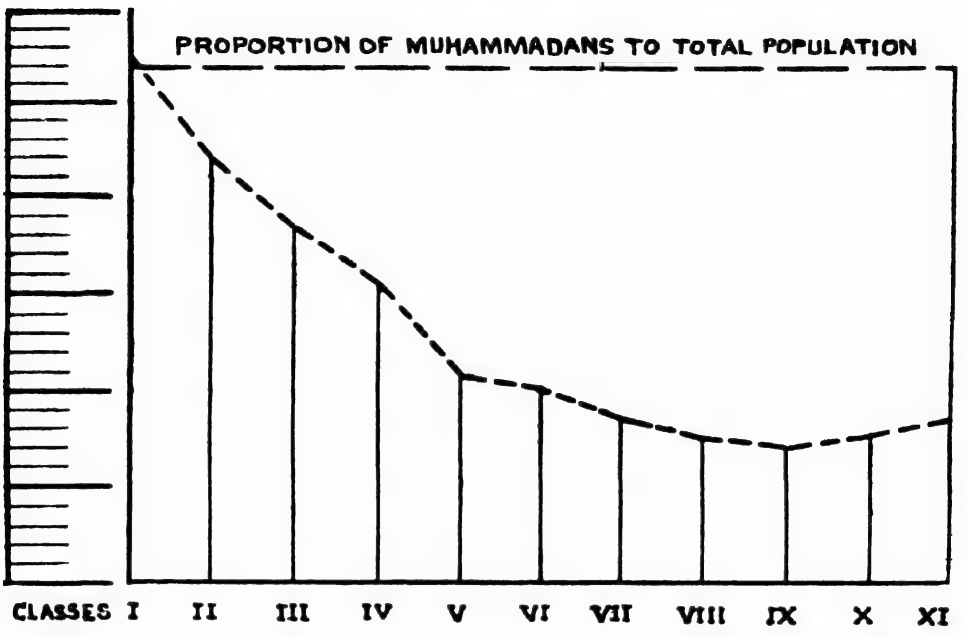
Muhammadan scholars in general institutions.

Year.	Universities and arts colleges.	Percentage.	Professional colleges.	Percentage.	High stage.	Percentage.	Middle stage.	Percentage.	Primary stage.	Percentage.	Total.	Percentage.
1921-22	2,175	12·8	440	9 4	15,715	17·1	16,047	20·9	784,874	49 5	819,251	46·1
1926-27	3,410	14·2	886	14·06	16,049	15·5	18,567	19·3	994,855	51·4	1,033,770	47·7

The most striking feature of this table is the relative decline in the number of Muhammadan pupils in the high and middle stages of instruction. This decline is not new, but a continuation of a movement that was noticed in the previous quinquennium. In 1916-17, the Muhammadans formed 19·7 per cent. of the pupils in the high stage, in 1921-22, 17·1 per cent., in 1926-27 only 15·5 per cent. In other words, in secondary education the community is not keeping pace with the general progress. It is true that there is advance in higher education and in the primary stage. But the progress in primary education is more apparent than real, for many of the pupils never pass beyond the lowest class, and the wastage is enormous. The figures for Chittagong Division will illustrate this. The Inspector writes: "While the total number of Muhammadan children attending school is 283,000 out of a total of 408,000 or approximately 70 per cent., if one excludes class I the figures are 50,000 out of a total of 101,000 or less than 50 per cent. If one excludes classes I and II, the figures are even more illuminating, for then the percentage of Muhammadans falls to 22 per cent."

The following is the percentage of Muhammadan boys in boys' schools in the different classes:—

Class I, 57·3; class II, 44·6; class III, 37·2; class IV, 31·5; class V, 22·1; class VI, 20·7; class VII, 17·7; class VIII, 15·8; class IX, 14·3; class X, 15·7; class XI, 16·8.



Graph to show the Proportion of Muhammadan boys in different classes of boy's schools.

2. **Causes retarding progress.**—There is, then, little room for congratulation on the progress of the community in education. The forces that retard progress are the same as those exposed in the fifth quinquennial review—the apathy of the people, the dispersion of the Muhammadan population in villages often far from secondary schools, the scarcity of Moslem-managed high schools, the preference for special institutions like madrasahs and maktabs controlled by Moslems and teaching Islamic ritual and religion. These causes are still operative and apparently in no diminishing measure. Add to them the poverty of the mass of Muhammadans who are small farmers or peasants.

3. **Facilities for Muhammadan pupils.**—It cannot fairly be said that, in general institutions, facilities have been lacking for the entertainment of Muhammadan pupils. During the period, the Islamia College—of which a description has been given in Chapter III—was established in Calcutta, affiliated to the University and reserved for Moslems. In the Chittagong College, the minimum percentage of places reserved for Muhammadans has been raised from 25 to 30. One-fourth of the places in the Bengal Engineering College and the Ahsanullah School of Engineering has been reserved for Muhammadans since 1925. There are many secondary schools meant wholly or mainly for Muhammadans, like the Chittagong Moslem High English School. There are 8 such in Rajshahi Division and no fewer than 16 in Dacca Division. A certain percentage of seats in Government and aided high schools are reserved for Moslems. Scholarships, stipends and free-studentships are bestowed on them liberally. Special Muhammadan inspecting officers are appointed as well as Muhammadan assistant masters and Maulvis in Government and aided schools. Details of some of these are given later.

4. **Matriculation results.**—In spite of it all, the progress is very slow. The results of the Matriculation Examination confirm the inferences drawn from the other statistics. Figures are available from two divisions, Chittagong and Rajshahi. The number of Muhammadan candidates who passed in 1921-22 was 969 out of a successful total of 3,284 or 29·5; in 1926-27, there were only 306 Muhammadans in a list of 1,403 or 21·8 per cent. The raising of the Matriculation standard seems to have affected the Muhammadans more than other communities.

5. **Special Muhammadan institutions.**—One very important reason for the slow increase of Muhammadan pupils in general schools is, as has been pointed out, their preference for madrasahs and maktabs. That the community desires these separate institutions and that they are popular cannot be denied. One must sympathise with some of the underlying motives—especially with the conviction that only in separate institutions can " the traditional and revered ideals of Islamic culture and Islamic piety " be preserved. But, on the other hand, as one Inspector puts it, " nothing is likely to perpetuate the present unfortunate communal differences more than the separate education of members of the different communities." He goes on to add: " The maktabs and madrasahs are extremely inefficient. This is not prejudiced criticism, but is the unanimous verdict of the Muhammadan Inspectors . . . It is extremely unlikely that the products of such institutions will ever be able to compete successfully with those who have been taught in ordinary high schools. This is the private opinion also of many Muhammadan gentlemen." But this is by no means the opinion of all Inspectors.

The special institutions for Muhammadan pupils fall into five classes—Islamic intermediate colleges, madrasahs—high, middle and junior—maktabs, Koran schools, muallim-training schools. Something must be said of each of these.

(1) **Islamic intermediate colleges.**—The Islamic intermediate colleges are institutions that aim at the same standard as the other intermediate colleges and lead the way to Islamic studies in Dacca University. There are at present three of them, viz., Dacca, Serajganj and Chittagong. The colleges at Dacca and Chittagong are Government institutions and that at Serajganj, which acquired this status in 1923, is an aided institution. With other intermediate colleges and all high madrasahs, they are under the Board of Intermediate and Secondary Education, Dacca, and conduct a course which includes, besides English and the vernacular, subjects like Fiph and Usul, Hadis, Logic, Koran, Kalam and Islamic History, and forms Group C of the intermediate courses of the Board. The total number of students in the intermediate classes was 119 in 1926-27.

(2) **Madrasahs—high.**—The madrasahs are of two broad types, old and reformed. The Reformed Madrasah scheme was introduced in 1915 and was adopted by many of the existing institutions. At present, there are 42 madrasahs of the old type and 495 of the new; but occasionally, from conservative quarters comes a demand for the old type, the reformed madrasahs being regarded as merely modified high and middle English schools.

General statistics of progress are given below:—

	High madrasahs.	Pupils in high madrasahs.	Other madrasahs.	Pupils in other madrasahs.	Total of madrasahs.	Total of pupils.
1921-22 ..	8	1,196	329	23,840	337	25,036
1926-27 ..	17	4,204	521	46,795	538	50,999

The high madrasahs are practically high schools on an Islamic basis, combining religious and secular education. Of the total number of 17, 3 are managed by Government, 10 aided and the rest are unaided. They are all under the control of the Dacca Secondary Board, which is endeavouring to bring them " within the pale of the General Educational scheme." The Board conducts the High Madrasah Examination for pupils from the reformed madrasahs and successful candidates are permitted to take the Islamic group of subjects for the Intermediate Examination. English and the vernacular are, of course, compulsory. The number of candidates who appeared in 1926-27 was 218 and 115 passed.

The middle madrasahs are middle English schools, in which Urdu is taught in all classes and a little Arabic in some. There were 12 such with 983 pupils in the Dacca Division in 1926-27 against 20 with 1,099 pupils in 1921-22. They constitute a vanishing type.

The junior madrasahs correspond to the middle English schools, but the course is heavier. The pupils learn four languages, English, Bengali, Arabic and Urdu; but these institutions are popular and have grown in numbers. The teaching often leaves much to be desired and the salaries of the teachers are by no means adequate, in spite of Government aid. Fees were raised in all Government

madrasahs in 1923-24, but, generally, the madrasahs are cheaper than the ordinary secondary schools. Manual instruction of different kinds is given in some of them, but not very effectively. The junior madrasahs are more popular in rural than in urban areas, for class VI, the top class, of the madrasah is only equal to class V of a high English school, so that, where high schools exist, parents prefer to send their boys to them to save a year.

There is a final examination, for which, in 1926, 1,228 candidates appeared and 731 passed.

The largest and most important of the old type of Madrasahs is the Calcutta Madrassah, which has provision for advanced Islamic courses. Executive action has not yet been taken on the report of the Committee appointed at the close of the last quinquennium to inquire into its condition and make proposals for its improvement.

(3) **Maktabs.**—One of the chief features of the period was the spread of maktabs. In 1921-22, there were 14,673 maktabs with 401,754 pupils; in 1926-27, 20,723 maktabs had 628,446 pupils. The number of maktabs rose roughly by half and the number of pupils by more than half. Many of the indigenous Koran schools were secularised into maktabs and new maktabs sprang up, chiefly in East Bengal, thanks largely to Government grants.

A revised curriculum was introduced in 1925, which brought the maktabs into line with the ordinary primary schools. The chief difference is that books by Moslem authors are generally used as text books and instruction is given in the reading of the Koran and in Islamic ritual. The course is for 5 years. The chief advantage is that boys from maktabs are able to compete for the primary scholarships, as the compulsory subjects are the same in both classes of schools. But the fact that both secular and religious subjects have to be taught makes it desirable to have two teachers. Many maktabs at present have only one, as their resources are small, even when supplemented by a grant.

In each division, a special Sub-Inspector is now entrusted with the duty of inspecting maktabs. The 7 Government model maktabs were deprovincialised during the period as a measure of retrenchment.

(4) **Koran schools.**—The Koran schools teach the recitation of the Koran and a book on Islamic ritual in simple Urdu. Many of them are being secularised and transformed into maktabs.

(5) **Muallim-training schools.**—To meet the need for trained maktab teachers, special muallim-training schools have been established in various parts of the Presidency, although Dacca Division does not yet possess one. During the period, these schools adopted the new curriculum intended for the guru-training schools, with modifications. There are 3 schools of the old type in the Presidency Division, 1 each of the new type in Burdwan, Rajshahi and Chittagong Divisions.

6. **Scholarships and endowments.**—According to the new rules, in many public institutions, 15 per cent. of the Muhammadan pupils may be granted free studentships. But there is a general complaint that the age-limit prescribed for free studentships has prevented them from being fully utilised. Besides exemption from fees, a considerable number of "closed" scholarships and stipends are awarded to Muhammadan students. During the period, the following special scholarships were created:—

(*a*) Seven scholarships of Rs. 5 each a month, tenable for four years, awarded on the results of the Junior Madrasah Examination.

(*b*) Twenty-three stipends of Rs. 5 each a month, tenable for two years, awarded on the results of the Junior Madrasah Examination and intended to supplement the existing 23 Mohsin stipends of the same value tenable for two years, so that scholars might enjoy their stipends for the four years of the Senior Madrasah course.

(*c*) Six scholarships of Rs. 12 each per month and nine of Rs. 8 each per month, for two years, awarded on the results of the High Madrasah Examination.

(*d*) Five scholarships of Rs. 15 each per month and two of Rs. 10 each per month, tenable for three years, awarded on the results of the Islamic Intermediate Examination.

(*e*) Three junior scholarships of Rs. 10 each, tenable for two years, six senior scholarships of the same amount, for three years, and two graduate scholarships of Rs. 25 each per month, tenable for a year; the first to be held in any intermediate college in the Dacca area, the others in Dacca University.

(*f*) Nine junior scholarships and six senior scholarships of Rs. 10 each per month, tenable for two years, in any college affiliated to Calcutta University, and two graduate scholarships of Rs. 25 each per month, for two years, in Calcutta University.

(*g*) Two scholarships of Rs. 25 each per month, for three years, in the Mechanical and Electrical Engineering classes of the Bengal Engineering College; two others of the same amount in the Mining classes.

(*h*) Six scholarships of Rs. 15 each per month, tenable for two years, in the Sub-Overseer classes of the Ahsanullah Engineering School and four of the same value in the Overseer classes.

The Mohsin Fund is not included in the Education budget. During the period, a reduction of Rs. 3,516 was made in the expenditure under the Fund in order to balance the diminished income. Twenty stipends awarded under it were abolished and the value of 17 stipends reduced by amounts varying from Rs. 2 to Rs. 5.

Nawab Musharruf Hosain inaugurated a scholarship fund for Moslems, named after the late Governor of Bengal, Lord Lytton. The Nawab himself gave a donation of Rs. 20,000 and promised an additional Rs. 1,800 a year for six years; further donations have brought the fund up to Rs. 45,000. The interest is to be utilised for sending a Muhammadan to Europe for study every two years.

7. **Hostel accommodation.**—Many educational institutions have special Muhammadan hostels attached to them. In the Presidency Division alone there were 35 such hostels in secondary schools with 372 boarders. In Dacca University, the Muslim Hall has grown rapidly and, instead of its 87 students in 1921-22, had 208 in 1926-27. For intermediate students and school boys, there were 10 Muhammadan hostels at Dacca. The hostels in Calcutta continued during the period to house a large number of Muhammadan students. The Elliot Hostel has accommodation for 134 boarders, nearly all of whom are pupils of the Madrasah. The Baker Hostel with 200 places is meant for Muhammadan students in Calcutta colleges. The Taylor Hostel and the Carmichael Hostel are also non-collegiate hostels, one under the control of Government, the other of the University.

8. **Muhammadans in the department and in the teaching profession.**—In 1925-26, rules were laid down by the Governor in Council regulating the proportion of Muhammadans in the Education Department. Of direct appointments to the posts of Subdivisional Inspectors of Schools, Sub-Inspectors, Assistant Head Masters of Government high and normal schools, and English and vernacular teachers, 40 per cent. was to be reserved for Moslems, the percentage being raised to 45 in the course of three years.

The number of Muhammadans holding appointments in Government high, zilla and collegiate schools and as inspecting officers is shown in the statement below:—

Division.	Number of Muhammadan teachers.	Percentage of total number.	Number of Muhammadan inspecting officers.	Percentage.
Presidency (including Calcutta)	63	31·3	37	52·8
Burdwan	15	19·1	19	21·8
Dacca	53	26·3	52	53·06
Chittagong	27	32·9	33	61·1
Rajshahi	47	33·08	33	47·1
Total ..	205	31·8	174	47·3

It is evident that the proportion of Muhammadan inspecting officers is not unsatisfactory, but the proportion of teachers needs to be raised. In non-Government schools, the proportion of Muhammadans to other teachers is particularly low; and the higher the type of institution, the lower the percentage. The figures for Dacca Division are typical. The percentage of Muhammadan teachers in Government and Board schools, aided schools and unaided schools, respectively, are given. For high schools, the figures are 26·5, 20 and 13·5; for middle schools, 60·8, 32·9 and 21; for primary schools 65·3, 60·6 and 67;9.

The chief reason is the insufficient supply of Muhammadans with high academic qualifications. The Islamia College in Calcutta and

the Muslim Hall at Dacca will perhaps attract larger numbers towards University education. Government has provided those facilities which were perhaps necessary for a community that had much leeway to make up. But it depends on the community itself to take full advantage of those facilities and to work out its own salvation.

CHAPTER VIII

The education of Europeans and Anglo-Indians.

1. **Institutions and pupils.**—The European schools are, like the Anglo-Indian population, concentrated in a few places. Calcutta and Howrah have more than half the schools and the greatest variety. A dozen institutions, chiefly of the more expensive type of secondary school, are situated on the hills, at Darjeeling, Kurseong and Kalimpong. There are a few schools in considerable towns like Dacca, Chittagong and Asansol. Finally, along the different railway lines are dotted a certain number of small schools, intended for the children of railway officials.

Distribution of schools.

	Boys.	Girls.	Mixed.	Total.
Calcutta and Howrah	10	12	11	33
Darjeeling, Kurseong and Kalimpong ..	4	6	2	12
Asansol	1	1	1	3
Dacca	..	1	..	1
Chittagong	1	1	..	2
Along the East Indian Railway	..	1	5	6
Along the Eastern Bengal Railway	..	..	3	3
Along the Bengal-Nagpur Railway	1	..	1	2
Total ..	17	22	23	62

The total number of schools was thus 62, against 87 in 1921-22. But the decrease is more apparent than real and is chiefly due to a difference in the method of reckoning—the supplementary and technical classes attached to institutions are no longer counted as separate schools. In the number of pupils there is no diminution, even if there is no marked increase. In 1921-22, there were 10,702 pupils; five years later, 10,821, composed of 5,886 boys and 4,935 girls. The number includes, however, 1,685 non-Europeans. Of these, more than half were *quasi*-Europeans—Armenians, Jews and so forth—and the Indians proper were only 614.

The pupils were divided as follows in different types of institutions. It should be remembered that, officially, mixed schools are not recognised and they are classed as boys' or girls' schools according to the preponderance of either sex:—

	Institutions.	Boys.	Girls.	Total.	
Higher secondary—					
Boys	6	2,208	..	2,208	3,979
Girls	8	257	1,514	1,771	
Secondary—					
Boys	3	578	12	590	1,236
Girls	4	108	538	646	
Higher grade—					
Boys	8	1,635	528	2,163	4,252
Girls	11	248	1,841	2,089	
Primary—					
Boys	10	496	97	593	1,003
Girls	7	153	257	410	
Ungraded—					
Boys	1	157	..	157	157
Total ..	58	5,840	4,787	10,627	10,627
General Schools.					
Technical—Boys ..	1	38	..	38	38
Commercial—Girls ..	1	..	120	120	120
Training College—Girls ..	1	..	20	20	20
School for defective children	1	8	8	16	16
GRAND TOTAL ..	62	5,886	4,935	10,821	10,821

2. **Management and the group—unit system.**—The following table shows the distribution of schools according to management; it will be seen that two-thirds of the schools are sectarian:—

	Schools.		Pupils.	
	1922.	1927.	1922.	1927.
Government	4	3	302	351
Church of England	15	9	1,776	1,704
Church of Rome	42	28	5,726	6,155
Non-Conformist	4	4	657	748
Undenominational	20	16	1,987	1,515
Jewish	1	1	138	191
Armenian	1	1	116	157
Total ..	87	62	10,702	10,821

The fact that there are only a few managing authorities, each of which controls several schools, made it possible during the period to follow the policy of organising the schools under one management so as to form an educational unit. "In a complete group-unit, there would be every type of institution, from kindergarten to college, from orphanage to boarding school, with a suitable provision of day schools ranging from a free institution to the more expensive form of a big secondary day school." This policy has met with considerable success; and not least in the Bengal-Nagpur Railway system, where the unification of schools has been carried out beyond the provincial frontiers, thanks to the co-operation of the educational authorities of the other province concerned. The group-unit system allows each different management to erect its own educational ladder; and the interests of each school are considered, not in isolation, but in relation to the unit as a whole. But the system has its limits and limitations.

3. **Collegiate education.**—The highest rung of the educational ladder is the college and the university, but this is a step which the community has generally been reluctant to climb. During the quinquennium, however, the subject of university education for Anglo-Indians aroused a new and welcome interest. In some quarters, there was a feeling that the most satisfactory solution was the creation of an Anglo-Indian university. But the practical difficulties were insuperable; and many persons felt that it was a mistake to isolate the Anglo-Indian during the whole course of his educational career from the youth of the country with whom he must learn to work and live. And opinion generally has come round to the view that higher education for the European and Anglo-Indian must be developed in connexion with the local Universities. In 1923 the Anglo-Indian and Domiciled European Association, Calcutta, proposed that the two Government institutions at Kurseong should be turned into intermediate colleges and affiliated to Dacca University. But the proposal was impossible, as the sphere of that University is limited by statute to a small circle round Dacca. The only alternative was to find a way of approach from the European schools to Calcutta University.

There was already a footpath between the two. The Loreto House trained 39 Anglo-Indian girls for the Calcutta I.A. and B.A. and L.T. Examinations; but it stood alone in adopting the Calcutta courses. All other European schools prepared their pupils for the Cambridge Local Examinations. Even for them, however, a path had been blazed. As was reported in the last review, the University of Calcutta had recognised these examinations for purposes of admission to its colleges and courses. Under certain conditions, the Cambridge Senior Local was reckoned as equivalent to the Matriculation and the Higher School Certificate as a substitute for the I.A. and I.Sc. The last review described these facilities as "generous," but there were few who were eager to profit by this generosity.

The obstacles were various, partly economic and social. For one thing professional colleges, Government and other employers of labour regarded the Cambridge School Certificate as equal to the I.A. or I.Sc.,

a preferential treatment which made it unnecessary for most Anglo-Indian boys to pursue a university education as an economic necessity. The Inspector of European Schools urges that this differentiation should be abandoned in the interests, educational and political, of the community itself; and there is much force in his contention. Another difficulty was that the results of the Cambridge Examinations were published at a time which made it impossible for successful candidates to join Calcutta colleges at the beginning of the academic year; they had to wait several months doing nothing. This obstacle has, however, been recently removed by a resolution of the Senate allowing students appearing for the Cambridge Senior Local in December to join the first year college classes in January and those appearing for the Higher Certificate to join the third year classes in August, on condition that the admission would be cancelled if the students failed to pass in these examinations. European students who pass the Senior Local may now obtain a Calcutta University degree after 3 years and 3 months in a college. The way from the Cambridge Local Examinations to the Calcutta degrees has thus been made broad and easy.

But there are some who claim that the Anglo-Indian is a statutory native of India and demand that the European schools should train pupils for the Matriculation and the Intermediate. This, however, ignores the differences that distinguish the community from Indian peoples proper and that require and justify a different treatment in the school stage. On the other hand, there was truth in the criticism that the Cambridge Local Examinations were not adapted to Indian conditions—but recently changes have been made which render it more suitable; an Indian vernacular is now an intrinsic part of the examination; in geography, pupils are allowed to specialise in the geography of their own area and region; in botany, local flora may be used for illustration and study; and it appears probable that Indian history will receive due recognition. Nor can it be maintained that the Matriculation is a perfect test or that the courses leading up to it are above criticism. It is well that many, at least, of the European schools should conform to the Cambridge Local regulations. Such was the general opinion of the heads of schools who met in Conference to discuss these subjects in February 1926.

Some schools, however, have begun to experiment with the Matriculation and Intermediate. Besides Loreto College, St. Xavier's College—although not technically a European school—provided facilities for Anglo-Indian college students. In 1925 St. Joseph's College, Calcutta, abandoned the Cambridge in favour of the Calcutta examinations and started to prepare boys for the Matriculation and the Intermediate, the latter being regarded as the proper conclusion of the school course. St. Joseph's College, Darjeeling, has also obtained affiliation to the Intermediate stage; and it seems probable that some other schools will shortly follow suit. The proposed new Code of Regulations for European Schools contemplates the addition of collegiate classes to certain European institutions—and the next period will probably see definite advance along this line.

4. **Secondary education.**—The difference between the secondary and higher secondary schools has, in practice, tended to disappear and all of them now continue their courses to the Cambridge School Certificate Examination. "The greatest fault of these institutions," writes the Inspector, "was that their courses have generally been too academic." But some improvement has been effected. Where, in 1921, there was only 1 school with a manual workshop, now there are 3. There are 7 schools, instead of 6, which teach science. More girls' schools now make provision for domestic science. But still there is something rather stilted in European education. "The curriculum has been cast in a particular mould owing to the overwhelming shadow cast in India by the public school and the older universities." There is need for the infusion of new educational ideas and of an alert spirit of inquiry and experiment.

Another source of weakness has been the financial instability, which has operated hardly on many schools during this period. But, insofar as it compelled schools to exercise stricter financial control, this was good discipline. In two cases Government came to the rescue of schools crippled by debt. Two schools were fortunate enough to receive bequests, which set them on their feet again. The gift of eleven lakhs by Sir Paul Chater has made La Martiniére perhaps the best endowed school in India; and St. Paul's, Darjeeling, has recently received a bequest of Rs. 3 lakhs by the will of the late Lord Cable.

The results of the secondary school examinations in 1926-27 were as follows:—

	Sent up.		Passed.	
	Boys.	Girls.	Boys.	Girls.
Cambridge Junior Certificate ..	84	68	67	45
Cambridge School Certificate ..	83	66	54	44
Cambridge Higher School Certificate ..	6	2	..	1

It will be noticed that the numbers appearing for the highest examination were small and the result far from satisfactory. Taking the past five years together, 19 candidates appeared for the Higher School Certificate, but only 5 passed. The inference is that this course and examination play a very small part in the European educational system in Bengal.

5. **Higher grade or pre-vocational schools.**—The creation of the higher grade school is one of the most noteworthy events of the period. "During the year 1922," writes the Inspector, "there was established in this province a class of schools which, directing their curriculum through a reasonably wide general course of education up to standard VI, led that curriculum through the last two years in standards VII and VIII along lines of pre-vocational preparation with the intention of providing a direct entry into the ranks of skilled industry for that class of child who must work immediately on leaving school." Elsewhere the Inspector points out that this type is peculiar to Bengal and has anticipated in a marked degree the suggestions of a committee in England presided over by Sir Henry Hadow.

All of the higher grade schools are complete schools, including primary, middle and upper departments. It is in the last two classes alone that, in addition to the conventional subjects of English, Arithmetic and Drawing, attention is specially focussed on one or other of the pre-vocational courses.

Of these courses, there are five at present. The Commercial course, which aims at providing some training in commercial subjects and business methods, has proved useful for girls, but not for boys. The Domestic courses A and B, for girls, have had a very limited appeal. The Industrial course, designed to fit boys to be engineering apprentices, has proved its worth and happened, indeed, to lead directly to the examination of the Board of Control for Apprenticeship. The Telegraph course, managed and planned by the Indian Telegraph Department, was only attempted in one school and has there been discontinued. On the results of the final examinations, two exhibitions were given to the best boys and two to the best girls.

The experience of the period has revealed the weaknesses of the scheme. Some of the courses are too narrow and rigid; more courses are needed; some concentration is necessary; a stronger link to higher institutions is desirable; the basic general education is often too slight. Attempts are being made to remedy these defects and to improve further the quality and widen the appeal of the higher grade schools. A new course in Salesmanship for girls, to be conducted by the Young Women's Christian Association has already been planned and sanctioned; and courses in Agricultural science are also in prospect, especially at Kalimpong, where the St. Andrew's Homes have worked out a scheme for emigration to the colonies. The old elementary schools have either been reduced to the primary grading or are encouraged to rise to the status of higher grade schools. The whole experiment is full of promise and may offer valuable lessons to those who are perplexed by similar problems in the sphere of Indian education.

In the Higher Grade School Final Examination, 42 boys and 21 girls appeared and 17 boys and 18 girls passed. The far higher percentage of successful girls suggests that the courses mainly intended for boys need remodelling.

6. **Primary education.**—The primary stage includes the Kindergarten and classes I—IV. Most of the primary schools proper belong to the different railways and are usually small station schools. Others are situated in Calcutta and Howrah, and many of them are free schools.

It seems possible to base on them a scheme for free and compulsory primary education for all children of the community. At the end of the primary stage a scholarship examination is held; but it seems desirable to enlarge it into a general examination for all primary school children.

7. **Teachers.**—In 1921-22, there were 657 teachers, including 61 graduates; five years later, the number had increased to 691 with 74 graduates; 378, including 45 graduates, were trained. For the training of men teachers, there were no facilities in Bengal; but the Government of Bengal assist men who wish to proceed to the Chelmsford Training College at Ghoragali for training as elementary teachers; and, during the period, two were sent. Women teachers are trained at the Dow Hill Training College, Kurseong, of which a fuller account is given later.

8. **Scholarships.**—The total sum of money expended on scholarships in 1926-27 was Rs. 31,512. The following were awarded during the year:—

		Value per mensem.	Number.
		Rs.	
1.	Higher Grade Schools Scholarship ..	24	2
2.	Ditto ditto ..	12	4
3.	Exhibitions (per year)	150	2
4.	Ditto (per year) ..	100	2
5.	Junior Secondary	12	4
6.	Senior Secondary	20	6
7.	Special (arts. 107 and 108 of the Code) ..	..	79
8.	Special (arts. 107 and 108 A of the Code) ..	..	9
9.	Special (outside the Code)	..	4
10.	Special (outside the Code)—in special schools	..	10
11.	Stipends (art. 48 of the Code) ..	..	18
12.	Final Scholarship	40	1
13.	Collegiate	30	3
14.	State Scholarship (per annum) ..	£250	1
15.	Doveton Trust Fund (up to a maximum) ..	40	40

9. **Expenditure.**—The total expenditure according to sources was as follows:—

	Provincial revenues.	Municipal grants.	Fees.	Endowments, etc.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.
1921-22 ..	11,54,433	14,057	15,31,787	9,11,563	36,11,840
1926-27 ..	10,63,381	32,443	15,96,792	12,01,488	38,94,104
	—91,052	+18,386	+65,005	+2,89,925	+2,82,264

It will be observed that the contribution from public funds has decreased by nearly a lakh and the income from endowments and subscriptions increased by about Rs. 3 lakhs. The boarding charges amounted to Rs. 13,14,262.

A proposal for the enhancement of annual grants to European schools by Rs. 30,000 was submitted to Government.

Various special grants were given by Government, chiefly for new buildings, during the period, *e.g.*—

	Rs.
St. Andrew's Homes, Kalimpong	60,000
Calcutta Free School	29,000
Loreto Orphanage, Entally	20,000
La Martinière, Calcutta	30,000

In 1924 the Legislative Council rejected the sum of Rs. 99,000 provided in the budget for direct grants to non-Government primary schools for Europeans; but the money was eventually found by reappropriation. In that year, an additional grant had to be made to the Kalimpong Homes. The method of granting aid to this institution was changed; and instead of special capitation and other grants,

it was brought under the operation of the ordinary rant-in-aid rules for European schools. It was also made clear that special grants to European schools could only be given in extraordinary cases.

10. **Buildings.**—Thanks to Government grants and other gifts, it was possible to carry through some major schemes. The Queen's Hill School, Darjeeling, was removed to a fine modern building on a new site and Government gave Rs. 78,000 towards this project. At the Loreto Convent, Entally, a new block was built and large repairs executed. St. Thomas's Girls' School was removed to Kidderpore. A new school, St. Vincent de Paul's, was built at Asansol, another step in the removal of the slum boarding schools of Calcutta to more salubrious environment; this was made possible by Sir Percy Newson's gift of Rs. 10 lakhs, recorded in the last review. To this bequest also is due the fine new dormitory at Dow Hill School. A new school has been created at St. James's, Calcutta, and plans for further buildings have been made. The Jewish Girls' School is under reconstruction. The Jewish community has also contributed to the new Elias Meyer Free School for Jewish Boys. At Kalimpong, a new residential Convent of St. Joseph has risen and received recognition. The quinquennium has therefore seen a great improvement in this direction.

11. **General activities.**—The Dalton Laboratory Plan was tried in 3 schools, during the period—St. Paul's, Darjeeling, the Diocesan Girls' School, Darjeeling, and the Pratt Memorial School, Calcutta—but it was everywhere abandoned after a short experiment. But, in other ways, valuable additions have been made to the range of school activities. In 1923 the school singing competition, managed by the Young Women's Christian Association, was taken over and remodelled. Music is chosen at the beginning of each year and the competition is held at Calcutta and at Darjeeling. The results have been very encouraging. "Schools," says the Inspector, "have made their singing classes a real and living thing and, by engaging (in some cases) special teachers, have improved in a remarkable manner." In December 1926 a public concert was given in Calcutta by the combined choirs. Candidates have continued to appear for the examinations of the Trinity College of Music, London, and those of the Associated Board of the Royal Academy of Music and the Royal College of Music, London. These latter were first held in India in 1925. Both in 1925 and in 1926 one of the two scholarships, tenable in London for two years, offered for the whole of India, was awarded to a candidate from Bengal. In conjunction with the Inter-Schools' Singing Contest, an Elocution Competition was also inaugurated in 1926.

In 1923 a very successful exhibition of pupils' work was held in the hall of the Calcutta Free School and this was repeated the next year at the La Martinière. They "served to show that there was a wealth of artistic talent in the schools and, by exemplifying special work and special methods of teaching, they had a very sound pædagogical value."

In 1923, the European Schools, Bengal, Athletic Association was inaugurated and welcomed by all schools. The annual sports meetings have been largely attended; and in 1925 inter-school competitions were started in hockey, cricket, football, swimming and boxing. Physical education has been much improved, especially in girls' schools, by the training courses held by the Young Women's Christian Association Physical Directress. The course extends from January to August and in 1926, 20 teachers and students entered for the final examination and all passed. Since 1926 an annual Inter-School Drill Competition has been held in two sections, for juniors and seniors, and many schools competed. The Physical Directress also visited the hill schools and reported to Government on the state of physical education in them.

12. **New Code of Regulations.**—The Code of Regulations, last revised in 1910, had become out of date; and in 1922 a completely new draft was made. This was printed and circulated to teachers and managers and discussed in a conference in March 1923. In the summer of that year it was again revised by the Inspector in the light of the criticisms made and submitted to the department. Further changes were made in the following years and in 1926 it assumed more or less definite shape. Government have given a general approval,

The intention of the Code is towards a measure of freedom in development directed towards a definite aim. A way of approach is provided towards the higher courses of Calcutta University. The Code contemplates a register of teachers and a State Provident Fund—two measures which will improve the quality and status of teachers. Free-boarding grants to secondary schools are to be generally discontinued. It proposes the delegation of powers to the Inspector of European Schools in respect of the award of free boarding grant, maintenance grant and cadet grant.

13. **Government institutions.**—Government maintains, as before, three institutions for Europeans at Kurseong. The revision of the pay and prospects of the staff took place at the end of the previous quinquennium; in 1922, it was further decided that the Head Master of Victoria School and the Principal of the Dow Hill Training College and School should both be placed in the Indian Educational Service. In 1922, a joint hospital was opened with wards for boys and girls in separate wings. In 1921, Governing Bodies were established for the respective schools; and the next year a standing committee was formed, consisting of the local Governors and the Inspector and Inspectress, to advise upon ordinary current business and handle matters of detail. The scale of fees has been revised to the advantage of the total fee income.

In the last period, the Dow Hill Training College and Girls' School were placed under one head. But there are strong arguments for carrying this unification further. The Inspector suggests in his report that economy in work and money might be effected and much duplication avoided by having a joint Principal for all the three institutions. The Principal would be the administrative head, but each institution would have its own educational head. But this is a large problem, which cannot be discussed in this report.

The Training College trains women teachers; the course is for two years; the number of places is 20. In 1921, there were only 2 second year students, but efforts to bring the institution up to its maximum strength have been successful. During the period, 43 students have passed out and most of them have fulfilled the agreement to serve Bengal schools for two years. But the basis of admission is too narrow; and the College turns out only teachers for the Kindergarten and lower classes. It makes no provision for training in domestic subjects and art. The Inspector proposes a comprehensive scheme for the development of the College. He suggests that it should be affiliated to Calcutta Unievrsity for the B.A., B.Sc., and B.T. courses, and admit three types of students—those who will take up a general academic course, those who will take an academic course and a professional training as specialist teachers, those who will undergo Kindergarten training or special training as domestic science or art teachers.

The Dow Hill School has been improved by the filling up of vacancies for teachers of Science and Geography. A splendid new dormitory of three storeys to accommodate 90 girls has been built, thanks to Sir Percy Newson's gift. A vernacular mistress has been appointed and Bengali has taken the place of French in the curriculum. There is an excellent system of teaching Domestic Science; and the school is the best equipped girls' school in the province for games and physical exercise. A mistress of physical education has been appointed to the staff.

In the Victoria School, certain posts, long vacant, were filled during the period and the staff is now practically complete. But there is need of better provision for science, manual work and art; and plans are being prepared for the erection of separate buildings for this purpose. A scheme for a preparatory school proved abortive.

The expenditure and receipts in 1926-27 were as follows:—

	Expenditure.	Receipts.
	Rs.	Rs.
Training College	30,165	..
Dow Hill Girls' School	1,50,253	40,719
Victoria School	1,44,349	45,109

14. **Bruce Institution.**—The control of this charity is vested, as previously, in a board of 12 Governors, of whom 7 are appointed by Government and 5 are *ex-officio*. The Director of Public Instruction, Bengal, is the Honorary Secretary to the Board. At the close of the year 1926 there were 104 wards on the rolls.

15. **Sussex Trust.**—The following expenditure was incurred during 1926-27 out of the income of the Sussex Trust Fund:—

(1) Construction of dormitories for the Dow Hill Girls' School, Kurseong—Rs. 36,285.

(2) Scholarships for European boys—Rs. 4,053-15-6.

(3) Scholarships for European girls—Rs. 3,108-7-9.

(4) Scholarships for domiciled community—Rs. 3,342-8-3.

(5) Maintenance of primary school for Indian boys—Rs. 179-5-9.

(6) Education of depressed classes—Rs. 2,725-10-3.

(7) Scholarships for passed students of Bengal Engineering College—Rs. 4,187-3-9.

Altogether 31 scholars profited by the scholarships given. Of them 6 are enjoying scholarships in the United Kingdom.

CHAPTER IX.

The education of other special classes.

1. **Chiefs and Nobles.**—In Bengal, there is no special school for Chiefs' sons, but in connection with the Nawab Bahadur's institution at Murshidabad, there is a hostel, under the control of the European Head Master, for boys of the Nizamat family. The number of boys was 26, the same as in 1921-22 and 1916-17. The expenditure from public revenues was Rs. 6,195 in 1926-27.

2. **Backward classes.**—Very considerable progress has been made in the education of the backward classes, if one may judge from the numbers attending schools and colleges:—

	1921-22.			1926-27.		
	Boys.	Girls.	Total.	Boys.	Girls.	Total.
Arts and professional colleges	197	..	197	1,595	3	1,598
High stage ..	1,368	..	1,368	5,991	5	5,996
Middle stage ..	1,928	27	1,955	8,738	49	8,787
Primary stage ..	80,080	11,183	91,263	274,554	35,844	310,398
Special and indigenous institutions ..	1,586	183	1,769	16,906	494	17,400
	85,159	11,393	96,552	307,784	36,395	344,179(a)

(a) Includes backward classes among Hindus only.

That is, where there were two "backward" children at school five years ago, now there are seven. But this is not all a real increase, for during the quinquennium some new tribes or classes were placed on the list of educationally backward classes, which accounts in part for the apparent increase. Such are the Jugis or Naths, the Mahishyas, the Sutradhars, who between them, in Chittagong Division, for instance, contribute no fewer than 10,315 pupils to a total of 21,498. But, even when this allowance has been made, there is no doubt that education has been spreading among the backward classes at a rate much faster than among other classes. The growth is, of course, mainly at the bottom; and a large number of pupils never pass the lowest class in the primary school.

Much of the credit for this progress must be given to the various missionary societies, which have engaged in work among the backward classes. Nor should the Society for the Improvement of the Backward Classes be forgotten; it maintains over 400 schools in different parts of the Presidency, with the help of an annual Government grant, recently increased to Rs. 9,250. Since 1922-23, Government have made an additional sum of Rs. 20,000 per year available for the education of the backward classes. Part of this amount has gone to provide facilities for the training of teachers and part for special scholarships. But the most gratifying feature is the keenness of some of the backward classes, especially the Namasudras, to help themselves.

3. **Namasudras.**—The Namasudras are specially numerous in the districts of Faridpur and Bakarganj (Dacca Division), but they are found in other parts of Bengal in smaller numbers. In Dacca Division, one in twenty of the total population of Namasudras is at school, the increase during the quinquennium being 68·1 per cent. In the two districts mentioned, no fewer than 9 high schools and 17 middle schools—many of them maintained by the community—are attended mainly by Namasudra pupils, and they have special hostels in several other institutions. In Chittagong Division, the Namasudra pupils increased by 110 per cent. The spread of education among them marks the Namasudras as destined speedily to emerge from the position of a "backward" class.

4. **Santals.**—The Santals also deserve special mention. In Bengal, they are found chiefly in the Burdwan and Rajshahi Divisions; and here, in six districts there are Boards of Sontal Education, "special *ad hoc* bodies, started mainly at the instance of local Christian Missionaries." Three of these, in Birbhum, Rangpur and Malda, were established during the period. Various schemes for the expansion of Santal education were approved by Government, after the close of the quinquennium. The school at Bhimpore, "which is the central school and coping-stone of a large system of primary schools in the north-western part of the Midnapore district, established by the American Baptist Mission," was recently raised to the high school status and, in 1927, had 192 pupils on the rolls. Reference has already been made to the interesting experiment of teaching by the "project" method, which is in operation in this school.

We may also notice in passing the Pods, who have started schools in Khulna and Jessore and the Maghs of the Chittagong district, whose education appears to have suffered a set-back during the period.

5. **Aboriginal races.**—The aboriginal races are limited chiefly to Dacca and Chittagong Divisions. In the district of Mymensingh, there were 45 schools (one a middle school) with 1,202 pupils of the aboriginal tribes. In Chittagong, a whole district, the Chitttagong Hill Tracts, constitutes a backward area, inhabited by no fewer than 13 distinct tribes, numbering in all over 132,000. There, there is a high school—the Rangamati Government High School—and 2 middle schools (one new) and 151 primary schools. The Rangamati school is largely residential and has 3 hostels attached; the Matriculation results are excellent; but the training given is perhaps too literary, with little relation to the environment of the pupils. The industrial school proved a failure and in its place was substituted a manual training class at the high school. The number of primary schools dropped from 172 to 151, some unaided schools which were hampered for funds being abolished. Thus, no actual, tangible progress has been made in this region; if anything, there is a slight retrogression.

6. **Miscellaneous classes.**—In different places, there are schools for special classes of children. Thus, in the Dacca district, there are a few primary schools for Muchi children and the children of fishermen, for whom the Chittagong Municipality also provides schools. These schools are free. So are the schools in the coal mines area of the Burdwan district, 10 in number. In the Presidency Division there are special schools at Titagarh, Ichapur and Kankinara for the children of mill-hands. In the Darjeeling and Jalpaiguri districts, there were 136 tea-garden schools, as against 94 in 1921-22. The number of pupils was 2,909 and the total cost of maintenance Rs. 18,141, to which Government contributed Rs. 8,968. The free primary schools started in the colonisation area of the Sunderbans have increased their numbers from 339 in 1921-22 to 543.

There were 8 schools in the cantonment areas of Barrackpore and Dum-Dum, with 493 pupils. One of these was a high school for boys, 1 a middle school for girls and the rest primary schools, 4 for boys and 2 for girls. Seven were aided and 1 unaided. The total expenditure was Rs. 24,437, of which Rs. 6,247 came from provincial revenues.

The total number of Jain students in 1927 was 14 in colleges, 333 in secondary and primary schools. The Jain school at Bogra, started in 1923-24, seems to have fallen on evil days. The number of pupils sank from 57 in 1924 to 10 in 1925.

7. **Criminal classes.**—Not much information is available about the education of children of the so-called "criminal tribes." The Salvation Army runs a school for the Karwal Nuts in the colony at

Saidpur (Rangpur district), which is attended by 59 persons. In Calcutta, the Reformatory School, which has been in existence for some years, has been transferred from the Jail to the Education Department. It has a general section with 3 teachers and a technical section with 4 teachers and a drill instructor. The number of pupils, all under 15, is 51. It is proposed to divide juvenile offenders according to age, to establish an industrial school in Calcutta for those under 14 and to send the others to a "Borstal Institution" at Bankura.

8. **Defective children.**—The Home at Kurseong for physically and mentally deficient European children carried on its work and had 16 inmates in 1927.

Of schools for the deaf and dumb, there are 6 in the Presidency, including 2 new schools at Chittagong and Faridpur. The total number of pupils was 180. The teaching is of the primary standard, but instruction is also given in other subjects like carpentry, tailoring, printing, hand-loom weaving. Of these, the largest is the Calcutta School, with 109 pupils, of whom about two-thirds are boarders. Several of the day pupils are girls. There is a teachers' training department, which has supplied teachers to deaf and dumb schools in Bengal and as far abroad as Baroda, Ahmedabad and Mysore. In the school department, besides a course in languages, mathematics and elementary science, there is an industrial and technical side, which provides instruction in drawing and painting and modelling, carpentry, sewing and printing. In 1926, the expenditure amounted to Rs. 39,736, which was met by Government grants (Rs. 13,100), a grant from the Calcutta Corporation, donations, fees and the receipts of the industrial department. Different District Boards give 25 stipends to deaf and dumb children tenable at this school and the Government of Assam gives 5 scholarships of Rs. 18 each. The progress made in the education of the deaf and dumb is gratifying, but when one remembers that the census of 1921 recorded 32,560 deaf-mutes in Bengal alone, it is evident that only the fringe of the problem has been touched.

The single Blind School in Bengal was transferred in 1925 from Calcutta to a spacious site in the suburbs at Behala, Government contributing over half a lakh of rupees towards the new building. The purchase of a motor bus allows day scholars to attend, but the great majority are boarders. In 1927, there were 57 pupils, 42 boys and 15 girls or, by religion, 36 Hindus, 3 Muhammadans and 18 Christians. The total expenditure was Rs. 26,198, of which Rs. 5,315 came from public revenues. In addition, the Corporation gives a grant, the Government of Assam awards 6 stipends and various District Boards also offer scholarships. The school has also been successful in attracting private gifts and the capital value of the endowments is nearly a lakh and a quarter. The institution attempts to train blind children to earn their own living; and typewriting and telephony are taught, as well as basket-making, chair-making, wool-knitting, sewing, weaving. General education is also given, up to the Matriculation standard and, in 1926, 1 student passed the Matriculation in the first class with distinction in two subjects. An ex-pupil pursued higher studies in College and University and, after obtaining a first class in M.A. in Philosophy, was appointed lecturer in one of the Calcutta Colleges. The Patna Blind School was started by another alumnus of the Calcutta School. A record like this shows what can be done for the blind and it is a matter for regret that similar institutions have not arisen in other parts of the province to alleviate the condition of the many thousands who are cut off by this affliction from the cheerful ways of men and many of the fairest pages of the book of knowledge.

CHAPTER X.

Professional Education.

Training of teachers.

A.—MEN.

1. **Colleges.**—In 1921-22, there were 118 students in training in the two training colleges at Calcutta and Dacca. The number fell to 92 in 1923-24, owing to the reduction of the number of stipends given, but in 1926-27 it rose again to 136. Of these, 25 were students preparing for the L.T.

Every year, therefore, about 100 graduates are trained for the teaching profession. When we remember that there are nearly 22,000 teachers in secondary schools and that only 1 in 50 of them are trained graduates, it is clear that the output of the training colleges is much too small, little more than is required to fill the places of the trained teachers who retire. At this rate, a very long period will elapse before the majority of teachers are trained.

But even this supply, a mere trickle as it is, was threatened at the source during the period. The Bengal Retrenchment Committee expressed the opinion that a teacher's own capacity and education were his chief qualification and that training made little or no difference. They recommended, therefore, that the training colleges should be abolished.

Against this view, however, Government reacted strongly. Lord Lytton, the late Governor of Bengal, in opening the new building of the David Hare Training College, said:

"The ceremony which I have come to perform may be taken as an emphatic declaration by the Government, that the teaching profession is no longer to be regarded as the last resort of those who are incapacitated for any other profession; that it is rather the most responsible and important of all professions; that those who embrace it require as good a training as those who enter any other profession; and, let me not hesitate to add, that our action involves also the recognition that trained teachers are entitled to adequate salaries."

The existing colleges have accordingly been retained and schemes have been proposed for the creation of two new colleges, one at Chittagong and one for women teachers in Calcutta.

The rate of progress is thus very slow; the trained teachers are a mere sprinkling; the atmosphere of many schools is hostile to all experiment, impatient of new methods and new ideas. The result is that trained teachers returning to their schools find themselves in uncongenial and unsympathetic surroundings and quickly lose their enthusiasm and initiative. Many teachers also go for training after some years in a school, during which they have become wedded to methods from which the one year spent in training is scarcely sufficient to divorce them. They come with opinions already formed and are not very ready to give them up. Here again cram, that blight of Indian education, thwarts the efforts for better things. What is learned at the training college often remains theoretical and unassimilated, regarded merely as necessary for a degree which has a commercial value and not as having any direct bearing on the daily routine of the teacher's task. This result may be avoided, partly by making the curriculum as practical as possible and making (as is done now) the student's success depend on his work throughout the year rather than in a final examination alone, and partly by attracting to the training college young graduates rather than those who have already essayed the art of teaching and grown "old and cold and weary."

These difficulties and dangers have not been unperceived. Government have had under consideration the feasibility of a "refresher" course for trained teachers. A scheme has been submitted to give a short course of training to all untrained teachers of English of high, middle and normal schools and senior madrasahs in the province. Owing to the impending vernacularisation of the Matriculation course, it has become urgently necessary to make teachers of English familiar with modern methods of language teaching. This scheme is now being considered. The Inspector for Chittagong Division, after a careful survey of the present situation, proposes an interesting alternative scheme, which may be presented in his own words:—

"Allow teachers to train themselves by private study—reading and applying their newly-gained knowledge in the classes. After, say, 5 years' experience in a recognised school, they should be allowed to take an examination consisting of all the necessary theory papers, together with a prolonged test. Sufficient safeguards could be introduced in the condition of admission to the examination to ensure a reasonable probability of passing.

"Such a scheme would have the following advantages:—

"(1) It would obviate the necessity of building and maintaining a large number of training colleges and would provide the requisite number of trained teachers.

" (2) It would provide an atmosphere in each school such that those who have been trained in the normal way will be able to apply their knowledge on return. The reason why the majority of people do not see the necessity for training is that it is unfortunately too often true that there is no perceptible change in the efficiency of a teacher after he returns from college. He is afraid to try new methods for fear of being laughed at and quickly relapses into the old ways.

" (3) The best teachers of the schools will study the new methods and become trained, for their market value will thereby increase. At the present moment those deputed to the training college are not always the best teachers. Committees will not allow their best men leave for the requisite time to attend the training college.

" (4) The scheme would be relatively inexpensive. Apart from good teachers' libraries in all schools and the cost of conducting the examination, there would be no outlay involved."

This scheme appears attractive, but one may doubt its feasibility. For one thing, very few teachers would have the energy, enthusiasm and capacity to devote time and study to their profession in addition to their ordinary school duties; and, for another, it will be difficult for them to get the all-important practical training under the right conditions. Any scheme which attempts to accelerate the progress of training deserves, however, the most careful consideration.

2. **The David Hare Training College.**—The chief event in the history of the David Hare Training College is its removal to a new site at Ballygunge. The land, 6 acres, had been bought as early as 1914; but it was only in 1923-25 that the buildings were erected and the institution moved out from its narrow lodgings in Harrison Road to its new and permanent home. This includes a college and a hostel for 60 students and a demonstration school for 270 boys; houses for the Principal and Head Master and some additions to the school remain to be built.

The majority of the students are now stipendiaries. Most of the eligible Government school teachers and inspecting officers have been trained and the number of such during 1926-27 was only 5. Of aided school teachers there were 22, and the rest 30, were stipendiary students. The sanction of allowances for all students-in-training in 1926 and the offer of a guaranteed post to the non-teacher student who stands highest in the first class in the examination have proved strong attractions to young graduates. Every year a considerable number has to be rejected for lack of accommodation, but the Muhammadans have never taken full advantage of the number of stipends reserved for them. In 1926-27, there were 21 Muhammadan students in the College.

The B.T. is far the more popular course. And now that Government have passed orders that all selected candidates for posts in the English teachers' grade or for Sub-Inspectorships must have obtained the B.T. degree, except first class M.A.'s or M.Sc.'s, the demand for the L.T. course has almost ceased.

The demonstration School attached to the College was opened in January 1927 by His Excellency Lord Lytton. The staff has been carefully selected out of 800 applicants and consists of 9 experienced B.T.'s, 2 pandits, a maulvi, a drawing master and a drill master.

3. **The Dacca Training College.**—The number of students at the Teachers' Training College, Dacca, increased from 68 in 1921-22 to 79 in 1926-27. The Principal reports that the demand for admission greatly exceeds the accommodation available and, what is of good augury, that the students are of much better quality than before. Most of the students come from the eastern divisions of Bengal, but there is each year a large contingent from Assam and a few from Hyderabad, Deccan. The hostel accommodation is insufficient and a scheme for another hostel is before Government. The class room space is also inadequate.

Two or three features distinguish the Dacca Training College from other institutions of the same type. First, the course is selective, allowing many possible combinations and groups of subjects. Secondly, the system of " internal marking," according to which the examination is used rather to confirm or adjust the opinion of the staff than to be the sole criterion. Thirdly, the conduct of research and experiment in

educational subjects. Thus, a Bengali handwriting scale has been prepared; a study is nearly ready of the word frequency of Bengali based on a count of 100,000 words. Seven papers were contributed by the staff and ex-students of the College to the section of Psychology in the Indian Science Congress at Lahore in 1926; and the researches in English teaching made during the past six years have been published in Occasional Report 13 of the Government of India.

The College has also done much propaganda work. In 1925, it held an Educational Exhibition at Dacca, which aroused great interest and attracted many visitors and subsequent inquiries. Exhibits from the College were sent to Aligarh, where they were awarded a first prize in the Education Section. Lectures, exhibitions and demonstrations have been given at various places in East Bengal. The College is largely responsible for those developments in the methods of teaching which have of late been so rapid, that a pamphlet on Experiment in Education has been issued through the Director of Public Instruction to be used in schools and to serve as a basis for discussion in the proposed annual conference of Head Masters.

The expenditure on the College in 1926-27 was Rs. 93,465 as against Rs. 89,341 in 1921-22.

4. **State scholarships.**—In the latter part of the quinquennium additional facilities were created by Government for the professional training of graduate teachers employed in Government secondary schools in the Presidency. During each of the years 1925, 1926 and 1927 two State scholarships of the value of £250 a year each (with war bonus of £37½ annually) were awarded to one Moslem and one non-Moslem teacher to enable them to pursue a course of training in Great Britain for two years.

5. **First grade training or normal schools.**—The first grade training schools are intended for the training of vernacular teachers for secondary schools. The opinion was reported in the last review that these schools had been tried and found wanting. But they filled a useful place in the educational economy and could not be dispensed with. Their reorganisation was the only alternative. In 1926, a Committee of educational officers was appointed to report on the whole question of training schools. It recommended that the course should be one of two years (as now in East Bengal, whereas West Bengal has a three years' course) and should include an advanced course of instruction in general knowledge through the vernacular. The equipment of many of the students was very scanty and there was often no foundation to build on. But it may be noted that a better class of pupil is being attracted or driven to the normal school—in the Hooghly School, out of 87 pupils 11 were Matriculates. The Committee suggests that the qualification for the admission of students should be the Matriculation and that the courses of instruction should be at least of the Matriculation standard. But a better type of pupil will come only by the pressure of economic necessity or by the attraction of decent posts. It is proposed, therefore, to put the trained Matriculate on the same level as the F.A. and eligible for the Head Mastership of a middle school. In this connexion, it may be pointed out that at the Krishnagar Training School a scheme has been devised to combine the training with the high school course, so that pupils who go through the training school may also be able to appear at the Matriculation.

The financial difficulties of the Government caused in 1922-23 a reduction of the stipend given to normal school pupils from Rs. 10 to Rs. 6. This was an insufficient sum and compared unfavourably with the Rs. 10, which the pupils of guru-training schools received; and in 1925-26, the former amount was restored, as were 79 stipends which had been in abeyance. The Committee proposes to increase the stipend to Rs. 15.

The number of normal schools remained unchanged at 6, 5 Government institutions and 1 managed by the Church Missionary Society and aided by Government at Krishnagar. The number of students was 469 in 1921-22; and, in 1926-27, 441. The total expenditure at the beginning of the quinquennium was Rs. 1,16,898 and at the end Rs. 1,24,328. Of this, provincial revenues contributed Rs. 1,24,182.

The Committee does not propose any increase in the number of normal schools or pupils. About 200 trained teachers a year is all that is needed—and that the existing schools can produce. What is needed is an improvement in quality and not an increase in quantity. This can be done by obtaining a better kind of pupil and by giving him a better training in a better course.

The course suggested includes the following compulsory subjects: General method and School management, Reading, Writing, Arithmetic and Geometry, Hygiene, Practical teaching. In addition, the pupil has to pass in the matter and method of teaching three of the following subjects: English, Geography, History, Elementary Biology and Agriculture, Drill, Games, Scouting and First-Aid, Manual work and Drawing.

The report of the Committee is under the consideration of Government.

6. **Guru- and Muallim-Training Schools.**—For the retention of the guru- and muallim-training schools, the Retrenchment Committee saw no need; and Government decided to abolish 32 guru-training schools of the old type when 8 new schools of the improved type had been built. This policy had been steadily followed during the quinquennium. The total number of guru-training schools in 1927 was 84, not including 6 muallim-training schools. In 1922, there were 102 and in 1917 as many as 118. Of the 90 existing schools, 28 were of the improved type, 85 were managed by Government and the rest by Missions. The number of pupils also fell considerably, from 2,047 to 1,749.

As things are, it is doubtful if there is any cause for regret in the decline in numbers. The pupils who come are for the most part very ill-qualified. The Rajshahi report says: "Recruitment of gurus is becoming increasingly difficult year after year. The general attainments of the existing untrained gurus are so low that very few of them can stand the admission test of the schools, not to speak of their profiting by a course of training." An intelligence test of the applicants for admission in that division revealed the fact that a large number were quite unfit to be teachers. There is a consensus of opinion on this point. The first thing to be done to improve the quality of the teaching is to attract to the training schools men likely to benefit by training and this is impossible unless the teacher is paid better. The Inspector for Dacca Division comments: "The importance of providing an adequate supply of trained teachers is obvious; but so far at least as primary schools are concerned, the task cannot be accomplished, because no solution has yet been attempted of the problem of giving the guru a living wage. The existing number of guru-training schools cannot turn out a sufficient number of trained teachers to take the place of those who year by year retire. But it is useless to increase the number of guru-training schools, unless the teaching profession is first made more attractive. A guru under training is given a stipend of Rs. 10. But many gurus when actually at work in their schools earn little more than Rs. 6 or Rs. 7. The question of improvement in primary teaching hinges on finance."

That is the first problem. The second is to provide a sufficient number of good training schools, teaching a suitable curriculum. The old type schools are generally condemned, but the new type schools seem satisfactory, up to a point—their number, however, is still small. There is yet another problem. The primary schools themselves, with few exceptions, are, as the Inspector for Burdwan points out, "so poor in everything—situation, buildings, furniture and teaching apparatus—that the teachers hardly find scope to show the value of their training. The net result is that the quality of the teaching in the ordinary primary school does not improve much, notwithstanding the large expenditure incurred on training institutions."

The departmental Committee dealt with guru-training schools as well and made the following recommendations among others: (1) that the entrance qualification should be middle English or middle vernacular passed; (2) that the length of the course should be two years; (3) that the old type of training schools should be abolished; (4) that Government should guarantee a salary of Rs. 15 to passed students; (5) that the Head Masters of training schools should be B.T.'s

The number of candidates who obtained the certificate in 1921-22 was 1,412; in 1926-27, only 1,109.

The expenditure in 1921-22 was Rs. 3,02,132 and in 1926-27, Rs. 2,73,343. Of this, Rs. 2,71,176 came from provincial revenues.

B.—WOMEN.

7. **Training colleges.**—The higher training of women teachers continued throughout the period to be in an unsettled and unsatisfactory state. The Training Department of the Diocesan College was the only institution that prepared women for the B.T. degree. The authorities of the College, however, found the task increasingly difficult, in spite

of an addition of Rs. 1,074 to the annual grant of Rs. 7,200. In 1923 Government sanctioned a capital grant of Rs. 5,971 for the construction of an additional lecture room; but the accommodation, both for classes and boarders, is still unsatisfactory. The College, therefore, appealed to Government to be relieved of the responsibility of this department, which was undertaken as a temporary measure in 1913 until a Government training college could be provided. The scheme for such an institution has often been proposed, but no action has yet been taken. Plans are, however, now being prepared and it may be hoped that the next review will be able to chronicle the establishment of a women's training college.

In 1926-27, the Diocesan College presented 16 candidates for the B.T., of whom 15 passed. The Loreto House trains women for the L.T., and in 1926-27, 5 of them were successful in the examination.

8. **Training schools.**—Here, again, there is no marked progress to report. In fact, the number of training schools fell from 12 to 10. The English training class attached to the Eden High School, Dacca, ceased to exist and the St. Mary's Training Class, Calcutta, merged into the United Missionary Training Class. But the loss was apparent rather than substantial, for the Dacca English Training Class had in 1922 a single pupil and the Calcutta Institution has merely been absorbed by a larger school. The total number of pupils in 1921-22 was 200; in 1926-27, 201.

Of the 10 schools, no fewer than 8 are in the western divisions and 7 of these are in Calcutta. Three of the 10 are managed by Government and the rest by Christian and Brahmo Missions. Of the Government institutions, the largest is the vernacular Training School at Dacca, which during the quinquennium sent up 112 candidates for the Senior and Junior Vernacular Teachership Examinations, as against 67 in the preceding quinquennium; 79 were successful. The Hindu Widows' Training Class, also managed by Government, moved in 1926 from Ballygunge to a more spacious house in Entally. The third Government institution is the Moslem Women Teachers' Training School, which was reorganised and stabilised during the period. The number of stipends was increased from 10 to 15 and the staff was also strengthened. But an outbreak of beri-beri compelled the school to change its habitation at the end of 1926.

Of the aided schools, one is at Krishnagar and one at Kalimpong, while the rest are all in Calcutta. The best of them appears to be the United Missionary Training Class which—so says the Inspectress for West Bengal—"gives a very superior training and turns out a superior type of teachers." "Their handwork," she continues, "deserves special comment; there is a great deal of originality in the work."

The results of the examinations were as follows:—

WEST BENGAL.

Year.		Number appeared.		Number passed.	
		Junior.	Senior.	Junior.	Senior.
1922-23	..	66	23	52	21
1923-24	..	68	30	43	29
1924-25	..	60	29	46	26
1925-26	..	72	22	43	17
1926-27	..	53	21	40	17
Total	..	319	125	224	110

EAST BENGAL.

(*Teachership Examination.*)

Year.		Candidates presented.	Candidates passed.
1922-23	..	29	21
1923-24	..	33	20
1924-25	..	22	17
1925-26	..	27	23
1926-27	..	30	27
Total	..	141	108

The total expenditure on all these schools together was Rs. 70,970 as against Rs. 82,635 in 1921-22. To this sum, provincial revenues contributed Rs. 60,264. It is clear that the main burden falls on Government, which is perhaps one reason why more progress has not been made. That there is a demand for trained women teachers is admitted. The Inspectress for West Bengal says that the candidates are "booked before the examination results are out. . . The schools realise the necessity for engaging trained women teachers and in many cases the authorities are willing to do anything for their comfort." The existing schools can, without much difficulty or increase of staff, train a larger number of teachers. The trouble is partly that the number of applicants is limited, and partly that the number of stipends is inadequate. More could and should be done—but the whole problem of women's education is only now beginning to receive the attention which is its due.

Trained teachers.

Schools.	Men.		Women.	
	Number of trained teachers.	Proportion to total number of teachers.	Number of trained teachers.	Proportion to total number of teachers.
Primary	15,653	25·6	473	11·1

High	1,456	11·6	93	41·3

9 **Legal education.**—As in 1922, there are 3 institutions for the teaching of Law—the Calcutta University Law College and the Law classes of the Ripon College and Dacca University. But the number of students has risen by about 50 per cent. from 2,439 in 1922 to 3,638 in 1927; only about a sixth, 615, were Muhammadans, while the great majority were Hindus. Out of 1,732 candidates who appeared for the B. L. Examination, 786 were successful. It is a significant thing that for every 1 graduate who trains for teaching, 8 men qualify to be lawyers. The expenditure from fees alone in the Calcutta Law Colleges was Rs. 3,03,846; the expenses of the Law Department at Dacca are not separately reckoned, but are included in the general expenses of the University.

10. **Medical education.**—To the two medical colleges, the Calcutta Medical College and the Carmichael Medical College, Belgachia, a third was added early in the period in the School of Tropical Medicine.

The Calcutta Medical College, which is a Government institution, had altogether 939 pupils on its rolls on 31st March 1927; the maintenance charges for 1926-27, amounted to Rs. 4,49,295.

The Carmichael Medical College is an aided institution; but of the total expenditure of Rs. 1,33,859 in 1926-27, only Rs. 14,500 came from provincial revenues—the rest was met by the fee income. The hospital appointments are honorary, but the teaching staff is underpaid, owing to the lack of funds. Various improvements have been made during the period and, in particular, a new building has been erected for the Anatomy Department, the greater part of the expenses being defrayed by a Government grant of Rs. 50,000. But there is still need for a fully-equipped maternity hospital, which is estimated to cost Rs. 3 lakhs. The number of students was 598 in 1926-27, almost all Hindus. A provident fund for the staff was started in 1926.

In the School of Tropical Medicine, there were 79 students in 1926-27, including 6 women. The expenditure was Rs. 3,40,183, all from provincial revenues, except Rs. 20,270, which came from fees.

The number of medical schools is difficult to determine, for they spring up easily and wither easily and many of them are not officially "recognised." The number, 10, in the official returns, is not therefore exact. Of the institutions managed by Government, the Campbell Medical School, Calcutta, is the largest. The others are the Ronaldshay Medical School, Burdwan, established in 1921-22, which had 180 pupils and cost Rs. 50,124 including Rs. 8,571, which came from provincial revenues, in 1926-27; the Medical School at Dacca with 573 pupils, including 16 women, and a total expenditure of Rs. 96,966; and the Medical School at Mymensingh, which was provincialised during the quinquenniuum and cost Rs. 37,528 for its 210 pupils. The total number of pupils in all medical schools was 2,282 and the total cost Rs. 3,37,758. The corresponding figures in the last review were 1,415 and Rs. 2,42,907.

11. **Bengal Veterinary College.**—On 31st March 1927, there were 125 students on the rolls in the three classes as against 143 on the corresponding date of 1922. The total expenditure on the college during the year 1926-27 amounted to Rs. 2,23,777, of which Rs. 2,23,511 came from provincial revenues and Rs. 266 from fees.

The Committee of Management, which was reconstituted during the year 1926-27, consists of 9 members.

The Bengal Cruelty to Animals Act, 1920, was introduced into Calcutta on the 1st October 1926, and the hospital attached to this College was declared an infirmary under the Act for the treatment and care of animals.

12. **Engineering and surveying—Bengal Engineering College.**—The higher training in engineering is imparted in the Bengal Engineering College, Sibpur. In civil engineering, the four-year degree course is followed by a year of practical training; in mechanical and electrical engineering, the course is of three years, ending in a Diploma Examination, followed by an additional year in mechanical engineering leading to the Associateship. The practical training is specially important in mechanical engineering and extends to two or three years and in recent years attempts have been made to co-ordinate college and workship training. An engineering college cannot maintain fully-equipped workshops nor would training under such conditions be nearly as useful as training in an actual engineering business. The solution, therefore, was in co-operation between educational and workshop authorities. It was with this object that the Board of Control for Apprenticeship Training was formed in 1921. It aimed, to quote from the Principal's report, first "to provide men so trained as to be qualified intelligently to fill positions of secondary authorities in the industries of Bengal, and, secondly, to enable all apprentices who appear qualified to obtain a training in mechanical engineering equal to that which can at present only be obtained by going to England." The preliminary training of apprentices is undertaken by the senior technical institutions, like the Calcutta Technical School, of which some account is given in the next chapter.

Apprentices who have completed the course in the schools can join the second year class of the College or even the third year class and proceed to the Associateship (Degree standard) after two years in College. A few apprentices have already been admitted to the second year class. But the Board has only been working for five years and it is too early to judge of the success of the scheme. The Principal is confident that the next review will be able to claim "very considerable progress," which will, however, be "qualitative rather than quantitative."

As a corollary, the subordinate or apprentice class at the College has been abandoned. The first Diploma Examination of the Engineering Department was held in 1923 and the first Associateship Examination in 1924. The opening of the Indian School of Mines at Dhanbad has led to the closing of the Mining classes at the College; no fresh admissions have been made in 1927.

Various additions and improvements fall to be recorded. The staff has been strengthened and posts, long kept vacant, owing to financial stringency, have been filled. Except on the Electrical side, it is now adequate to the work. The practice of having visiting lecturers in different aspects of civil engineering was continued. A new hostel has been erected for European and Anglo-Indian students. The water-works and sewage disposal, sanctioned in 1919, were completed during the period. The latter follows the activated sludge system. A grant of Rs. 60,000 for the extension of the power plant was sanctioned by the Legislative Council in 1923 and new oil-engines have been installed; hitherto, the College depended for power on steam-engines, which are now 25 years old. Some other machinery has also been purchased.

The total number of students was 291 in 1926-27, as against 356 in 1921-22; 143 were in the Civil Engineering classes, 70 in the Mechanical and Electrical Engineering side, 26 in the Mining classes and 52 in the Industrial or Artisan classes. Of these, 245 were Hindus, 15 Europeans and Anglo-Indians, 2 Indian Christians and 29 Muhammadans. The Principal deplores the considerable falling off in the number of Anglo-Indian students and the small number of Muhammadans. "The conditions," he says, "are very much the same for both. They do not like to work to qualify for what they in many

cases consider they should get as a favour. In spite of their inclination to shun purely literary pursuits, many members of both communities have the making of excellent engineers in them, if and only if they make a sufficient effort to reach a standard of education which will enable them to benefit by the instruction given here."

The rate of fees was increased in 1926, slightly for the Civil Engineering classes and subsequently for the Mechanical and Electrical Department. The change has not affected the number of applicants. The Principal regrets that the same rates were not imposed for both departments, at any rate for the first two years, where the instruction given is common. The scholarship system was also readjusted in the same year.

The College supplied a platoon to the Calcutta University Training Corps in 1924 and another platoon was formed the next year. The College platoons have acquitted themselves very creditably in the camp.

The results of the B. E. and I. E. Examinations in 1927 are as follows:—

B. E.—Candidates, 32; passed 21.

I.E.—Candidates, 39; passed 22.

In the Associateship in Mechanical Engineering, 4 candidates appeared and all passed; in the Mining Diploma Examination, the 13 candidates who appeared were all successful.

The total expenditure during 1926-27 was Rs. 3,38,692, of which Rs. 33,257 came from fees, Rs. 3,01,825 from provincial revenues and the rest from other sources.

13. **Ahsanullah School of Engineering.**—The closing of the subordinate classes at the Bengal Engineering College threw the whole burden of training overseers on the Ahsanullah Engineering School at Dacca. The demand for admission became too strong to resist; and the number of students rose from 375 in 1922 to 417 in 1923 and 478 in 1925, falling slightly to 440 in 1927. Nearly all the changes and improvements in the school were, directly or indirectly, the result of this increase in numbers.

Classes had to be divided into sections, and this duplication was afterwards made permanent. The staff also had to be strengthened and several new posts were created, 5 new lecturers being appointed in the Subordinate Educational Service, at first as a temporary measure and later permanently. Fresh hostel accommodation became necessary and several houses were hired for the overflow from the school hostels. In 1926, however, Government sanctioned the construction of a new hostel for 200 students, estimated to cost Rs. 3,60,000. Two buildings situated in the school compound, which had been used as temporary hostels, were permanently allotted to the school.

The clerical establishment was increased to cope with the fresh volume of work.

The Committee of Technical and Vocational Education, Dacca, proposed—(*i*) a Mechanical and Electrical Engineering course of an intermediate type at the school; and (*ii*) University courses in Civil and Mechanical and Electrical Engineering to be conducted by the Dacca University and the Ahsanullah School in co-operation. Government, after consideration, found itself unable to accept these suggestions, on the ground that the concentration and development of higher engineering studies at Sibpur was the most economical and fruitful policy.

In the previous quinquennium, the four years' Overseer course had been transformed into a three years' Upper Subordinate course. But experience showed that it was impossible to crowd into three years the subjects and studies that were necessary; and in 1926 the reintroduction of the old four years' course was sanctioned. Two years are taken for the Sub-Overseer course and two more for the Overseer course. At the same time, certain consequential changes were made in the scheme of scholarships for Muhammadans and members of the backward classes.

Of the 440 students, 391 were Hindus, 49 Muhammadans. In the examinations of 1926-27, 105 candidates appeared for the Upper Subordinate, Part B, and 70 passed; out of 131 candidates for Part A, 98 passed; and in the Lower Subordinate Examination, 36 passed out of 70.

The cost to Government in 1926-27 was Rs. 91,821. Government also gave large grants during the period to meet the expenditure involved in the duplication of classes. The fees were increased from Rs. 3 to Rs. 5 per month.

14. **Surveying.**—The Ahsanullah School also conducted field classes in practical surveying for its students. A Pleaders' Survey Training class was also held at intervals and examinations conducted every year. But the chief institution for teaching surveying in Bengal is the Mainamati Survey School. This school has become increasingly popular and now attracts a better type of students. In 1917, only 1 passed Matriculate was admitted and in 1921 only 14; but from 1922-27, out of a total of 230 admissions only 6 were non-matriculates and a few were graduates. Most of those who pass out secure good appointments.

During the period, new buildings have been constructed for the school and administrative sanction has been given for the construction of houses for the staff and a dispensary. The pay of the staff has also been revised. A bathing tank has been excavated. The school has been placed in the non-vacation category and the number of working days has accordingly increased by about 15 per cent. The courses have been revised and the first year course cut down from 14 to 12 months. The mode of examination has also been improved by the Survey Education Advisory Board, greater emphasis being laid on practical surveying. Government have sanctioned two stipends of Rs. 20 each for students who undergo mine surveying. During the period 16 candidates were trained for appointment as district kanungoes in the different divisions. To attract Muhammadans, boarding stipends are given to all Muhammadan students, varying from Rs. 3 to Rs. 6.

In the Final Survey Examination, 30 candidates appeared and 18 passed; in the Amin Examination 44 appeared and 22 passed.

The expenditure on the school in 1926-27 was Rs. 15,850, of which Rs. 11,790 came from provincial revenues.

15. **Agricultural education.**—Bengal is pre-eminently an agricultural country and a desire for agricultural education has slowly been gathering strength. The appointment of the Royal Commission on Agriculture has stimulated this desire further, but no general plan has yet been formulated. Government sent to the Punjab a committee, including both educationalists and agricultural experts, to study the scheme followed in that province, by which agriculture has been introduced into the curriculum of middle schools. A report was published, which recommended the introduction of agriculture into selected secondary schools as a subject of the curriculum, displacing science, drawing and drill. The course is to be similar to the Punjab course and to last four years, covering classes V and VI of the middle English school with a two years' extension course or classes V - VIII in a high school. Teachers are to be sent on deputation for training to the Dacca Agricultural School. A school which works a garden will receive a capital grant of Rs. 550 and a school with a farm a grant of Rs. 2,000. Government is to give Rs. 10 per month for the pay of the teacher.

The proposals have been accepted and 15 schools have been selected for the experiment. Meanwhile, there are 8 secondary schools which have attached Agricultural classes. Such are the Amarpur High School, the Bara Bainan Middle English School, in the district of Burdwan, the Durgarpur High School, in Chittagong, and King Edward Middle English School, Hat-Chapra. "The first-named institution had an officer of the Agricultural Department maintained on its staff for the practical teaching of agriculture. His pay was met partly from provincial revenues and partly from district funds and partly from the interest of a large investment made by the founder of the Amarpur High School. . . But the output of agricultural work done was scanty and not at all commensurate with the expenditure incurred."

Of agricultural schools proper there are 3 instead of 2 in 1921-22. The Agricultural Secondary School at Manipur Farm has 3 qualified teachers and 24 pupils, undergoing a two years' course. It is a Government institution. The Chinsura Agricultural School was abolished as a result of the Retrenchment Committee, but was re-established in 1924-25 as an aided institution. The Manmathapur Agricultural School in Nadia is an unaided institution. The total number of pupils in the 3 schools was 117 and the total expenditure

Rs. 9,388. Mention should also be made of the Ashubaree Methodist Episcopal Mission School at Asansol, which teaches practical agriculture.

For higher agricultural training, little provision has as yet been made in Bengal. The Dacca Agricultural Institute, which was sanctioned, has not been established. In Calcutta University there is a Professor of Agriculture, who is now a member of the Royal Commission, but no beginning has yet been made in the teaching of agriculture. Proposals have been made for the addition of an Agricultural Department to Rajshahi College and a substantial endowment has been offered by the Dighapatia Raj. But the matter is still under consideration and action is likely to have to await the report of the Royal Commission on Agriculture.

Finally, reference must be made to an independent institution. The Inspector for Burdwan reports: "One most interesting experiment in industrial education was the Institute of Rural Reconstruction at Sriniketan under the Visvabharati of Dr. Rabindra Nath Tagore. Though unrecognised, the institution commands wide respect and support, and candidates are deputed from far and near to be trained in its various departments of Agriculture, Sericulture, Poultry-keeping Dairy Work, Weaving, Carpentry, Village Sanitation and Public Welfare. It trained a number of teachers of primary, middle English and high schools during the quinquennium. It is trying to solve the question of unemployment in a serious way."

CHAPTER XI.

Industrial and Commercial Education.

1. **Technical training in universities.**—In the field of industrial and technical training, Bengal can point to no new schemes or experiments. In 1924, the Dacca Vocational Education Committee presented its report. This made it clear that "vocational education cannot be cheap and involves much new expenditure, and that it is in general waste of money and labour to prepare students for vocations that do not exist or are already overstocked. It throws doubt on the belief of the Sadler Commission that at the intermediate stage vocational education can be so combined with general education as to produce a worker competent to earn his living." Among the definite recommendations were the following:—

(1) the making of drill and drawing compulsory in high schools;

(2) the introduction of manual training and science courses in school curricula;

(3) the establishment of University courses in such subjects as electrical and mechanical engineering, chemical technology, tanning and leather industry, botany, bacteriology and commerce.

On the report, Government issued a resolution, which stated the opinion that schemes like the creation of university courses in electrical and mechanical engineering, tanning and leather work were inadvisable at present, but that Government would be prepared to support the other proposals of the Committee, provided that the institutions concerned would share the financial obligation.

2. **Technical education in general schools.**—Not much has, therefore, been done, to develop technological training at the University stage. Scholarships for technical study abroad are, however, regularly awarded by Government, as well as for courses in higher technical colleges in other parts of India, such as the Technical College, Cawnpore, the Indian School of Mines, Dhanbad, the Jamshedpur Technical Institute. In the Jagannath Intermediate College, dyeing has been introduced as one of the subjects in the I.Sc. course and has proved popular. Several secondary and primary schools have provision for manual work or elementary industrial training; but the training given is more in the nature of an adjunct to a general education and not really vocational. It is of interest in this connexion to note the work done at the Baira Primary School. The Inspector for Dacca Division writes: "This was originally a free primary school under the Biss Scheme. Instruction in various crafts, such

as rope-making, jute-carpeting and brick-laying, as well as agriculture, is given. This is not an attempt to combine industrial with general education. The industrial work done is of a very simple kind, its object being to give boys who have no money a chance to educate themselves by showing them how they can earn money in their spare time."

There are some secondary schools also which attempt to combine a general education with technical and industrial training. Among these, the Maharaja of Cossimbazar's Polytechnic Institute, Calcutta, should be specially mentioned. The object of this institution is to enable students to earn while they learn and to combine technical training with the Matriculation course. More advanced training is given to students who give their whole time to the workshop. Carpentry, smithy, cutlery, weaving and spinning, clay-modelling, tailoring, shorthand and typewriting are all taught. As a rule, however, the work done by boys in the industrial sections of general schools has little market value; nor has it been found easy to fit the vocational subjects into the general curriculum, so that they usually have to be taught outside school hours. The Inspector for Chittagong writes: "If the vocational work of a general school has to be conducted in a separate organisation, as has invariably been the case, it is difficult to see why a general school should take up this work, which may more efficiently be done by a special vocational school."

3. **Special industrial and technical schools.**—And, in fact technical and industrial training is, for the most part, given in special schools. Of these, there is a considerable number in Bengal—in 1926-27, no fewer than 153, representing an increase of 67 during the quinquennium, chiefly in weaving schools. The number of pupils rose from 3,631 to 6,234.

Apart from weaving schools, these institutions give training in crafts like carpentry, blacksmithy, tinsmithy, basket-weaving, canework, pottery; most of them are really artisan schools. A few prepare apprentices for the railway workshops; there are some telegraphic training schools, some have sub-overseer and amin classes. The girls' schools teach lace-making, embroidery and similar industries.

In recent years, however, the Department of Industries has followed a definite policy in reorganising and planning the scheme of technical education. "Provision is being made for technical education to commence from any stage in the cultural scheme, *pari passu* with a progressive course from the lowest, leading to the highest stages of technical education available..... It will be possible for students to enter some sphere of employment at intermediate stages, if circumstances do not allow them to continue training to the highest stage." Thus, for the illiterate or primary schoolboy, there are the artisan classes; for those who have passed the middle stage, the junior technical schools cater; while matriculates and graduates can enter the apprentice or diploma classes of the senior technical institutions.

4. **Senior technical schools.**—There are at present three senior technical schools in the Presidency. The Calcutta Technical School, opened in 1926, absorbed the Calcutta Technical Evening School, mentioned in the last review. It is intended to give "theoretical training with laboratory practice in technical subjects to those actually employed in trade and industries in Calcutta and the neighbourhood, thus enabling a student to receive a sound, theoretical training, while concurrently he receives a practical training under commercial conditions." The school is affiliated to the Board of Control for Apprenticeship Training and its students may appear for the Board's examinations. It is also recognised by the City and Guilds Institute of London. The classes are held in the afternoon and the course is covered in four or five years. The school has begun with mechanical and electrical engineering only. The Director of Industries is the Chairman of the Governing Body, which includes members appointed by the Government of Bengal, by public bodies and by business firms in Calcutta. In 1926-27, Government gave a grant to the institution of Rs. 47,500; and nearly Rs. 20,000 was realised from fees.

The two other senior technical schools are the Kanchrapara School and the Kharagpur School, run in connexion with the Eastern Bengal Railway and the Bengal-Nagpur Railway, respectively. They are intended mainly for the training of railway apprentices. A specialised training of a high order is given by the Ishapore Ordnance Training Class.

5. **Junior technical schools.**—The junior technical schools have often artisan classes attached to them. The scheme is to provide such institutions for the district towns, wherever possible. A brief account is given of some of the more important:—

(1) The Burdwan Technical School, managed by the District Board, has three departments—the Lower Subordinate, teaching up to the Sub-Overseer standard, the Artisan class, the Amin class. There are 48 pupils and the 8 candidates who appeared at the Sub-Overseer examination in 1926-27 were all successful. The cost to Government was Rs. 2,618.

(2) The Khulna Coronation School, managed by the District Board, which contributed Rs. 8,817. The subjects taught are carpentry, blacksmithy, tinsmithy, brass-moulding. The course is for three years and no fees are charged.

(3) The Rangpur Technical School, managed by Government, had 73 pupils in the Artisan and Amin classes. Twenty-eight pupils were successful in different examinations. Of the total cost of Rs. 14,699, Government met Rs. 11,324, and Rs. 1,884 came from the sale of work done. The Amin course covers 14 months and the Artisan course 3 years.

(4) The Pabna Elliot Banamali Technical School was provincialised during the quinquennium and had 91 pupils in the Sub-Overseer, Survey and Artisan classes. There is a year's course for button-making. Twenty passed in different examinations: Rs. 12,101 of the total cost of Rs. 18,218 came from provincial revenues. The hostel accommodates 80 boys.

(5) The Rajshahi Sericultural School had 11 pupils. Successful students are given an advance of Rs. 250 each to construct rearing houses, with a view to taking up the profession under the supervision of the Agricultural Department, on a five years' agreement. The cost to Government was Rs. 5,024.

(6) The Rajshahi Diamond Jubilee Technical School had 103 pupils. Besides the Sub-Overseer and Amin classes, it gave instruction in carpentry, smithy, weaving and cane-work. The total cost was Rs. 15,479 including Rs. 1,200 from Government.

(7) The Kalimpong Schools, aided, 16 in number, in Kalimpong and the surrounding district, taught crafts like weaving, embroidery, tailoring, carpentry, gardening, lace-making. There are schools for boys as well as for girls. Altogether there were 547 pupils and the total expenditure was Rs. 37,498, as against Rs. 24,431 in 1921-22; but the Government grant remained unchanged at Rs. 6,000.

(8) The Barisal Technical School, managed by Government, had 32 pupils in its Artisan classes. The abolition of the Sub-Overseer class has led to a diminution of numbers. A new site was acquired long ago, but the school still remains within the Zilla School compound. The total cost was Rs. 10,904, of which Rs. 9,283 came from provincial revenues.

(9) The Elliot Technical School, Comilla, had only half its former number of pupils, 62 instead of 124. The expenditure fell also from Rs. 22,667 to Rs. 16,969. The District Board paid Rs. 10,102. The sale of the manufactured articles brought in nearly Rs. 5,000, showing a substantial increase. The subjects taught are carpentry, smithy, weaving, brass-moulding and elementary mechanical engineering.

(10) The Pahartali Industrial School is under the direct supervision of the Locomotive Superintendent of the Assam-Bengal Railway, and trains apprentices for the railway workshop. The number of pupils was 34; the cost increased from Rs. 755 to Rs. 2,330.

(11) The Kashi Kishore Technical School, Mymensingh, under the District Board, trains artisans in the usual subjects. There are no fees and Rs. 2,000 is spent annually on scholarships. The course is for three years. There were 103 pupils and the total expenditure was Rs. 19,328.

(12) The Edward Industrial School, Bogra, managed by Government, which gives instruction in carpentry and smithy, as well as theoretical training in elementary mathematics, estimating and drawing. Twenty-five Government and 10 District Board stipends are attached to this institution.

Special mention should be made of the Calcutta Tanning Institute, which, in addition to other work, trains apprentices. There is accommodation for 24, but the applicants—several of them graduates of the *bhadralok* class—outnumber the vacancies. Several ex-students have set up small tanneries themselves.

6. **Weaving schools.**—The progress made during the period was almost entirely in weaving institutions; these have sprung up everywhere. In Chittagong, to take the most striking example, the number of weaving schools rose from 4 to 27. But the number of pupils did not rise in anything like equal ratio and the average strength of a school fell from 40 to 19. In Burdwan Division, there are 32 weaving schools, but the number of pupils is, as a rule, small. There is reason to doubt if these institutions have not multiplied beyond the needs of the moment. Besides the regular schools, there are peripatetic instructors and classes. Several of these institutions are managed by Government. Far the most important of them is the Government Weaving Institute at Serampore.

7. **Government Weaving Institute, Serampore.**—This institute provides instruction for two different grades of students. The higher course, extending over three years, is intended for those who have passed at least the Matriculation Examination and wish to qualify as teachers, overseers and managers of hand-weaving factories. The artisan course, of one year, is meant for actual hand-loom weavers and their sons as well as for those who engage to make weaving their profession. There were 75 students in 1927. During the period, 83 students passed the Final Diploma Examination of the Institute and 116 students passed the City and Guilds Examination of the London Institute, several of them being awarded bronze and silver medals. The session commences now in July, instead of in November. The expense has risen from Rs. 51,826 to Rs. 72,540 during the period.

But the training of men students at Serampore does not exhaust the activities of the Institute. The Female Industrial classes, organised by the Y. W. C. A. at Serampore in 1922, have been taken over by Government and affiliated to the Institute. They are in the charge of a Lady Superintendent under the supervision of the Principal of the Institute; and the pupils are taught plain and fancy needlework, spinning, weaving, carpet-making and hose-making. A higher class for women is also to be opened. Besides, a considerable number of other schools, in which instruction is given to weavers in the mufassal, are attached to the Institute. Of such there are now 8 District Weaving Schools and no fewer than 26 peripatetic weaving centres, scattered all over the province. The Institute also sends out demonstration parties to important centres to exhibit and introduce improved appliances; and it takes part in local exhibitions. Three demonstration parties have been created. Since they were organised, "jute, waste silk and coir spinning and weaving have become an important cottage industry"; many peasants may be induced to take one of them up as a supplementary home industry. A handbook containing useful information on small hand and power-loom factories has been prepared; and enquirers are supplied with the addresses of firms where machinery and raw material can be purchased. Passed students are either employed in the local weaving schools or in mills and factories or set up weaving or dyeing concerns of their own.

The Weaving Institute has been doing most useful work in a thoroughly practical way. But it is badly in need of permanent buildings. Money was sanctioned for a power weaving factory attached to it, but there were no buildings available.

Reference should also be made to the Silk Weaving and Dyeing Institute which is to be established at Berhampore. Government sanctioned the scheme in 1925 and it is expected that the school will open shortly.

8. **Schools of Art and Music.**—In the province, there are altogether 6 schools of Art, of which one is managed by Government and three others are aided. The total number of pupils rose from 424 in 1921-22 to 567 in 1926-27; the total expenditure was Rs. 1,01,936, of which Rs. 71,149 came from public funds.

The music schools are found chiefly in Burdwan Division, where there are three aided and five unaided schools. The total number of pupils was 168 in 1927 and the cost to public funds Rs. 929. The question was raised during the quinquennium whether it might be possible to improve the school at Vishnupur into a first-rate institution with liberal grants from the department. Vishnupur, in the Bankura district, has always been noted for musicians, and it is in the fitness of things that the music school there should be improved.

9. **Government Schools of Art, Calcutta.**—Far the most important of the six art schools is the Government School of Art, Calcutta. In October 1920 it was put under the Industries Department, but in April 1923 was transferred back to the Education Department.

The number of pupils increased during the period from 268 to 335. The expenditure in 1926-27 was Rs. 59,133, against Rs. 49,526 in 1921-22; the part that came from fees was Rs. 13,744 and Rs. 4,467 respectively. The large increase of fee income is due to the raising of fees in 1924, when the number of free and half-free studentships was also reduced. It was, perhaps, as a result of this measure that the number of pupils, which had risen to 361 in 1924-25, dropped slightly to 354 the next year and to 335 in 1927. The local bodies continued to give scholarships to their nominees. Pupils came from all parts of India; 2 were Europeans and Anglo-Indians, 6 Indian Christians, 12 Muhammadans, 2 Buddhists, 1 Sikh and the rest Hindus, including 13 of the backward classes.

A commercial Art Section class has been started on an experimental basis, to train students in subjects like designing, poster-drawing, advertising, illumination. During the period the school executed some important commissions, a "Roll of Honour" memorial in metal for the Eastern Bengal Railway, a design for the Mrs. Graham Memorial Entrance at Kalimpong and so forth. The Fine Art Exhibition, first held in 1921, is repeated annually. Many of the students obtain good posts without difficulty after passing through the school. At the final examination in 1926-27, 32 candidates appeared and 18 qualified for the certificate.

The Principal, Mr. Percy Brown, retired after the end of the quinquennium, after having rendered to the school valuable services for many years.

10. **Commercial Education.**—A few years ago there was a great demand for commercial education. From an ordinary secondary or university education little, it was considered, was to be hoped; the professions were overcrowded; and a commercial training was supposed to open the way to a spacious range of new careers. These expectations, based on no rational reckoning, but on oversanguine hopes born of disappointment in other avenues, have proved to be largely illusory. But, at the same time, there have been interesting developments and steady progress in this sphere. More business careers are now open to Indians of talent. There is more scope for private enterprise. The Imperial Bank recruits educated Indians for responsible positions. There is a steady demand for trained men from an increasing number of Indian banks. Schemes have been mooted for an all-India Association of Accountants and Auditors and for an Indian Institute of Bankers.

11. **In Universities.**—Commercial education has grown to meet the demand. Departments of commerce have been started in the two universities; and there is a commerce group in the Dacca Intermediate course. Several colleges secured affiliation in commercial subjects and a number of commercial schools sprang up in different parts of the country.

12. **In Commercial Schools.**—The University Commercial classes, which lead to a degree, have proved popular. Apart from them, there were in 1927, fourteen commercial schools in the mufassal, with 437 pupils. The subjects taught were short-hand, type-writing and book-keeping, with (in some schools) telegraphy. In Calcutta, there were 12 schools with 1,148 pupils. Far the most advanced and important of these institutions is the Government Commercial Institute, Calcutta.

13. **Government Commercial Institute, Calcutta.**—The history of the institute during the period was eventful. In 1923 it was retransferred to the Education Department from the Department of Industries. The Retrenchment Committee recommended that it should be deprovincialised; and accordingly in 1924 Government appointed an expert committee to report on the future of the institution. In 1926 the Committee reported against deprovincialisation and suggested lines

of advance. Government have accepted this report in the main and details are now under consideration. In 1923 the question was raised whether the Institute should not be affiliated to the University, which had just inaugurated its department of commerce. But it was decided that "commercial education would have nothing to gain by such affiliation unless this department of the University was reconstructed as a Faculty of Commerce, controlled by commercial men, as suggested by the Sadler Commission.".

The Institute has, therefore, gone its own way, but it has not been content to stand still. In numbers, indeed, there has been a fall. The number of students on the roll increased from 287 in 1922 to 349 in 1924, but after that it declined rapidly to 230, 181 and 225 in successive years. In 1922 the Day and Evening Classes had, respectively, 254 and 545 pupils, in 1927 only 117 and 353. The reasons for the decrease were various; among them was the heavy depression in trade.

This decrease is far from being an unmixed evil, as the following extract from the report of the Institute will show: "A very much larger number of enrolments, under the existing arrangements, would, if anything, have been an impediment to the material progress of vocational commercial education, of which this Institute has been, is, and will in future be the centre. Now that the rush of students to the Shorthand, Type-writing and Book-keeping classes has been happily disappearing, it has been possible to devote attention to the development of classes like those intended for candidates for Public Auditorship or for the Association of the London Institute of Bankers– which last, by the way, is the hall-mark of a sound banker—and to strive to make this Institute the model of its kind in Bengal. It has been thought fit to see that training in subjects of minor importance, such as shorthand, type-writing and book-keeping, is left to the various commercial institutions that have sprung up almost everywhere in the province, while this Institute, by holding model classes in these subjects, besides others, and by holding Diploma Examinations, should maintain a definite standard of efficiency."

It was thus possible to give time to more advanced studies. In 1923, classes were opened to train candidates for the examination of the London Institute of Bankers. Classes for the examination of the Bombay Government Diploma in Accountancy were continued throughout the period. A committee was appointed to draw up a scheme for a separate examination in Accountancy in Bengal; its report is under consideration. The proposal for a commercial museum was raised, but was not sanctioned.

The results in the Diploma in Accountancy Examination have shown steady improvement of late. For the Final Commercial Examination, 22 candidates appeared in 1926 and 12 passed. In the special examinations, there were 54 entries in different subjects from the Institute, 203 from affiliated schools, 60 from private candidates. Of these 17, 93, and 15, respectively, passed.

The expenditure during 1926-27 was Rs. 61,523 of which Rs. 13,382 came from fees and Rs. 48,141 from provincial revenues. In 1921-22 the total was Rs. 37,556, including Rs. 15,044 from fees and Rs. 22,512 from provincial revenues.

CHAPTER XII.

Physical and Moral Training.

With its usual thoroughness, the Calcutta University Commission Report thus summarises the conditions which weaken or neutralise the influence of education: "The neglect (often through ignorance) of personal health, the disregard of physical exercise, the prevalence of malaria and inadequate medical care conduce to frequent illness and in some cases have led to serious breakdown; a too limited horizon of thought and interest, monotony of life, and the lack of a well-regulated system of tutorial guidance have in many cases stunted intellectual growth. In some instances, the weakening of moral control through the decay of good traditions, through the absence of ethical or religious training, and through the want of corporate life in the University and the colleges have led to serious outbursts of indiscipline and even to violent crime, ... Some of these hurtful conditions are so widespread that systematic effort, patiently maintained over a number of years, can alone rectify them." Has the quinquennium seen any progress in this direction?

1. **Personal health and medical care.**—Whenever a careful examination of the health of students is made, the facts revealed are alarming. Medical examination has been held in various places, *e.g.*, in Rajshahi by District Board Doctors, at Asansol on the initiative of the Mines Board of Health, in the Bethune (Girls') School by Dr. Cohen. But there was only one large and systematic survey. The Students' Welfare Committee of Calcutta University has, during the last six or seven years, carried out a comprehensive examination of the students in the arts colleges in Calcutta and the neighbourhood. The Report of the Committee for 1925—the latest available—makes mournful reading. 11,000 students had then been examined, a number large enough to justify general deductions and to establish "normals" for the quantitatively measurable traits of health. But far more important than the scientific value of this investigation is its practical value as a warning. Roughly, 25 per cent. of the students in colleges are thin and physically ill-developed; 45 per cent. stoop. About one-third have defective eyesight; but, of them, a large proportion are unaware of it, half wear no glasses at all and about one-fifth wear wrong glasses. One in three again have bad teeth. One in twenty suffer from some affection of the heart. Only about one in three are generally sound.

These figures might well make one anxious for the future of young Bengal. What makes the situation worse is that, after the age of 16 both eye-sight and hearing become steadily more impaired. This is partly due to the conditions of life and work of the students and partly to the fact that weaknesses are not remedied and become progressively worse by neglect.

The moral is clear—there is need of both prevention and cure. The Welfare Committee gives advice to students, but much more needs to be done in this direction. The attention of parents must be drawn and the way made easy for students to obtain both advice and treatment. But it is really at the school stage that these defects have to be tackled. Every schoolboy should be examined and his physical weaknesses noted, treated and corrected. Nor is this enough. The only effective solution is the prevention of preventible deformities and defects. It is necessary to provide that healthy recreation, that sufficiency of nutrition, those conditions of residence and work which will help the naturally healthy child to grow up into a healthy and well-developed man.

One difficulty is that the home, where the boy spends the greater part of his time, does not always help in this matter. The Physical Instructor, Dacca University, notes that 70 per cent. of the students lose in weight and in physique during vacations.

2. **Physical training and drill.**—During the last two or three years much attention has been given to the problem of physical training. The University, Government and the Legislative Council have all discussed the problem and suggested solutions. On the motion of Mr. A. C. Banerji, the council passed a resolution recommending that immediate steps be taken to make physical culture compulsory for boys between 12 and 18 in all schools affiliated to the two Universities and in all Maktabs and Madrasahs, February, 1926. Meanwhile, already in August 1924 the Senate had appointed a Committee, which came to the conclusion that some form of drill or games should form part of the school curriculum and should be introduced also into the first year of the College course. The Senate accepted these proposals and added that provision should be made by schools, in conjunction with the parents, for the proper nutrition of the boys and that military training should be made compulsory for all college and university students.

3. **University training corps** Government pointed out that compulsory military training for many thousands of students was not a practicable proposition and suggested an extension of the facilities of the Calcutta University Corps, which was accepted by the Senate. At present the University Corps, which has a strength of about 700, is confined to Calcutta, with the exception of platoons at Hooghly College and the Bengal Engineering College. A reasonable degree of efficiency has been reached and the spirit of the corps is excellent. The example will spread and there is little doubt that the corps will grow in numbers. It seems better to rely on voluntary enthusiasm than on the passive discipline (or indiscipline) enforced by a compulsory system.

4. **Compulsory Exercise.**—In 1927 the Physical Education Committee of the University proposed that some sort of physical training for at least one year should be a qualification for every Matriculation candidate, except such as were medically exempted or had not belonged

to any school. The salaries of physical instructors in schools were to be met by an athletic fee paid by the boys, with the help of a Government grant if necessary.

As a matter of fact, drill is compulsory now in all middle and primary schools as well as in junior madrasahs; and in the new curriculum for maktabs, it is proposed to introduce callisthenics. In all Government high schools, again, all the scholars except those of the top classes have to do drill; and this is the rule in many aided and unaided schools as well. But, here again, there is a wide gap between the ideal and the achievement. "The actual drill," writes one inspector, "is a travesty of what it should be and the whole situation is rendered rather Gilbertian by the drill being entrusted as often as not to a master who is himself incapable of performing the exercises and operations supposedly taught and whose physique is a standing example of what physical instruction seeks to eliminate." The master has often very primitive ideas of drill; and the boys would be completely bored if they did not regard it as a "rag."

5. **Physical instructors.**—The fact is, of course, that the drill master, like other masters, needs training. An attempt has been made to provide this training. A temporary post of Physical Adviser to the Government in the Bengal Education Service, was created and filled by Mr. N. Ghosh throughout the period. The Physical Adviser revived in 1924 the class for training drill masters and so far 122 teachers have obtained the certificates granted after the examination at the end of the course. Teachers from private schools are admitted free and Government officers are paid travelling expenses and house-rent in Calcutta.

But the course is short, six weeks; and with the existing staff it is impossible to train a sufficient number of men quickly. It is hoped, as vacancies occur, to recruit for the more important institutions some men who have passed through the longer and more thorough course arranged by the Y. M. C. A. in Madras, but the expense and length of this course make it impossible to regard it as the only source of trained men; Dacca University has appointed a Physical Instructor and an assistant to supervise the compulsory physical training of its students. The pivot of any scheme of general improvement must be an adequate scheme of local training of teachers of drill and organisers of games. To reorganise the whole system, Government have sanctioned the appointment of a special Physical Director, with the highest qualifications, for five years.

In some Calcutta colleges, like the Presidency College, drill is now compulsory for the students of many of the classes.

Drill, in the narrow sense of the term, is in schools of real, if limited, value; properly done, it exercises the body and instils some sense of discipline. But its physical and its moral value are limited and drill, in schools as in the army, needs the complement of organised games. Organised games are far more enjoyable to those who participate and create a sense of *esprit de corps*, of playing with and for the side, which can be a strong moral influence. Scarcely a boy would choose drill rather than games if he were free to choose.

6. **Games.**—There is no doubt that games are becoming increasingly popular in Bengal. Football, in particular, evokes immense enthusiasm; in the towns lawn-tennis is rapidly winning its way into general favour. Cricket is played, with keenness and with growing skill, in most colleges and a few schools. But the difficulty is that these games are comparatively expensive and also require considerable space. In towns, space is precious, is often unattainable. There are very few colleges in Calcutta which have playing grounds within or near the college compound. Where the field is on the *maidan*, it is idle to expect many students to attend and play. For schools, the expense is often prohibitive. It is, therefore, a matter for satisfaction that team games like basket-ball, volley-ball, deck-tennis, badminton are being taken up by institutions. These require little room and involve little expense. The indigenous games are, perhaps, more suited for the country schools than for towns; but they should be encouraged. They need no apparatus and can be played almost anywhere. What is needed is to find for each school and college games suited to its conditions and needs, in considerable variety.

Much more might be done to develop rowing. The Calcutta University Welfare Committee maintains a few boats; at Rajshahi College rowing has been taken up with much enthusiasm and is popular. In many schools in East Bengal, boat-rowing is a favourite sport during the rains when the play-grounds are flooded. But the achievement does not come up to the measure of the opportunity.

Besides the lack of play-grounds, a serious difficulty in the way of anything like general games is the fact that many boys and students live at a considerable distance from their school and college and more eat no meal between leaving home in the morning and returning home in the afternoon. Games after school would, therefore, prolong the interval of fasting, already unduly long. The remedy lies, in the provision, by the school or by the parents, of some kind of midday lunch or tiffin; and the University and the Department have rightly laid insistence on this. It is easier for boarding schools and residential colleges to make games compulsory; and there is the widest participation in games in just those institutions which provide for a large proportion of boarders, in colleges like St. Paul's, Calcutta or Carmichael College, Rangpur, and in the schools like the Mission School at Bistupur, and St. Paul's School, Calcutta.

7. **Boy Scout Movement.**—But games not only exercise the body and teach unselfishness and self-control; they are useful also because they supply a healthy interest, a means of occupying the time harmlessly. As a rule, the Bengali boy has very few real interests or hobbies and is often hard put to it to spend his leisure. It is not the least of the merits of the Boy Scout movement that it sets out to interest the boy in the world of nature and to give him other hobbies. During the period, the Scout movement has spread widely, overcoming initial prejudices in some places. Government has provided funds to start troops in selected schools and has encouraged teachers from Government schools to attend the Scout Masters' Training Camps held each year. Thanks to the energy of the Provincial Organising Secretary, Mr. N. N. Bhose, local associations have been formed in many centres and public support has steadily increased. The latest statistics show in Bengal 47 local associations with 3,384 scouts, 281 rovers and 961 cubs. Of Scout masters there are 206 and of Cub masters 37.

Gratifying as these figures are, they represent but a small proportion of the total schoolgoing population of the province. It is right and wise to hasten slowly, to lay the foundations securely, to show in the first recruits those results in character and mental and physical alertness which alone can justify the movement. Numbers are quite capable of destroying the value of scouting, as indeed they have contributed to complicate most educational problems in Bengal. And the movement is an independent organisation, which Government may properly encourage for its educational value, but cannot control. At the same time, it should be pointed out that there is urgent need of Scout masters—for men, not necessarily teachers, who are prepared to sacrifice a little time and quiet for the youth of the land.

All that has been said of scouts applies equally to the Guide Movement, *mutatis mutandis*. This is spreading among Indian girls, especially in the larger towns.

8. **Moral and religious influence.**—Scouting is not only a form of physical exercise, although it is that—nor a mere new interest—it is also a moral and social instrument of the first magnitude. Other active moral influences there are few in the schools of Bengal. In Mission Schools, Madrasahs, Maktabs and Tols, religious instruction of a denominational character is given. This is excellent, but the greater number of schools fall outside these categories. The moral teaching given in some of them is, by general consent, not of any great value. And, after all, practice is better than precept. It is from the character of the teacher that the boy must unconsciously learn the lessons of honesty, goodness and service. But, unfortunately, intercourse between master and boy outside school and informally is the exception rather than the rule. Their contact is of a purely official kind—the closing bell rings and each goes his own way.

Here, again, the residential institution scores. In many colleges there is some attempt made now to introduce the tutorial system. But the objects of the system are sometimes misconceived and the methods employed are consequently futile. It is significant, however, of the changing temper of the times—of the consciousness that there is some vital element lacking, that there is something to be gained by bringing the teacher and the pupil into unofficial contact, that there is great educative value in personality. And once the need is felt, it will not long remain unsatisfied.

9. **Discipline.**—At present, all is not well. True, the effect of the non-co-operation movement in the sphere of education has almost

been effaced; but discipline as an active principle is losing strength. One inspector writes, "it is becoming daily less rigid and, when an attack is made from any quarter, it is too weak to defend itself." Says another, "the common complaint is that boys show scant respect for parent and teacher, that they are wayward and impatient of control. The oldtime politeness is fast fading into a legend." The troubles at Rajshahi College are a case in point; and another was recorded in the Report on Public Instruction, 1924-25. Actual instances of disobedience may be rare, but the spirit of willing obedience and co-operation is often absent.

Here, the parents and the home must also shoulder their share of the responsibilities. But "parents are often too busy or unmindful" and unwilling to co-operate with the teacher. "In many schools," says one inspector, "teachers tried by visiting parents to get to know them and institute co-operative control inside and outside the school. Everywhere the attempts have had to be abandoned. Guardians take an interest in the management of the school, but they definitely regard the teachers' duties and sphere of action as confined to the class room." Fortunately, this is not universally true—but where it holds true, any attempt to raise the standard of discipline must be vain.

10. **Hostels.**—(*1*) *For college students.*—Where a boy lives with his parents, some control exists. Many of them, however, live away from their homes and it is here that the greatest attention has to be given. This is even more true of colleges, which are located in the larger centres of population. For college students it has long been the rule that those who are not living with parents or guardians should live in a hostel or recognised mess; and generally it may be said that this rule is now enforced. Most colleges have now well-equipped hostels attached. In Government colleges, during the period, fresh accommodation was provided at Rajshahi for 300 students and at Chittagong for 60 Muhammadan boarders. Elsewhere, as at the Ahsanullah Engineering School, houses were rented and used as hostels. The David Hare Training College buildings also include a hostel.

The superintendence, however, is not always adequate. It sometimes happens that quarters are not provided for a family and the choice is then restricted to the unmarried members of the staff. Sometimes a junior lecturer is selected as warden; or there may be only one superintendent to some hundred or more students. But these things are gradually being improved.

The University of Calcutta makes itself responsible for a number of messes for students belonging to private colleges who cannot find hostel accommodation. In 1926-27 the total number of places available in these messes was 412 and the total expenditure involved for rent was Rs. 34,824, which was met partly by the seat-rent paid by the boarders and partly by the annual grant of Rs. 9,000 given by Government for the purpose. The superintendents are paid by the authorities of the colleges to which the messes are attached. With the growth of proper hostel accommodation, the number of these messes is slowly decreasing; in 1922-23, there were 21 with room for 654 students; in 1926-27 only 15 with room for 412. Besides, the number of non-collegiate hostels, managed by public bodies, is growing year by year.

Of the Halls of Dacca University some description has been given in Chapter III.

The total number of hostels attached to arts colleges was 104 with 5,267 boarders; of these, 8 with 127 inmates were for women. The cost to Government was Rs. 54,289. There were 15 hostels attached to professional colleges (excluding the medical and veterinary colleges) with 854 boarders; and Government spent Rs. 3,723 on them.

(*2*) *For school boys.*—The total number of hostels for schools of all kinds was 798; and the number of inmates was 18,253. Generally speaking, this indicates an increase of hostels and boarders. The expenditure to Government, however, has not risen in equal proportion, because, as a measure of retrenchment, the scales, in accordance with which the allowances of superintendents of Government hostels were paid, were reduced. The allowance of the superintendent of a college hostel was reduced by a third and of a school hostel by a half. Government also readjusted the apportionment of charges in hostels attached to its institutions. It was laid down that seat rents

should be levied at a uniform rate throughout the province and that while Government would bear the cost of medical supervision, the cost of medicine should be paid by the boarders and that they should also pay furniture rent, lighting charges and the occupier's share of municipal taxes. The hostels attached to the Presidency College and the Bengal Engineering College, as well as hostels for girls and backward classes, were exempted from these general orders. The total cost to Government for school hostels was Rs. 1,08,439. But the introduction of rent and the increased cost of living prevented some boys from taking advantage of the hostels and in many cases seats remained vacant throughout a whole year. Other causes that led to the depletion of hostels were impatience of discipline and restraint and the failure of headmasters to insist on residence in proper conditions. The Hindu Hostel of the Hooghly Collegiate School was abolished in 1926 and the Muhammadan hostel of the Birbhum Zilla School existed only in name. The Hindu Hostel of the Bankura Zilla School was only half-full.

Superintendence in the hostels themselves was not all that could be desired. "The selection of suitable superintendents," writes the Inspector for Dacca Division, "is both important and difficult. The task of supervision is one that many men dislike and the selection is limited to those who are living without their families." The Inspector for Rajshahi goes further: "The incumbents have not, with few exceptions, proved to be equal to the task..... This seems to be due not only to the want of sympathy and sense of duty of the superintendents, but also to the fact that most of them are junior or vernacular teachers, with little experience and lacking in personality." In many hostels, the superintendent receives no allowance, but is merely given free quarters. "His supervision is, therefore, that of a boarding house-keeper, with none of the latter's inducements to work efficiently." The duties of the superintendent are supposed to be merely enforcing rules and keeping accounts. Corporate life there is little, no common rooms, no arrangements for games or discussions, no libraries. An opportunity for developing *esprit-de-corps* is largely wasted.

There is in Government hostels provision for medical attendance, and in a few aided hostels; but elsewhere there is none. The inmates of hostels attached to guru-training schools, however, do not receive medical attendance free, but have to attend the out-patient department of local dispensaries.

The cost of living in hostels varies considerably. In Chittagong Division, it was about Rs. 20 for a Hindu boarder and Rs. 15 for a Muhammadan. In Burdwan, the expenses in a town hostel ranged from Rs. 15 to 20 and in a mufassal hostel from Rs. 10 to Rs. 15.

In Dacca, there is a proper Students' Residence Committee and scheme. In 1925 the post of Proctor or Inspector of Messes was abolished and its duties transferred to the Board of Intermediate and Secondary Education. The Board acts through an Assistant Inspector of Students' Residence. The number of messes under the Board in 1926-27 was 25; and of boarders 739. Of these, 10 messes belonged to intermediate students alone and 12 to high school students; 3 were for students not under the control of the Board. Ten hostels were for Muhammadans only. Fourteen of the boarders were girls, and 118 were members of the backward classes. All messes were inspected at least once a month and many surprise visits were paid. The state of discipline was generally satisfactory. The charges ranged from Rs. 9-8 to to Rs. 12-8 per month for board and establishment; and the seat rents from Re. 1 to Rs. 3-8. In the case of Namasudra messes, the rent was paid wholly by Government and in other cases Government contributed 40 per cent. Medical aid was rendered by five officers. The total cost to Government in 1926-27 was Rs. 18,537.

The buildings, especially of Government hostels, are generally commodious and well-planned. But, unfortunately, neither hostels nor school buildings are properly kept up. "School rooms," one Inspector reports, "are dirty and dust-laden. Expensive buildings are allowed to deteriorate and jungle allowed to spring up at the very doors of the school. The boys are not likely to apply in their homes principles which they see neglected in their class rooms and school premises." It is often forgotten that the practice of hygiene is more important than the theory.

11. **Hygiene.**—The theory is taught in schools. Hygiene is a subject in the revised primary school curriculum and it is also an optional

subject for the Calcutta Matriculation and the Dacca High School Examination, but it is not usually taught in the top classes of middle English and high schools. Lectures on hygiene and sanitation were given by health officers of municipalities or sanitary inspectors in several schools. The Bengal Social Service League has also done admirable work by illustrated courses of lectures on this subject in educational institutions. A general knowledge of the laws of cleanliness and health and the causes of disease is thus being given to a growing number of children.

CHAPTER XIII.

Miscellaneous.

1. **Unrecognised schools.**—Under the name " Unrecognised institutions " are grouped different types of schools which do not belong to a single category and often have no resemblance to each other, except the negative quality of not following any courses prescribed by the University or the Department. Many of them are small, indigenous religious schools, tols or Koran schools or Kyang (Buddhist monastic) schools; others are primary schools with less than ten pupils or not teaching the full curriculum; others are " national " schools, started as a result of the non-co-operation movement. A few aim and reach higher and, while preserving their independence as a matter of principle, provide wide and advanced courses of instruction.

The number of unrecognised schools is naturally fluctuating. Many of them, on reaching a certain standard, seek and obtain recognition as maktabs or primary schools. On the other hand, primary schools which are refused stipends, may revert to the unrecognised class. In 1921-22, there were 1,840 institutions with 55,437 pupils. In 1925, the number dropped to 1,283 with 43,815 pupils; but rose again in 1927 to 1,610 schools with 53,504 pupils. Little reliance can be placed on these figures.

As a rule, the condition of the more elementary unrecognised school is far from satisfactory. The building, staff and equipment are usually inadequate, discipline weak, teaching defective, finances precarious. There are, however, some very notable exceptions.

The best known is the Santiniketan School and Viswabharati, founded by Dr. Rabindranath Tagore, at Bolpur. This institution is too well known to need a long description. The work which it does in different spheres is admirable. To its agricultural and industrial work, reference has already been made in another Chapter. Another noteworthy feature is its encouragement of artistic talent and the place given to art in its school curriculum. The higher branch of the institution has secured the co-operation of distinguished foreign scholars and done valuable work in advanced oriental studies. Arrangements have been made by which pupils of the institution can, if desired, appear for the examinations of Calcutta University.

The Kabindra College, Goila, Bakarganj, is a centre of higher Sanskrit studies, of Ayurved and Hindu philosophy.

The Mahakali Pathsala of Mymensingh is a girls' school and has 200 pupils on its rolls. It teaches up to the 7th standard and, besides the ordinary subjects, pays special attention to religious teaching. The teachers are, however, men, but an attempt is being made to replace them by women teachers. The pathsala receives a grant Rs. 40 per month from the municipality.

2. **National schools.**—The national schools have not fulfilled the bright hopes with which they were started. With the collapse of educational non-co-operation, their clientèle was reduced and many of them found themselves without either pupils or money. Their number has, therefore, steadily diminished. At the end of 1921, there were 170 schools with 13,468 pupils; but, five years after, the 45 surviving schools had only 3,208 pupils. In several cases, dissension among the school authorities caused the downfall of the school. At Dacca, the larger part of the staff and pupils seceded from the National College and started a separate medical institution. The schools which remain have religious instruction as well as spinning and weaving—but in most cases, the spirit and fervour of the first days have vanished and the heart has gone out of the whole enterprise. One hardly knows

which to be most sorry for—the unthinking optimism of the beginning or the tragedy of this quick disillusionment. For the national school properly conceived and managed might make an immense contribution to the education of Bengal. More than anything else we need truly "national" schools in Bengal.

3. **Text Book Committees.**—The constitution of the Text Book Committees remained substantially the same during this period. With the introduction throughout the province of the revised primary schools curriculum, the task of examining all text books for primary schools was entrusted to the Calcutta Committee, which was afforced by the addition of two non-official Muhammadan members from East Bengal. The Dacca Committee continued to receive and examine other books.

Books intended for school prizes and libraries were also diverted to the Text Book Committees in 1925, instead of being sent to the Director of Public Instruction. The work of the Committees, especially of the Calcutta one, was thus materially increased. What made matters worse was that most of the books were received and sent out to members for examination in the course of two or three months in the year. The examination tended, as a result, to be rather perfunctory in many cases, and bad books got on to the list.

There were other defects in the system. The lists of approved text books and other books grew year by year, as old books were not as a rule discarded and fresh additions were made regularly, till finally the lists became long and unordered and of little use as a guide to Head Masters and schools. An educational officer was therefore placed on deputation to make recommendations for the reorganisation of the Committees, and his report is now under the consideration of Government. The chief proposals are that the number of text books in any subject for a class in any one year should be limited and that a fee should be given for the examination of each book.

During the quinquennium, 5,041 books were considered by the Calcutta Committee and 1,573 approved. The Dacca Committee approved 1,566 out of a total of 4,085 books examined.

4. **Oriental Education.**—Both Universities encourage higher Sanskritic and Islamic studies. To commemorate the services of Sir Ashutosh Mukerjee, the Senate of Calcutta University founded two chairs, one for Sanskrit studies and the other for Islamic culture. In Dacca University, there are departments of Arabic and Islamic studies, of Persian and Urdu, of Sanskritic studies and Bengali. Dacca University has also gathered an admirable collection of manuscripts, already no fewer than 10,000 in number, and including many rare and interesting items. Some of the earliest manuscripts of the Mahabharata, the Puranas and the Tantras are there; and the collection of the epics and the Puranas is almost complete and indispensable to scholars. This is a field in which much work remains to be done, but the University has made an excellent beginning.

Leaving aside the Universities, Sanskritic studies are chiefly carried on in the indigenous tols. The largest of them is the Tol department of the Sanskrit College, which teaches Veda, Vedanta, Yoga, Sankhya, Nyaya, Mimansa, Smriti, Vyakaran. The pupils, as in other tols, pay no fees and numbered 83 (45 in 1921-22) in 1926-27. Reductions in the staff, as a result of the policy of retrenchment, have to some extent affected the usefulness of the institution. Students appear for the First, Second and Title Examinations conducted by the Sanskrit Association.

Of other tols there is a large and growing number, no fewer than 750 in 1926-27. Each of them as a rule is under one pandit who gives instruction in one or two branches of study; and the students are allowed to appear at the examinations of the Sanskrit Association. Government gives small grants-in-aid to some of the pandits.

The Sanskrit Association, to which reference has been made, was founded in 1918. It is governed by an executive council of 20 persons, 5 of them being scholars trained in Western methods. There is a convocation of 500 pandits, which, however, has never met. The chief functions of the Association are to conduct the examinations, award titles and certificates and advise Government about Sanskrit studies. Independent of it are several local samajes, of which the most important is the Dacca Saraswat Samaj, established in 1878, which conducts its own examinations and has done a great deal of quiet, solid work in the promotion of oriental learning. It receives an annual grant of Rs. 2,400 from Government, but has been largely supported by local liberality.

The report of the Sanskrit College Committee, appointed in 1923, dealt also with the general system of Sanskrit education. The Committee recommends the strengthening of the collegiate tol, so that it might become a model for all tols throughout Bengal. It also makes proposals for the reconstitution of the Sanskrit Association on a new basis and the provision of more generous and more numerous grants for the local tols. No action has yet been taken on the report.

Islamic studies find their home in madrasahs, of which the most advanced is the Calcutta Madrasah, which alone trains students in the Title course. The original intention was to divide the course into several parallel groups, literature, tradition, law, history, etc., but only the tradition group is actually in vogue. The number of students in this section was 37 in 1926-27. For the Madrasah Higher Standard Examination, 17 madrasahs in Bengal and one each in Assam and in Bihar are affiliated to the Calcutta Madrasah. In 1926-27, 17 students appeared in the Title Examination and 7 passed; 78 were successful out of 174 in the Higher Standard Examination and 218 out of 392 candidates in the Lower Standard.

5. **Conferences and meetings.**—Several times during the period, conferences of inspecting officers were held in the different divisions, when questions like the distribution of grants-in-aid and modification of grant rules, extension of provident funds, rules for admission and withdrawal of pupils were discussed. In 1923, a conference was held in Calcutta to discuss changes in the European School Code; and, in 1926, another, consisting of the heads of European Schools in Bengal, to consider the secondary school system and its relation to the University. In 1925, the Director of Public Instruction presided over a conference of higher educational officers to discuss matters connected with the organisation and administration of the department, such as the powers of Inspectors of Schools, promotion of subordinate officers, the system of grant-in-aid, the revival of the primary and middle school public examinations.

The draft Primary Education Bill was explained and freely discussed in a series of conferences in each division during 1925-26. Three were addressed by the Secretary, Education Department, one by the Director of Public Instruction and one by the Commissioner of the Chittagong Division. Keen interest was shown and much criticism, both destructive and constructive, was evoked. This marks a new stage in the public discussion of matters of general educational policy.

But, perhaps, the most important conference of the period was the Bengal Women's Educational Conference, 1927, to which reference has been made in Chapter VI. Important resolutions (Appendix) were passed, covering the whole ground of women's education and a standing committee was appointed, to which Government has already turned for advice on more than one occasion.

The work of the different committees appointed from time to time has found mention in other parts of this review. The most important were the Presidency College Committee, the Sanskrit College Committee, the standing Advisory Committee for Higher Education, the Accountancy Examination Committee, the Dacca Technical and Vocational Education Committee, the Committee on the Normal and Guru-training Schools.

Both Government and non-Government teachers have their own conferences each year.

Educational exhibitions can be a very useful instrument of propaganda for the diffusion of new methods and ideas; but they have been all too rare. In 1926 a very successful exhibition was held at Malda, largely attended, not only by teachers and students, but by guardians, including many ladies. More exhibitions of this kind will help to create an intelligent interest in education in the general public; for education has nothing to gain and much to lose by being regarded as the exclusive concern of a profession, the monopoly of a guild. Rather is it a matter of national concern, the foundation of the spiritual and moral, as well as the material, well-being of the country at large; and it is the duty of each one and of all to make sure that that foundation is well and truly laid.

K. ZACHARIAH,

Special officer.

APPENDIX.

Resolutions passed by the Conference of the Bengal Women's Education League, 1927.

A.—Primary Education.

1. That the present state of the primary education of girls in Bengal is acutely unsatisfactory.

2. That compulsory free education is required for every girl in the province.

3. That in order to enlist public sympathy the curriculum and schedule of text books be revised on national lines by a committee of experts, both men and women.

4. That the medium of instruction be decided in consultation with local bodies.

B.—Secondary Education.

1. That the Conference approves the steps already taken towards greater elasticity in the curriculum of secondary schools for girls, and desires to see further progress in the same direction.

2. That Government should be asked to create a special Secondary Board for Girls' Education in Bengal, composed of women and men educationists and experts.

C.—University Education.

1. This Conference recommends that a higher standard than at present in the language selected as the medium of instruction be required of all candidates for the Matriculation Examination.

2. This Conference urges the University to reduce its prescribed minimum of lectures, so that the tutorial system may be encouraged.

D.—Training of Teachers.

1. That the present training institutions for women teachers in number, equipment and staff are inadequate.

2. That Government be asked to establish at least one model training college in the city to supply women teachers for kindergarten, primary and secondary schools.

E.—General.

1. That adequate representation of women on—

(*a*) the Senate;

(*b*) the proposed Secondary Education Board;

(*c*) municipal bodies; and

(*d*) executive bodies created by Government especially the District Board;

be urged.

2. That this Conference desires to co-operate as far as possible with existing bodies for the employment of girls and to take such other steps as may be necessary to influence public opinion towards the employment of educated women in callings for which they are fitted.

3. That in the opinion of this meeting there should be the closest co-operation possible between the home and school or University—

(*a*) That there be active propaganda, either direct or indirect, by educational authorities, to show the necessity of female education and to popularise modern educational ideas.

(*b*) That along with culture subjects there should be taught in the higher classes of schools subjects relating to the life of the children, *e.g.*, Domestice Science, Hygiene, Biology and Physiology, Child Psychology and Citizenship.

(*c*) Contact centres should be established between the home and school or college, either through women's' organisations, social gatherings, or lectures and "Education Weeks."

4. In the opinion of this Conference the ultimate aim of all educational work in schools and colleges is the presentation and development of the highest ideals of life and character, thus helping to produce God-fearing leaders of thought and action in the country. To this end, the training of young people should be entrusted only to persons of strong religious conviction and consistent character and high ideals of life.

5. That in the opinion of this Conference physical culture is an essential part of a girl's education and Government should, therefore, be urged to establish a centre for physical culture with authority to grant a diploma.

6. That this Conference considers that efforts should be made to foster the traditional arts and crafts of India, that systematic teaching of drawing be given in every school and that art should be taught with special reference to its application in the home.

Form C—BENGAL.

[Section 5 (*2*) of the Cotton Ginning and Pressing Factories Act, 1925.]

Statement of cotton pressed in the Bengal Presidency for the week ending 20th July 1928.

1	2	3	4	5	6
Name of Division or Block.	Number of bales pressed.		Number of bales pressed.		District included in the block.
	During the week.	During the corresponding week last year	Since 1st September 1927 (the date prescribed by the Local Government as the commencement of the season).	During the corresponding period last year.	
The Bengal Presidency...	644 or 639 5 bales of 400 lbs. each	1,666	41,715	44,802	All districts in the Presidency.

R. P. ADAMS,
Chief Inspector of Factories, Bengal.

CORPORATION OF CALCUTTA.

NOTICE.

In compliance with the provisions of section 481 of the Calcutta Municipal Act, 1923, it is hereby notified for general information that the Corporation of Calcutta propose to frame the following by-law under clause (*24*) of section 478 of the said Act regulating the use of land at street corners as site for the erection of buildings :—

By-law under section 478 (*24*) of the Calcutta Municipal Act, 1923, regulating the use of land at street corners as site for the erection of buildings.

"The corners or corner of a site used for the erection of a new building, situated at the intersection of two or more streets, may be splayed between the points obtained by measuring from the intersection of the projected building lines a distance of not less than 8 feet along each of such building lines, and the land so left shall be added to the street subject to the payment of such compensation as may be determined by the Corporation."

A printed copy of the above by-law is open to public inspection, free of charge, and may be purchased on payment of a fee of annas two at the Secretary's office, Central Municipal Office, on any working day between the hours of 11 A.M. and 4 P.M.

Objections, if any, to the proposed by-law will be received by the undersigned up to Monday, the 17th September 1928, after which the proposed by-law will be further proceeded with.

J. C. MUKERJEA, *Chief Executive Officer.*

CENTRAL MUNICIPAL OFFICE, *the 27th July 1928.*

FARIDPUR, *the 22nd July 1928.*

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 25th July 1928.

Summary.—During the week the rainfall was generally light to moderate. Transplantation of winter paddy seedlings is progressing under favourable conditions. Harvesting of autumn paddy and jute in lowlands continues in East and North Bengal districts. Damage to jute crop by insect-pests and excessive rain continues to be reported from some districts. Outlook for other standing crops is generally fair. Distress continues to prevail in parts of Bankura, Dinajpur and Malda where the number of persons employed on test relief works is reported as 124, 472 and 237, respectively. The average price of common rice for the province has risen by about 0·37 per cent. as compared with that of the previous week.

Serial No.	District and subdivision.	Rainfall.	Price of common rice, in seers, per rupee.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
1	24-PARGANAS...	5·56	5½	5½	Weather seasonable. Transplantation of *aman* paddy continues in Sadar, Basirhat, Diamond Harbour and Baraset. Weeding of jute is going on in Barrackpore. Some damage to the crop is reported from Sadar, Barrackpore, Diamond Harbour and Baraset by heavy rainfall. Much damage is done by insect-pests in Basirhat. Harvesting has not yet commenced. Fodder and water are sufficient.
	Diamond Harbour.	4·89	5½	5½	
	Barrackpore ...	4·66	5	5	
	Baraset ...	3·10	5½	5½	
	Basirhat ...	1·31	5½	5½	
2	NADIA ...	4·04	5	5	Weather seasonable. Constant rain is impeding weeding of *aus* paddy at Sadar. Transplantation of *aman* paddy is going on in Chuadanga and Ranaghat. Prospects of standing crops are favourable except in Kushtia. Jute crop is in fair condition. In Meherpur the condition of jute is improving. Some damage to jute plants by insect-pests in Sadar and Kushtia is reported. Harvesting of jute has not commenced. Fodder and water are sufficient.
	Kushtia ...	2·62	5½	5½	
	Meherpur ...	2·35	5¼	5¼

			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
6	BURDWAN ...	2·81	5⅜	5	Weather hot and cloudy. Prospects of crop are good. Transplantation is going on. Fodder and stock of rice are not sufficient in Katwa. Rice market is steady.
	Asansol ...	1·33	5¼	5¼	
	Katwa ...	Nil	5⅜	5⅜	
	Kalna ...	2·98	5⅜	5	
7	BIRBHUM ...	1·45	6	6	Transplantation of paddy seedlings continues. Condition of sugarcane is not good. No test work remained open. Water sufficient but fodder insufficient in Rampurhat subdivision.
	Rampurhat ...	4·60	5	5	
8	BANKURA ...	2·18	5⅜	5⅜	Weather dull and showery. Fodder and water are sufficient : 124 labourers were employed on 24th instant on nine test-relief works.
	Vishnupur ...	5·28	6	6	
9	MIDNAPORE ...	6·01	6¼	6¼	Weather cloudy. Jute is being damaged by rain. Fodder and water are sufficient. Cattle-disease is reported from Kharagpur and Balarampore.
	Contai ...	(*n*)	(*n*)	7	
	Tamluk ...	5·31	6	6	
	Ghatal ...	3·69	5⅜	5⅜	
	Jhargram ...	6·08	5⅜	5⅜	
10	HOOGHLY ...	3·43	5¼	5¼	Weather seasonable. Transplantation of *aman* paddy is going on. Jute is being affected by heavy rain. The crop has been damaged by flood in Arambagh. Harvesting has not commenced. Fodder is sufficient.
	Serampore ...	5·33	4¾	4¾	
	Arambagh ...	4·11	5⅜	5⅜	
11	HOWRAH ...	4·48	5¼	5¼	Prospects of jute on high land are hopeful. Transplantation of paddy continues.
	Uluberia ...	3·44	5	5	
12	RAJSHAHI (RAMPUR-BOALIA). ...	0·64	5	5	Condition and prospects of jute have improved slightly. Effects of weather are not favourable. Damage to the crop is reported from Nator by insect-pests and from Godagari by excessive rain. Harvesting of jute is going on in Nator and Naogaon. Prospects of *aman* paddy are good. Fodder and water are sufficient.
	Naogaon ...	0·34	5	5	
	Nator ...	Nil	5¼	5¼	
13	DINAJPUR ...	3·52	5	5	Effects of weather on agricultural operations are favourable to the standing jute and *bhadoi* crops. Preparation of lands for winter paddy is nearly finished. Fodder and water are sufficient, except in Balurghat where fodder is insufficient. Number of labourers employed on test-relief works on the 24th instant was 472.
	Thakurgaon ...	2·16	5	5	
	Balurghat ...	0·51	5¼	5	
14	JALPAIGURI ...	2·75	5	5	Weather favourable. Condition and prospects of jute are fair. No damage. Harvesting has not commenced.
	Alipur ...	4·27	5	4½	
15	DARJEELING ...	1·71	4	4	Potatoes and maize are being harvested. *Marwa* and paddy are being transplanted. Fodder and water are sufficient. Cattle-disease is reported from Kurseong thana.
	Kurseong ...	2·44	5	5	
	Siliguri ...	(*n*)	(*n*)	5	
	Kalimpong ...	1·74	5	5	

(*n*) Not reported.

			This week.	Previous week.	
1	2	3	4	5	6
		Inches			
16	RANGPUR ...	1·95	4¾	4¾	Weather effects are favourable on jute. No damage is reported. Harvesting and steeping are going on. Prospects of jute are good, except in Gaibandha subdivision. Fodder and water are sufficient.
	Nilphamari ...	1·05	5	5	
	Kurigram ...	0·74	4½	4¾	
	Gaibandha ...	Nil	5	5	
17	BOGRA ...	1·65	5¼	5 1/16	Transplantation of *aman* paddy continues. Condition of jute is not good owing to heavy rain. The crop is being harvested and steeped.
18	PABNA ...	1·57	5	5	Weather seasonable. Its effects are favourable on jute. Condition of jute is satisfactory. No damage is reported. Harvesting of jute is in progress. Prospects of crops are fair. Fodder and water are sufficient.
	Sirajganj ...	1·11	4¾	4¾	
19	MALDA ...	1·82	5¼	5	Weather seasonable. Its effects on jute crops are not favourable. Heavy rain and insect-pests have done damage. Harvesting has not commenced. Transplantation of winter rice continues. Fodder and water are sufficient: 237 men worked on test-relief works on the 23rd instant.
20	COOCH BEHAR	2·11	5⅞	5⅞	Weather seasonable. Prospects of jute and other standing crops are fair. Cutting, steeping and washing of jute are in progress; weather has been favourable. Some damage by insect-pests is reported from Mathabhanga and Dinhata. Cattle-disease exists in interior. Fodder and water are sufficient
21	DACCA ...	1·59	5¼	5¼	Rainfall at North Sadar (Kapasia) 3·22. Weather seasonable. Harvesting of jute in low lands is going on. Prospects of standing crops appear to be good in high lands but bad in low lands on account of the sudden rise of water. The market of rice is steady. Fodder and water are sufficiently available.
	Manikganj ...	0·75	5	4⅞	
	Narayanganj ...	4·28	5⅛	5⅛	
	Munshiganj ...	2·91	5¼	5¼	
22	MYMENSINGH	0·44	4½	4¾	Weather seasonable. Prospects of crops are normal. Condition of jute is below the normal owing to stunted growth on account of excessive rain. The rice market is almost steady.
	Jamalpur ...	1·06	4½	4½	
	Tangail ...	1·00	4¾	4¾	
	Netrakona ...	3·37	4⅞	4¾	
	Kishorganj ...	0·49	5 3/16	5 3/16	

Serial No.	District and subdivision.	Rainfall.	Price of common rice, in seers, per rupee.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
23	FARIDPUR ...	1·21	4¾	4¾	Weather is not favourable to the growth of jute and paddy owing to continual showers of rain and sudden rise of water. Harvesting of jute and paddy continues. Damage to jute is being caused by insect-pests in places. Prospects of standing jute and paddy crops are fair. Fodder is sufficient. Cattle-disease is reported from Muksudpur thana in Gopalganj subdivision.
	Goalundo (Rajbari).	1·83	5	5	
	Madaripur ...	1·43	5½	5½	
	Gopalganj (*a*) ...	1·93	5½	(*n*)	
24	BAKARGANJ (BARISAL).	0·80	4¾	4¾	Weather squally. Prospects of crops are good. Condition of jute is fair. Weather effects are not favourable to the growth of jute. Continuous rainfall and squally weather have done some damage to the crop. Harvesting has commenced in lowland areas. Fodder and water are sufficient.
	Pirojpur ...	2·71	4¾	4⅞	
	Patuakhali ...	1·15	5½	5½	
	Dakshin Shabazpur (Bhola).	0·80	5½	5½	
25	CHITTAGONG ...	0·83	6 6½*	6 6½*	Transplantation of autumn crops is in progress. Prospects of standing crops are fair. Fodder and water are sufficient. *Panga* salt sells at 16 and 12 seers per rupee at Sadar and Cox's Bazar respectively. Cattle-disease is reported from Teknaf.
	Cox's Bazar ...	1·02	5	5	
26	TIPPERA (COMILLA).	4·86	5⅛	5⅛	Weather favourable. Prospects of standing crops are good. Harvesting of jute is going on ; slight damage is reported from Chandpur.
	Brahmanbaria	1·59	5⅔	5⅔	
	Chandpur ...	0·12	6	6	
27	NOAKHALI ...	0·44	5	5	Condition and prospects of standing jute crop are fair. Weather has been favourable. Harvesting has commenced. Cattle-disease is reported from the islands.
	Feni ...	1·01	5½	5½	
28	CHITTAGONG HILL TRACTS.	3·69	5	5	Weather seasonable. Cultivation of *jhum* crops is in progress.
29	TRIPURA STATE	2·81	5¾	5¾	Weather seasonable. Transplantation of winter paddy begins. Condition of jute is not good. Effects of weather are unfavourable for the growth of jute for insufficient rain. Cattle-disease exists in Khowai. Fodder and water are sufficient. Cleansed cotton sells at Rs. 20 to Rs. 30 and jute at Rs. 9 to Rs. 10 per maund.

(*n*) Not reported. * Burma rice.

(*a*) The rainfall at Haridaspur, which is very near to Gopalganj, is not shown here.

DACCA, *the 28th July 1928.* J. C. ROY, for *Director of Agriculture, Bengal.*

Calcutta, *the 30th July 1928.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the Summer Til crop of Bengal, 1928-29.

[NOTE —On an average of the five years ending 1925-26, the area under *til* in Bengal has represented some 2 8 per cent of the total area under *til* in British India.]

Character of the Season.—In the two important districts of Pabna and Mymensingh which contain more than half the acreage of the province, the crop was reduced to 50 per cent. of the normal, owing to drought in the former and excessive rain in the latter In the rest of the districts, the crop generally suffered from absence of sufficient moisture On the whole, the weather was unfavourable to the crop.

Acreage.—The area sown this year is reported to be 102,300 acres as against 98,800 acres last year.

Outturn.—From the estimates furnished by the District Officers, the average outturn of the crop for the province works out at 60 per cent. of the normal this year as against 74 per cent last year.

Taking the normal yield at 6 maunds per acre, the gross outturn of the crop for the province is estimated at 13,500 tons this year as against 16,100 tons last year.

R. S. FINLOW,

Director of Agriculture, Bengal.

DACCA :

The 26th July 1928.

APPENDIX I.

Statement of the Summer Til Crop of Bengal, 1928-29.

District	Estimated normal area under summer til.	Estimated area under summer til.		Taking 100 to represent the normal, what would be the average outturn per acre cropped.		Date by which sowing generally began this year and whether that date was early, normal or late.	Date by which harvesting generally commenced this year and whether that date was early, normal or late.	Remarks by District Officers.
		Last year.	This year.	Last year.	This year			
1	2	3	4	5	6	7	8	9
	Acres.	Acres	Acres.					
24-Parganas ..	100	(20)	(15)	..	..	....	....	
Nadia ..	500	500	400	67	33	Early part of March. Normal.	Early part of June	The decrease in area is due to want of rain at sowing time. The weather conditions were not at all favourable. Hence the outturn fell much below the normal.
Murshidabad ..	1,000	1,700	1,300	67	58	By the end of March. Normal	By the end of June. Normal	The decrease in area is due to want of rain at sowing time. The weather was not favourable. The drought in March and April caused much damage. Hence the outturn is anticipated to fall much below the normal.
Jessore ..	3,300	900	800	66	50	March. Normal	June. Normal	The decrease in area is due to insufficient rain at sowing time The weather was not favourable.
Khulna ..	1,000	900	900	92	83	First week of March. Normal.	First week of June. Normal.	The decrease in area is due to unfavourable weather condition. The outturn is below the normal owing to want of timely rain.
Burdwan ..	3,800	700	600	67	67	March. Normal.	May. Normal	The weather was fairly favourable.
Birbhum ..	500†	400	500	83	67	Ditto ..	June ..	The weather was not favourable. Drought up to the middle of June did some damage.
Bankura ..	3,600	2,400	3,300	83	75	February to March. Normal.	Ditto ..	The increase in area is due to more careful estimating. There was drought at sowing time which did much injury to the crop The rainfall in April was favourable. The fall in outturn is due to drought up to the end of April.
Midnapore ..	7,500	1,500	1,300	66	75	Between February and March. Normal.	1st week of June.	The decrease in area is due to unfavourable weather at sowing time owing to drought. The rains set in but were too late. Excessive rain in June did some damage.
Hooghly ..	2,800	300	300	75	67	Middle of March. Normal.	Beginning of June. Normal.	The weather was favourable at sowing time, but was unfavourable owing to rain. The outturn is below the normal owing to damage caused by drought in Arambagh subdivision.
Howrah ..	(5)	(2)	..	67	..	....	....	
Rajshahi ..	10,300	5,500	4,500	83	75	March. Normal.	June. Normal	The decrease in area is due to want of rain at sowing time. Subsequently the conditions were favourable Some damage was reported from Nator.
Dinajpur ..	200	200*	(30)*	75	50	Middle of May. Normal.	Latter part of July Normal	The decrease in area is due to drought at sowing time The weather was not favourable.
Rangpur ..	200	200	200	100	100	By the end of February. Normal.	Middle of June Normal.	The weather was favourable.
Bogra ..	2,200	900	1,000	63	60	March. Normal	June. Normal.	The increase in area is due to decrease in area under jute. The low outturn is due to drought at the beginning of the season.
Pabna ..	33,500	21,900	21,900	50	50	Middle of March. Somewhat late.	June. Normal	The drought at sowing time hampered the cultivation The effects of weather on the cultivation and growth of the crop were not satisfactory.

J. G. DRUMMOND,

Secretary to the Government of Bengal.

PUBLIC HEALTH.

NOTIFICATIONS.

Minister-in-charge : The Hon'ble Sir P. C. Mitter, Kt., C.I.E.

No. 1898P.H.—The 30th July 1928.—The following draft of by-laws which have been framed by the Commissioners of the Khulna Municipality, under section 350 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), as additions to the by-laws confirmed in notification No. 2426M., dated the 18th September 1916, and which the Government of Bengal (Ministry of Local Self-Government) propose to confirm under section 351 of the Act, is published for the information of persons likely to be affected thereby.

Khulna.

2. The draft will be taken into consideration on the 1st October 1928, and any objection or suggestion received by the undersigned through the District Magistrate before that date will be duly considered :—

Draft by-laws.

9-A. No motor vehicle shall run on any road unless the tyres of the wheels are pneumatic.

Fine, Rs. 50.

9-B. No person shall drive over any road or bridge a vehicle whose weight when unladen exceeds the weight prescribed by the Municipal Commissioners as the maximum weight of a vehicle that may be driven over such road or bridge, or at a speed greater than the maximum speed prescribed by the Municipal Commissioners for such road or bridge.

Fine, Rs. 50.

37-A. No person shall drive a motor vehicle over any road or bridge which has been closed to motor vehicles by order of the Municipal Commissioners with the sanction of the Commissioner of the Division.

Fine, Rs. 50.

Minister-in-charge : The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

No. 1974P.H.—The 3rd August 1928.—In exercise of the powers conferred by clause (*vi*) of sub-section (*1*) of section 6 of the Bengal Food Adulteration Act, 1919 (Bengal Act VI of 1919), the Government of Bengal (Ministry of Local Self-Government) are pleased to prescribe the following conditions which must be fulfilled if the article of food specified below is to be sold or exposed or hawked about for sale or manufactured or stored for sale, viz. :—

Tea including tea dust, tea sweepings, tea fannings or stalk tea shall be the leaves and leaf buds of species of *Thea*, prepared by fermenting, drying and firing ; it shall not contain any tea which has been in any measure deprived of its proper quality, strength or virtue by steeping, infusion, decoction or other means or any foreign matter.

Minister-in-charge: The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

No. 1975P.H.—The 3rd August 1928.—In exercise of the power conferred by sub-section (*3*) of section 1 of the Bengal Food Adulteration Act, 1919 (Bengal Act VI of 1919), the Government of Bengal (Ministry of Local Self-Government) are pleased to make the following amendment :—

Amendment.

After the word "Tea" inserted in notification No. 922San., dated the 28th August 1920, by notification No. 1268P.H., dated the 19th June 1923, the following words and brackets shall be added, namely :—

"(including all forms of tea such as tea dust, tea sweepings, tea fannings and stalk tea intended for human consumption)."

Minister-in-charge: The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

No. 1976P.H.—The 3rd August 1928.—In exercise of the power conferred by clauses (*a*) and (*d*) of sub-section (*2*) of section 20 of the Bengal Food Adulteration Act, 1919 (Bengal Act VI of 1919), the Government of Bengal (Ministry of Local Self-Government) are pleased to make the following amendment :—

Amendment.

Insert the following as a sub-rule to rule (*1*) of the rules published under notification No. 1269P.H., dated the 19th June 1923 :—

"(*1*) (*b*) 'Tea' includes all forms of tea such as tea dust, tea sweepings, tea fannings and stalk tea intended for human consumption."

Minister-in-charge: The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

No. 1986P.H.—The 3rd August 1928.— Dr. A. K. Sen was appointed to act as Chief Sanitary Officer, Mines Board of Health, Asansol, from the 26th March 1928 to 2nd July 1928, both days inclusive, in place of Dr. J. W. Tomb, on leave.

Burdwan.

Minister-in-charge : The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

Orders by the Registrar of Co-operative Societies, Bengal.

No. 15L.—The 4th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Sadullyapur Dharma Bhandar (registered No. 228 of 1914), in the district of Pabna, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint Babu Jogendra Nath Sarkar, B.L., a Director of the Pabna Central Co-operative Bank, Limited, to be liquidator of the said society.

No. 16L.—The 4th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Bhasanchar Naiberkandi Co-operative Bank (registered No. 45 of 1915), in the district of Dacca, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint the senior Co-operative officer at Munshiganj to be liquidator of the said society.

No. 17L.—The 4th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Malifa Gramya Dhana Bhandar (registered No. 283 of 1913), in the district of Pabna, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint Babu Jogendra Nath Sarkar, B.L., a Director of the Pabna Central Co-operative Bank, Limited, to be liquidator of the said society.

No. 18L.—The 4th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Kharicha Samabay Samiti (registered No. 114 of 1924), in the district of Mymensingh, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint the Inspector of Co-operative Societies, Mymensingh, to be liquidator of the said society.

No. 19L.—The 4th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Katurakandi Gramya Rinadan Samity (registered No. 188 of 1916), in the district of Jessore, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint the Auditor of Co-operative Societies, Narail, to be liquidator of the said society.

J. M. MITRA,

Registrar of Co-operative Societies, Bengal.

ERRATUM.

No. 5035.—The 6th August 1928.—In modification of this department notification No. 4-L., dated the 5th July 1928, published in the *Calcutta Gazette*, dated the 12th July 1928, so far as it relates to the registered number of the Aley Kishamat Joutha Bank in the district of Rangpur, please *read* "62 of 1918" instead of "62 of 1928."

LAND ACQUISITION.

NOTIFICATIONS.

No. 15000L.A.—The 2nd August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the expense of the Howrah Municipality for a public purpose, viz., for opening out a 6 feet passage between Chatterjeepara 1st Lane and Chatterjeepara Lane, in the village of Betra Oottur, pargana Boro, zilla Howrah, it is hereby notified that for the above purpose a piece of land measuring, more or less, 0·014 of an acre, bounded on the—

Howrah.

North—By lands of Ashutosh Das,

East—By lands of Nagendra Nath Sett,

South—By Chatterjeepara 1st Lane,

West—By lands of Gosta Behari Ghosh,

is likely to be required within the aforesaid village of Betra Oottur.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector of Howrah.

No. 15003L.A.—The 2nd August 1928.—The Governor in Council is pleased to cancel so much of the notification No. 14169L.A., dated the 10th September 1927, under section 4 of the Land Acquisition Act, I of 1894, published at page 1886, Part I of the *Calcutta Gazette* of the 15th idem, as relates to 0·02 of an acre of land, being parts of cadastral survey plots Nos. 3067, 3065 and 3064 of the settlement map of mauza Boalia, out of the total area measuring, more or less, ·16 of an acre of land required for the construction of the office buildings for the Rajshahi Central Co-operative Bank, in the village of Boalia, pargana Laskarpur, district Rajshahi.

Rajshahi.

No. 15080L.A.—The 4th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the public expense for a public purpose, viz., for the Lodha Forest Beat Office, in the village of Dakshin Nhila, police-station Teknaf, zilla Chittagong, it is hereby notified that for the above purpose a piece of land measuring, more or less, 0·4 of an acre, covered by part of cadastral survey plot No. 4110, is likely to be required within the aforesaid village of Dakshin Nhila.

Chittagong.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector of Chittagong.

24-Parganas.

No. 15086L.A.—The 4th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the public expense for a public purpose, viz., for the construction of Dhutkhally sluice in the village of Gangadharpur, jurisdiction list No. 126, thana Mathurapur, pargana Hatiaghar, zilla 24-Parganas, it is hereby notified that for the above purpose a piece of land measuring, more or less, 3·8731 acres, bounded on the—

North—By the land of Keramat Naskar, Bhabo Sindhoo Halder and by the Government embankment and bherry,

East—By the land of Keramat Naskar, Bhabo Sindhoo Halder and by the bherry and Manikdhani khal,

South—By the land of Ananda Baidy and by the Manikdhani khal and bherry,

West—By the land of Ananda Baidy and Keramat Naskar and by the Government embankment and bherry,

is likely to be required within the aforesaid village of Gangadharpur.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Executive Engineer, Canals Division.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector, 24-Parganas.

Hooghly.

No. 15089L.A.—The 4th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government partly at the public expense and partly at the expense of the Bansberia Middle English School authorities for a public purpose, viz., for the extension of the school compound and for a play-ground for the Bansberia Middle English School, in the village of Bansberia, jurisdiction list No. 51, thana Chinsura, pargana Arsha, zilla Hooghly, it is hereby notified that for the above purpose a piece of land comprising cadastral plots Nos. 1037 and 1038 and measuring, more or less, 0·231 of an acre, is likely to be required within the aforesaid village of Bansberia.

This notification is made, under the provisions of section 4 of Act I of 1884, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Hooghly.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector of Hooghly.

No. 15146L.A.—The 6th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the public expense for a public purpose, viz., for the Monakhali Forest Beat office in the village of Inoni, police-station Teknaf, zilla Chittagong, it is hereby notified that for the above purpose a piece of land measuring, more or less, ·6 of an acre, covered by cadastral survey plots Nos. 3626 (part), 3630, 3631 and 3636 (part), is likely to be required within the aforesaid village of Inoni.

Chittagong.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector of Chittagong.

No. 15149L.A.—The 6th August 1928.—The Governor in Council is pleased to cancel the notification No. 10580L.A., dated the 27th September 1926, published under section 4 of the Land Acquisition Act, I of 1894, at page 1468, Part I of the *Calcutta Gazette* of the 30th idem, in respect of proposed acquisition of 5·26 acres of land required by the Narayanganj Electric Supply Company, Limited, for erecting a power-house, quarters for the staff and workmen, etc., in the village of Khanpur in Narayanganj municipal area, pargana Jahangirnagar, zilla Dacca.

Dacca.

No. 15155L.A.—The 6th August 1928.—The Governor in Council is pleased to cancel so much of the notification No. 15941L A., dated the 7th November 1927, under section 4 of the Land Acquisition Act, published at page 2324, Part I of the *Calcutta Gazette* of the 10th idem, as relates to that portion of the land measuring, more or less, 0·0467 of an acre, and bounded as described below, out of the total area of 1·612 acres, required by the Kamarhati Municipality for the extension of the existing trenching ground in the village of Basudebpur, jurisdiction list No. 2, thana Baranagore, pargana Calcutta, zilla 24-Parganas :—

24-Parganas.

North—By the land of Kalidas Roychaudhury.

East and West—By the land of Kalidas Roychaudhury and Eastern Bengal Railway.

South—By the land of Eastern Bengal Railway.

No. 15158L.A.—The 6th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the expense of the District Board, Howrah, for a public purpose, viz., for the construction of a road from the Cuttack Road near the Deulty station to the Rupnarayan embankment near the Mellock sluice, in the village of Mellock, jurisdiction list No. 23, thana Bagnan, pargana Kharili Mondalghat, zilla Howrah, it is hereby notified that for the above purpose a piece of land measuring, more or less, 4·911 acres, bounded on the—

Howrah.

North—By ditch of Rupnarayan embankment,

East—By Mellock village,

South—By roadside land of Cuttack Road,

West—By Mellock village,

is likely to be required within the aforesaid village of Mellock.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Land Acquisition Collector of Uluberia.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector of Howrah.

Jalpaiguri.

No. 15170L.A.—The 6th August 1928.—Whereas it appears to the Governor in Council that land in the district of Jalpaiguri is likely to be needed for a public purpose, viz., for the construction of a line of railway, from Bagrakote Station, Bengal Dooars Railway, to Sivoke, notice is hereby given to all whom it may concern that in exercise of the powers conferred by section 4 of the Land Acquisition Act, I of 1894, the Governor in Council has authorised the Engineers of the Bengal Dooars Railway Company for the time being engaged on this undertaking to enter upon and survey land, and do all other acts required for the proper execution of their work as provided for or specified in the said section.

The general route to be taken for the survey will be, more or less, through the following Tea Gardens :—

Washabari Tea Estate and Ellenbarrie Tea Estate.

W. H. NELSON,

Secretary to the Government of Bengal (offg.).

DECLARATION.

Calcutta.

No. 15092L.A.—The 4th August 1928.—Whereas it appears to the Governor in Council that land is required to be taken by Government at the expense of the Corporation of Calcutta for a public purpose, viz., for children's play-ground at Burrabazar in Ward No. V of the Calcutta Municipality in the city of Calcutta, it is hereby declared that for the above purpose a piece of land being premises No. 8, Burtolla Street, and measuring, more or less, 0·2248 of an acre, bounded on the—

North—By premises Nos. 7, 6-1 and 6, Burtolla Street,

East—By premises No. 145, Cotton Street, and a municipal passage,

South—By premises Nos. 148, 147 and 146, Cotton Street,

West—By premises No. 149, Cotton Street,

is required within the aforesaid ward No. V of the Calcutta Municipality in the city of Calcutta.

This declaration is made, under the provisions of section 6, Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Second Land Acquisition Collector, at No. 2, Commercial Buildings, Calcutta.

W. H. NELSON,

Secretary to the Government of Bengal (offg.).

DECLARATION.

24-Parganas.

No. 15152L.A.—The 6th August 1928.—Whereas it appears to the Governor in Council that land is required to be taken by Government at the expense of the Kamarhati Municipality for a public purpose, viz., for the extension of trenching ground, in the village of Basudebpur, jurisdiction list No. 2, thana Baranagore, pargana Calcutta, zilla 24-Parganas, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1·5660 acres, bounded on the—

North—By the land of Kalidas Roy Choudhury, drain of Khetra Nath Ghose's garden and by the present trenching ground,

East—By the drain of Khetra Nath Ghose's garden and land of Kali Das Roy Choudhury and Eastern Bengal Railway,

South—By the land of Kalidas Roy Choudhury, Eastern Bengal Railway land and by present trenching ground,

West—By the land of Kalidas Roy Choudhury and by the present trenching ground,

is required within the aforesaid village of Basudebpur.

This declaration is made, under the provisions of section 6, Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Chairman, Kamarhati Municipality.

Educational Notices.

CALCUTTA UNIVERSITY.

NOTICE.

It is hereby announced for general information that Ramendranath Bhattacharyya, a candidate for the final M. B. Examination, April 1928, bearing Roll Cal. Comb. No. 122, who was found guilty of using unfair means at the examination, has been debarred from appearing at the next final M. B. Examination to be held in November 1928.

By order of the Vice-Chancellor and Syndicate,

N. SEN, *Controller of Examinations.*

SENATE HOUSE, *the 25th July 1928.*

CALCUTTA UNIVERSITY.

NOTICE.

It is hereby announced for general information that Surendranath Buragohai, a candidate for the Final Examination in Law, July 1928, bearing Roll Cal. Comp. No. 30 (registered No. 1942 of 1921-22), has been debarred from appearing at any examination of this University, before December 1929, on account of his having used unfair means at the examination.

By order of the Vice-Chancellor and Syndicate,

N. SEN, *Controller of Examinations.*

SENATE HOUSE, *the 3rd August 1928.*

NOTIFICATION.

Test Examination of Private Candidates for the Matriculation Examination, 1929.

A Test examination of private students who have not attended any high school, recognised or unrecognised, for at least one year previous to the ensuing examination, will be held at the Government high, zilla and collegiate schools in the Rajshahi Division on Monday, the 3rd December 1928, and the four following days. Such candidates only as reside in any of the districts of the Rajshahi Division and Cooch Behar will be admitted to the examination. The term "Private Students" includes *bonâ fide* school masters.

2. Private students are those who have not attended any school, recognised or unrecognised, for at least one year previous to the Matriculation Examination.

3. Each private candidate will have to pay a fee of Rs. 6, which is to be remitted to the Inspector of Schools, Rajshahi Division, at Jalpaiguri, and not to the undersigned personally, so as to reach him on or before the 2nd November 1928, along with an application for permission to appear at the test examination. Candidates applying after the prescribed date will have to pay a fine Rs. 2 for each week's delay. Under no circumstances will the admission fee be refunded. No application will, however, be received after the 10th November 1928.

4. Each application for permission to appear at the test examination must be accompanied by information on the points noted below and submitted in the form appended to these rules :—

(*a*) The name of the school in which the candidate last studied.

(*b*) The transfer certificate (in original) granted to the candidate by the headmaster of the school in which he last read, or

(*c*) in the case of a candidate who previously appeared at the Matriculation Examination, the Registrar's receipts (in original) for the fees paid.

(*d*) The age of the candidate. No candidate who has not completed the age of 16 years on the first day of the month in which the Matriculation Examination is held shall be allowed to appear at it.

(*e*) In the case of a schoolmaster a certificate of good conduct from the Secretary of the school in which he is serving or from the Deputy Inspector of Schools of the district concerned.

(*f*) A certificate from a respectable person to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline, and that he has not read in any school since the last Matriculation Examination.

(*g*) A statement by the candidate giving the following facts :—

(1) Residence giving the names of the village, post office and district clearly.

(2) Father's name.

(3) The name of the centre at which he intends to appear.

(4) Second language besides English.

(5) Vernacular language from which translation is to be made into English in English first paper.

(6) Which of the following subjects to be taken up :—

(*i*) Additional Mathematics.
(*ii*) Additional paper in the classical language.
(*iii*) History.
(*iv*) Geography.
(*v*) Elementary mechanics.

5. The Inspector of Schools on being satisfied will issue a passport for admission to the test examination. No candidate will, however, be admitted unless he is identified to the satisfaction of the headmaster of the school at which he appears.

6. The headmasters of the institutions named above should direct candidates who appear at their schools to fill up the application form for permission to appear at the Matriculation Examination in their presence. These applications will be forwarded to the office of the Inspector of Schools. The Inspector of Schools will then countersign the applications of those candidates who pass the test and forward them to the candidate direct for transmission to the Registrar with the fees for the examination.

7. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Registrar by the candidates themselves together with the countersigned applications.

8. The Matriculation Examination will be held in March 1929, and the applications and fees must reach the office of the Registrar on or before the date fixed by the University.

N B.—A student who failed to pass the annual examination for promotion to class X at the end of the session of 1927 and then left the school can, under no circumstances, be allowed to appear at the examination.

Intermediate and B. A. Examinations.

1. Deputy Inspectors of Schools, Sub-Inspectors of Schools and *bona fide* masters of English schools, who have served as such for the full period of three academical years preceding the examinations, will be admitted to the abovenamed examinations.

2. Candidates for the Intermediate and B. A. Examinations must produce certificates of character and length of service from the Secretaries of their respective schools. Candidates for the B. A. Examination must forward with their applications their I. A. or F. A. certificates, and those for the Intermediate Examination, their Entrance or Matriculation certificates. Those candidates who were admitted to a former examination must produce the Registrar's receipt in additon.

3. Under section 19 of the Indian Universities Act, candidates for the Intermediate and B. A. Examinations are informed that their applications for admission to these examinations will not be considered unless they enclose with their applications to this office the sanction of the Senate to appear at the said examinations. Candidates who have applied for or have obtained the special permission of the Senate for the purpose are required, under section 9, Chapter XV of the Revised Regulations dealing with the registration of University students, to apply at once to the Registrar for the registration of their names as "University students." No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation.

4. The printed form of application should be carefully and correctly filled in and submitted to this office on or before the 1st January 1929, together with other papers mentioned in rules 2 and 3, after which no application will be received.

5. The examinations will be held on dates to be notified by the University. Application with the countersignature of the undersigned and fees for the examination must reach the office of the Registrar on dates to be fixed by the University and must be sent to that office by the candidates direct.

M. M. BAKSH,

Inspector of Schools, Rajshahi Division (offg.).

JALPAIGURI, *the 25th July 1928.*

Sridhar Pathak. Kashmir Sukhama.
Lala Bhagawandin. Alankara Manjusha.

Paper IV.—Essay Paper.

(*a*) Development of Hindi Literature, 1850-1900.
(*b*) Persian Influence on Hindi Literature.

Papers V and VI.

(Subsidiary Languages.)

Paper VII.

(Basic Languages.)

Paper VIII.

Hoernle. Comparative Grammar of the Gaudian Languages.
Lyall. Article on Hindustani (in the Encyclopædia Britannica, 9th edition).
Kellog. Grammar of the Hindi Language.
Greaves. Grammar of Tulsidas.
E. Greaves. Hindi Grammar (Indian Press).

MAITHILI.

(Principal Subjects.)

Paper I.

History of Maithili Literature from the earliest times (the thirteenth century down to Chanda Jha).
Special subject—Age of Vidyapati.

Paper II.

Jyotirishvar Thakur. Varnanaratnakar.
Vidyapati. Padavali, Edited by Narendra Chandra Gupta, Radhakrishna Padas, 1-106 and Haragauri Padas.

Paper III.

Harshanath. Ushaharan.
Harshanath. Madhavanand.
Jivan Jha. Sundar Samyog.
Lal Das. Ganes Khand.
Jiban Jha. Samavati Punarjanma (Natak).
Govind Das. Padyasangraha.
Ramdas Jha. Anand Vijay.
Umapati. Parijataharana.

Paper IV.

Influence of Persian on Maithili.
Development of Maithili Literature, 1850-1900.
Books recommended:—

Maithila-Darpana, by Rasbiharilal Das.
History of Tirhut by Shyam Narayan Singh.

Papers V and VI.

(Subsidiary Languages.)

Paper VII.

(Basic Languages.)

Paper VIII.

In place of Bhavanath Misra's Mithila-Sabda-Prakasa, *the following are described*:—

Linguistic Survey of India, Vol. V, Part II.
Grierson's Maithili Grammar, Second Edition, and Maithili Chrestomathy, Hoernle's Comparative Grammar of the Gaudian Languages.
Article by Sir George Grierson on the Radical and Participal Tenses in the Modern Indo-Aryan Vernaculars, Journal of the Asiatic Society of Bengal, 1895.

ORIYA.

(Principal Subject.)

Paper I.

General History of Oriya Literature from the earliest times to 1803 A.D. Special Period—from 1430 to 1568.

The following books and articles are recommended:—

(1) Syamasundara Rajaguru's Prabandhavali.
(2) Tarinicharan Rath's Utkala Sahitya Itihasa.
(3) M. M. Chakravarti's Essay in J. A. S. B. for 1898, No. 4.
(4) Introductory Essays to Vol. I and Vol. II of Typical Selections from Oriya Literature by B. C. Majumdar, published by the Calcutta University.

Paper II.

The following portions from the Oriya Sahitya Parichaya, Vol. I (published by the Calcutta University), pages 1-276, 366-440.

Paper III.

A. Mediæval—

(1) Upendra Bhanja's Lavanyavati, as in the "Typical Selections from Oriya Literature," Vol. II, pages 79-108.
(2) Abhimanyu Samanta Singhar's Vidagdha Chintamani, as in the "Typical Selections from Oriya Literature," Vol. II, pages 209-331.
(3) Kisori Chandrananana Champu, by Baladevo Kavisurya.

B. Modern—

(1) Radhanatha Ray's Mahayatra.
(2) Madhusudana Rao's Vasanta Gatha.
(3) Fakirmohan Senapati's Lachhama.

Paper IV.

(1) Influence of Upendra Bhanja on the post-Upendra Bhanjic Literature of Orissa.
(2) Growth of Modern Oriya Literature under influence of Western culture.

Papers V and VI.

(Subsidiary Languages.)

Paper VII.

(Basic Languages.)

Paper VIII.

The following books are recommended:—

(1) Such portions from Beames' Comparative Grammar of Seven Aryan Languages as relate to Oriya in comparison with Bengali and Hindi.
(2) B. C. Majumdar's Lectures on the History of Bengali Language, Lectures X, XI, XII and XIV.

GUJARATI.

(Principal Subject.)

Paper I.

History of Gujarati Literature from the earliest times to A.D. 1900.
Special subject—Parsi Writers of Gujarati during the 19th century.
Books recommended:—

K. M. Jhaveli. Milestones in Gujarati Literature, Vols. I-II.
D. C. Derasari. Sathina Sahityanu Digdarsan.
K. M. Jhaveri. "Parsi Gujarati Sahitya" in the Vismi Sadi.
A. B. Dhruva and I. J. S. Taraporewala. Selections from Gujarati Literature (Calcutta University), the introductory essay in each writer.

Paper II.

Old Gujarati and Rajasthani:—

Padmanabh. Kanhad De Prabandh (Derasari's edition).
Bhalan. Kadambari (Kantawala's edition.
Rathor Prithvi Raj. Veli Krishna Rukmani (Tessitori's edition, Asiatic Society of Bengal).
Old Gujarati Collections published by the Baroda Government.

Paper III.

Mediæval and Modern Texts:—

Premanand and Dayaram. As Given in Selections from Gujarati (Calcutta University).
Narmadashankar. Narma Kavita.
Dalpatram. Forbes Viraha and Dalpat Kavya.
Kalapi. Kekarava.
Govardhanram Tripathi. Sarasvatichandra.

Paper IV.

Special subjects:—

(*a*) Women writers in Gujarati.
(*b*) Akho and Samal.

Papers V and VI.

(Subsidiary Languages.)

Paper VII.

(Basic Languages.)

Paper VIII.

R. L. Turner. Gujarati Phonology (Journal of the Royal Asiatic Society, 1921).
L. P. Tessitori. Notes on the Grammar of Old Western Rajasthani (Indian Antiquary, 1914-16).
Sir G. A. Grierson. Linguistic Survey of India, Vol. IX (Introduction to Gujarati and Rajasthani).
N. B. Divatia, History of the Gujarati Language.

SUBSIDIARY LANGUAGES.

Papers V and VI on any one of the following:—

(*i*) BENGALI.

Texts.

University Selections for Prose and Poetry.

Grammar.

Students are recommended to consult Dineschandra Sen's History of Bengali Language and Literature and Introduction to Typical Selections from Bengali Literature.
S. N. Sen. Modern Bengali Literature ("Calcutta Review," January 1924).

(*ii*) ASSAMESE.

Texts.

Sankaradeva. Rukmini Haran.
Bhattadeva. Katha Gita (first three chapters).
Lakshminath Bezbarua. Kripabar Barbaruar Kakatar Topala.
Mafizuddin Ahmed. Jnana Malini.
Rajanikanta Bardolai. Manomati.

Grammar.

Hemchandra Barua. Asamiya Byakaran.
Devananda Bharali. Asamiya Bhashar Maulik Bichar.
Satyanath Bora. Sahitya Bichar.
Devananda Bharali. Anglo-Assamese Grammar.
G. F. Nicholl. Assamese Grammar in Bengali Manual.

Literary History.

Devendranath Bazbarua. Asamiya Bhasha Aru Sahityar Buranji.

(*iii*) ORIYA.

Texts.

Balarama Das. Ramayana (Selections 1 and 2 as in Typical Selections from Oriya, Vol. I).
Madhusudana Rao. Kusumanjali.
Biswanath Kar. Bibidha Prabandha.

Grammar.

Radhanath Ray. Vyakarana Pravesa.
E. C. P. Hallam. Oriya Grammar.

Literary History.

Introductory Essays to Typical Selections from Oriya Literature.

(*iv*) MARATHI.

Texts.

Gadyaratna Samuchchay, Part I.
Navanit, pages 47-48, 159-71, 381-410.

Grammar.

Ramchandra Bhikaji Joshi. Praudhabodh Vyakaran.
G. R. Navalkar. Marathi Grammar.

Literary History.

Bhave. Maharashtra Saraswat.
M. K. Nadkarini. A Short History of Marathi Literature.

(*v*) HINDI.

Texts.

Ramdahin Misra. Sahitya Sudhakar.
Ramdahin Misra. Sahitya Sushama—Kabir (Dohas only), Mira Bai, Surdas, Bihari, Bhushan and Harischandra.
Tulsidas. Selections by Syam Sundar Das, Ayodhyakanda only.

Grammar.

Pincolt. Hindi Manual.
Etherington. Bhasa-Bhaskar.
Ramcharan Singh. Bhasa Prabhakar (Khadga Vilas Press).

Literary History.

Grierson. Vernacular Literature of Hindustan.
Keay. Hindi Literature.

(*vi*) GUJARATI.

Texts.

Dhruva, A. B. Niti-Sikshan (Selections I-V).
Anjaria and Karim Mohamad. Kavita-Prayas (Parts I-II).
St. Clair Tisdall. Simplified Grammar of the Gujarati Language (Trübner).
Taylor, G. P. The Student's Gujarati Grammar (Thacker, Bombay).
Trivedi, K. P. Madhyavyakaran.
Taraporewala. Main Currents of Gujarati Literature ("Cal. Review," Jan. and Feb. 1925).

(*vii*) URDU.

Texts.

Kalam-i-Urdu (Board of Examiners).
A'inaya-i-Ibart, Part II.
Taubatu-n-Nosuh (Nazir Ahmed).
Nazm-i-Muntakhab.

Grammar.

Palmer. Simplified Grammar of Hindustani, Persian and Arabic.
Green. A Practical Hindustani Grammar.
Forbes. A Hindustani Grammar.
Platts. A Hindustani Grammar.

Literary History.

Garcin de Tassy. Histoire de la Litterature Hindouie et Hindoustanie.
Azad. Ab-i-Hayat.

(*viii*) TAMIL.

Texts.

Purnalingam Pillai—

Primer of Tamil Literature.
Viveka Vilakkam.
Seyyul Kovai.
Vasaka Thirattu.
Matriculation Selections (Madras University).

Grammar and Literary History.

Wickremasinghe. Tamil Grammar Self-taught.
Pope. Tamil Handbook.
Pope. Catechisms of Tamil Grammar, I-II .
Arden. Progressive Grammar.
Article on Dravidian Languages (Encyclopædia Britannica).

(*ix*) TELUGU.

Texts.

Narasingham and Narasingharow. Ananda Readers, Parts III & IV.
Matriculation Selections (Madras University).

Grammar and Literary History.

Brown. Telugu Grammar.
Morris. Simplified Telugu Grammar.
Arden. Telugu Grammar, 1895; Telugu Companion Reader, 1879.
Article on Dravidian Languages (Encyclopædia Britannica).

(*x*) MALAYALAM.

Texts.

Fourth Reader. Basel Mission (Bangalore).
Twelfth Reader. Basel Mission (Bangalore).
Gadya Malika, Part II. Basel Mission (Bangalore).
Matriculation Selections (Madras University).

Grammar and Literary History.

Gundert. Catechism of Malayalam Grammar (Madras, 1881).

Poet. Malayalam Grammar (Cottayam 1841).
Article on Dravidian Languages (Encyclopædia Britannica).
History of Malayalam Literature.

(*xi*) KANARESE.

Texts.

Padya Sara, Part I, pages 1-39.
Katha Sangraha, Part I, pages 30-96.
Katha Sangraha, Part II, pages 265-292.
Kanakaluka (Lord Tennyson's " The Cup ").
Matriculation Selection (Madras University).

Grammar and Literary History.

Spencer. Kanarese Grammar (Mysore, 1914). Sabdadarsa (Kanarese).
Rice. History of Kanarese Literature.
Article on Dravidian Languages Encyclopædia Britannica, Mysore Gazetteer; Grierson's Linguistic Survey of India.

(*xii*) SINHALESE.

Texts.

Gunasekara. Kusajatakakavya, 150 verses.
Gunawardhana. Subhashitaya, 50 verses.
Samarasekara. Sinhalese Translation of Dighanikaya, Vol. I (Brahmajalsutra and Ambatha Sutra only).

Grammar and Literary History.

Wickremasinghe. Sinhalese Grammar (London, 1916).
Gunasekara. Comprehensive Sinhalese Grammar (Colombo, 1921).
Gurulu. Amawatura (Chapters 2, 3 and 4 only), cited by Jayatilaka.

(*xiii*) MAITHILI.

Texts.

Ramananda Thakur. Mahabharatsar.
Grierson. Chrestomathy.
Chandra Jha. Ramayan.

Grammar and Literary History

Grierson. Vernacular Literature of Hindusthan.
Grierson. Maithili Grammar. 2nd edition.
Gangapati Singh. Bal Maithili Vyakaran.

BASIC LANGUAGES.

Paper VII.

Any two of the following:—

(*i*) PALI.

Frankfuerter. Pali Hand book.
Muller. Simplified Pali Grammar.
Victor Henry. Precis de Grammaire Pali.
Vidhusekhar Sastri. Pali Prakasa.
Andersen. Pali Reader—Select portions, *Viz.*:—

Sumsumura Jataka, pages 1-2.
Sihacamma, J., pages 8-9.
Baveru J., pages 18-19.
Silanisama J., pages 28-29.
Mahosadha's Judgment, pages 58-59.
Cattari Pubbanimittani, pages 63-64.
No Continuous Personal Indentity, page 99.
Rebirth is not Transmigration, pages 100-101.
Padhana-Sutta, pages 103-104.
Dhaniya-Sutta, pages 104-105.
Selections from the Dhammapada, pages 106-107.

(*ii*) PRAKRIT.

Vararuchi. Prakrita Prakasa.
Rajasekara. Karpuramanjari.
Woolner. Introduction to Prakrit.

(*iii*) PERSIAN.

M. T. Dadachanji. First Steps in Persian.
M. Kazim Shiraji. New Persian Selections (Board of Examiners).
M. Kazim Shiraji. Sahl-Amus-i-Farsi, Part II (omitting poetry portions).
Platts and Rankin. Persian Grammar.
M. Hidayet Husain. Grammar of Modern Persian (Macmillan and Co.).
Kanga. Hints on the Study of Persian.
St. Clair Tisdall. Persian Conversational Grammar, pages 1-100.

COMPARATIVE PHILOLOGY.

Paper I.

General Principles of Philology and the Science of Language; Growth and Change in Language; Semantics; Language Types and Classification of Languages; History of the Science of Grammar and Linguistics in India and in the West.

Books prescribed:—

Jespersen, O. Language (George Allen and Unwin).
Jespersen, O. Philosophy of Grammar (George Allen and Unwin).
Oertel, H. Lectures on the Study of Language (Yale University).
Vendryes, J. Language (Kegan Paul).
Greenough, J. B. and Kittredge, G. L. Words and their Ways in English Speech (Macmillan).
McKnight, G. H. English Words and their Background (Appleton, New York).
Belvalkar, S. K. Systems of Sanskrit Grammar (Oriental Book Supplying Agency, Poona).

Books prescribed:—

Mott, F. W. The Brain and the Voice in Speech and Song (Harpers).
Noël-Armfield, G. General Phonetics (Heffer, Cambridge).
Dumvile, B. The Science of Speech (London University Tutorial Series).
Chatterji, S. K. A Brief Sketch of Bengali Phonetics (International Phonetic Association, University College, London).
Mazumdar, B. C. History of the Bengali Language, 2nd edition (Calcutta University).
Clodd, E. The Story of the Alphabet (Newnes).
Petrie, Sir W. M. Flinders. Formation of the Alphabet (British Museum).
Encyclopædia Britannica. Articles on "Accent," "Alphabet" and "Phonetics."

Paper III.

Comparative Grammar of Old Indo-Aryan (Sanskrit).

Books prescribed:—

Macdonell, A. A. A Vedic Grammar for Students (Oxford).
Uhlenbeck, C. C. Sanskrit Phonetics (Luzac).
Speijer, J. S. Sanskrit Syntax (E. Brill, Leyden).
Whitney, W. D. Sanskrit Grammar (Breitkopf and Hartel, Leipzig). (For reference only.)

Paper IV.

Historical Grammar of Middle Indo-Aryan (Pali and the Prakrits).

Books prescribed:—

Woolner, A. C. An Introduction to Prakrit (Panjab University).
Mueller, E. Pali Grammar (Trubner).

Paper V.

Historical Comparative and Grammar of Modern Indo-Aryan (Bengâli or the candidate's mother tongue).

Chatterji, S. K. Origin and Development of the Bengali Language, Vols. I and II. (Calcutta University.)

Prescribed books in other Modern Indo-Aryan languages shall be announced later on.

Paper VI.

Essays (Two Essays to be chosen out of Five Subjects).

Alternative A.—Aryan and Indo-European Philology.

Paper VII.

Indo-Iranian (Aryan) Philology, with Elements of Avesta and Old Persian.
Books prescribed:—

Taraporewala, J. S. Selections from Avesta and Old Persian, First Series, Part I (Calcutta University).
Jackson, A. V. W. Avesta Grammar (W. Kohlhammer, Stuttgart).
Johnson, E. L. Historical Grammar of the Ancient Persian Language (American Book Co.).
Haug, M. Essays on the Religion of the Parsis (Kegan Paul). (For reference only).
Dhalla, M. N. Zoroastrian Theology. (For reference only).

Paper VIII.

Indo-European Philology, with Elements of Greek.
Books prescribed:—

Pharr, C. Homeric Greek (D. C. Heath, New York).
Wright, J. Comparative Grammar of the Greek Language (Oxford).

Alternative B.—Philology of the Non-Aryan Languages of India.

Paper VII.

Dravidian Philology, with Elements of Tamil.
Books prescribed:—

Caldwell, R. Comparative Grammar of the Dravidian Languages (Kegan Paul).
Wickremasinghe, M. De Zilva. Tamil Grammar Self-taught (E. Marlborough and Co., London).
Pope, G. U. Tamil Reader (Oxford).

Paper VIII.

Kol (Munda) and Tibeto-Burman Philology, with Elements either of a Kol Speech or of Tibetan.
Books prescribed:—

Nottrott, A. Grammar of the Kol Language (G. E. L. Mission Press, Ranchi).
Hoffman, J. Mundari Grammar, Introduction (Government Book Depot., Calcutta).
Bodding, P. O. Materials for a Santali Grammar (Scandinavian Mission, Dumka.
Linguistic Survey of India. Introductions to Vol. III, Part I, and Vol. IV.
Jaschke, H. A. Tibetan Grammar (Trübner).
Matriculation Course of Classical Tibetan (Selections only) (Calcutta University).
Texts in a Kol language to be prescribed later on.

MENTAL AND MORAL PHILOSOPHY.

Paper I.—History of Ancient and Mediæval European Philosophy.
Paper II.—History of Modern European Philosophy.
Paper III.—Indian Philosophy.
Papers IV & V.—Theory of Knowledge and Metaphysics.
Papers VI & VII.—Any one of the following subjects to be selected by the candidate, two papers being set in each: (*i*) Psychology, (*ii*) Logic, (*iii*) Ethics and Social Philosophy, (*iv*) Philosophy of Religion, (*v*) some Special Branch of Indian Philosophy.
Paper VIII.—Essay.

Paper I.—History of Ancient and Mediæval European Philosophy.

Pre-Socratic Philosophy. The Sophists. Socrates. Socratic Schools. Plato Aristotle. Stoics. Epicureans and Sceptics. Neo-platonism. Gnoticism. Patristic and Scholastic Philosophy.

Candidates are expected to have a special knowledge of the system of Plato and the spcial text of the Republic of Plato.

Course of reading suggested:—

Ueberweg. History of Philosophy.
Caird. Development of Theology in Greek Philosophers.
Zeller. Plato.
Inge. The Philosophy of Plotinus.
De Wulf. History of Mediæval Philosophy.

Paper II.—History of Modern European Philosophy.

Descartes, Spinoza, Leibnitz, Locke, Berkeley, Hume, Kant, Fitche, Schelling, Hegel, Herbart, Lotze and Schopenhauer.

Candidates are expected to have a special knowledge of Kant's Critique of Pure Reason.

Erdmann. History of Philosophy, Vol. II.
Watson. The Philosophy of Kant as contained in extracts from his own writings.
Blackwood's Philosophical Classics.—Descartes, Spinoza, Leibnitz, Locke, Berkeley, Hume, Kant, Fichte and Hegel.

Paper III.—Indian Philosophy

Germs of Philosophic and Religious thought in the Rig Veda. The Upanishads: Reality, World, Soul, God, Ethics, and Religion, Karma and Rebirth, Moksha. The theism of the later Upanishads. The main currents of thought, metaphysical and ethical, in the Bhagavadgita. The Carvaka theory. Buddhism: Its relation to the Upanishads, the Four Truths, Conception of reality, Soul, Karma and Rebirth, Ethics, Nivarana. The four schools of Buddhism. Jaina Logic, Metaphysics and Ethics.

The Nyaya theory of Pramanas, Causality, God and Soul. The Vaisheshika Categories and Atomism. The Samkhya theory of Purusha and Prakriti and their mutual relation. Cosmic evolution; nature of cognition. The alleged Atheism of Kapila. Patanjali's view of God. The Purva Mimamsa: General character, Apurva. The theory of knowledge of Kumarila and Prabhakara. The Vedanta. Brahman, Jiva. Karma and its relation to Jnana according to Sankara and Ramanuja. Sankara on Adhyasa, Maya and Avidya. Ramanuja's objections against Maya. His conception of reality. Personality of God. Moksha in the different systems.

Das Gupta. History of Indian Philosophy.
Kokileswar Sastri. Advaita Philosophy.
Radhakrishnan. Indian Philosophy Vols. I and II.
Urquhart. Pantheism and its Value for Life.
Seal. The Positive Sciences of the Ancient Hindus, Chapters I, VII.
A. B. Keith. Indian Logic and Atomism.
Hume's Thirteen Principal Upanishadas. Rhys David Dialogues of Buddha, Sankarabhāshya and Rāmanujabhāshya on the Vendanta Sutras may also be consulted.

In preparing for Papers I, II and III candidates are advised to make as much use as possible of the original texts which are (many of them) now accessible in good English translation.

Papers IV & V.—Theory of Knowledge and Metaphysics.

The analysis of knowledge-relation. Subject and Object. Image, Idea and Meaning as factors in Logical Thought. The Problem of Predication. Universals. Relations, External and Internal. Perception, Conception and Intuition. Unity and Continuity of Intellectual Life.

Thought and Reality. The Criterion of Truth. Coherence. Correspondence, Pragmatist Theory. Degrees of Truth. Error. The Svatahprāmānya and the Paratahprāmanya theories of the Hindu thinkers.

The relation of Metaphysics to Psychology, Logic and Ethics. Space, Time and their mutual relations. Change and Causality. Substance. The nature of Reality. Matter, Life and Consciousness. Evolution. Mechanism and Teleology. The relation of the Absolute to the World of Becoming. Maya. The Individual Self. The problem of Values.

Issues and tendencies in Contemporary Philosophy. Absolute Idealism: Green Caird, Bradley, Bosanquet and Royce. Neo-Idealism: Croce and Gentile. Neo-realism: Russell and Alexander. Critical Realism. Bergson's Evolutionism.

Bradley. Appearance and Reality (Chapters 1-IV. Thought and Reality, also appendices).
Bosanquet. The Principle of Individuality and Value.
Bergson. Introduction of Metaphysics.
Russell. An outline of Philosophy.
Haldar. Neo-Hegelianism.

Optional Subjects.

I.—PSYCHOLOGY.

General and Physiological Psychology.

The role of Psychology as a Science:—Methods of Psychology: Facts of mental life—Sensation, Image, Perception, Attention Imagination, Association, Memory and Recognition, Thought, Feeling and Emotion, Conation. The concept of Psychic Elements—their modes of combination.

The Individual Self. Relation to God. Freedom of self and divine sovereignty. The problem of evil and suffering. Preexistence and Immortality, Karma and Rebirth. Life Eternal.

Hegel. Philosophy of Religion.
Lotze. Outlines of the Philosophy of Religion.
Pringle-Pattison. The Idea of God.

V.—SPECIAL BRANCH OF INDIAN PHILOSOPHY.

(Optional.)

1. *Nyaya-Vaisheshika Group*—

Nyaya Sutras with Vatsyāyana's Bhāshya.
Prashastapada's Padarthadharmasamgraha.
Visvanatha's Bhasapariccheda with Siddhanthamuktavali.

2. *Samkhya-Yoga Group*—

Ishvarakrsna's Samkhyakārika with Vachaspati's Tattvakaumudi.
Samkhya Sutras with Vijnanabhikshu's Samkhyapravacanabhashya.
Yoga Sutras with Vyasabhashya and Tattvavaisharadi, 1st two Chapters.

3. *Vedanta Group*—

The Vedanta Sutras with the Bhashyas of Sankara and Ramanuja, 1st two Chapters. Vedantaparibhasha.

4. *Buddha-Jaina Group*—

Nagarjuna's Madhyamika Karikas with Chandrakirti's Vritti. Dravya-samgraha and Syádvádamanjari.

5. *Translation Group*—

The Vedanta Sutras with the Commentaries of Sankara and Ramanuja, 1st two Chapters. Thibaut's Translations.
Samkhya Karika with Tattvakaumudi, Jha's Translation.

EXPERIMENTAL PSYCHOLOGY.

Paper I.—Physiological.

Starling. Physiology...p. 203-523.
Wundt. Physiological Psychology, Int. Ch. I, V, VI.
Greenwood. Physiology of the Special Senses (Selections).
Titchener. Text-book of Psychology.
Myers. Text-book of Experimental Psychology.
Watson. Psychology: From the Standpoint of Behaviourism.
Bentley. Field of Psychology. Psychologies of 1925. (Clark University Press.)

Paper II.—Abnormal Psychology.

Prince. The Unconscious.
Jung. Analytical Psychology.
Freud. Interpretation of Dreams. Hysteria and other Psychoneuroses. Introduction to Psycho-analysis.
Hitschmann. Freud's Theory of Neuroses.
Bose. The Concept of Repression.

Paper III.—Animal Psychology.

Holmes. Evolution of Animal Intelligence.
Lloyd Morgan. Comparative Psychology.
Washburn. Animal Mind.
Thorndike. Animal Intelligence (Selections).
Romanes. Animal Intelligence.
Hobhouse. Mind in Evolution.
Kohler. Mentality of Apes.

Paper IV.—Child Psychology.

Koffka. The Growth of the Mind.
Tredgold. Mental Deficiency.
Pyle. Psychology of Learning.
Munro. History of Education (Modern Period).
Thorndike. Educational Psychology (Briefer Course).
Fox. Educational Psychology.
Kirkpatrik. Fundamentals of Child Study.

Papers V-VIII.—Practical.

Brown. Essentials of mental measurement, 3rd Ed. 3, Ch. I-IV.
Myers. Text-book of Experimental Psychology, Vol. II.
Titchener. Students' Manuals—Qualitative and Quantitative.
Sanford. Experimental Psychology.
Whipple. Physical and Mental Tests.

HISTORY.

Paper I.—Selected period of English History. 1815-1911.

Books for study—

J. A. R. Marriott. England since Waterloo,
Low and Sanders. Political History of England. Vol. XII.
Ramsay Muir. A Short History of the British Commonwealth, Vol, II.

For reference—

Cambridge Modern History, Vols. X-XII.
Cambridge History of British Foreign Policy, Vol. II-III.
Meredith. Economic History of England, Book IV (Pitman).
Keith. Responsible Government in the Dominions.
Morley. Life of Gladstone, Books VI-X.
Traill. Social England, Vol. VI.
Asquith. Fifty years of Parliament.

Hearnshaw. Prime Ministers of the Nineteenth century.
Morley. Cobden.
Dictionary of National Biography.
Sydney Webb. History of Trade Unionism.

Paper II.—Selected Period of Indian History from 600 B.C. to 900 A.D.

Books for study—

Rhys Davids. Buddhist India (Chapters I-VI).
V. A. Smith. Early History of India (4th edition).
Sir R. G. Bhandarkar. Early History of the Deccan.
Raychaudhuri. Political History of Ancient India (2nd Edition).
D. R. Bhandarkar. Asoka.
D. R. Bhandarkar. Carmichael Lectures, First Series.
V. A. Smith. Asoka.
Monahan. Early History of Bengal.

For reference—

Manu. Institutes, Chapters 2, 3, 7, 8, 10.
Kautilya. Arthasastra, Books 1, 2, 5, 6, 7, 11.
Krishnaswami Aiyangar. Ancient India, Chapter VI.
Megasthenes. Indica (Pub. by Chakravarti, Chatterjee & Co.).
Yuan Chwang. Records (Translated by Watters).
Peripuls of the Erythræan Sea Translated by Schoff.
R. C. Majumdar. Outline of Ancient Indian History and Civilisation.
R. K. Mukherjee. Harsha.
Cambridge History of India, Vol. I.
N. C. Banerjee. Kautilya. Vol. I.

Paper III.—General History of the Ancient East.

Books for study—

Breasted. History of Egypt.
King. History of Babylon.
Hall. The Ancient History of the Near East.

For reference—

Moret. The Nile and Egyptian Civilisation.
Breasted. Development of Religion and Thought in Ancient Egypt.
Jastrow. Civilization of Babylonia and Assyria.
Cambridge Ancient History, Vols. I, II and III.
Olmstead. History of Assyria.

Paper IV.—Constitutional History of England.

To be studied with special reference to the documents in—
Adams and Stephens—Select Documents of English Constitutional History.
The following books may be consulted:—

A.

Stubbs. Constitutional History of England.
Hallam. The Constitutional History of England.
May. Constitutional History of England.
Maitland. The Constitutional History of England.
Adams. The Constitutional History of England.
Pollard. The Evolution of Parliament.
Baldwin. King's Council.

B.

Stubbs. Select Charters.
Prothero. Statutes and Constitutional Documents (1558-1625).
Tanner. Tudor Constitutional Documents.
Gardiner. Constitutional Documents of the Puritan Revolution 1625-1660.
Robertson. Select Statutes, Cases and Documents.

Paper V.—International Law.

Books for study—

Lawrence. The Principles of International Law.
Hall. International Law.
Pitt Cobett.—Leading Cases on International Law, 2 Vols. (New Ed.).

Books for reference—

P. N. Banerjee. International Law in Ancient India.
Garner. Development of International Law in the 20th Century.
Pollock. League of Nations.
Hudson. Current International Co-operation.
British Year Book of International Law.

Papers VI and VII.

Any one of the following subjects:—

(*i*) *History of Islam.*

For study—

Muir. Caliphate: Rise, Decline and Fall.
Zeydan. Umayyads and Abbasides.
Khuda Bukhsh. Islamic Civilisation.
Khuda Bukhsh. Orient under Caliphs.
Khuda Bukhsh. Politics in Islam.
Ameer Ali. History of the Saracens.
Hitti. Origins of the Islamic State (Columbia University Press).
Thomas. Chronicles of the Pathan Kings of Delhi.
Vincent Smith. Akbar.
Sarkar. History of Aurangzib.

For reference—

Goldziher. Mohamed and Islam (Dr. Seelye) (Yale University Press).
Freeman. History and Conquests of the Saracens.
Gibbon. Decline and Fall of the Roman Empire, Chapters, 50-52, 56-59, 64, 65, 67, 68.
Aghnides. Mohammedan Theories of Finance (Columbia University Press).
Cambridge Mediæval History, Volume II, Chapters 10-12.
Elliot and Dowson. History of India.
Elphinstone. History of India.
Erskine. History of India under Babar and Humayun.
Beniprasad. Jahangir.
Irvine. Later Moghuls.

(*ii*) *Special Period of Indian History.*

One of the following alternative courses:—

A.

History of Bengal. 1757-1793.
For study—

Mill and Wilson. History of British India.
Monckton Jones. Warren Hastings in Bengal.
Forrest. Selections from the State Papers of the Governors General of India (Warren Hastings).
R. C. Dutt. Economic History of India under Early British Rule.
Ascoli F. D. Early Revenue History of Bengal and the Fifth Report.
Fifth Report of the Select Committee on the Affairs of the East India Company, Bengal Presidency, including Grant's Analysis, edited by Firminger.
J. C. Sinha. Economic Annals of Bengal.

For reference—

Hunter. Annals of Rural Bengal.

Verelst. View of English Government in Bengal.

Bolts. Considerations on Indian Affairs.
Forrest. Life of Clive.
Gleig. Warren Hastings.
Bruke. Speeches on the Impeachment of Warren Hastings.
Cowell. History of the Courts and Legislative Authorities in India.
Stephen. Nuncomar and Impey.
Beveridge. Trial of Nandakumar.
Busteed. Echoes of Old Calcutta.
Long. Selections from the unpublished Records of Government.
Carey. Good Old Days of John Company.
Ross. Correspondence of Charles, First Marquis Cornwallis.
Ramsbotham. Studies in the Land Revenue History of Bengal.
Forrest. Selections from the State Papers of the Governors General of India (Cornwallis).

B.

History of the Rajputs (from the advent of the Muhammadans in India to the treaty with the English 1818).

(English.)

Tod. Annals and Antiquities of Rajasthan (Ed. by Crooke).
Rajputana Gazetter. Edited by Major Erskine, 1908-1909.
Haravilas Sarda. Rana Kumbha. Rana Sanga.
Brooke, J. C. History of Mewar.
Stratton, J. P. Chitor and the Mewar Family.
Lala Sitaram. History of Sirohi.
For reference—

Tod. Travels in Western India.
Elliot and Dowson. History of India.

(Hindi).

Pandit Gaurisankar Ojha. History of Sirohi.
Tod. Rajasthan, edited by Gaurisankar Ojha.
Muta Nensi Khyata.
History of Jaisalmer (published by the Jaisalmer Darbar).
Devi Prasad. History of the Kings of Jaipur and Jodhpur.
History of Bikaner (Nagari Pracharini Sabha).

C.—*History of the Mahrattas.*

For study—

Grant Duff. History of the Mahrattas (Oxford University Press).
Ranade. Rise of the Maratha Power, Vol. I.
Ranade. Introduction to the Peshwas' Diaries.
S. N. Sen. Documents and Extracts relating to Maratha History, Vol. I, Sivaji (Calcutta University).
S. N. Sen. Administrative System of the Marathas.

For reference—

Sardesai. Main Currents of Mahratta History.
Sen. A Preliminary Report on the Historical Records at Goa.
Malcolm. Memoir of Central India, Vol. I. Chapters, 5, 6 and 7.
Sarkar. Shivaji and His Times.
Forrest. Selections from the Letters, Despatches, and Other State Papers Preserved in the Bombay Secretariat—Maratha Series.
Owen. Selections from Wellesley Despatches.
Owen. Selections from Wellington's Despatches.
Franklin. Shah Alum.
Elphinstone. Official Writings of Mountstuart Elphinstone (Ed.) Forrest.
Elliot and Dowson. History of India, Vols. VII and VIII.

Fa Hien. Travels.
Ptolemy (ed. Majumdar). Geography of India.
Macdonell and Keith. Vedic Index (Geographical portions).
Foucher. Notes on the Geography of Gandhara.
Sir John Marshall. Guide to Taxila.
Nundolal Dey. Geographical Dictionary or Ancient and Mediæval India.
Schoff. Periplus of the Erythræan Sea.
Sylvian Lévi. Pre-Aryan and Pre-Dravidian in India.

Optional Papers.

I. ARCHÆOLOGY (A).

Epigraphy.

(1)

Inscriptions of Asoka.
Inscriptions of Kharavela and the Sungas.

(2)

Inscriptions of Satavahana and Indo-Scythian kings.
Inscriptions of the Imperial Gupta Dynasty.

(3-4) Numismatics.

V. A. Smith. Catalogue of Coins in the Indian Museum (up to the end of the Gupta period).
Percy Gardner. Catalogue of Indian Coins in the British Museum.
Rapson. Catalogue of Coins, Andhras, Western Kshatrapas, etc.
Allan. Catalogue of Coins, Gupta Dynasties.
Whitehead. Catalogue of Coins of the Punjab Museum, Lahore, Vol. I.
Bhandarkar. Carmichael Lectures, Second Series.

ARCHAEOLOGY (B).

(1-2) Fine Arts and Iconography.

For study—

Fine Arts.

G. N. Banerjee. Hellenism in Ancient India.
Coomaraswami. Introduction to Indian Art.
Faure. History of Art.
Rothenstein and Codrington. Ancient India
Coomaraswami. History of Indian and Indonesian Art.

Iconography.

Grünwedel. Buddhist Art in India.
Foucher. Beginnings of Buddhist Art.
Gopinath Rao. Elements of Hindu Iconography.
B. T. Bhattacharyya. Indian Buddhist Iconography.
Barua and Sinha. Barhut Inscriptions.

For reference—

Coomaraswami. Dance of Siva.
V. A. Smith. History of Fine Art in India and Ceylon.
Havell. Indian Sculpture and Painting.
Nag. Greater India.
O. C. Gangooly. South Indian Bronzes.
Kramrisch. Vishnudharmottaram.
P. Brown. Moghul Painting.
Influence of Indian Art (India Society).

(3-4) Ancient Architecture.

Fergusson. History of Indian and Eastern Architecture, Vols. I and II.
Havell. Ancient and Mediæval Architecture of India.

For reference—

Winternitz. History of Indian Literature, Vol. II.

(*4*) *Jainism.*

Jacobi. Introduction and Translation of the Jaina Sutras, Parts I and II (Sacred Books of the East, Vols. XXII, XLV).
R. G. Bhandarkar. Report on the Search for Sanskrit Manuscripts in the Bombay Presidency during the year 1883-84, pages 91-157.

Bühler. On the Indian Sect of the Jainas, translated and edited with an outline of Jaina Mythology by Burgess.
Barua. The Ajivikas.

For reference—

Vijnanand Suri. Sri Jainatattvādarsa.
Bib. Indica Series. Uvasagadasao.

IV. Indian Astronomy and Mathematics.

(*1*) *Mathematics.*

Selected texts on Mathematics for critical, historical and comparative study:—Sulba Sutras.
Thibaut. On the Sulba Sutras (J. A. S. B., Vol. 44). The Pandit, Vols. 9 & 10, (Old Series); Vols. 1 and 4 (New Series).
Bürk. Das Apastamba Sulba Sutras (Z. D. M. G., Vols. 55 and 56).

(*2*) *Mathematics.*

History of Mathematics, with special reference to the works of Aryyabhata I, Varaha Mihira, Brahmagupta, Mahavira, Sridhara and Bhaskaracharyya.
The following books are recommended—

Aryyabhatiyam. Edited by Dr. Kern.
Brahmasphuta-Siddhanta. Edited by Pd. Sudhakara Dvivedi.
Lilavati and Vijaganita. Edited by Pd. Sudhakara Dvivedi or edited by Pd. Radhaballabh Jyotishtirtha, or edited by H. C. Banerjee.
Colebrooke. Translation of the Lilavati and the Vijaganita, and the Chapters on Mathematics in the Brahmasphutasiddhanta.
Smith, D. E. Hindu Arabic Numerals.

(*3*) *Astronomy.*

Selected text on Astronomy for critical, historical and comparative study:—
Suryya Siddhanta.
Editions and Translations recommended—

Suryya Siddhanta—With Ranganatha's Commentary.
Suryya Siddhanta. Translated by Burgess and Whitney (J. Am. Orient Society, Vol. VI).

(*4*) *Astronomy.*

History of Astronomy, with special reference to Jyotisha-Vedanga, Jaina Astronomy, the (Modern) Suryya Siddhanta, and to the works of Aryyabhata I, Varaha Mihira, Brahmagupta, Munjala and Bhaskaracharyya.
The following books are recommended:—

Text-books.

Yajusha Jyotisham. By Pandit Sudhakara Dwivedwi.
Thibaut. Contributions to the Study of the Jyotisha-Vedanga (J.A.S.B., 1877). On the Suryyaprajnapati (J.A. S. B., 1880).
Aryyabhattiyam. Edited by Dr. Kern.
Pancha-Siddhantika. Translated by Dr. Thibaut and Pandit Sudhakara Dvivedi.
Brahmasphuta-Siddhanta. Edited by Pandit Sudhakara Dvivedi.
Bhaskara Siddhanta Siromani. Edited by Pandit Bapudev Shastri or by Pandit Bapudev Shastri and Wilkinson.
Brahmagupta Khandakhadya Karanam edited by Pandit Babua Misra.

For reference.

Bentley. Hindu Astronomy.
Brenand. Hindu Astronomy.

Whitney. Oriental and Linguistic Studies (Series II, 1875).
The Twelfth Essay. The Lunar Zodiac; on the views of Biot and Weber respecting the relations of the Hindu and Chinese systems of asterisms; with an addition on Müller's views, etc.
Max Müller. On Ancient Hindu Astronomy and Chronology (preface to Rig Veda, Vol. 4).
Tilak. The Orion.
Tilak. The Arctic Home of the Vedas.
Davis, S. On Hindu Astronomy (As. Res., Vol. II).

V. ANTHROPOLOGY.

Paper V.

Physical Anthropology, including Origin and Antiquity of Man:—

Haddon. Races of man.
Giuffrida Ruggeri. Systemetic Anthropology of Asia (Trans. Chakladar).
Chanda. The Indo-Aryan Races.
Pittard. Race and History.

For reference—

Boule. Fossil Men.
Dixon. Racial History of Man.
Buxton. Peoples of Asia.

Paper VI.

Social Anthropology:—

Lowie. Primitive Society.
Lowie. Primitive Religion.
Vendryes. Linguistic Introduction to History.

For reference—

Goldenweiser. Early Civilization.

Paper VII.

Pre-historic Archaeology and Technology:—
Morgan. Pre-historic Man.
Kroeber. Anthropology.
Mitra. Pre-historic India.

For reference—

Torres Straits Expedition. Arts and Crafts, Vol. IV.

Paper VIII.

Indian Ethnography, with special reference to Bengal and Assam:—

L. K. A. Iyer. Lectures on Ethnography.
Risley. The Peoples of India.
S. C. Ray. The Birhors.
S. V. Ketkar. History of Caste in India.
Census Report of India, 1911 and 1921.
T. P. Mills. Ao Nagas.

For reference—

Census of India, 1911 and 1921—Chapter on Caste and Occupation.
Generalised accounts of the Tribes and Castes of the Bengal Presidency from Risley's Tribes and Castes of Bengal Ethnographical Glossary of the Tribes and Castes of Assam.
Note—Candidates are recommended to use the following as a preliminary course:—

Duckworth. Pre-Historic Man.
Haddon. Wandering of Peoples. History of Anthropology.
Tylor. Anthropology.

ANTHROPOLOGY.

SYLLABUS OF STUDIES.

Paper I—Physical Anthropology.

Introduction—Classification and general anatomy of the Primates—Comparative anatomy of Anthropoidae and Hominidae—Evolution of the brain—

Evolution of the human cranium—Fossil Simians—Fossil Men—Pithecanthropus—The Weimar fossils—Mauer jaw—Piltdown man—The Neanderthals—Men of the Reindeer age—The Azilian races—Osteological remains from Asia, Australia, Africa and America.

Books recommended:—

W. H. L. Duckworth. Morphology and Anthropology, Vol. I. (2nd edition.)
Boule. Fossil Men.
G. A. Dorsay. Why we behave like Human Beings.

Paper II—Ethnology.

Introduction. Race—Definition of Race—Basis of classification of human races—The history and distribution of man in Asia, Europe, Africa, America, and Oceania—Considerations of topography and its bearings on the movement of peoples—The main linguistic and cultural divisions—History of Anthropology.

Books recommended:—

Pittard. Race and History.
Dudley Buxton. Peoples of Asia.
Ripley. Races of Europe.
A. C. Haddon. History of Anthropology.
Denikker. Races of Man.

Paper III—Prehistoric archæology and Technology.

The great Ice Age—The Eolithic problem—Palæolithic and Neolithic Ages—Copper, Bronze and early Iron Ages—Prehistoric metallurgy—Prehistoric India—Survivals—Early Civilization—Principles of cult origins and distribution—Technology—Personal adornment—painting, tatooing, scarifications, deformations and mutilations, origin and development of clothing and hairdressing. Ornaments—origin and form—Suggestion by features of artificial objects.

Habitations. Types of houses, furniture and utensils.
Hunting. Traps and other appliances, weapons.
Fishing. Various kinds of nets and baits.
Agriculture. Primitive methods, impliments, Agricultural beliefs and ceremonies.
Transports by land and water.
Manufacture. Primitive arts and industries.
Decorative arts. Musical instruments.
Dance. Origin and development.
Primitive drama and pantomime.
Books recommended:—
J. de Morgan. Pre-historic Man.
P. Mitra. Pre-historic India.
Pitt Rivers. Evolution of Culture and other Essays.
Otis Masion. Origins of Invention.
Burkitt. Pre-History.

Paper IV—Social Anthropology.

Origin of Human Society—Human Society not an outgrowth of animal-Society—Social Organization, marriage, family, clan, tribe, caste, kinship-usages, father-right, mother-right, position of women—Property and inheritance—Rank and social classes—Magic and Religion-totemism—Government law and justice—Ethic.

Books recommended:—

Lowie. Primitive Society.
Lowie. Primitive Religion.
Frazer. Golden Bough (Abridged Edition).
Westermarck. History of Human Marriage (Abridged Edition).
Carveth Reade. Origin of Man and his Superstitions.
L. K. A. Iyer. Mysore Tribes and Castes Vol. II for Magico Religious Beliefs, Religion and Mythology with special reference to India.

GROUP A.

Paper V.—Advanced Physical Anthropology.

Organic Evolution and adaptation—Adaptation to Environment—Variations—Forms of variations—General observations on heredity and Eugenics (very brief)—Trend of human evolution—Influence of environment on the physical structure of Man.

Inter-racial problems—Race contact—Race-miscegenation—Its influence on nationality and race domination—Race-degeneration—Racial character and Natural selection.

Books recommended:—

* Dendy. Evolutionary Biology.
* Conklin. Heredity and Environment.
Pitt Rivers. The clash of culture and contact of Races.
Woodruff. Expansion of Races.
Spiler. Inter-Racial Problems.

Paper VI.—Racial History.

Racial history of Asia with special reference to India and intensive study of a particular part of India—Importance of Asia in the racial history of Man—Anthropometry and statistical treatment of anthropometric data. Racial variations in the human skeleton.

Books recommended:—

Keane. Man past and present (Revised by Haddon).
Wilder. Anthropometry.
King. Elements of Statistics.
Dixon. Racial History of Man.
Chanda. Indo-Aryan Races.

GROUP B.

Paper V—Social Anthropology (Advanced).

Intensive study of social institutions—The problems of early humanity—The human group—Mental advance—A tool-using society—Evolution of societies—Acquired characteristics of man and woman—Their mutual relations in hunting, pastoral and agricultural societies. Consequent change in character and institutions—The social instinct and its growth—Family and the evolution of motherhood—The family in father-right and mother-right fatherhood in mother-right—The complex of mother-right—The family as the cradle of nascent culture—Marital relations—Group marriage and sexual communism—Status of women in primitive Society—Primitive division of labour between the sexes—The persistence of family ties in Man—Plasticity of human instincts—Father-right and Mother-right.

Culture-definition—Translation from nature to culture—Culture diffusion—Individual and the race in culture—Environment. Political organization—Magic and religion—Anthropomorphism and the higher gods.

Note.—Lectures must be delivered as far as possible with reference to instances from the Cultural History of India.

Rivers. Social Organisation.
Semple. Influence of Geographical Environment.
B. Edgell. Mental Life.
Chanda. Indo-Aryan Races.
Bartlett. Psychology and Primitive Culture.
Marett. Threshold of Religion.

Paper VI.—Social Anthropology (Advanced).

An intensive study of any one of the following primitive culture zones of India with special reference to one or more tribes of the zone as may be prescribed from time to time.

(1) Assam, (2) Chittagong and Chindwin basins, (3) Chota Nagpur, Orissa and the Central Provinces, (4) Cis-Himalayan regions (5) North-western Frontier tracts, (6) South India, (7) Western India including the Presidency or Bombay, Malabar, Cochin, Travancore and South Canara.

Syllabus:—Physical environment, General geography of the area (very brief outline), Ethnic relations, Racial and cultural History of the people inhabiting the area; Material culture, Society, Religion and Mythology and Language—The present social and economic conditions of the people in relation to foreign contact.

Ethnology of Assam with special Reference to Khasis.
B. Majumdar. Aboriginal Tribes of Central India.

GROUP C.

Paper V—Social Anthropology (Religion).

A brief survey of origins of religions and religious institutions of the world—Religion and magic—Religion among tribal communities—Religion and Mythology—The life of the dead—The origin of gods—Sacred stones—The gods of Egypt—The gods of Israel—Human gods—Formation of gods—Gods of cultivation—Sacrifice and sacrament—What is mystery religion—Religion and morals, spirits and gods—Rise of monotheism—The Hindu Trinity—The Buddhistic Trinity—The Christian Trinity—The reality of religion.

The main religious systems and sects in India—Popular Hinduism—Influence of Buddhism, Islam and Christianity in India—Modes of worship.

A. B. Keith. Religion and Philosophy of the Vedas and the Upanishads.
Barth. Religions of India.
H. H. Wilson. Religious Sects of Modern India.
Risley. People of India.
Dr. P. Dahlke. Buddhism and its place on the mental life of Mankind.
Carpenter. Comparative Religion (Home University Series).

Paper VI—Social Anthropology (Society).

Socio-religious Institutions of the Primitive society in India. Modern theories and ancient ideals of Indian society—Detailed study of caste—caste formations and caste regulations—History of the development of caste, and the various theories connected with it.

Social history and divisions among the Mahomedans.

Family organization—Marriage—Status of women—Hetaira—Family and social rites—Social customs—Property and Inheritance.

Imperial Gazetteer, Introductory volumes, Volume I. Census Reports of India 1911 and 1921 (Chapters on Society and Religion).

Paper VII.

Practical and Field work:—

Practical knowledge of Human and Anthropoid osteology. Anthropometric observations and measurements as recommended by the British Anthropometric committee. Osteometric measurements as recommended by the same committee.

Students are required to measure 50 men and six skeletons. Laboratory book to be kept.

Hrdlicka-Anthropometry.

Wilder. Laboratory Manual of Anthropometry.

Paper VIII.

Identification of stone objects and impliments, and technological specimens. Students are required to submit a report on a selected topic in Social anthropology prescribed by the Lecturers or a report on the specimens of the Ethnographic gallery of the Indian Museum.

POLITICAL ECONOMY AND POLITICAL PHILOSOPHY.

Papers I and II—General Economics.

A. Marshall. Principles of Economics.
A. Marshall. Industry and Trade. Books II and III.
Taussig. Principles of Economics.
Bastable. International Trade.
Cassel. Money and exchange after 1914.

For reference—

Pigou. Economics of welfare.
Montgomery—British and Continental Labour Policy.

Paper III—General Principles of Political Philosophy.

McIver. The Modern State.
Laski. Grammar of Politics.
DeLisle Burns. Political Ideals.
Hobhouse. Social Evolution and Political Theory.

Paper IV—Public Administration.

Wattal. Financial Administration in British India.
Lowell. Government of England.
Plehn. Public Finance.
Dalton. Public Finance.
Keith. Constitution, Administration and Laws of the British Empire.
Government of India Act and the rules made thereunder.

For reference—

Bengal Local Self-Government Act.
Bengal Village Self-Government Act.
Bengal Municipal Act.
Report of the Reforms Enquiry Committee, 1925.
Report of the Taxation Enquiry Committee.
Dicey. Law of the Constitution.
P. Mookerjee. The Indian Constitution.

GROUP A.

Paper V—General History of Economics.

Haney. History of Economic Thought.
Gide and Rist. A History of Economic Doctrines.
Adam Smith. Select Chapters from Wealth of Nations (Economics Classics Series, Macmillan & Co.).
Meredith. Economic History of England (from the Industrial Revolution).
Cunningham. Growth of English Industry and Commerce—Modern Times, Part II (Laissez Faire).

For reference—

List. National System of Political Economy.
Sombart. Quintessence of Capitalism.
Ricardo. Political Economy (Selection, Economic Classics Series).

Papers VI and VII.—(i) The History, Theory and Present System of Banking and Currency.

Conant. Principles of Money and Banking.
Dunbar. History and Theory of Banking.
Burton. Commercial Crises.
Withers. Stocks and Shares.
Gregory. Return to Gold.
Shirras. Indian Finance and Banking.
Rau. Present Day Banking in India.
Kisch. Central Banks.
Indian Paper Currency Act.
Report of the Controller of Curency (latest issue).
Hilton Young Commission Report on Indian Currency.

For reference—

Fisher. Purchasing Power of Money.
Keynes. Tract on Monetary Reform.
Keynes. Indian Currency and Finance.
Sinha. Early European Banking in India.

(ii) History, Theory and Present Organisation of International Trade.

Chapters bearing on the subject in Ricardo, J. S. Mill and Cairnes.
List. National System of Political Economy.
Pigou. Protective and Preferential Import Duties.
Viner. Dumping: a problem in International trade.
P. Ashley. Modern Tariff History.

Brown, International Trade and Exchange.
Taussig. Some aspects of the Tariff Question.
Taussig. International Trade.
Clare and Crump. A. B. C. of Foreign Exchange.
Banerjea. Fiscal Policy in India.
Coyajee. Indian Fiscal Problem.
Review of the Trade of India (latest issue).

For reference—

Survey of Overseas Markets.
Ainscough. Report on British Indian Trade (latest issue).
Report of the Indian Fiscal Commission.

(*iii*) *The Theory and Practice of Statistics including Demography.*

A. L. Bowley. Elements of Statistics (new edition).
Jones. First Court in Statistics.
Bowley. Measurement of Social Phenomena.
Yule. Introduction to Statistics.
Newsholme. Vital Statistics.
Mills. Statistical Method applied to Economics and Business.
Census Report, 1921 (India and Bengal).
The Jubilee Volume of the Journal of the Royal Statistical Society.
British and Foreign Trade and Industries, being Memoranda, etc., prepared by the Board of Trade (commonly called the Fiscal Blue Book).
Imperial Gazetteer, Vol. I, Chapters IX and X.

For reference—

Mayo Smith. Statistics and Mathematics.

(*iv*) *Mathematical Economics.*

Connynghame. Geometrical Political Economy.
Cournot. Mathematical Principles of the Theory of Wealth (Economic Classics Series, Macmillan & Co.).
Jevons. Theory of Political Economy.
Marshall. Principles of Economics (Mathematical Appendices).
Pigou. Economics of Welfare, (Mathematical Appendices).
Edgeworth. Papers relating to Political Economy. Secs. I, IV and VI.
Wicksteed. Alphabet of Economic Science.
Wicksteed. Common Sense of Political Economy.
Articles by Flux Seager, Chapman, Pigou and Edgeworth in the "Economic Journal" bearing on Mathematical Economics.

For reference—

Bowley—Mathematical Groundwork of Economics.

(*v*) *Elements of Statistics and the Mathematical Treatment of Economic Theory.*

Giffen. Statistics.
Bowley. Elementary Statistics.
Yule. Introduction to Statistics.
Cunnynghame. Geometrical Political Economy.
Cournot. Mathematical Principles of the Theory of Wealth (Economic Classics Series, Macmillan & Co.).
Pantaleoni. Pure Economics.
Wicksteed. Common Sense of Political Economy.

GROUP B.

Paper V.—General History of Political Philosophy.

Plato. Republic.
Aristotle. Politics.
Machiavelli. The Prince.
Hobbes. Leviathan.
Locke. Second Treatise on Government.
Rousseau. Social Contract.
Dunning. History of Political Theories, 3 Vols.
Willoughby. Political Theories of the Ancient World.
Barker. English Political Thought (from Spencer to the present day).
Merriam, Barnes and others. Political Theories, Recent Times.

Papers VI and VII.—(i) Comparative Study of Political Institutions.

Greenidge. Greek Constitution.
Greenidge. Roman Public Life.
Maine. Ancient Law.
Kautilya. Arthasastra (Trans. Shama Sastri).
Pramathanath Banerjea. Public Administration in Ancient India.
Ghoshal. Hindu Political Theories.
Sarkar, B. K. Political Institutions and Theories of the Hindus.
Woodrow Wilson. Congressional Government.
Sidgwick. Growth of European Polity.
Bryce. Modern Democracies.
Munro. Governments of Europe.

For reference—

Marriott. The Mechanism of the Modern State.
Select Constitutions of the World (Dail Eireann Publication).
Coulanges. Ancient City (Tr. Small).

(ii) Comparative Study of Social Institutions.

Lichtenberger. Development of Social Theory.
Cole. Social Theory.
Giddings. Principles of Sociology.
Fairchild. Applied Sociology.
Risley. Peoples of India.
Wundt. Folk Psychology.
Bhudev Mookerjee. Samajik Prabandha.
Lowie. Primitive Society.
Bernard. Instinct, a Study of Social Psychology.
Census Report for India, 1911 and 1921.
Carveth Read. The Origin of Man and of his Superstitions.
Brij Narain. Population in India.

For reference—

Hobhouse. Development and Purpose, an essay towards a Philosophy of Revolution.
Frazer. Golden Bough (Abridged Edition).
Graham Walls. Our Social Heritage.
William McDougall. The Group Mind, reprinted 1921.
William McDougall. Introduction to Social Psychology, 6th edition, 1921.
Gustave le Bon. The Crowd, a study of the popular mind, 12th impression, 1920.

Graham Walls. Human Nature in Politics, 3rd edition, 1920.
J. B. Bury. History of the Freedom of Thought, 2nd impression, 1920.
Moris Ginsberg. The Psychology of Society, 1921.
Parmelee. Criminology.

(iii) International Law, with reference to existing Political and Economic Institutions.

Oppenheim. International Law.
Hall. International Law.
Higgins. Hauge Peace Conference.
Pitt Cobbet. Cases on International Law, 2 vols. (New edition).
Pollock. League of Nations.
Garner. Recent Development in International Law.
Hudson. Current International Co-operation.

For reference—

Year Book of the League of Nations.
J. J. Hall. Law of Naval Warfare.
Normal Angell. The Fruits of Victory.
Phillmore. Three Centuries of Treaties of Peace.
J. M. Keynes. A Revision of the Treaty.
J. M. Keynes. Economic Consequences of the Peace (Reprinted, 1920).
The British Year Book of International Law (third year of issue), 1922-23.
Transactions of the Grotius Society (Problems of Peace and War). First published in 1915.
The American Journal of International Law.

Treaty Series, H. M. Stationery Offices—

No. 4 (1919) Treaty of Versailles.
No. 11 (1919) Treaty of St. Germain-en-Laye.
No. 5 (1924) Treaty of Neuilly Sur Seine.
No. 10 (1924) Treaty of Trianon.
No. 11 Treaty of Sevres.

History of the Peace Conference at Paris, edited by H. W. V. Temperley, 5 vols., 1920-21.
War and Treaty Legislation, 1914-21, by J. W. Scobell Armstrong.
Private Property and Rights in Enemy Countries under the Peace Treaties, by Paul F. Simonson, 1921.
International Law and the World War by Garner, 2 vols., 1921.
Labour's Magna Charta, a study of the Labour clause of the Peace Treaty and recommendations of the Washington International Labour Conference, by Nicholas Chisholm, 2nd edition, 1921.

Paper VIII.—Essay.

GROUPS A AND B.

Candidates will be required to write an essay on some topics connected with one of the following subjects. The essay must treat the topic chosen by the candidate with special reference to Indian conditions:—

1. Famines.
2. Co-operation.
3. Railways.
4. Industrial Organisation.
5. Currency Problem.
6. Land Systems.
7. Forms of Government.
8. Political Parties.
9. Village Communities.
10. Labour Problems.
11. Foreign Trade and Exchange.
12. Tariff Problems.

COMMERCE.

(Compulsory Papers.)

Paper I.—Realistic Economics.

Marshall. Industry and Trade.
Marshall. Money, Credit and Commerce.
Haney. Business Organisation.
Bastable. International Trade.
Stephenson. Principles of Business Economics.

Paper II.—Accounting.

Spicer and Peglar. Book-keeping and Accounts.
Batliboi, J. R. Advanced Accounts.
Carter. Advanced Accounts.
Cropper. Accounting.
Dicksee. Higher Accounts.

Paper III.—Commercial Law.

Smith. Mercantile Law.
Stevens. Mercantile Law.
Schaub and Issacs. Law in Business Problems (Macmillan).
Davar. Indian Mercantile Law.
Sengupta, Dr. Nareschandra. Company Law.

Paper IV.—Banking.

Agger. Organised Banking.
Polly and Gould. Stock Exchange.
Rau. Present-day Banking in India (Calcutta University).
Sheldon. Practice and Law of Banking.

Spalding. Foreign Exchange and Foreign Bills in Theory and Practice.
Thomas. Arithmetic of Foreign Exchange.

For reference—
Kisch. Central Banks.

(Optional Papers.)

Papers V to VII.

Any four of the following:—

(*i*) *Industrial Structure and Development.*

Marshall. Industry and Trade.
Jenks. Trust Problem.
Clapham. Economic Development of France and Germany, 1815-1915.
Report of the Industrial Commission (1916-18).
Broughton (Chatterjee, Lady). Labour in Indian Industries.
Sarkar, B. K. Economic Development.
Special Study of Cotton, Jute, Iron, Coal and Tea Industries in India.

For reference—
Reports of the Tariff Board on Steel and Cotton Textile Industry.

(*ii*) *Statistics.*

Riegel. Business Statistics.
Secrist. Readings and Problems in Statistical Method.
Bowley. Elements of Statistics, Part I.
Mills. Statistical Metods applied to Economics and Business.

(*iii*) *Economic Geography.*

Quinquennial Review of the Mineral Production in India.
Howard. Crop Production in India.
Chisholm. Handbook of Commercial Geography.
Chambers of Commerce Atlas.
Bartholomew. Commercial Atlas.
Taylor. Businessman's Geography.
Russell Smith. Industrial and Commercial Geography.

(*iv*) *Tariffs.*

Bastable and Gregory. Commerce of Nations.
Coyajee. Indian Fiscal Problem.
Banerjea, P. N. Indian Fiscal Policy.
Gregory. Tariffs: A Study in Method.
Report of the Indian Fiscal Commission, 1922.
The Indian Tariff Act. The Indian Sea Customs Act.
Report of the Indian Tariff Board regarding the grant of Protection to the Steel, Cotton and Paper industries.
Ashley. Modern Tariff History.

(*v*) *Agricultural Economics.*

Leake. The Bases of Agricultural Practice and Economics in the United Provinces of India.
Ray. Agricultural Indebtedness.
Study of Indian Villages by Mann, Keatinge, Jack, etc.
Nourse. Agricultural Economics.
Taylor. Agricultural Economics (Ed. 1920).
Carver. Principles of Agricultural Economics.
Boyle. Agricultural Economics.
Wolff. Rural Reconstruction.
Mukherjee, P. Co-operative Movement in India.

(*vi*) *Currency.*

Conant. The Principles of Money and Banking (Vol. I only).
Cassel. Money and Exchange after 1914.
Easton. Exchange, Currency and Finance.
Shirras. Indian Finance and Banking (Chapters on Currency).
Report on the Operations of the Currency Department of the Government of India (latest issue).
Report of the Hilton Young Commission.

(*vii*) *Public Finance.*

Gyan Chand. Financial System in India.
Plehn. Public Finance (Ed. 1920).
Shirras. Science of Public Finance.
Dalton. Public Finance.

(*viii*) *Auditing.*

Spicer and Peglar. Practical Auditing.
Pixley. Duties of Auditors.
Dicksee. Practical Auditing.

(*ix*) *Business Organisation.*

F. W. Raffety. Modern Business Practice, Vol. I. (The Gresham Publishing Co.).
Bloomfield. Business Organisation.
Dicksee. Business Organisation.
Sparling. Introduction to Business Organisation.
Haney. Business Organisation and Combination.

For reference —
Chartered Institute of Secretaries—Secretarial practice.

PURE MATHEMATICS.

1. Higher Algebra—
   Chrystal. Algebra, Part II, Chapters 23-28, 32-34.
2. Higher Plane Trigonometry—
   Hobson. Plane Trigonometry.
3. Spherical Trigonometry—
   Todhunter. Spherical Trigonometry (Ed. Leatham).
   MacLellan and Preston. Spherical Trigonometry (Ed. Leatham).
4. Theory of Equations and Algebra of Quantics—
   Burnside and Panton. Theory of Equations, 2 Vols.
   Elliot. Introduction to the Algebra of Quantics.
5. Plane Analytical Geometry, including Higher Plane Curves—
   Salmon. Conic Sections.
   Salmon. Higher Plane Curves (for reference).
   Ganguly. Theory of Plane Curves, 2 Vols. (Revised edition).
   Hilton. Plane Algebraic Curves.
   Sommerville. Analytical Conics (for reference).
6. Geometry of Surfaces—
   Salmon. Geometry of Three Dimensions, 5th Ed., Vol. 1, Chapters I-X.
   Bell. Analytical Geometry of Three Dimensions.
   Forsyth. Differential Geometry, Chapters I to IV.
7. Differential Calculus—
   Edwards. Differential Calculus.
   Williamson. Differential Calculus.
   Goursat. Mathematical Analysis, Vol. I (Translated by Hedrick).
8. Integral Calculus—
   Williamson. Integral Calculus.
   Todhunter. Integral Calculus.
   Goursat. Mathematical Analysis, Vol. I (Translated by Hedrick).
   Carslaw. Fourier Series, Vol. I (for reference only).
9. Differential Equations—
   Piaggio. Differential Equations.
   Bateman. Differential Equations.
   Forsyth. Differential Equations.

10. Calculus of Variations—

Byerly. Introduction to Calculus of Variations (Harvard University Press).
Todhunter. Integral Calculus.
Williamson. Integral Calculus.
Bolza. Calculus of Variations.

11. (*a*) Theory of Functions—

Either of the following alternative courses:—

A

MacRobert. Functions of a Complex Variable (Macmillan & Co.).
Townsend. Functions of a Complex Variable (Henry, Holt & Co.).
Goursat. Mathematical Analysis, Volume II, Part I (Trans. by Hedrick, Ginn & Co.).

B

Hobson. Theory of Functions of a Real Variable.
Carslaw. Fourier's Series and Integrals, Volume I (for reference).

(*b*) Theory of Groups—

Miller, Blichfeldt and Dickson. Finite Groups (John Wiley and Sons).
Hilton. Finite Groups (Oxford).
Dickson. Algebraic Equations.

(*c*) Finite Differences and Calculus of Functions—

Boole. Finite Differences.
Burn and Brown. Finite Differences.
Carmichael. Calculus of Operations.
Herschel. Examples of Calculus of Finite Differences.
Babbage. Examples of Functional Equations.
DeMorgan. Calculus of Functions.
E. T. Whittaker-George and Robinson. A Short Course on Interpolation.

(*d*) Vector Analysis and Quarternions—

Joly. Manual of Quarternions.
Hamilton. Elements of Quarternions (Ed. Joly), Vol. I, Books 1-21.
E. B. Wilson. Vector Analysis.

(*e*) Projective Geometry—

Either of the following alternative courses:—

A

Mathews. Projective Geometry.
Durell. Plane Geometry for Advanced Students, Vol. II (for reference).
Cremona. Projective Geometry.
Hilbert. Foundations of Geometry (Trans. by Townsend. Open Court Publishing Company).

B

Bonola. Non-Euclidean Geometry (Trans. Carslaw. Open Court Publishing Company).
Carslaw. Non-Euclidean Geometry and Trigonometry.
Sommerville. Non-Euclidean Geometry.
Manning. Geometry of four Dimensions.
Hilbert. Foundations of Geometry (Trans. by Townsend. Open Court Publishing Company).
Ganguly. Geometry of Hyper Spaces, 2 Vols. (for reference).

(*f*) Theory of numbers—

Reid. Theory of Algebraical Numbers.
Mathews. Theory of Numbers.
Smith. Reports on the Theory of Numbers (Collected Papers. Volume I, pages 38-364) (for reference).

G. N. BANERJEE,
Secretary.

ASUTOSH BUILDING;
The 28th July 1928.

COUNCIL OF POST-GRADUATE TEACHING IN ARTS
UNIVERSITY OF CALCUTTA.

LINGUISTICS (B.A.) 1929 & 1930.

Pass Course.

PAPER I.—General Principles of Linguistic Science, Growth and Development of Language.

Books recommended—

Sweet—*History of Language* (Dent).

Wyld—*Historical Study of the Mother Tongue Murray.*

PAPER II.—Phonetics: Language Families of the World.

Books recommended—

Dumville, B.—*The Science of Speech.* (London University Tutorial Series.)

Mazumdar, B. C.—*History of Bengali Language*, Chap. VI.

Chatterji, S. K.—*A Brief Sketch of Bengali Phonetics.*

PAPER III.—The Languages of India.

Book recommended—

Grierson, Sir G. A.—Article in the *Bulletin of the School of Oriental Studies, London*, Vol. I., and *The Languages of India* from the Census Report 1903.

Note.—Students are also recommended to consult the following:

Tucker, T. G.—*Introduction to the Natural History of Language* (Blackie).

Honours Course.

There shall be six papers in all:

PAPER I.—Same as for the Pass Course, but in greater detail.

Books recommended (in addition to those for the Pass Course):

O. Jesperson—*Language* (Allen and Unwin); Article on "Philology" in the *Encyclopaedia Britannica* (11th Ed.).

PAPER II.—Same as for the Pass Course, but in greater detail.

Books recommended (in addition to those for the Pass Course):

G. Noel-Armfield—*General Phonetics* (Heffer, Cambridge); Article on "Accent" and "Phonetics" in the *Encyclopaedia Britannica* (11th Ed.).

PAPER III.—Same as for the Pass Course, but in greater detail.

Besides the books prescribed for the Pass Course, the students are expected to have a general acquaintance with the volumes of the *Linguistic Survey of India* dealing with the Indo-Aryan and Iranian Languages.

PAPER IV.—Grammar of *one* of the following Languages treated comparatively and historically:

(A) English.—Books recommended: H. Sweet—*New English Grammar* (Oxford); H. C. Wyld—*Historical Study of the Mother Tongue* (Murray).

(B) Sanskrit.—Books recommended: A Macdonell—*A Vedic Grammar for students* (Oxford), to be supplemented by Whitney's *Sanskrit Grammar* (Ginn).

(C) Pali.—Books recommended: E. Müller—*Pali Grammar* (Kegan Paul); Vidhusekhara Sastri—*Pali Prakasa.*

(D) Persian.—Books recommended: Platts and Ranking—*A Persian Grammar* (Oxford).

PAPER V.—Texts illustrating the growth of the language chosen.

(A) English.—Old and Middle English. Recommended books: Wyatt—*Old English Grammar* (for reference only); Cook—*First Book of Old English;* H. Sweet—*First and Second Middle English Primers;* Wright—*Elementary Grammar of Middle English* (for reference only).

(B) Sanskrit.—Books recommended: Sanskrit (Vedic), and Pali-Prakrit.—*Rigveda* Hymns, i. 154; ii. 12; iii. 59; vii. 49, 51, 63, 71, 86 (these are all to be found in Macdonell's *Vedic Reader*); Woolner—*Introduction to Prakrit*: Extracts—1-8, 10, 11, 15, 19, 22-26, 28, 31, 32, 34, 35.

(C) Pali—Sanskrit (Vedic and Classical), Prakrit. Books recommended: *Rigveda*: *Hymns*, iv. 51; x. 44, 90, 129 (these are all to be found in Macdonell's *Vedic Reader*); *Raghuvamsa, Canto* IV; *Vikramorvasi* (Bombay Ed.); Woolner—*Introduction to Prakrit* (as in B.).

(D) Persian—Avesta, Old Persian and Pahlavi. Books recommended: Taraporewala—*Selections from Avesta and Old Persian*, I, Parts 1 and 2: the following two selections *Yasna* ix, Behistun Inscription, I; Pahlavi: *Arda Viraf Namah*, iv.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

SUPPLEMENT.

Official Papers.

REPORT OF THE HONORARY COMMITTEE FOR THE MANAGEMENT OF THE ZOOLOGICAL GARDEN, CALCUTTA, FOR THE YEAR 1927-28.

NOTIFICATION.

Minister-in-charge : The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

No. 3906Zoo.—The 1st August 1928.—The Annual Administration Report of the Zoological Garden, Calcutta, for the year 1927-28 and the Government letter No. 3905, dated the 2nd August 1928, acknowledging the receipt of report, are published for general information.

R. N. REID,

Secretary to the Government of Bengal.

Report of the Honorary Committee for the Management of the Zoological Garden, Calcutta, for the year 1927-28

The Committee have the honour to submit their report for the year ending 31st March 1928, supplemented as in former years, among other items, by—

(1) the Superintendent's report upon the Zoological collection ;

(2) abstract of accounts of ordinary receipts and expenditure ; and

(3) monthly returns of visitors and gate receipts and a list of donors and their donations.

The Committee consisted of—

President.

The Hon'ble Mr. Justice P. L. Buckland, Kt., F.Z.S.

Vice-President.

The Hon'ble Sir Bijay Chand Mahtab, G.C.I.E., K.C.S.I., I.O.M., Maharajadhiraja Bahadur of Burdwan. (Resigned on 16th January 1928.)

Honorary Secretary and Treasurer.

G. Morgan, Esq., C.I.E., M.L.C., F.R.H.S., F.Z.S., from 1st April 1927 to 6th November 1927.

W. K. Dods, Esq., from 7th November 1927 to 7th March 1928.

E. H. Marshall, Esq., from 8th March 1928 to 31st March 1928.

Members.

Nominated—

R. D. Mehta, Esq., C.I.E.

Nawab Sir Asif Qadr Saiyid Wasif Ali Mirza, Khan Bahadur, Mahabat Jang, Nawab Bahadur of Murshidabad, K.C.S.I., K.C.V.O.

Sir David Ezra, Kt., F.Z.S.

Surendra Nath Laha, Esq.

Nawab A. F. M. Abdur Rahaman, Khan Bahadur.

Lieut.-Col. E. H. Brown, I.M.S. (retired), M.D., D.P.H., F.R.C.S.E., F.Z.S., F.L.S.

Dr. B. L. Chaudhuri, D.Sc. (Edin.), F.R.S.E.

G. C. Mandal, Esq.

Dr. Satya Charan Laha, Ph.D., F.Z.S.

H. B. Turle, Esq.

Lieut.-Col. E. E. Waters, M.D., M.R.C.P., I.M.S.

Lieut.-Col. Sir F. P. Connor, D.S.O., F.R.C.S., I.M.S.

Ajit Nath Das, Esq., F.Z.S., M.R.A.S.

Sir Hari Ram Goenka, Rai Bahadur, C.I.E.

K. C. De, Esq., C.I.E., I.C.S.

G. Morgan, Esq., C.I.E., M.L.C., F.R.H.S., F.Z.S.

W. Howes, Esq.

Maharajkumar Uday Chand Mahtab, B.A., of Burdwan.

T. Ameer Ali, Esq., Bar-at-Law.

Ex-officio—

The Commissioners of Divisions in Bengal.

The Executive Engineer, 2nd Calcutta Division, Public Works Department.

The Director of Public Health with the Government of Bengal.

The President of the Asiatic Society of Bengal.

The Director of Public Instruction, Bengal.

The Natural History Secretary of the Asiatic Society of Bengal.

The Director of Land Records.

The Director, Civil Veterinary Department, Bengal.

The Professor of Comparative Anatomy and Zoology, Medical College, Bengal.

The Superintendent of the Royal Botanic Garden, Sibpur.

The Mayor of Calcutta.

The Principal of the Bengal Veterinary College, Calcutta.

Resignation—The Hon'ble Sir Bijay Chand Mahtab, G.C.I.E., K.C.S.I., I.O.M., Maharajadhiraja Bahadur of Burdwan, resigned the Committee and his post of Vice-President owing to his continued absence from India. His resignation was accepted with an expression of regret for the termination of his long and valued services to the Gardens and of the appreciation of the Committee of his assistance for so many years.

The following member resigned his membership on his departure from India :—

A. L. Feild, Esq.

The following new members were appointed during the year :—

Maharajkumar Uday Chand Mahtab, B.A., of Burdwan.

T. Ameer Ali, Esq., Bar-at-Law.

Rai Bijay Krishna Basu Bahadur continued in charge of the Garden as Superintendent throughout the year, and Babu Somadev Ganguli as Assistant Superintendent.

The following is a list of the superior staff of the Garden at the end of the year 1927-28 :—

Superintendent.—Rai Bijay Krishna Basu Bahadur.

Assistant Superintendent.—Babu Somadev Ganguli.

Store-keeper.—Babu Jugal Kishore Roy.

Overseer.—Babu Niranjan Mukherji.

Clerk.—Babu Tarak Chandra Chatterji.

Gate clerk.—Babu Bipin Behari Chatterji.

The menial staff of the Garden at the end of 1927-1928 comprised in addition to temporary men who were engaged as required—

1 Salutri.
1 Jamadar.
8 Durwans.
20 Keepers.
2 Bhisties.
1 Cook.
1 Head Gardener.
14 Gardeners.
3 Sweepers.
1 Chaprasi.
1 Carpenter.
2 Cartmen.
1 Syce.
1 Scytheman.
1 Night-watchman.

The healthy condition of the collection, generally, has been well maintained. No outbreak of serious epidemic has occurred and the casualties were only such as are to be expected among a collection of animals in captivity, many of them in a climate to which they are by nature unaccustomed.

The outstanding improvement effected during the year is the construction of the Island Enclosure. The old enclosure for the Sambar deer was dismantled and remodelled after the design of the New Extension which has proved so successful. The fences and railings were removed and a wide ditch, too deep to be waded across, with a retaining wall in front, was substituted. The low-lying grounds were raised and levelled and the tank partly filled in with earth from the ditch. The enclosure which formerly was unattractive and congested has now been converted into an open space with a view unobstructed by railings in all directions. Confinement by these means enables animals of various kinds to be given opportunities of comparative freedom otherwise unattainable. It is believed that nowhere else in the world can orang-outangs and gibbons be seen living in practically a wild state. With them are grouped a tapir, a capybara, rabbits, wallabies, and many kinds of birds all of which dwell together in complete harmony and form a most attractive exhibit.

The question of improving the existing Laboratory building and the adjoining grounds and converting them into a dispensary and a hospital suitable for sick animals engaged the attention of the Committee of Management, and a portion of the Laboratory was set apart for a hospital and old and useless material and instruments were sold by auction. The flooring of the adjoining

verandahs were renewed. The roofs were recovered with tar and cement and the ceilings which had been damaged by leaks in the roof were repaired. The adjacent ground which was enclosed by a wall was thrown open, and cleared of vegetation and waste materials, and raised. The drainage was improved by the construction of a pucca drain and the whole was converted into a useful self-contained block.

The godown behind the Reptile House, formerly intended as quarters for the keeper of the Snake House, which had lain vacant for a number of years and been used for stores, was dismantled and the adjoining land cleared thus giving a full view of the Zebra paddock. A brick-on-edge road was constructed on the east side of the paddock, and the general appearance of this part of the Garden has thus been also improved.

New paths were laid and gravelled and others widened and altered as necessary. Portions of the main drive were remetalled and all paths and roads were covered with surki-siftings.

The general repairs to the buildings could not be taken in hand during the year 1926-27 on account of want of funds and they consequently were in great need of repair during the year under review, but nevertheless, though urgent general repairs were effected, funds did not permit of all being carried out that might have been done. Details are as follows :—

The Boundary wall, Burdwan House, Small Carnivora House, the servant's quarters, Superintendent's quarters, Soneburs Enclosure, Rodent House, Drill and Mandrill House, Sarnomoyi House, the store-godown were repaired, sand-plastered, colour-washed and painted as necessary and in the case of the last two items, extensive repairs were required and executed to the roofs.

The following buildings were limewashed and colourwashed—

Dumraon House, Gubbay House, Reptile House, Schwendler House, Refreshment Pavilions, Bear House, Circular Monkey House.

In addition, minor repairs to smaller houses, sheds and enclosures were effected.

The Gardens generally have been maintained in good order. Considerable attention has been paid to the lawns, flower-beds, shrubs and trees. Many shrubs and trees which had outgrown their original purpose were cut down and with the removal of these obstructions the appearance of the grounds has improved considerably. Flowering Annuals were exhibited at the Annual Flower Show of the Agri-Horticultural Society of India and the Gardens were awarded several prizes.

The financial condition of the Garden is on the whole satisfactory, due to the rigid economy which has been imposed during the past few years. The increase in the number of visitors and in the receipts at the gate is attributable in some measure to the return to normal conditions of which mention was made in the last Annual Report. But it is also attributable to the attractiveness of the collection and improved methods of exhibition, for both as regards the aggregate total and the number of varieties of animals and birds exhibited, the Gardens contain more specimens than there have ever been in the collection. This necessarily involves expenditure, without which the standard of the collection would deteriorate rapidly. As the sum available is limited, and, as has been frequently pointed out a margin against unforeseen contingencies must be kept in hand, a careful adjustment has to be made between expenses incurred on the maintenance of the Gardens and collection and that incurred in the purchase of new specimens which, as an additional attraction, may become a source of profit as well as of interest.

The following s a comparative statement of visitors and receipts for recent years :—

Year.	Number of visitors.	Receipts.	
		Rs.	A.
1923-24	877,478	64,420	7
1924-25	943,553	67,706	13
1925-26	1,030,647	72,500	10
1926-27	826,211	58,486	4
1927-28	1,107,161	76,701	2

It is to be regretted that in the last Annual Report the figures were inaccurately stated. The above are the correct figures.

A large number of children under four years of age and school children, attended by their teachers, were admitted free. On the occasion of the Fancy Fair on 31st December 1927 and 2nd January 1928 about 17,240 people visited the Garden.

In addition 48,475 persons visited the Gardens on free days. A detailed statement of the number of visitors and receipts appears in Appendix B.

The thanks of the Committee are due to those ladies and gentlemen who have added to the zoological collection by donations, a list of which is given in Appendix C. Thanks are also due to those who kindly offered to present animals to the Garden, but whose offers could not be accepted, either because the particular species was already sufficiently well represented, or owing to want of accommodation.

The Committee also desire to express their thanks to the following Railway and Steamer Companies for kindly conveying the animals belonging to the Garden free of charge—

E. I. Railway, B. N. Railway, B. I. S. N. Co., Ltd., through Messrs. Mackinnon Mackenzie & Co., and R. S. N. Co., Ltd., through Messrs. Macneill & Co.

The Corporation of Calcutta at their meeting held on 19th September 1927 sanctioned a grant of Rs. 26,233-6 to the Garden for the year under report and the amount of the rate bills in respect of the Garden was adjusted against the sanctioned grant as the rate bills fell due. The Committee desire to take this opportunity of expressing their thanks to the Corporation of Calcutta for their generous contribution to the funds of the Garden.

Thanks are also due to the Officer Commanding and Officers of the 3-12th F. F. Regiment for permitting the regimental band to play at the Garden on Tuesday afternoons free of charge.

The Committee are much indebted to those members of the public who send their old and broken-down horses to the Zoological Gardens for destruction in a humane manner.

E. H. MARSHALL,
Honorary Secretary.

P. L. BUCKLAND,
President

SUPERINTENDENT'S REPORT.

I have the honour to submit my report on the condition and progress of the Zoological collection.

The following comparative table shows the numbers of the various collections during the last four years :—

Year.	Mammals.	Birds.	Reptiles.
1924-25	316	1,079	194
1925-26	322	1,206	100
1926-27	334	1,059	69
1927-28	365	1,244	105

Among important gifts deserving special mention were 1 Lioness presented by the Ruling Chief of the Nilgiri State ; 1 Gaur calf presented by C. H. Stein, Esq., D.F.O., ; 2 Crowned cranes presented by Mr. Alfred Ezra, O.B.E., (London) ; 1 Kiang—Pony (hybrid) presented by the Political Officer, Sikhim ; 2 Arabian gazelles presented by V. Harper, Esq., and 1 Arabian gazelle presented by Master Leslie.

The most important purchases during the year were following :—

1 Reed buck.
1 Spotted hyaena.
1 Capybara.
1 Woolly monkey.
2 Scarlet ibises.
2 Caiques' parrots.
2 Wildebeests.
2 Swinhoe's pheasants.
2 Reeve's pheasants.
1 Amherst-Gold pheasant (hybrid).
1 Beisa antelope.

The following animals were received on exchange account during the year :—

From the Wellington Zoological Garden, New Zealand—

4 Paradise ducks.

From the Melbourne Zoo—

2 Wombats.
16 Black swans

From the Adelaide Snake Park—

4 Diamond pythons.
2 Tiger snakes.
2 Purplish death adders.
3 Black dea h adders.
7 S ump-tailed lizards

From the Parks Department, Toronto—

2 Wapiti deer.

From the Edinburgh Zoo—

2 Brown bear cubs.
3 Ringtailed coatis.

From Mr. G. B. Chapman, F.Z.S., London—

2 Sable antelopes.

The collection of common Indian animals and birds was maintained n a high state of efficiency by constant supplies pr sented by Mr. W. K. Dods and a large number of aquatic birds, Indian crakes, rails, coots, etc., were introduced into the islands of the lake for breeding purposes.

A list of donors and their donations during the year is given in Appendix C.

The following is a list of animals that were born in the Garden :—

5 Peacock pheasants.
3 Black-headed ibises.
1 Straw-necked ibis.
5 Indian antelopes.
2 Hog deer.
2 Nilgais.
2 Bonnet monkeys.
2 Barasingha deer.
2 Opposums.
3 Vieillot's firebacks.
2 Barking deer.
1 Great kangaroo.
1 Sambar deer.
2 Weeper capuchins.
2 Lions.
1 Saras crane.
2 Black-striped wallabies.
4 Spotted deer.
2 Black leopards.
1 Hippopotamus.
3 Sonnerat's jungle-fowl.
1 Macaque monkey.
2 Four-horned antelopes.
2 Indian hares.
5 Wild pigs.
2 Sonnerat-Java jungle fowl (hybrid.)

The following is a list of more important deaths :—

1 Tahr.
1 Urial.
3 Gayals.
1 Fallow deer.
1 Black leopard cub.
1 Binturong.
1 Ostrich.
1 Malayan tapir
1 Red deer.
1 Great kangaroo.
1 Pale-headed caique.

The following were sent to the London Zoological Society :—

2 Brahminy kites.
2 Indian rollers.
2 Lesser kestrels.

The following consignment of animals was sent to Parks Department, Toronto :—

2 Sloth bears.
1 Leopard.
2 Great pied hornbills.
2 Saras cranes.
2 Demoiselle cranes.
2 Common cranes.
4 Bar-headed geese.
4 Brahminy ducks.
4 Comb ducks.
2 Peacock pheasants.

The following were sent to Mr. Alfred Ezra, London :—

3 Saras cranes.

The following were sent to Lahore Zoo :—

3 Cockatoels.

The following were sent to Mr. G. B. Chapman, London :—

6 Cobras.

The work in the Pathological Department was carried on as usual. Thanks are due to the Principal, Bengal Veterinary College, Belgachia, for the ready and generous help rendered by him in every respect. Thanks are also due to the Director, Calcutta School of Tropical Medicine, for his help in several cases.

A *post-mortem* examination was made in the case of a large number of casualties during the year. A list of the more important cases subjected to pathological diagnosis is given below :—

Avian pasteurellosis ..	Sonnerat's jungle fowl.
Congestion of the liver ..	Leopard cub, Tragopan pheasant, Mute swan.
Debility general ..	Brow-antlered deer, Leopard cub, Four-horned antelope, Mute swan, Sloth bears.
Dysentery	Sloth bear.
Distrochea	Persian gazelle.
Fatty degeneration of the liver.	Sandgrouse, Cockateels, Nicobar pigeons, Cotton teal, Bare-eyed cockatoo, Spotted-bill duck.
Gastritis	Sloth bear cub, Leopard cub, Black-striped wallaby.
Gastro-enteritis ..	Leopard cub.
Gastro-enteritis (Verminous)	Leopard cubs.
Hæmorrhagic septicæmia ..	Tahr, Uryal.
Intestinal catarrh ..	Crested currasow, American blue jay.
Injury	Four-horned antelope, Peafowl.
Old age	King parrakeet, Egyptian goose, Mandarin duck.
Pneumonia	Pennant's parrakeet, Hoolocks, Green monkey, Gayal.
Paralysis	Leopard cub.
Septicæmia	Pennant's parrakeet, Vieillot's fireback.
Unadaptability to climate	Monal pheasant. Palcheaded caique, Himalayan snow chakar.

APPENDIX C.

Alexander, Mr. R. D T.	1 Leopard cub.
Ainslie, Mrs. T. O.	2 Red-vented bulbuls, 1 Red cheeked bulbul, 4 Chinese doves, 1 Zebra finch, 1 Pekin robin, 2 Java sparrows.
Avetoom, Mr. C. J.	2 Leopard cubs.
Briant, Mr. L. H.	1 Leopard cub.
Basak, Babu Haridas	1 Hanuman.
Brown, Lt.-Col. E. H., M.D , I.M S. ..	1 Green pigeon.
Bose, Miss Debjani	1 Leopard cub.
Chatterji, Mr. C. S.	1 Hyæna cub.
Colah, Mr. K. S.	1 Leopard cub, 1 Spotted deer.
Chalk, Mr. A. C.	1 Bonnet monkey.
Chowdhury, Mr. S. K.	1 Indian antelope.
Dods, Mr. W. K.	3 White-breasted king-fishers, 5 Cattle egrets, 7 White-breasted waterhens, 5 Indian hares, 2 Brown-winged king-fishers, 11 Bronze-winged jacanas, 81 corn crakes, 26 Indian rollers, 6 Lapwings, 2 Lesser whistling teals, 6 Indian water rails, 17 Ruddy crakes, 2 Crow pheasants, 1 Indian tree-pie, 17 Indian magpie robins, 4 Bengal porcupines, 5 Spotted crakes, 1 Green barbet, 7 Lesser kestrels, 3 Grass owls, 12 common coots, 1 Orange-headed ground thrush, 3 White-tailed sea-eagles, 3 Yellow bitterns, 3 Common otters, 2 Marsh harriers, 3 Jungle bush quails, 2 Cotton teals, 3 kestrels, 2 Sparrow hawks, 16 Brahminy kites, 2 Pheasant-tailed jacanas, 2 Owlets, 1 Bengal fox.
Dassi, Miss Kiran Bala	1 Indian antelope.
Dutt, Mr. M. C.	2 Bengal monitors.
Dale, Captain A. G.	1 Fishing cat.
Das, Master Suranjan	1 Indian antelope.
Ezekiel, Mrs. M. E.	2 Leopard cubs.
Ezra, Mr. Alfred	2 Crown cranes.
Galstaun, Dr. G.	1 Spotted deer, 1 Sloth bear.
Gupta, Mr. J. N., M.B.E., I C.S. ..	1 Spotted deer.
Governor's Estate, Superintendent ..	1 Spotted deer.
Haldar, Mrs. M.	1 Barking deer.
Harper, Mr. V.	2 Arabian gazelles.
Leslie, Master	1 Arabian gazelle.
Lowman, Mr. F. J.	2 Sloth bear cubs.
Law, Dr. S. C.	2 Pintailed ducks, 1 Common partridge.
Lane, Mr. E. C.	1 Large Indian squirrel.
Mullick, Mr. Justice S C., I.C.S. ..	1 Baro-eyed cockatoo.
Mackrell, Mr. G., D.F.O.	1 Small hog-badger.
Mitra, Mr. Anil Kumar	1 Fishing cat.

Mansur Ali Muhammad	1 Cobra.
Macalister, Miss	1 Four-horned antelope.
Mukerjee, Mr. A C.	1 Sloth bear cub.
McVie, Mr A.	3 Red-vented bulbuls, 1 Rhesus monkey.
Nilgiri State (Ruling Chief)	1 Lioness.
Ozah, Babu Manji	1Hanuman.

Talcher, Raja of	1 Leopard, 1 Wild dog.
Trautmann, Mr. O. C.	1 Hanuman.
Voisey, Mr. B. G.	2 Sloth bear cubs.
Zorab, Mr. M.	1 Four-horned antelope.

No. 3905, dated Calcutta, the 2nd August 1928.

From—R. N. REID, ESQ., I.C.S., Secretary to the Government of Bengal, Agriculture and Industries Department,

To—The Honorary Secretary, Zoological Garden, Calcutta.

Minister-in-charge : The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

I am directed to acknowledge receipt of the Report of Honorary Committee for the Management of the Zoological Garden, Calcutta, for the year 1927-28, forwarded with your letter No. 99, dated the 16th June 1928, and to congratulate the Committee of Management and particularly those members who have given personal services in the supervision of the garden on the success of their efforts to make it attractive to the public and to get their support.

2. The thanks of Government are also due to the Corporation of Calcutta for their generous contribution to the funds of the garden and to the ladies and gentlemen referred to in the report who have made donations and presentations of animals to the Garden.

DEPARTMENT OF AGRICULTURE, BENGAL.

First forecast of the cotton crops of Bengal, 1928-29.

NOTE.—On an average of the five years ending 1926-27, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and only to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore. *As the late crop has not yet been sown, this forecast deals only with the "early" crop.*

Character of the season.—Owing to drought the weather was not favourable at the sowing time. Subsequent conditions were helpful for the growth except in Mymensingh where heavy showers affected the prospects. The present condition of the crop is promising on the whole.

Area sown.—The area sown is reported to be 76,998 acres this year, as against 76,752 acres reported in the corresponding forecast of last year.

R. S. FINLOW,
Director of Agriculture, Bengal.

DACCA, *the 1st August 1928.*

CORPORATION OF CALCUTTA.

NOTICE.

It is notified for general information that the Corporation of Calcutta under powers vested in them in this behalf have by a resolution, dated the 11th July 1928, revised the alignment of the portion of Rup Chand Mukherji Lane between premises No. 40, Rup Chand Mukherji Lane and 101, Harish Mukherji Road in Ward No. 22.

A copy of the plan prepared in this behalf may be seen in the office of the Surveyor and Valuer of the Corporation any day during office hours on payment of usual fees.

CALCUTTA, *the 31st July 1928.* J. C. MUKERJEA, *Chief Executive Officer.*

CORPORATION OF CALCUTTA.

NOTICE.

It is notified for general information that the Corporation of Calcutta under powers vested in them in this behalf have by a resolution, dated the 11th June 1928, sanctioned the modification of the alignment of a portion of the 50 feet projected public street between Mominpore Lane and Remount Road in Ward No. 24.

A copy of the plan prepared in this behalf may be seen in the office of the Surveyor and Valuer of the Corporation any day during office hours on payment of usual fees.

CALCUTTA, *the 2nd August 1928.* J. C. MUKERJEA, *Chief Executive Officer.*

CORPORATION OF CALCUTTA.

Bye-election to elect a Councillor of the Calcutta Corporation for the Special Constituency comprising the Bengal Chamber of Commerce.

NOTICE.

In compliance with provisions of section 49 (*4*) (*f*) of Act III (B. C.) of 1923 and rule 15 (*2*) of the rules made by the Local Government under section 30 (*1*, *2*) of the said Act, it is hereby notified that Mr. E. W. Christie has been declared duly elected as a Councillor of the Corporation of Calcutta for the Special Constituency comprising the Bengal Chamber of Commerce.

CALCUTTA, *the 3rd August 1928.* J. C. MUKERJEA, *Chief Executive Officer.*

D. N. SEN GUPTA,
Personal Assistant to the Chief Engineer to the Government of Bengal.

CALCUTTA *the 3rd August 1928.*

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 1st August 1928.

Summary.—During the week the rainfall was generally light to moderate except in parts of North Bengal where it was somewhat heavy. Transplantation of winter paddy seedlings is progressing favourably. Harvesting of autumn paddy and jute is going on in East and North Bengal; in West Bengal the operation has just begun in places. The state and prospects of standing crops are generally fair but for damage to jute crop by insect-pests and excessive rain in some districts. Distress continues to prevail in parts of Bankura, Dinajpur and Malda where the number of persons employed on test relief works is reported as 205, 311 and 20, respectively. The average price of common rice for the province has fallen by about 0·18 per cent. as compared with that of the previous week.

Serial No.	District and subdivision.	Rainfall.	Price of common rice, in seers, per rupee.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
1	24-PARGANAS...	2·79	5½	5½	Weather seasonable. Transplantation of *aman* paddy continues. Jute crop is not thriving well in Sadar due to excessive rainfall. Damage by heavy rainfall and insects is reported from Baraset, Basirhat, Diamond Harbour and Barrackpore. In Barrackpore the damage is estimated at four annas. Harvesting has commenced except in Baraset. Fodder and water are sufficient.
	Diamond Harbour.	6·06	5½	5½	
	Barrackpore ...	2·87	5	5	
	Baraset ...	1·31	5½	5½	
	Basirhat ...	3·68	5½	5½	
2	NADIA ...	1·19	5	5	Weather seasonable. Transplantation of *aman* pady is going on in Ranaghat, Chuadanga and in parts of Meherpur. Prospects of jute are fair and those of other standing crops are fair except in Kushtia. Damage to jute by insect-pests is reported from Sadar and Kushtia. Harvesting has not commenced. *Aus* paddy has been affected in Meherpur for cessation of rains. Stock of rice is insufficient in Sadar and Meherpur. Fodder and water are sufficient.
	Kushtia ...	5·51	5½	5½	
	Meherpur ...	0·72	5¼	5¼	
	Chuadanga ...	1·45	5	5	
	Ranaghat ...	0·88	5	5	
3	MURSHIDABAD	0·67	5¼	5¼	Weather occasionally hot. Prospects of standing crops are good in Jangipur and fair in other subdivisions. Fodder is insufficient in Kandi. Condition and prospects of jute and effects of weather on the crop are fair. Damage done by insect-pests and water is reported from some parts of Sadar subdivision. Harvesting has commenced in parts of Sadar.
	Lalbagh ...	0·93	5	5	
	Jangipur ...	1·50	5¼	5¼	
	Kandi ...	0·81	5	4¾	
4	JESSORE ...	3·12	5	5	Weather cloudy. Prospects of jute and other standing crops are fair. Damage by insect-pests is reported from places. Effects of weather on growth are fair. Harvesting has not commenced. Transplantation of *aman* paddy is going on. Fodder and water are sufficient.
	Jhenidah ...	2·33	6	6	
	Magura ...	0·92	5	5	
	Narail ...	2·73	5½	5½	
	Bongaon ...	1·53	5⅝	5⅝	
5	KHULNA ...	4·00	6½	6	Prospects of jute are good. Effects of weather on crops are good. Export of rice is going on slowly. Fodder and water are sufficient. Harvesting of jute has not commenced. There has been no damage to the crop.
	Satkhira ...	2·78	5 13/16	5 11/16	
	Bagerhat ...	3·08	6	6	

Serial No.	District and subdivision.	Rainfall.	Price of common rice, in seers, per rupee.		Character of the weather, condition of crops, etc
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
6	BURDWAN ...	4·02	5	5⅛	Weather hot and cloudy. Transplantation of *aman* paddy is nearly over. Prospects of paddy are good. Fodder and water are not sufficient in Katwa. Rice market is steady. Stock of rice is not sufficient at Katwa.
	Asansol ...	3·34	5¼	5¼	
	Katwa ...	3·45	5⅛	5⅛	
	Kalna ...	0·91	5	5⅛	
7	BIRBHUM ...	1·46	6	6	Transplantation of paddy seedlings continues. Condition of sugarcane is not good. No test work remained open. Water sufficient but fodder insufficient in Rampurhat.
	Rampurhat ...	0·75	5	5	
8	BANKURA ...	2·76	5⅛	5⅛	Weather dull and showery. Transplantation of paddy is finished; weeding has commenced. Fodder and water are sufficient: 205 labourers were employed on 31st ultimo on 12 test-relief works.
	Vishnupur ...	1·31	6	6	
9	MIDNAPORE ...	0·73	6 1/16	6¼	Weather seasonable. Prospects of jute are unfavourable. Cattle-disease is reported from Jirapara. Fodder and water are sufficient.
	Contai ...	2·09	6½	(*n*)	
	Tamluk ...	5·59	6	6	
	Ghatal ...	3·52	5⅛	5⅛	
	Jhargram ...	1·50	5½	5⅛	
10	HOOGHLY ...	5·64	5¼	5¼	Weather cloudy. Transplantation of *aman* paddy continues. Prospects of jute are poor for excessive rain. Some damage to jute by insects in Serampore and by floods in Arambagh is reported. Fodder is sufficient.
	Serampore ...	3·96	4¼	4¼	
	Arambagh ...	2·25	5⅛	5⅛	
11	HOWRAH ...	4·90	5¼	5¼	Transplantation of paddy continues. Jute crop on highland is prospering and that on water-logged plots is being harvested.
	Uluberia ...	4·23	5	5	
12	RAJSHAHI (RAMPUR-BOALIA). ...	0·93	5¼	5	The effects of weather on jute are fair. Condition and prospects of *aman* paddy are good and those of jute are fair. Damage to jute by insect-pests and heavy rain is reported from Nator. Harvesting of jute and *aus* paddy is going on. Fodder and water are sufficient.
	Naogaon ...	1·32	5	5	
	Nator ...	Nil	5¼	5¼	
13	DINAJPUR ...	4·74	5	5	Effects of weather on agricultural operations are favourable to the standing jute and other *bhadoi* crops. Preparation of lands for winter paddy and sowing of *aman* paddy are going on briskly. Harvesting of jute and transplantation of *aman* paddy have commenced in some places. Fodder and water are sufficient, except in Balurghat where fodder is insufficient. Number of labourers employed on test-relief works on the 31st August was 311.
	Thakurgaon ...	1·50	5	5	
	Balurghat ...	2·63	5¼	5¼	
14	JALPAIGURI ...	8·17	5	5	Weather favourable. Condition and prospects of jute are good. No damage is reported. Harvesting of jute has not commenced.
	Alipur ...	14·42	4½	5	
15	DARJEELING ...	7·18	4	4	Maize and potatoes are being harvested. *Marwa* and paddy are being transplanted. Condition of jute is fair. Weather effects are not favourable. No damage. No harvesting yet. Fodder and water are sufficient.
	Kurseong ...	12·22	5	5	
	Siliguri ...	11·30	5	(*n*)	
	Kalimpong ...	(*n*)	(*n*)	5	

(*n*) Not reported.

Serial No.	District and subdivision.	Rainfall.	Price of common rice, in seers, per rupee.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
16	RANGPUR ...	6·85	4¼	4¾	Weather seasonable. Prospects of jute are good, except in Gaibandha. No damage is reported. Steeping continues. Fodder and water are sufficient.
	Nilphamari ...	7·03	5	5	
	Kurigram ...	1·93	4½	4½	
	Gaibandha ...	1·88	5	5	
17	BOGRA ...	1·65	5¼	5¼	Condition of jute is not quite satisfactory. The crop has been harvested to the extent of about six annas. Transplantation of *aman* paddy continues.
18	PABNA ...	1·31	5	5	Weather cloudy and rainy. Prospects of crops are fair. Fodder and water are sufficient.
	Sirajganj ...	2·09	4¾	4¾	Condition of jute is good. The effects of weather are favourable. No damage by flood or insects. Harvesting on lowland is finished and that on highland has commenced.
19	MALDA ...	2·24	5¼	5¼	Weather seasonable. Transplantation of winter rice continues. Cattle-disease is reported from Nawabganj thana. Fodder and water are sufficient. Condition and prospects of jute are not good. Damage has been done by heavy rain. Harvesting has commenced. Number of men employed on test-relief works was 20 on the 30th July.
20	COOCH BEHAR	10·96	5⅞	5⅞	Weather seasonable. Cutting, steeping and washing of jute continue. Prospects of jute and other standing crops are fair; weather is favourable. Damage by insect-pests is reported from Mathabhanga. Fodder and water are sufficient.
21	DACCA ...	0·40	5¼	5¼	Weather seasonable. Rainfall at North Sadar (Kapasia) 1·50. Harvesting of jute in low-lands is almost over. Prospects of standing crops appear to be good in lowland but bad in highland on account of the sudden fall of water. Fodder and water are sufficiently available. The market of rice is steady.
	Manikganj ...	1·45	5	5	
	Narayanganj ...	1·71	5⅝	5⅝	
	Munshiganj ...	3·08	5¼	5¼	
22	MYMENSINGH	2·03	4½	4½	Weather seasonable. Prospects of jute crop are fair. No damage. Harvesting continues.
	Jamalpur ...	3·76	4½	4½	
	Tangail ...	2·56	4¾	4¾	
	Netrakona ...	3·39	4⅞	4⅞	
	Kishorganj ...	1·76	6 1⅜	5 1⅜

			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
23	FARIDPUR ...	1·47	4¾	4¾	Harvesting of jute and paddy continues. Damage to jute is being caused by insect-pests in places. State and prospects of standing crops are fair. Fodder is sufficient. Cattle-disease is reported from Muksudpur thana in Gopalganj subdivision.
	Goalundo (Rajbari).	1·31	5	5	
	Madaripur ...	1·93	5½	5½	
	Gopalganj (*a*) ...	1·90	5½	5½	
24	BAKARGANJ (BARISAL).	3·09	4¾	4¾	Weather squally and partially cloudy. Prospects of crops are good. Condition of jute is fair. Effects of weather are unfavourable to its growth owing to continuous rainfall. Harvesting is in progress in lowland areas. Fodder and water are sufficient.
	Pirojpur ...	6·10	4¾	4¾	
	Patuakhali ...	2·80	5⅝	5½	
	Dakshin Shabazpur (Bhola).	1·74	5⅛	5½	
25	CHITTAGONG ...	7·98	6 6½*	6 6½*	Transplantation of *aus* crops is nearly completed and that of *aman* paddy is in progress. Prospects are fair. Fodder and water are sufficient. *Panga* salt sells at 15 seers per rupee at Sadar and 12 seers per rupee at Cox's Bazar. Cattle-disease is reported from Teknaf.
	Cox's Bazar ...	1·22	5	5	
26	TIPPERA (COMILLA).	4·53	5 11/16	5 11/16	Weather favourable. Prospects of jute and other standing crops are good. Harvesting of jute is in progress.
	Brahmanbaria	1·55	5⅛	5⅛	
	Chandpur ...	2·92	6½	6	
27	NOAKHALI ...	3·80	5	5	Weather favourable. Condition and prospects of standing jute are fair. Harvesting of jute continues. Cattle-disease is reported from the islands.
	Feni ...	4·35	5½	5½	
28	CHITTAGONG HILL TRACTS.	3·92	5	5	Weather seasonable.
29	TRIPURA STATE	1·08	5¾	5¾	Whether seasonable. Harvesting of *aus* paddy and transplantation of winter paddy are going on. Fodder and water are sufficient. Cattle-disease is reported from Dharmanagar and Sabroom divisions. Cutting of jute plants has commenced. Prospects of the crop are not good. Weather effects are unfavourable for the growth owing to insufficient rain.

(*a*) Not reported. * Burma rice.

(*a*) The rainfall at Haridaspur, which is very near to Gopalganj, is not shown here.

PART I.

Orders and Notifications by the Governor of Bengal, the Government of Bengal, the High Court, Government Treasury, etc.

ORDERS BY HIS EXCELLENCY THE GOVERNOR OF BENGAL.

No. 8752A.—The 9th August 1928.—In modification of the orders of the 30th July 1928, His Excellency the Governor of Bengal has been pleased to appoint Lieutenant A. D. Crabbe, Scots Guards, to officiate as an Aide-de-Camp on his personal staff, with effect from the 24th July 1928, during the absence, on leave, of Lieutenant J. A. Gascoigne, or until further orders.

No. 8803A.—The 11th August 1928.—Under the provisions of section 93 of the Government of India Act, His Excellency the Governor is pleased to accept the resignation tendered by Lieutenant-Colonel Walter Valentine Coppinger, D.S.O., M.D., F.R.C.S.I. (Dub.), I.M.S., of his office of member of the Bengal Legislative Council.

No. 8806A.—The 11th August 1928.—In exercise of the powers conferred by rule 26(*2*) of the Bengal Electoral Rules, His Excellency the Governor is pleased to nominate Mr. Bernard Edward John Burge, I.C.S., an official, to be a member of the Bengal Legislative Council.

No. 8810A.—The 11th August 1928.—In exercise of the power conferred on him under clause (*b*) of sub-section (*2*) of section 72A of the Government of India Act, His Excellency the Governor hereby nominates Babu Pranendra Narayan Chaudhuri to be a member of the Bengal Legislative Council for a period of one month for the purposes of the Bengal Tenancy Act Amendment Bill.

W. S. HOPKYNS,
Chief Secretary to the Government of Bengal (offg.).

ORDERS BY THE GOVERNMENT OF BENGAL.

No. 8954A.

W. S. HOPKYNS,
Chief Secretary to the Government of Bengal (offg.).

GOVERNMENT OF BENGAL.

APPOINTMENT DEPARTMENT.

CALCUTTA, THE 11TH AUGUST 1928.

RESOLUTION—No. 8815A.

The rules for the recruitment of the Bengal Civil Service (Executive) and certain other services, as published with notification No. 5325A., dated the 7th June 1928, contemplate that applications of candidates nominated by the heads of colleges and other authorities should be forwarded for scrutiny to a committee specially appointed for the purpose, which will be composed of officials and non-officials in equal numbers and will be presided over by a high officer of Government. The Governor in Council has accordingly been pleased to appoint a Selection Committee with personnel as follows:—

(1) Member, Board of Revenue.
(2) Additional Deputy Secretary to Government, Political and Appointment Departments.
(3) Director of Public Instruction.
(4) Rai Sahib Rebati Mohan Sarkar, M.L.C.
(5) Khan Bahadur Maulvi Ekramul Huq, M.L.C.
(6) Babu Satyendra Chandra Ghose Maulik, M.L.C.

2. The Member of the Board of Revenue will be the President of the Committee and the Director of Public Instruction will act as its Secretary.

ORDER.—Ordered that the resolution be published in the *Calcutta Gazette* for general information.

Ordered also that a copy of the resolution, with a copy of the recruitment rules and the orders issued thereunder, be forwarded to each member of the Committee for information and necessary action.

Ordered also that a copy be forwarded to the Accountant-General, Bengal, and to other officers and departments concerned for information.

By order of the Governor in Council,

W. S. HOPKYNS,

Chief Secretary to the Government of Bengal (offg.).

POLITICAL DEPARTMENT.

NOTIFICATION.

No. 10762P.—The 9th August 1928.—Notification No. 6701P., dated the 5th May 1928, published at page 1060, Part I of the *Calcutta Gazette* of the 17th May 1928, which declared the Jorebangla temple, including one bigha of land described therein adjoining the site of the temple in mauza Raghabpur, in the district of Pabna, to be a protected monument, is hereby confirmed under sub-section (*3*), section 3 of the Ancient Monuments Preservation Act, 1904 (VII of 1904).

Pabna.

W. S. HOPKYNS,

Chief Secretary to the Government of Bengal (offg.).

POLICE DEPARTMENT.

NOTIFICATIONS.

No. 3951Pl.—The 9th August 1928.—In exercise of the power conferred by section 11 of the Indian Motor Vehicles Act, 1914 (VIII of 1914), the Governor in Council is pleased to make the following amendment in the rules regulating the use of motor vehicles in the Bengal Presidency other than in Calcutta (including suburbs) and the municipality of Howrah :—

Darjeeling.

Amendment.

Add at the end of rule 49 (*ii*) in Part V, section 1 of the said rules (additional rules applicable to the Darjeeling district), the following, namely :—

"(19) Ghoom Pahar Road from the Cart Road up to Ghoom Monastery."

No. 4010Pl.—The 13th August 1928.—The following draft of amendments which, in exercise of the power conferred by section 101 of the Bengal Village Self-Government Act, 1919 (Bengal Act V of 1919), the Governor in Council proposes to make in the rules published under notification No. 2197 P. J., dated the 21st May 1920, at pages 1047-54 of Part I of the *Calcutta Gazette*, dated the 26th May 1920, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 25th September 1928, and any objection or suggestion with regard thereto received by the undersigned before that date will be duly considered :—

Draft amendments.

For rule 36 (*b*) in Part VI of the said rules *substitute* the following :—

"36 (*b*) he shall attend once a month at the fortnightly parades at the police station which will be held on days other than those fixed for union board parades under rule 6. This does not affect his liability to attend the thana on other occasions to fulfil any other statutory obligation."

For rule 38 (*g*) in Part VI of the said rules *substitute* the following:—

"38 (*g*) he shall parade at the police station each week and shall also attend the muster parades held at the board's office in accordance with rule 6. He may, however, be required to attend the thana on other days to fulfil any other statutory obligation. He shall there report all cases of misconduct in chaukidars subordinate to him, explain the causes of absence of any chaukidar who is absent and see that all those present are dressed in proper uniform."

W. S. HOPKYNS,
Chief Secretary to the Government of Bengal (offg.).

Orders by the Commissioner of Police, Calcutta.

In exercise of the power conferred on me in rule 63 (*2*) of the Bengal Jail Code, I appoint Mr. H. W. Thomas, M.L.C., to be a non-official visitor of the Presidency Jail, Calcutta, *vice* Mr. T. J. Phelps, who has ceased to be a member of the Bengal Legislative Council.

C. A. TEGART,
CALCUTTA, *the 10th August 1928.* *Commissioner of Police, Calcutta.*

BENGAL BOARD OF CENSORS.

NOTIFICATION.

No. 6C.B.—The 7th August 1928.—It is hereby notified for general information that the Bengal Board of Censors have refused to certify the film "Secrets of Paris"—Vogel Production—length 6,389 feet, as suitable for public exhibition in the Bengal Presidency, on the ground that it depicts cruelty to children and women, gruesome and drunken scenes and the modus operandi of criminals.

F. BARTLEY,
Secretary, Bengal Board of Censors.

JUDICIAL DEPARTMENT.

No. 8955A.

POWERS.

No. 8663A.—The 8th August 1928.—The following notification by the Government of Bengal, Political (Jails) Department, No. 482P.D., dated the 23rd September 1897, published in Part I, page 1231 of the *Calcutta Gazette* of the 29th September 1897, is republished for general information:—

"Under section 8, sub-section (*2*) of the Reformatory Schools Act, VIII of 1897, all Subdivisional Magistrates and Joint Magistrates at the headquarters of districts in Bengal are vested with the power to direct the detention of youthful offenders in a reformatory school under sub-section (*1*) of that section."

W. S. HOPKYNS,
Chief Secretary to the Government of Bengal (offg.).

Fine, Rs. 50.

Minister-in-charge : The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

Howrah.

No. 2051P.H.—The 11th August 1928.—The following draft of by-laws, which have been framed by the Commissioners of the Bally Municipality, in the district of Howrah, under section 350 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), as additions to the by-laws confirmed in notification No. 216P.H., dated the 21st January 1928, and which the Government of Bengal (Ministry of Local Self-Government) propose to confirm under section 351 of the Act, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on the 20th September 1928, and any objection or suggestion received by the undersigned through the District Magistrate before that date will be duly considered :—

Draft by-laws.

10-A. No motor vehicle shall run on any road unless the tyres of the wheels are pneumatic.

Fine, Rs. 50.

10-B. No person shall drive over any road or bridge a vehicle whose weight when unladen exceeds the weight prescribed by the Municipal Commissioners as the maximum weight of a vehicle that may be driven over such road or bridge, or at a speed greater than the maximum speed prescribed by the Municipal Commissioners for such road or bridge.

Fine, Rs. 50.

31-A. No person shall drive a motor vehicle over any road or bridge which has been closed to motor vehicles by order of the Municipal Commissioners with the sanction of the Commissioner of the Division.

Fine, Rs. 50.

Minister-in-charge : The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

No. 1998 T.H.—The 3rd August 1928.—In exercise of the power conferred by section 351 of the Bengal Municipal Act, 1884 (Bengal Act III 1884), the Government of Bengal (Ministry of Local Self-Government) are pleased to confirm the following by-laws, framed by the Commissioners of the Basirhat Municipality, in the district of the 24-Parganas, under section 350 of the said Act :—

24-Parganas.

By-laws.

Definitions.

1. In these by-laws—

(*1*) "Carriage" includes also a motor-car ; and

(*2*) "Cattle" means cattle as defined in section 3 of the Cattle Trespass Act, 1871 (1 of 1871).

Penalties.

2. The penalty for the infringement of any of these by-laws shall be—

(*a*) a fine not exceeding the sum stated at the foot of the by-law,

(*b*) in the case of a second or subsequent conviction for a similar offence, a fine not exceeding the sum (if any) stated in that behalf at the foot of the by-law, and

(*c*) in the case of a continuing offence, a further fine, not exceeding a sum (if any) stated at the foot of the by-law as the daily fine, which daily fine may be imposed for each day after written notice of the offence from the Commissioners.

Regulation of traffic on roads.

3. No owner of any carriage or cart shall allow it to be driven on any road by a driver under fourteen years of age.

Fine, Rs. 10.

4. No driver shall drive or have in his charge on any road more than one carriage or cart, except in the case of two carts, the hinder one of which is securely fastened to the preceding cart.

Fine, Rs. 10.

5. Any person driving a carriage or cart, or riding a bicycle, or driving or riding an animal, or carrying a palanquin, on any road, shall, when, passing any vehicle coming from the opposite direction, keep to his left, and shall, when overtaking any vehicle, keep to his right.

Fine, Rs. 10.

6. No person shall drive any of the undermentioned vehicles or animals, or convey any palanquin, on any road, between half an hour after sunset and half an hour before sunrise, unless lights are provided as follows :—

(*a*) every carriage must carry two conspicuous lights, one on each side ;

(*b*) every cart must carry one conspicuous light ;

(*c*) every elephant, camel, or palanquin must be accompanied by one conspicuous light ;

(*d*) every cycle must carry one conspicuous light in front :

Provided that this by-law shall not apply on nights of full moon or on the four nights before and after full moon, if and when the moon is clearly visible.

Fine, Rs. 50.

7. No person shall drive any motor-car, or ride any motor-cycle or any tricycle or bicycle, on any road, unless it has attached to it a bell, horn or other suitable signal in good order.

Fine, Rs. 50.

8. No person shall drive upon a road any cart laden with iron girders, rails, beams, *bullas*, bamboos, planks or other materials of a similar character which exceed twelve feet in length, unless the cart be accompanied by another person, and be loaded in such a way that no portion of the said materials touches the ground.

Fine, Rs. 10.

9. No person shall drive upon a road any cart laden with bricks, stones or other materials of similar character, unless such materials be so secured that they cannot fall on to the road.

Fine, Rs. 10.

10. No person shall convey on any road bamboos or timber placed on the back of any animal in such a way that any portion of such bamboos or timber touches the ground.

Fine, Rs. 10.

11. No person shall allow any elephant in his charge to go over any bridge on any road, unless the bridge be constructed of arched masonry.

Fine, Rs. 10.

12. No person shall sit or sleep on any road so as to obstruct traffic.

Fine, Rs. 10.

Prevention of obstructions, encroachments and nuisances on or near roads.

13. No person shall abandon, or let loose or negligently allow to get loose, any cattle on or on to any road.

Fine, Rs. 10.

14. No person shall, without the general or special permission of the Commissioners, deposit any articles or things on any road, except for a temporary purpose, or use any road as a place for keeping any carriage, cart or cattle, or for washing any article, or for any other private purpose.

Fine, Rs. 10.

15. No person shall plant a tree on any road without the general or special permission of the Commissioners.

Fine, Rs. 10.

16. No person shall, without the general or special permission of the Commissioners, make any excavation on any road, or enclose any road or any part thereof.

Fine, Rs. 10; daily fine, Rs. 2.

17. No person shall, without the general or special permission of the Commissioners, remove turf or cut grass from any road or the slopes thereof.

Fine, Rs. 10.

18. No person shall affix or cause to be affixed to any building, owned or occupied by him, any gutter, spout or other thing intended for the conveyance and discharge of water, or shall leave in any such building any opening for the discharge of water, in such a way that the water discharged therefrom is thrown or falls upon a road or into any drain in or near a road, except through a down-pipe or other suitable contrivance reaching to the level of the road or drain.

Fine, Rs. 10; daily fine, Rs. 2.

19. No person shall break in horses on any road not set apart for that purpose.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

20. No person shall play any game on any road.

Fine, Rs. 10.

21. No person shall throw or discharge any stone or missile on or near any road.

Fine, Rs. 10.

22. No person shall drive any vehicle across a public drain in or near any road so as to cause damage to such drain.

Fine, Rs. 10.

23. No owner or occupier of land abutting on any road shall fence such land with barbed wire.

Fine, Rs. 10; daily fine, Rs. 2.

24. No person shall—

(*a*) place any burning material in any municipal dust-bin on or near a road, or

(*b*) burn in any such dust-bin any paper, leaves, grass, wood or other material.

Fine, Rs. 10.

25. No person shall convey sewage or offensive matter by any road otherwise than—

(*a*) in a closely-covered receptacle, of such description and pattern as are prescribed from time to time by the Commissioners at a meeting, and

(*b*) between such hours as are so prescribed.

Fine, Rs. 10.

26. No person shall build or cause to be built, or shall keep, after prohibition by the Commissioners, any *tatti*, privy or urinal within ten feet of any road.

Fine, Rs. 10; daily fine, Rs. 2.

27. No person shall, on or within sight of any road, kill or clean the carcass of any cattle.

Fine, Rs. 10.

28. No person shall take or drive any carriage or cart over a road or part of a road which is closed under section 201 of the Bengal Municipal Act, 1884, or displace any barrier or fence erected under that section.

Fine, Rs. 10.

Regulation for the use of, and prevention of nuisances in regard to, public water-supply, bathing and washing places, streams, channels, tank and wells.

29. No person shall, without the general or special permission of the Commissioners set up any obstruction in any *nala* or water-course which is a source of public water-supply.

Explanation.—The spreading of fishing-nets and the placing of fishing-traps in any such *nala* or water-course are included in th word " obstruction," as used in this by-law.

Fine, Rs. 10 ; daily fine, Rs. 2.

30. No person shall ease himself at the side of, or into any river, stream, channel tank or well which is used by the public.

Fine, Rs. 10.

31. Every owner or occupier of any part of the bank of any *nala* or water course which is a source of public water-supply, shall—

(*a*) keep such bank free from filth, dense vegetation and other obstruction, and

(*b*) at all times allow the Commissioners, or any of their servants duly authorised in this behalf, to have access to such *nala* or water-course for any purpose of public conservancy.

Fine, Rs. 10.

32. A person cleaning a channel or tank shall not leave any weeds taken therefrom on the slopes or banks of the channel or tank, but shall remove the same altogether within three days.

Fine, Rs. 10; daily fine, Rs. 2.

33. Any person having possession of, or control over, any water in which there exists any water-hyacinth shall, if so required by a notice signed by the Chairman or Vice-Chairman of the municipality and stating clearly the boundaries of the area to which the notice applies, destroy or remove such water-hyacinth within the period mentioned in such notice.

Fine, Rs. 10 ; daily fine, Rs. 2.

34. The owner of every well, which is a source of public water-supply, shall construct a masonry platform and drains to prevent the surface water falling into the well or stagnating in its vicinity.

Fine, Rs. 10 ; daily fine, Rs. 2.

35. No person shall bathe, or shall wash clothes, utensils or any other article, within a distance of ten feet from the lowest platform of any public well (or of any filtered water stand-pipe which is used by the public).

Fine, Rs. 10.

36. No person shall, without the general or special permission of the Commissioners, steep in any tank or ditch any jute, hemp or other vegetable matter which is likely to render the water offensive or noxious to the neighbourhood.

Fine, Rs. 10 ; on a second or subsequent conviction, Rs. 50.

37. No person shall wash or cause to be washed in any tank or water-course or any other receptacle for water used by the public for drinking or bathing purposes any clothes, bedding or other articles which have been used by a person suffering from any infectious or contagious disease.

Fine, Rs. 50.

38. No person suffering from any infectious or contagious disease shall bathe in any public bathing place.

Fine, Rs. 10.

39. No male person above twelve years of age shall stand on or near, or bathe or wash in, any bathing place which has been reserved by the Commissioners at a meeting for the use of females only.

Fine, Rs. 10.

Disposal of sewage and offensive matter.

40. No person shall deposit night-soil in any place not approved by the Commissioners for the purpose.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

41. No owner or occupier of any garden or agricultural land shall, without the general or special permission of the Commissioners, cause or allow any human excrement to be used for manuring in such garden or land.

Fine, Rs. 50.

42. Every owner or occupier of any house, land or premises, from which sewage or offensive matter is not removed by such owner or occupier, shall give free access to the servants of the municipality for the removal thereof within such hours as may have been fixed by the Commissioners.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

43. Every owner, occupier or farmer of any market shall remove or cause to be removed therefrom, once in every twenty-four hours, any offensive matter which may have accumulated therein during that period.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

Disposal of carcasses.

44. Every owner or occupier within whose premises any animal dies shall, within six hours after its death, or, if the death occurs at night, then within six hours after sunrise, either remove the carcass, at his own expense, to such places as may be set apart by the Commissioners for the disposal of such carcasses, or report the death to the conservancy overseer of the ward within which such premises are situated.

Fine, Rs. 10.

Latrines.

45. No male person above twelve years of age, except the municipal inspecting officers for purposes of inspection at such times as the Commissioners may fix in this behalf, shall enter any public latrine intended for the use of females.

Fine, Rs. 10.

Drains.

46. No person shall deposit, or cause to be deposited, in or on the side of any public drain, any substance or thing which will cause obstruction to such drain.

Fine, Rs. 10.

47. No person shall construct or place over, or by the side of, any public drain, any stall, bridge, platform, building or structure of any kind, except with the general or special permission of the Commissioners and in such manner as they may direct.

Fine, Rs. 10; daily fine, Re. 2.

Cremations and burials, and the disposal of corpses.

48. No person shall convey a corpse or part of a corpse along any road, unless it be decently covered and totally concealed from view.

Fine, Rs. 10.

49. No person, while conveying a corpse, shall, except for the purpose of ordinary relief or for a religious purpose, deposit it on or near any road.

Fine Rs. 10.

50. No person shall, without the general or special permission of the Commissioners, dispose of any corpse otherwise than by burying or burning it.

Fine, Rs. 10.

51. When lines for graves in any burial-place have been marked out by the Commissioners no person shall build or dig, or cause to be built or dug, any grave in such burial-place except in such a line.

Fine, Rs. 50.

52. No person shall, in any burial-ground, bury, or cause to be buried, any corpse in a grave constructed of masonry, unless the top of the coffin, or (if no coffin is used) the corpse, is placed at least five feet below the surface.

Fine, Rs. 50.

53. No person shall, in any burial-ground, bury, or cause to be buried, any corpse in a grave not constructed of masonry, unless the grave is at least five feet deep.

Fine, Rs. 50.

54. No person shall build or dig, or cause to be built or dug, any grave in a burial-ground at a distance of less than three feet from any other existing grave.

Fine, Rs. 50.

55. No grave once used shall be opened for the burial of another corpse without the general or special permission of the Commissioners.

Fine, Rs. 50.

56. Any person burning, or causing to be burnt, any corpse at any burning-ground or burning ghat shall cause the corpse and the clothes and other articles brought with it to be completely reduced to ashes.

Fine, Rs. 50.

57. Any person who conveys, or causes to be conveyed, any corpse to any burning-ground or burning-ghat shall burn the same or cause it to be burnt within six hours after its arrival at such ground or ghat.

Fine, Rs. 50.

Prevention of nuisances affecting the public health, safety or convenience.

58. Every owner or occupier of any land shall, within forty-eight hours after service of a notice in this behalf from the Commissioners,—

(*a*) clear the land of dirt, dung, bones, ashes, sweepings, night-soil and other filth, and all other noxious or offensive matter, and

(*b*) fence the land so as to prevent the commission thereon of nuisances effecting the public health, safety or convenience.

Fine, Rs. 10; daily fine, Rs. 2.

59. Every owner or occupier of a meat, poultry, fish or vegetable shop, or a market bazar or slaughter-house, shall keep the same in a cleanly condition.

Fine, Rs. 10; or a second or subsequent conviction, Rs. 50.

60. No person shall sell fish or expose fish for sale in any part of the municipal market except on the paved floor specially set apart for the purpose.

Fine, Rs. 10.

61. Every baker or confectioner who keeps for sale any bread, sweetmeats or other prepared articles of food, and every vendor or hawker of such articles, shall keep the same in a glass-case or other covered receptacle, so as to exclude flies and dust therefrom.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

62. When a urinal or latrine has been provided for any market, no person shall satisfy a call of nature at any place within the market, except at the urinal or latrine so provided.

Fine, Rs 10.

63. No person shall retain, purchase or sell clothing found on the dead body of a person who has died from small-pox, plague, cholera or any other infectious disease.

Fine, Rs. 50.

64. Every owner or driver of a carriage which has conveyed a person suffering from small-pox, plague, cholera or any other infectious disease, or a corpse, shall, before using the carriage again, disinfect it with such disinfectants as the Commissioners may, from time to time, prescribe.

Fine, Rs. 50.

65. No person shall, without the general or special permission of the Commissioners, picket animals, collect carts or form any encampment on any public ground not set apart for the purpose.

Fine, Rs. 10; on a second or subsequent conviction, Rs. 50.

66. No person shall abandon or let loose, or allow to get loose, any diseased or worn-out cattle.

Fine, Rs. 10.

2. The by-laws which were confirmed with Government order No. 2395M., dated the 21st April 1898, are hereby cancelled.

Minister-in-charge: The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

DEPARTMENT OF AGRICULTURE AND INDUSTRIES.

Orders by the Registrar of Co-operative Societies, Bengal.

No. 20L.—The 6th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Goalgram Gramya Rindan Samity (registered No. 135 of 1914), in the district of Pabna, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint Babu Jnanendra Narayan Mojumdar, M.Sc., B.L., a Director of the Pabna Central Co-operative Bank, Limited, to be liquidator of the said society.

No. 21L.—The 6th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Kamarhat Gramya Dhana Bhandar (registered No. 363 of 1913), in the district of Pabna, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint Babu Jogendra Nath Sarkar, B.L., a Director of the Pabna Central Co-operative Bank, Limited, to be liquidator of the said society.

No. 22L.—The 6th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Tatipara Gramya Rindan Samiti (registered No. 136 of 1916), in the district of Pabna, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint Babu Jogendra Nath Sarkar, B.L., a Director of the Pabna Central Co-operative Bank, Limited, to be liquidator of the said society.

No. 23L.—The 6th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Momrajpur Co-operative Bank (registered No. 38 of 1919), in the district of Pabna, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint Babu Jogendra Nath Sarkar, B.L., a Director of the Pabna Central Co-operative Bank, Limited, to be liquidator of the said society.

No. 24L.—The 6th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Hemrajpur Co-operative Bank (registered No. 122 of 1915), in the district of Pabna, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint Babu Jnanendra Narayan Majumdar, M.Sc., B.L., a Director of the Pabna Central Co-operative Bank, Limited, to be liquidator of the said society.

No. 25L.—The 6th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Bagchidangi Gramya Rindan Samiti (registered No. 175 of 1916), in the district of Pabna, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act I hereby appoint Babu Jogendra Nath Sarkar, B.L., a Director of the Pabna Central Co-operative Bank, Limited, to be liquidator of the said society.

No. 26L.—The 6th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Tebaria Hogolbaria Krishi Bank (registered No. 261 of 1914), in the district of Rajshahi, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint the Auditor of Co-operative Societies, Nator (Rajshahi), to be liquidator of the said society.

No. 27L.—The 6th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Shahapur Co-operative Bank (registered No. 36 of 1919), in the district of Pabna, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint Babu Jogendra Nath Sarkar, B.L., a Director of the Pabna Central Co-operative Bank, Limited, to be liquidator of the said society.

No. 28L.—The 9th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Foyla Samabaya Samiti (registered No. 605 of 1923), in the district of Jessore, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint the Inspector of Co-operative Societies, Jessore, to be liquidator of the said society.

No. 29L.—The 9th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Rashalpur Dharma Bhandar (registered No. 441 of 1913), in the district of Pabna, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint Babu Jnanendra Narayan Mojumdar, M.Sc., B.L., a Director of the Pabna Central Co-operative Bank, Limited, to be liquidator of the said society.

No. 30L.—The 9th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Mandra Uttarpara Joutha Bank (registered No. 160 of 1922), in the district of Murshidabad, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint the Inspector of Co-operative Societies, Kandi, to be liquidator of the said society.

No. 31L.—The 9th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Mandra Dakshinpara Co-operative Bank (registered No. 154 of 1922), in the district of Murshidabad, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint the Inspector of Co-operative Societies, Kandi, to be liquidator of the said society.

No 32L.—The 9th August 1928.—Whereas I am of opinion, as the result of an enquiry held into the constitution, working and financial condition of the Khamardier Co-operative Credit Society (registered No. 14 of 1917), in the district of Murshidabad, under sub-section (*1*) of section 35 of the Co-operative Societies Act, II of 1912, that the society ought to be dissolved.

Now, therefore, in exercise of the power conferred by sub-section (*1*) of section 39 of the same Act, I hereby cancel the registration of the said society.

And further, in exercise of the power conferred by sub-section (*1*) of section 42 of the same Act, I hereby appoint the Inspector of Co-operative Societies, Berhampore, to be liquidator of the said society.

LAND ACQUISITION.

NOTIFICATIONS.

No. 15334L.A.—The 9th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the public expense for a public purpose, viz., for the construction of a well, in the village of Mangalpur, jurisdiction list No. 109, thana Indas, pargana Vishnupur, zilla Bankura, it is hereby notified that for the above purpose a piece of land measuring, more or less, 0·009 of an acre, comprised in part of the settlement plot No. 2216, is likely to be required within the aforesaid village of Mangalpur.

Bankura.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Subdivisional Officer, Vishnupur.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector of Bankura.

No. 15337L.A.—The 9th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the public expense for a public purpose, viz., for the construction of a well in the village of Kochdihi, jurisdiction list No. 74, thana Sonamukhi, pargana Vishnupur, zilla Bankura, it is hereby notified that for the above purpose a piece of land measuring, more or less, 0·009 of an acre, comprised in part of the settlement plot No. 1932, is likely to be required within the aforesaid village of Kochdihi.

Bankura.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Subdivisional Officer, Vishnupur.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector of Bankura.

No. 15343L.A.—The 9th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the public expense for a public purpose, viz., for construction of a well in the village of Nutangram-Radhamohanpur, jurisdiction list No. 37, thana Jaypur, pargana Vishnupur, zilla Bankura, it is hereby notified that for the above purpose a piece of land measuring, more or less, 0·021 of an acre, comprised in part of settlement plot No. 280, is likely to be required within the aforesaid village of Nutangram-Radhamohanpur.

Bankura.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Subdivisional Officer of Vishnupur.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector of Bankura.

No. 15346L.A.—The 9th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the public expense for a public purpose, viz., for the construction of a well in the village of Bhairabpur, jurisdiction list No. 42, thana Radhanagar, pargana Vishnupur, zilla Bankura, it is hereby notified that for the above purpose a piece of land measuring, more or less, 0·03 of an acre, comprised in settlement plot No. 494, is likely to be required within the aforesaid village of Bhairabpur.

Bankura.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Subdivisional Officer, Vishnupur.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector of Bankura.

No. 15457L.A.—The 11th August 1928.—Whereas it appears to the Governor in Council that additional land is likely to be required to be taken by Government at the public expense for a public purpose, viz., for an approach road to level-crossing for the construction of Abdulpur-Nawabganj Railway, in the village of Makranda, pargana Chandlai zilla Rajshahi, it is hereby notified that for the above purpose plots of land of varying widths altogether measuring, more or less, 0·27 of an acre, are likely to be required within the aforesaid village of Makranda.

Rajshahi.

This notification is made, under the provision of section 4 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Special Land Acquisition Officer at Rajshahi.

In exercise of the powers conferred by the aforesaid section the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

In exercise of the powers conferred by section 17 (*4*) of the Land Acquisition Act, I of 1894, as amended by Act XXXVIII of 1923, the Governor in Council is pleased to direct that the provisions of section 5-A of the Act shall not apply in this case.

Burdwan.

No. 15462L.A.—The 11th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the expense of the Mines Board of Health, Asansol, for a public purpose, viz, for the construction of the vaccination office and quarters for the officer of the Asansol Mines Board of Health, at Nandi, in the village of Nandi, pargana Shergarh, zilla Burdwan, it is hereby notified that for the above purpose a piece of land measuring, more or less, 0·062 acre bounded on the—

North, East and South—By the settlement plot No. 1609,

West—By the side lands of the Local Board road,

is likely to be required within the aforesaid village of Nandi.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Special Land Acquisition Officer, Burdwan, as well as in that of the Asansol Mines Board of Health.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector, Burdwan.

Burdwan.

No. 15465L.A.—The 11th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the expense of the Asansol Mines Board of Health for a public purpose, viz., for the construction of quarters and office of the Sanitary Assistant of the Asansol Mines Board of Health at Jemari, in the village of Jemari, pargana Pandra, zilla Burdwan, it is hereby notified that for the above purpose a piece of land measuring, more or less, 0·165 of an acre, bounded on the—

North, East and West—By the settlement plot No. 231,

South—By the settlement plot No. 265,

is likely to be required within the aforesaid village of Jemari.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Special Land Acquisition Officer, Burdwan, as well as in that of the Asansol Mines Board of Health.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector of Burdwan.

Burdwan.

No. 15468L.A.—The 11th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the expense of the Asansol Mines Board of Health for a public purpose, viz., for the construction of the Vaccination office and quarters for the outdoor staff of the Asansol Mines Board of Health at Haripur, in the village of Haripur, pargana Shergarh, zilla Burdwan, it is hereby notified that for the above purpose a piece of land measuring, more or less, 0·124 of an acre, bounded on the—

North, East and West—By the settlement plot No. 864,

South—By the side land of local board road,

is likely to be required within the aforesaid village of Haripur.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Special Land Acquisition Officer, Burdwan, as well as in that of the Asansol Mines Board of Health.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector of Burdwan.

Burdwan.

No. 15474L.A.—The 11th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the expense of the Asansol Mines Board of Health for a public purpose, viz., for the construction of the vaccination office and quarters for the officer of the Asansol Mines Board of Health at Panuria in the village of Panuria, pargana Shergarh, zilla Burdwan, it is hereby notified that for the above purpose a piece of land measuring, more or less, 0·062 of an acre bounded on the—

North, East, South and West—By the settlement plot No. 2168,

is likely to be required within the aforesaid village of Panuria.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Special Land Acquisition Officer, Burdwan, as well as in that of the Asansol Mines Board of Health.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector of Burdwan.

Noakhali.

No. 15477L.A.—The 11th August 1928.—The Governor in Council is pleased to cancel the notification No. 14576L.A., dated the 28th September 1927, under section 4 of the Land Acquisition Act, published at page 2114, Part I of the *Calcutta Gazette* of the 13th October 1927, in respect of the proposed acquisition of 2·567 acres of land, required by the Noakhali District Board for the extension of width of the Begumganj-Dagonbhuiya road on the 17th mile in the villages of Azizpur and Mahadipur, pargana Amrabad, zilla Noakhali.

Dacca.

No. 15480L.A.—The 11th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the expense of the Simulia union board for a public purpose, viz., for a union board road in mauzas Gazibari and Baidgaon to connect the existing union board road from Nallapolla to Kabirpur, pargana Salimpratapsadarpur and Chandpratapkhalsa, zilla Dacca, it is hereby notified that for the above purpose a piece of land comprising parts of the cadastral survey plots Nos. 1559, 280, 281, 278, 273 and 292 measuring, more or less, ·256 of an acre is likely to be required within the villages Gazibari and Baidgaon.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Dacca Collectorate.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorize the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector of Dacca.

Nadia.

No. 15517L.A.—The 13th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the expense of the Nadia District Board for a public purpose, viz., for the Asannagar Charitable Dispensary, in the village of Asannagar, pargana Ukhra, zilla Nadia, it is hereby notified that for the above purpose a piece of land covering cadastral plot Nos. 3005 and 3006 and measuring, more or less, 0·06 of an acre, is likely to be required within the aforesaid village of Asannagar.

This notification is made, under the provisions of section 4 of Act I of 1894, to all whom it may concern.

A plan of the land may be inspected in the office of the Collector of Nadia.

In exercise of the powers conferred by the aforesaid section, the Governor in Council is pleased to authorise the officers for the time being engaged in the undertaking, with their servants and workmen, to enter upon and survey the land and do all other acts required or permitted by that section.

Any person interested in the above land, who has any objection to the acquisition thereof, may, within thirty days after the date on which public notice of the substance of this notification is given in the locality, file an objection in writing before the Collector of Nadia.

Calcutta.

No. 15520L.A.—The 13th August 1928.—Whereas it appears to the Governor in Council that land is likely to be required to be taken by Government at the expense of the Calcutta Improvement Trust for a public purpose, viz., for Scheme No. XXVI (Darpanarain Tagore Street to Pathuriaghatta Street) in Ward No. V of the Calcutta Municipality, it is hereby notified that for the above purpose a piece of land measuring, more or less, 5·5243 acres, bounded on the—

North—By Pathuriaghatta Street,

East—By a passage, premises Nos. 42 to 45, Pathuriaghatta Street, premises No. 9, Pathuriaghatta Bye Lane, Pathuriaghatta Bye Lane, premises No. 6, Pathuriaghatta Bye Lane, the remaining portion of premises No. 10, Singhee Dutt Lane, Singhee Dutt Lane, the remaining portion of premises No. 24, Darpanarain Tagore Street, premises No. 25, Darpanarain Tagore Street,

South—By Darpanarain Tagore Street,

The Governor in Council is pleased to appoint the Deputy Commissioner of Darjeeling to be the Forest Settlement Officer, who will, under the provisions of Chapter II of the Indian Forest Act, enquire into and determine the existence, nature and extent of any rights alleged to exist in favour of any person in or over any land comprised within the boundaries specified above.

The Governor in Council is also pleased, under section 17 of the Indian Forest Act, to appoint the Commissioner of the Rajshahi Division to hear appeals from the decision of the Forest Settlement Officer as above appointed.

Chittagong.

No. 15208For.—The 6th August 1928.—In exercise of the power conferred by section 27 of the Indian Forest Act, 1927 (Act XVI of 1927), the Governor in Council is hereby pleased to declare that the area specified below, which, in notification No. 4002For, dated the 19th December 1903, published at page 1653, Part I of the *Calcutta Gazette* of the 23rd December 1903, was declared to be reserved forest and included in the Chakaria Sundarbans Reserved Forests shall cease to be reserved forest with effect from the date of this notification :—

Specification of the land disforested.

Name of reserve or portion of reserve disforested.	District.	Thana.	Mauza.	Area in acres
Badarkhalighona, Block A	Chittagong ...	Chakaria ...	Badarkhali ...	3,910·40

Description of boundary.

North—By Pora Matamuhari Khal and by Betua Chhari which forms the southern mauza boundary of Paschim Bara Bhaula and falls into the Bura Matamuhari Khal.

East and South—By Bura Matamuhari Khal.

West—By Maiskhal Channel.

Brief description.

It is tidal land subject to periodic inundation consisting of poor quality of jungle of mangrove type. Suitable for paddy cultivation.

No. 15340For.—The 9th August 1928.—Under the provisions of section 20 of the Indian Forest Act, 1927 (Act XVI of 1927), the Governor in Council declares that the land situated in the Sundarbans of the 24-Parganas district, the limits of which are specified below, is reserved forest, with effect from the 16th October 1928. The approximate area is 701,780 acres including waterways (236,740 acres) :—

24-Parganas.

Boundaries.

West—From the midpoint of the mouth of the Matla river in the Bay of Bengal proceeding northwards along the midstream of the Matla river and to the east of the Halliday Island to the junction between the Matla and the Bidya rivers; thence proceeding northwards along the midstream of the Bidya river to its junction with the Gumri khal.

North—Thence north-eastward along the western bank of the said Gumri khal or along the eastern boundary of lot No. 150 and the southern boundary of lot No. 149 to a point due west of the mouth of the Sazna or Pichkhali khal which lies between lot No. 148 and lot No. 151; thence eastward along the northern bank of the said Sazna or Pichkhali khal and the Dattar Pasar khal to the Dattar gang (or Kaphura gang) which lies between lot No. 147 and lot No. 148; thence northward along the western bank of the Kaphura gang (or Rangabalia gang or Sarsa gang) to a point due west of the mouth of the Kornikhali or Bagna khal or Khapura khal which lies between lot No. 141 and lot No. 144; thence due eastward across the Garal gang or Punjali khal to the northern bank of the said Kornikhali khal; thence eastward along the northern bank of the said Kornikhali khal or Bagna khal to the Raimangal river; thence northward along the western bank of the Raimangal river to the mouth of the Punjali gang which lies between lot No. 140 and lot No. 141; thence due eastward across the Raimangal river to the western boundary of lot No. 163, 7th portion (Madhaskati Abad); thence southward and eastward along the northern bank of the Raimangal river, *i.e.*, along the southern boundaries of lot No. 163, 7th portion and 8th portion, and lot No. 162, 1st portion, to the mouth of the Kuriakati or Jhinga khal (or Chingra Dhapa or Koriar khal) which lies between 1st and 4th portions of lot No. 162; thence northward along the western bank of the said Kuriakati or Jhinga khal and along the eastern boundary of lot No. 162, 1st portion, to the mouth of the Karna or Sakunkhali khal (or Chingra Dhapa or Koriar khal) which lies between the 1st and 2nd portions of lot No. 162; thence eastward across the said Karna or Sakunkhali khal and along the northern bank of the Kuriakati or Jhinga khal (Sagunkhali river) and along the southern boundary of lot No. 162, 2nd portion, and along the western and southern boundaries of lot No. 162, 3rd portion, to the western bank of the Kalindi river; thence northward along the western bank of the Kalindi river to a point due west of the Koikhali forest revenue station; thence due east to the eastern boundary of the 24-Parganas district.

East—Thence southward along the eastern boundary of the 24-Parganas district to the Bay of Bengal.

South—Thence along the southern boundary of the 24-Parganas district in the Bay of Bengal to the midpoint of the mouth of the Matla river in the Bay of Bengal.

No rights and privileges are granted in the reserved forests.

No. 15450For.—The 11th August 1928.—In exercise of the powers conferred by section 27 of the Indian Forest Act, 1927 (Act XVI of 1927), the Governor in Council is hereby pleased to declare that the area specified below, which was declared to be reserved forest in notification No. 4960For., dated the 1st December 1893, published in the *Calcutta Gazette*, dated the 6th December 1893, Part I, page 1005, dated the 15th January 1894, shall cease to be part of reserved forest, with effect from the date of notification :—

Chittagong.

Specification of the land disforested.

Name of reserve or portion of reserve disforested.	District	Thana.	Mauza	Area in acres
Nalbania Dheba	Chittagong	Phatikchari	Heakho	10·24

Description of boundary.

North boundary—From the existing reserve forest boundary pillar No. 472 to pillar No. 468 of the Ramgarh Sitakund Reserve.

East boundary—From existing pillar No. 468 along the Dantmara Karerhat road to survey station pillar No. 1 bearing 234° for 673 links.

South boundary—From survey station pillar No. 1 to 2 bearing 304° for 234 links and then

survey station pillar No.			2 to 3	bearing	251° 30″	for 327	links

DENYS BRAY,

Foreign Secretary to the Government of India.

HOME DEPARTMENT.

NOTIFICATIONS.

JUDICIAL.

Simla, the 28th July 1928.

No. F.-928-27.—In pursuance of section 17A of the Indian Divorce Act (IV of 1869), the Governor-General in Council is pleased to appoint each of the officers specified in the first column of the annexed Schedule to exercise, within the jurisdiction of the High Court specified in the corresponding entry of the second column thereof, the like right of showing cause why a decree for dissolution of marriage should not be made absolute or should not be confirmed, as the case may be, as is exerciseable in England by the King's Proctor.

SCHEDULE.

Name of Officer.	Name of High Court.
(1) Crown Prosecutor, Madras	Madras High Court.
(2) Solicitor to the Government of Bombay ...	Bombay High Court.
(3) Superintendent and Remembrancer of Legal Affairs, Bengal	Calcutta High Court.
(4) Government Advocate, United Provinces ...	Allahabad High Court.
(5) Legal Remembrancer, Punjab ...	Lahore High Court.
(6) Government Advocate, Burma ...	Rangoon High Court.
(7) Legal Remembrancer, Bihar and Orissa ...	Patna High Court.

No. F.-928-27-I.—In exercise of the powers conferred by section 17A of the Indian Divorce Act (IV of 1869), the Governor-General in Council is pleased to make the following rules :—

1. These rules may be called the Indian Divorce (Domiciled Parties) Intervention Proceedings Rules, 1928.

2. In these rules, unless there is anything repugnant in the subject or context,—

"Act" means the Indian Divorce Act (IV of 1869);

"Officer" means an officer appointed under section 17A of the Act to exercise the like right of showing cause that a decree for the dissolution of marriage should not be made absolute or should not be confirmed, as the case may be, as is exercisable in England by the King's Proctor.

"Pleader" means any person entitled to appear and plead for another in Court, and includes an advocate, a vakil, and an attorney of a High Court; and "proceedings" means a suit or proceeding under the Act.

3. (1) If any person during the progress of a proceeding or before the decree nisi is made absolute gives information to the officer on any matter material to the due decision of the case, the officer may take such steps as he considers necessary or expedient.

(2) If, in consequence of any such information or otherwise, the officer suspects that any parties to the petition are or have been in collusion for the purpose of obtaining a decree contrary to the justice of the case, he may, after obtaining the leave of the court, intervene and produce evidence to prove the alleged collusion.

4. (1) When the officer desires to show cause against making absolute a decree nisi, he shall enter an appearance in the proceeding in which such decree nisi has been pronounced and shall, within a time to be fixed by the Court, file his plea setting forth the grounds upon which he desires to show cause as aforesaid, and a certified copy of his plea shall be served upon the petitioner or person in whose favour such decree has been pronounced or his pleader. On entering an appearance the officer shall be made a party to the proceedings and shall be entitled to appear in person or by pleader.

(2) Where such plea alleges the petitioner's adultery with any named person, a certified copy of the plea shall be served upon each such person omitting such part thereof as contains an allegation in which the person so served is not named.

(3) All subsequent pleadings and proceedings in respect of such plea shall be filed and carried on in the same manner as in respect of an original petition under the Act, except as hereinafter provided.

(4) If the charges contained in the plea of the officer are not denied or if no answer to the plea of the officer is filed within the time allowed or if an answer is filed and withdrawn or not proceeded with, the officer may apply forthwith for the rescission of the decree nisi and dismissal of the petition.

5. Where the officer intervenes and shows cause against a decree nisi in any proceedings for divorce, the court may make such order as to the payment by other parties to the proceeding of the cost incurred by him in so doing or as to the payment by him of any costs incurred by any of the said parties by reason of his so doing, as may seem just.

The 30th July 1928.

No. F.-621-28.—In pursuance of rule 14 of the Indian (Non-Domiciled Parties. Divorce Rules, 1927, the Governor-General in Council is pleased to appoint Mr. M. C. Ghosh, I.C.S., Superintendent and Remembrancer of Legal Affairs, Bengal, to exercise under the designation of Proctor within the jurisdiction of the High Court of Judicature at Fort William in Bengal the duties assigned to His Majesty's Proctor by sections 181 and 182 of the Supreme Court of Judicature (Consolidation) Act, 1925.

PUBLIC.

The 1st August 1928.

No. F.-279-28.—The following minute of the Indian Statutory Commission constituting the Auxiliary Committee on the Growth of Education is published for general information :—

The Growth of Education in British India.

The Growth of Education in British India is, by the terms of the Royal Warrant under which the Indian Statutory Commission is constituted, one of the subjects on which the Commission is required to report. The Royal Warrant further empowers the Commission to appoint, with the sanction of the Secretary of State for India, any person, or persons, to make subordinate enquiries and to report the result to the Commission.

With the sanction of the Secretary of State for India the Commission accordingly appoints :—

Sir Philip Hartog, K C.I.E. (Member of the Public Service Commission), Chairman,
Sir Amherst Selby-Bigge, Bart., K.C B.,
Sir Saiyid Sultan Ahmad (Vice-Chancellor of Patna University),
Sir George Anderson, C.I.E (Director of Public Instruction, Punjab),
Raja Narendra Nath (Member of the Legislative Council of the Punjab),
Mrs. Muthulakshmi Reddi (Deputy President of the Madras Legislative Council),

to make subordinate enquiries into the growth of education in British India and to report the result to the Commission.

The Committee will be designated "The Auxiliary Committee on the Growth of Education", and it will be convenient to describe the Report it is asked to make as the Auxiliary Committee's "Review of the Growth of Education in British India".

The Commission understands its terms of reference regarding Education as requiring from it, not a general survey of the whole field of Education in all its branches and aspects throughout British India, but a Review within moderate compass, limited by the general scope and purpose of the broad enquiry with which the Commission is charged. The Commissioners therefore regard themselves as primarily concerned with Education and its organisation in British India in relation to political and constitutional conditions and potentialities of progress.

It is in this sense therefore that the Commission desires the reference to the Auxiliary Committee on the Growth of Education to be interpreted. Subject to this, the Committee will be free to pursue its enquiries and to draw up its Review in whatever way seems best to it.

It is the Commission's intention, without excluding such general evidence as it may receive on the question in the ordinary course of its enquiry, to set apart a portion of the time available during its next visit to India for the special consideration of that part of its terms of reference which deals with the Growth of Education in British India, and it will desire to have the Review of the Auxiliary Committee before it in good time for this purpose. After the Committee's Review has been received, and the Commission has had sufficient time to digest its contents, it is hoped that there may be an opportunity for the Commission to discuss the contents of the document, probably in some place in Northern India, with the members of the Auxiliary Committee or some of them. In view of the great importance of the subject, the Commission desires to give the Auxiliary Committee the longest time possible for its work, but on the other hand it is important that the discussion between the Commission and the Committee on the Committee's Review should take place before the Commission's tour of enquiry has progressed too far. For these reasons it is desired that the Auxiliary Committee's Review should be in the hands of the Commission not later than 15th December 1928. The Review will be treated as confidential* in the first instance, but it is contemplated that it will at a later stage form part of the documents published as an Appendix to the Commission's Report.

* It will of course be made available to Committees of Indian Legislatures collaborating with the Commission.

J. A. SHILLIDY,

Joint Secretary to the Government of India (offg.).

ESTABLISHMENTS.

Simla, the 31st July 1928.

No. F.-48-28.—The following resolution made by the Secretary of State for India in Council amending the Regulations for the probation in the United Kingdom of selected candidates for the Indian Civil Service, published with the Home Department notifications Nos. F.-416-27 Ests, dated the 24th October 1927, and F.-433-27 Ests, dated the 20th July 1928, is published for general information :—

RESOLUTION.

In exercise of the powers conferred by section 97 (*i*) of the Government of India Act, the Secretary of State for India in Council, after consultation with the Civil Service Commission, hereby makes the following amendment in the regulations for the probation in the United Kingdom and the further examination of selected candidates for the Indian Civil Service which were made by him under the said section on 2nd January 1925, as subsequently amended, namely :—

In clause (3) and clause (6) of the said Regulations, after the words "Hindu and Mahammadan Law", the following shall be inserted, namely ;—

"or Burmese Buddhist Law and Burmese History".

H. G. HAIG,

Secretary to the Government of India.

ARMY DEPARTMENT.

Simla, the 4th August 1928.

Part A.

APPOINTMENTS.

No. 1074.—The undermentioned gentlemen are appointed to the Army in India Reserve of Officers, subject to His Majesty's approval, with effect from the dates noted against their names and posted as specified :—

Cavalry.

To be Captain.

Ernest Hart O'Doneven, Prince Albert Victor's Own Cavalry (11th, Frontier Force). Dated 7th October 1927, but with seniority in that rank from the 27th September 1926.

* * * * * * * *

Simla, the 4th August 1928.

Part B.

CANTONMENTS.

No. 1085.—In pursuance of clause (*c*) of rule 2 of the Cantonment Land Administration Rules, 1925, the Governor-General in Council is pleased to direct that the following further amendments shall be made in the schedule annexed to the notification of the Government of India in the Army Department, No. 1255, dated the 8th October 1927, namely :—

In the said schedule—

(1) In the first and second columns against item 5 under the heading "Northern Command" for the words "Dera Ismail Khan" the word "Bannu" and for the word "Bannu" the words "Dera Ismail Khan" shall be substituted.

(2) In the second and third columns respectively against the entry relating to Mhow under the heading "Southern Command" the word "Nowgong" and the brackets and words "(Except the Cantonment of Nowgong)" shall be omitted ; and

(3) In the second column against the entry relating to Jhansi under the heading "Eastern Command" the word "Nowgong" shall be inserted.

A. F. L. BRAYNE,

Secretary to the Government of India (offg.).

The Calcutta Gazette

THURSDAY, AUGUST 16, 1928.

PART IB.

Educational Notices.

DEPARTMENT OF INDUSTRIES, BENGAL.

Bengal Tanning Institute.

Note on the careers of the past students.

The Bengal Tanning Institute provides a two-year course of instruction in modern tanning. A demonstration tannery equipped with necessary machinery and a chemical laboratory are attached to the Institute. The training is imparted through practical work and lectures. Manufacture of different varieties of commercial leather from local raw hides and skins is practised at the demonstration tannery, and the chemical analyses required in modern tanning are taught at the laboratory. Course of lectures is delivered on (1) Principles and methods of tanning and (2) Analytical chemistry of leather manufacture.

A previous knowledge of chemistry is helpful in following the course, but those who join the Institute without such knowledge are at first taught elementary chemistry by special lectures and laboratory work.

The training offers a new career to young men, and it is gratifying to note that the opportunities provided have not been neglected. Quite a number of boys have been trained and the after careers of most of them are encouraging.

Thirty-nine students have passed out of the Institute up to date, of whom eight took only one year's training and the rest completed the full course. Eight among the past students have started small tanneries, two of which are known to have been equipped with machinery. Five are doing business on their own in leather goods manufacture, and sixteen were either provided with or have themselves secured services as tanning chemists and tannery assistants. Two are working as assistants in laboratories and one in a distillery. Of the remaining seven, most of whom have passed out very recently, definite information about their activities is not yet known. They have not had sufficient time to stabilise their position, but some are reported to have started small tannery concerns. It will be thus seen that more than 82 per cent. of the trained students of the Institute have been suitably employed.

A. T. WESTON,

Director of Industries, Bengal (offg.).

NOTIFICATION.

Departmental Examination, 1928.

(For First-grade Vernacular Training Schools in Western Bengal.)

The first and second Departmental Examinations of first grade Training schools in the Presidency and Burdwan Divisions will be held on the following days :—

Monday	...	...	3rd	December	1928	...	2 papers.
Tuesday	...	...	4th	„	„	...	2 „
Wednesday	...	...	5th	„	„	...	2 „
Thursday	...	...	6th	„	„	...	2 „
Friday	...	...	7th	„	„	...	2 „
Saturday	...	...	8th	„	„	...	1 paper.

2. The examinations will be held at the first-grade Training schools at Calcutta and Hooghly, and at the Church Missionary Society's Training School at Krishnagar.

3. The following classes of candidates will be eligible for the first Departmental Examination :—

(*i*) Students of the second year class of first-grade Training schools.

(*ii*) *Bona fide* teachers who failed to satisfy the examiners at a previous first Departmental Examination.

(*iii*) *Bona fide* teachers holding second-grade Vernacular Mastership certificates.

(*iv*) *Bona fide* teachers who, having passed either (*a*) the Primary *in situ* examination, or (*b*) a public examination of the Middle Vernacular standard, or (*c*) some higher examination, have also passed the final examination of a *Guru*-training school conducted on a Middle Vernacular basis, and have thereafter served as teachers for at least one year.

(*v*) *Bona fide* teachers who have not passed any of the examinations referred to above as (*a*), (*b*) and (*c*), but have passed the final examinations of a *Guru*-training school conducted on a Middle Vernacular basis, after going through the prescribed term of training as regular students of such schools, and have thereafter worked as teachers for at least three years.

4. The following classes of candidates will be eligible for the second Departmental Examination :—

(*i*) Students of the third year class of first-grade Training schools.

(*ii*) *Bonâ fide* teachers who have passed the first Departmental Examination and have worked as teachers for one year since passing it.

(*iii*) *Bonâ fide* teachers who hold second-grade certificates earned prior to 1902.

5. Teachers holding first-grade or second-grade Vernacular Mastership certificates under the old system prior to 1902 may be examined in any or all of the following groups or subjects of the second or first Departmental Examination, respectively, under the new system :—

(*i*) Elementary Science.

(*ii*) Practical Geometry and Drawing.

(*iii*) The Art of Teaching.

(*iv*) Manual Work and Drill.

(*v*) English—"Direct Method of Teaching English."

6. Candidates who are not students of a Government first-grade Training School are required to send by the 17th September 1928 a written application for admission to the examinations, together with a fee of one rupee, to the head master of the school at which they elect to be examined. Full information will be furnished by the head masters of those schools on application.

7. Complete lists of candidates for examination should be forwarded by head masters of Training schools to the undersigned by the 25th September 1928. The fees received from candidates must be deposited in the local treasury, and the *chalans* sent to this office along with the lists of candidates.

8. The current session of Training schools will end on the 31st December 1927 and the new will begin on the 2nd January 1929.

GANGA CHARAN DAS GUPTA,

Principal, David Hare Training College (off'g.).

CALCUTTA, *the 30th July 1928.*

Rules for Half-yearly Examination in the Art and Practice of Teaching.

MEMORANDUM.

The half-yearly examination in the Art and Practice of Teaching for the teachers of boys' schools teaching through the medium of English, in the Rajshahi Division, will be held at the Jalpaiguri Zilla School, on Monday, the 1st October 1928, and the day following, if necessary. The examination of teachers of vernacular and classical subjects will also be held on that day at the same school.

2. The examination will consist of—

(*a*) A practical examination of class management.
(*b*) A practical test of ability to teach by giving two lessons to a class. The subject and the scope of the lesson will be communicated to each candidate later on.
(*c*) An oral examination in which the candidate will have to answer some questions on the art of teaching, object lessons, class control, organization and discipline.

3. The following books on the art of teaching are recommended :—

(*a*) For teachers of vernacular and classical subjects—

1. Uchcha Siksha Sahachar, by D. N. Neogi.
2. Nimna Siksha Suhrid, by P. Mukherjee.
3. Uchcha Siksha Suhrid, by P. Mukherjee.
4. Bidyalaya Bidhayak Bibidha Bidhan, by A. N. Adhikari.
5. Bhugol Siksha Pranali, by Imdadul Haque.
6. Teachers' Manual, by Macmillan & Co.

(*b*) For Matriculation teachers—

1. D. Salmon's Art of Teaching.
2. Wren's Indian Teacher's Guide.
3. Wren's Direct Method of Teaching English.
4. Yate and Rajagopalchari's Direct Method.
5. Imdadul Haque's Bhugol Siksha Pranali.

(*c*) For Graduates and I. A. passed teachers—

1. The books recommended under (*b*).
2. London's Principles and Practice of Teaching and Class Management.
3. Raymont's Principle of Teaching.
4. Suggestions for the Consideration of Teachers (Board of Education, Whitehall).
5. Talks to Teachers (James).

Intending candidates from high schools, Government, aided and unaided, are directed to send in their applications, through the head masters of the schools in which they are emyloyed, to this office at least a fortnight before the date of examination, and teachers of middle schools, through the Deputy Inspectors, at least three weeks before the date. Every candidate will be required to produce his University or other certificates at the time of examination. A statement containing information on the following points should accompany the applications :—

1. Name.
2. Father's name.
3. Age on the 30th September 1928.
4. Name of the candidate's native district, subdivision and village.
5. The last examination which the candidate passed and the year in which the candidate passed it.
6. Period of service as a teacher.
7. Name of the appointment which the candidate now holds and the date from which he has been holding it.
8. Signature of the candidate.

M. M. BAKSH,
Inspector of Schools, Rajshahi Division (offg.).

JALPAIGURI, *the 4th August 1928.*

EDUCATION DEPARTMENT, BENGAL.

NOTIFICATION.

Subject to the usual conditions of good conduct and satisfactory progress the Fuller Memorial Continuation Scholarship of the value of Rs. 25 a month is awarded to Muhammad Abdul Azim for two years with effect from the 1st June 1928.

2. The scholarship is tenable at the University of Dacca.

H. E. STAPLETON,
Director of Public Instruction, Bengal (offg.).

CALCUTTA, *the 8th August 1928.*

NOTIFICATION.

Test Examination of private candidates for the Matriculation Examination of 1929.

A Test Examination of private candidates will be held in the Senate Hall, Calcutta, from Monday, the 26th November 1928. *Such candidates only as reside in any of the districts of the Presidency Division, including Calcutta, will be admitted to the examination.* The term "private candidates" includes school-masters.

2. Private candidates are those who have not attended any school recognised or unrecognised for at least one year previous to the Matriculation Examination. They should produce proof that they have not attended any school for such period. They should also produce certificates of conduct and progress in studies from the authorities of the last school where they read, and also a certificate from other reliable authorities regarding conduct and progress in studies after leaving school. The transfer certificates granted to them by the authorities of the schools in which they studied last of the Registrar's receipt for the fee paid in the case of those candidates who previously appeared at the Entrance or the Matriculation Examination, must be submitted in original along with the application for permission to appear at the Test Examination. A statement of the antecedents of the candidate should accompany his application. He should state whether he has read in any unrecognised school, and if so, in what school and in what year. A student, who failed to pass the annual examination for promotion to the first class at the end of the year 1927 and then left school, will in no circumstances be allowed to appear at the Test Examination of 1928.

3. *Bona fide* teachers employed in any of the schools in the Presidency Division may be admitted to the examination. They must produce certificates of service and character from their employers or from the Deputy Inspector of Schools of the district concerned.

4. No one shall be admitted to the Matriculation Examination unless he has completed the age of fifteen years on the first day of the month in which the Matriculation Examination is held.

5. Each candidate should submit to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, not later than the 2nd November 1928, his application for admission to the Test Examination, with the following particulars :—

(1) Age, (2) residence, (3) father's name, (4) whether he appeared at any previous Entrance or Matriculation Examination, (5) second language besides English, (6) vernacular language, and (7) which two of the following optional subjects he has taken up :—

(*a*) Additional Mathematics.
(*b*) Additional paper in a classical language.
(*c*) History.
(*d*) Geography.
(*e*) Elementary Mechanics.

6. The admission fee for the examination is Rs. 6 for each candidate. This must be remitted with the application on or before the prescribed date, after which a fine of Rs. 2 will be imposed for each week's delay. **In no circumstances will the admission fee be refunded.**

7. No private student will be admitted to the Test Examination unless he is satisfactorily identified at the examination hall during the examination.

8. Candidates who are sent up by this office must appear at the Calcutta Examination centre.

9. Those who reside at a distance from Calcutta may, as special cases, be permitted to sit at the Test Examination at the nearest Government High English School. They will be supplied with printed question papers from this office to which their answer papers should be sent by the Head Master concerned.

10. The date of the Matriculation Examination in 1929 will be notified hereafter.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the date to be fixed by the University.

12. *Programme of Test Examination*—

Monday, 26th November—

Morning—English Translation—10-30 A.M. to 1 P.M.
Afternoon—English Text and Grammar—1-30 P.M. to 4-30 P.M.

Tuesday, 27th November—

Morning—Compulsory Mathematics—10-30 A.M. to 1 P.M.
Afternoon—Vernacular Language—1-30 P.M. to 4-30 P.M.

Wednesday, 28th November—

Morning—Compulsory Classical Language—10-30 A.M. to 1 P.M.
Afternoon—Additional Classical Language—1-30 P.M. to 4-30 P.M.

Thursday, 29th November—

Morning—History—10-30 A.M. to 1 P.M.
Afternoon—Additional Mathematics—1-30 P.M. to 4-30 P.M.

Friday, 30th November—

Morning—Geography—10-30 A.M. to 1 P.M.
Afternoon—Mechanics—1-30 P.M. to 4-30 P.M.

Intermediate and B. A. Examinations in 1929.

Deputy Inspectors, Sub-Inspectors and *bonâ fide* teachers of English schools in the Presidency Division, who have been employed as such for at least three years preceding the examination, will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Laboratory assistants and demonstrators and librarians of affiliated colleges will be treated as teachers. *Their applications must reach this office on or before the 3rd December 1928.*

1. In accordance with section 9, Chapter XV, of the revised Regulations dealing with the registration of University students, all candidates who intend to appear at any of the ensuing examinations of the University of Calcutta otherwise than as students of affiliated institutions, and who have applied for or have obtained the special permission of the Senate for the purpose, are required to apply to the Registrar of the Calcutta University for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation. A registration fee of Rs. 2 must accompany every application.

2. Candidates for the B. A. Examination must send to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, their F. A., I. A., or I. Sc. certificates, and candidates for the Intermediate Examination their Entrance and Matriculation certificates, together with a letter in original from the Senate of the Calcutta University, permitting them to appear at the examination.

3. Candidates should carefully read the printed form of application and supply all the information required by the University, including the Registrar's receipt in the case of those school-masters who were admitted to a previous examination of the same class.

4. The dates of the Intermediate and B. A. Examinations in 1929 will be notified hereafter.

5. Applications with the countersignature of the undersigned and fees for admission to the above examinations must reach the *office of the Registrar on or before the dates to be fixed by the University*, and must be sent to that office by the candidates direct.

ALFAZUDDIN AHMAD,
Inspector of Schools, Presidency Division (offg.).

40-1A, FREE SCHOOL STREET,
CALCUTTA ;
The 8th August 1928.

ACCOUNTANCY DIPLOMA BOARD, BOMBAY.

It is hereby notified that the Government of Bombay have, on the recommendation of the Accountancy Diploma Board, Bombay, awarded the Government Diploma in Accountancy of the Sydenham College of Commerce and Economics, Bombay, to the undermentioned 10 candidates who have passed the prescribed professional examination and received an adequate practical training in accounts. The candidates will, henceforward, be styled "Government Diplomates in Accountancy" and authorised to affix the letters "G. D. A." to their names :—

181. Mr. Vasantlal Chhaganlal, clerk, G.D.A., of Bombay.
182. ,, Gurdayal Singh, B.Sc., G.D.A., of Calcutta.
183. ,, Ponangi Venkatarao, G.D.A., of Calcutta.
184. ,, Vaidyanatha Kalyana Raman, B.A., G.D.A., of Madras.
185. ,, N. C. Rajam Iyengar, G D.A., of Colombo.
186. ,, Nanubhai Vallabhbhai Desai, B. Com., G.D.A., of Bombay.
187. ,, Sorabji Burjorji Bajan, B. Com., G.D.A., of Bombay.
188. ,, Phirozshaw Ardeshir Davar, G.D.A., of Bombay.
189. ,, K. Thiruvenkatachari, G.D.A., of Madras.
190. ,, Mulkh Raj Khanna, B.Sc., G.D.A., of Lahore.

This Diploma makes the holder thereof eligible for the award of a permanent unrestricted auditor's certificate by the Local Government of the province where the candidate desires to practise.

H. L. KAJI, I.E.S.,
Secretary, Accountancy Diploma Board, Bombay (offg.).

BOMBAY, *the 7th August 1928.*

CHITTAGONG DIVISION.

Rules for the guidance of private candidates for the Matriculation Examination of 1929.

The following rules for the guidance of private candidates for the Matriculation Examination are published for general information.

2. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination. The term "private students" includes *bona-fide* school-masters.

3. Private students must appear at the Test Examination of one of the following institutions on the dates mentioned against it:—

Name of school.	Date of examination.
(1) Comilla Zilla School	3rd, 4th, 5th, 6th and 7th December 1928.
(2) Noakhali R. K. Zilla School	
(3) Chittagong Collegiate School	
(4) Rangamati High English School	

Female candidates are not required to undergo any Test Examination.

Each private student will pay a fee of Rs. 3 to the head of the institution in which he appears for the Test Examination. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some persons known to the headmaster of the institution in which he appears.

4. Application for permission to appear at the Test Examination must be sent in time so as to reach this office not later than the 5th November 1928. The information to be given and the documents to be appended, in original, are the following:—

(*a*) Name of the school in which the candidate last studied.

(*b*) Transfer certificate, in original, granted to the candidate by the headmaster of the school in which he last studied; or

(*c*) In the case of a candidate who previously appeared at the Matriculation Examination, Controller's receipt, in original, for the fee paid.

(*d*) Age of the candidate. No candidate, who will not have completed the age of 15 years on the first day of the Matriculation Examination, will be allowed to appear at it.

(*e*) In the case of school-masters, a certificate of good conduct from the secretary of the school in which he is serving or from the Inspector of the district or subdivision concerned.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline and that he has not read in any school since the last Matriculation Examination.

(*g*) A statement by the candidate giving the following facts:—

(i) Residence.
(ii) Father's name.
(iii) Second language besides English.
(iv) Vernacular language for composition.
(v) Vernacular language from which translation is to be made into English in the first English paper.
(vi) Which of the following subjects he has taken up:—
(1) Additional mathematics.
(2) Additional paper in the classical language.
(3) History.
(4) Geography.
(5) Elementary mechanics.
(vii) The name of the school at the Test Examination of which the candidate wishes to appear must be stated. Candidates of the plains districts will not be allowed to appear at the Test Examination of the Rangamati High English School.

N B.—A student who failed to pass or appear at the annual examination for promotion to class X at the end of the session 1927 and then left the school can, under no circumstances, be allowed to appear at the Test Examination

5. The Inspector on being satisfied will countersign and return the application, which will then be the candidate's passport for admission to the Test Examination.

6. Every candidate must deposit his fee for the Test Examination with the headmaster of the institution in which he intends to appear, at least 15 days before the date of that examination. The headmaster will deposit the amount realized by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates, together with vouchers in support of the charges, on receipt of which the Director of Public Instruction will be moved to sanction the expenditure.

7. The headmasters of the institutions named in paragraph 3 above should direct private students who satisfy the test to appear before them in due time, with their applications for admission to the Matriculation Examination, and to sign them in their

presence. They will then grant the necessary certificates and forward the applications to the Inspector for countersignature, after which they will be sent by the Inspector direct to the candidates.

8. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Controller of Examinations, Calcutta University, by the candidates themselves, together with the countersigned applications.

9. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

10. The Matriculation Examination will be held in March 1929, the exact dates of which will be notified by the University.

11. Applications and fees for admission to the Matriculation Examination must reach the office of the Controller of Examinations on or before the date to be fixed by the University.

ABUL HASHEM KHAN CHOWDHURY,

CHITTAGONG, *the 7th August 1928.* *Inspector of Schools, Chittagong Division (offg.).*

Bengal Council of Medical Registration.

NOTIFICATION No. 1011-13C.

In exercise of the power conferred by clause (*a*) of sub-section (*3*) of section 33 of the Bengal Medical Act, 1914 (Bengal Act VI of 1914), and with the previous sanction of the Governor in Council, the Bengal Council of Medical Registration hereby direct that the following item shall be added after item (*b*) under the heading "Registration Fees" in notification, dated the 23rd August 1915, published in Part I, page 1431 of the *Calcutta Gazette* of the 25th August 1915, as subsequently amended by notification No. 699-M.R., dated the 5th October 1926, published in Part I, page 1556 of the *Calcutta Gazette* of the 14th October 1926 :—

(*c*) For re-entry in the register of the name of a registered practitioner erased under section 16 (*2*)—Rs. 5.

R. M. DAS,

CALCUTTA, *the 10th August 1928.* *Registrar, Bengal Council of Medical Registration.*

ORDERS BY THE GOVERNING BODY OF THE STATE MEDICAL FACULTY OF BENGAL.

NOTICE.

The Governing Body of the State Medical Faculty have directed that the examinations in all subjects of the following candidates for the Final Licentiateship Examination of May last be cancelled for using unfair means in the Examination Hall and that they shall be debarred from appearing at the Final Licentiateship Examination of the Faculty until May 1929 :—

Roll No.	Name.	School.
272	Mukhopadhyay, Jyotishchandra	... Dacca Medical School.
295	Sarma, Praphullachandra	.. Ditto.

R. M. DAS,

CALCUTTA, *the 9th August 1928.* *Secretary, State Medical Faculty of Bengal.*

CALCUTTA UNIVERSITY.

NOTICE.

The next D. P. H. Examination in Part I will commence on the 27th November 1928.

The next D. P. H. Examination in Part II will commence on the 12th December 1928.

Fees and applications for admission to both the Parts of the Examination must reach the office of the Controller of Examinations on or before the 16th October 1928.

By order of the Vice-Chancellor and Syndicate,

SENATE HOUSE, *the 6th August 1928.* N. SEN, *Controller of Examinations.*

CALCUTTA UNIVERSITY.

NOTICE.

IT is hereby notified for general information that the following are the subjects selected for the essays in competition for the Jubilee Research Prizes for 1930 :—

Literary subject.

"Village Reconstruction."

Scientific subject.

"Soil acidity and base exchange in soils."

Two prizes shall ordinarily be awarded every year. Each prize shall consist of a gold medal of the value of Rs. 150 and a sum of Rs. 350 in cash. One prize shall be awarded for research in Arts subject and another for research in Science subject.

The prizes will be open to all persons who have at any time been admitted to a degree of this University.

The theses for the above prizes for 1930 are to be sent privately to the undersigned not later than the 30th June 1930. Every thesis must bear a motto, but not the name of the candidate, and must be accompanied by sealed envelope bearing the same motto outside and containing inside the name and address of the candidate.

Every candidate shall indicate, generally in a preface to his thesis and specially in notes, the sources from which his information is taken, the extent to which he has availed himself of the work of others, and the portions of the thesis which he claims as original, he shall further state whether his research has been conducted independently, under advice, or in co-operation with others and in what respects his investigations appear to him to tend to the advancement of knowledge.

By order of the Vice-Chancellor and Syndicate,

SENATE HOUSE, *the 7th August 1928.* N. SEN, *Controller of Examinations.*

CALCUTTA UNIVERSITY.

NOTICE.

The next M. B. Examinations will be held on the 19th November 1928, and the subsequent days.

Fees and applications for admission to the examinations must reach the office of the Controller of Examinations on or before the 15th October 1928.

By order of the Vice-Chancellor and Syndicate,

SENATE HOUSE, *the 10th August 1928.* N. SEN, *Controller of Examinations.*

CALCUTTA UNIVERSITY.

NOTICE.

A gold medal called the "Beereshur Mitter Medal" for 1929 will be awarded to the author of the best essay in English in any one of the following subjects :—

(1) The Silk Industry in Bengal, 1860-1928.
(2) Jute Cultivation and Industry in Bengal—their history, economic effects and present position.

The competition for the medal is limited to candidates who have at any time been admitted to a degree in this University. Each candidate for the medal is required to send his essay to the undersigned in a sealed cover under a distinguishing motto. The name of the candidate must also be forwarded at the same time in a sealed cover bearing the motto outside.

The essay in competition for the medal must reach the undersigned not later than the 1st of October 1929.

The medal will not be awarded to the author of any essay unless such essay furnishes evidence of research or special investigation or embodies useful suggestions relating to the subject.

The successful candidates will be required to publish his essay.

By order of the Vice-Chancellor and Syndicate,

SENATE HOUSE, *the 11th August 1928.* N. SEN, *Controller of Examinations.*

Orders by the Vice-Chancellor and the Syndicate of the Calcutta University.

I. The undermentioned candidates are declared to have passed the B. E. Examination (Professional Section) held in July 1928 :—

Bengal Engineering College, Sibpur.

FIRST DIVISION.

Bandyopadhyay, Bhupendranath.

SECOND DIVISION.

(In order of merit.)

1 Ray, Ramendrachandra.
2 Saha, Dwijendranath.
3 Niyogi, Prabhatchandra.
4 Chaudhuri, Bhupatinath.
5 Sil, Samareschandra.
6 Nandi, Prabhatkumar.
7 Hajra, Swadeskumar.
8 Sarkar, Hirankumar.
9 Ghosh, Bijalibhushan.
10 Rudra, Jatindranath.
11 Majumdar, Santoshkumar.
12 Niyogi, Jnanendranath.
13 Mukhopadhyay, Puranjan.
14 Bhattacharyya, Kapilprasad.
15 Mukhopadhyay, Praphullaratan.
16 Md. Fazlul Huque.
17 Bandyopadhyay, Rabindranath.
18 Datta, Birendrakanta.
19 Guha, Niranjan.
20 Sengupta, Sudhiranjan.
21 A. F. N. Fazlul Karim.
22 Sen, Phanibhushan.

II. The undermentioned candidates have qualified in the groups noted against their names of the B. E. Examination (non-Professional Section) held in July 1928 :—

Bengal Engineering College, Sibpur.

(In alphabetical order.)

Abdul Karim .. .. .. Mathematics and Science.

Birbhum, the 8th August 1928.

T. C. ROY, Collector.

FORM No. 27.

Advertisement of sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the eastern side of the Dacca-Mymensingh Section of the Eastern Bengal Railway, in the district of Mymensingh, will be put up to sale at 2 o'clock, on Thursday, the 11th October 1928.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free (or subject to an annual assessment of rent which will be subject to revision at the next general settlement of the temporarily-settled estates of the district) to the highest bidders.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it (and a regular conveyance will then be granted to the purchaser).

Consecutive lot number.	Name of district.	Pargana and mauza.	Number of mile on which land situate.	Situated on which side of the railway.	Approximate area of lot in acres and decimals.	Land excluded from sale from each lot.		Commencement and termination of lot.	Boundary of lot.
						Reasons for exclusion.	Acres and decimals.

Single lot ...	*North*—By portion of settlement plots Nos. 1270, 1316, 1260. *East*—By portion of settlement plot No. 1260. *South*—By portion of settlement plots Nos. 1260, 1261, 1262. *West*—By portion of settlement plots Nos 1262, 1270.

Mymensingh, the 9th August 1928. C. W. GURNER, Collector.

Advertisement of sale.

NOTICE is hereby given that the proprietory right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Nadia, will be put up to sale at the Nadia Collectorate, Krishnagar, on the 27th September 1928, corresponding with 11th day of Ashin 1335.

Conditions of sale.

1st.—The estates to be sold to the highest bidders above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estate, and the entire proprietory right of Government in such estates will be transferred to them, subject to revenue fixed for the term of the current settlement and liable to revision at each successive settlement.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force : and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale

Number on the district roll.	Name of estate and pargana.	Approximate area in acres.	Government revenue assessed.	Remarks.
			Rs. A. P.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

Public Service Commission (India).

APPLICATIONS are invited for a post of Assistant Superintendent, Archæological Survey of India, for a period of two years in the first instance on Rs. 350 per mensem during the first year and Rs 400 per mensem during the second.

Candidates must be Indians between 25 and 35 years of age They should possess the qualification of A.R.I B.A., and be well read in English.

Further particulars and application forms may be obtained by persons applying for them to the Secretary, Public service Commission, on or before the 24th August 1928.

J H. WISE, Secretary.

Simla, the 4th August 1928.

SUPPLEMENT.

Official Papers.

Annual Report of the Royal Botanic Gardens and the Gardens in Calcutta and of the Lloyd Botanic Garden, Darjeeling, for 1927-28.

ROYAL BOTANIC GARDENS.

1. **General.**—As the main collections of the gardens consist of trees and shrubs mostly deep-rooted, the shortage in the monsoon rainfall recorded for Bengal passed without any deleterious effect and, had the usual cold weather showers come, the light monsoon might even have been welcomed as a convenient means of keeping the undergrowth in manageable condition. But the June till September shortage, followed by a cold weather during which not a single shower fell and when even morning mists were wanting, gradually brought the garden in January and February to a state such as must have been very rare in its history. Deciduous species seemed to have an earlier than usual leaf-fall while evergreens flagged to an unhealthy degree and many of the lawns became scorched till, all grass having disappeared, they recalled the appearance of the deserts of Upper India. It is indicative of the fertility of the soil and of the rapid transformation that a water supply will effect that, with the advent of rain in March, all hands were again busily engaged at the end of the year under review in keeping the undergrowth down.

Annuals with plants established in the Palm and Orchid Houses and the herbaceous collections generally—the watering of which is a routine feature of garden work—showed no ill effects from the prolonged spell of drought.

The annuals were somewhat late but gave a welcome relief of colour to the garden once they did come into flower and were quite up to the usual standard of past years. A fresh supply of Orchids was obtained from Assam and the Darjeeling District. Apart from some species of Dendrobium, Vanda, Phalaenopsis, Cypripedium and Cattleya, which last and bloom for several years in the plains, fresh supplies of other Orchids require to be continually imported. These fail to survive more than a couple of years in the unnatural conditions they find here, but they make such welcome additions to the Orchid House that their re-importation is always worth while. There was a good display of Orchids at the end of the year, and the house in which they are staged is probably more frequented by the visiting public than any other plant house in the garden. Indeed, many people seem to defer visits until the Orchids come into flower.

The large Palm House was selected for special attention during the year and, while work on it is not yet completed, already it presents a much more pleasing aspect. For some time past it has been so overcrowded that the variety of its collections tended to become obscured in the mass of its vegetation. With the opening out this defect has disappeared. Variety rather than scenic effect should be the key-note of all such houses and this will determine all future additions to it.

The following additions amongst others were made to the Palm House:—

Calamus Lindeni, Stevensonia grandifolia, Actinophloeus Sanderiana, Acanthophoenix crinita and *Deckenia nobilis.*

Species planted out to permanent and requisite geographical position in the garden include *Cestrum diurnum, Averrhoa Carambola* sweet variety, *Terminalia pyrifolia, Terminalia bialata, Acacia pseudoeburnea, Dodonaea viscosa, Michelia fuscata, Grewia occidentalis, Millettia Caffra, Geijera parviflora, Cassia laevigata, Brysonima crassifolia, Brownea macrophylla, Anona Cherimolia and Chorisia insignis.*

Some of these merely represent the replacement of species which had died or been removed, others are new to the garden.

The loss of one of the Conifers—*Juniperus recurva*—during the year calls attention to the need for the replacement of several belonging to this group of plants. Apart from some possible members of the genera Araucaria Agathis and Pinus, the Conifers cannot be said to flourish under garden conditions. They constitute a group which only just tolerates Bengal but to many visitors their unfamiliar habit forms a source of attraction, and the symmetry of their outline makes them an easy and desirable group of plants to fit schemes for the improvement of garden scenery. Attempts are being made to add to the comparatively small list falling under the group.

Attention has been called of late to the value of mahogany grown in the garden, and claims are made that the wood of this tree locally grown surpasses most other mahoganies known to commerce. Enquiries have originated with a view to conserving such supplies as may become available here for Government House purposes at Delhi.

The garden mahoganies, of which there are at least three species, must be the oldest in India. They originated from seed from the West Indies and there can be no doubt that the wood produced is of a very fine class. Doubtless there are many areas in Bengal where the true mahogany could be grown. It would form quite a useful shade tree for country road sides. It will last for well over a hundred years and if at the end of this time its wood can be prized as equal to the best in commerce, there are abundant reasons why it might now be occupying the bare and unutilized road side spaces of this province. In this connection it will be of interest to recall that the East India Company were influenced in their support to the foundation of the garden by the belief that it would prove an institution capable of determining what woods could be grown to purpose in the Indian possessions.

Although it finds its centre of distribution further to the south of the Indian peninsula, the Indian Satinwood, *Chloroxylon Swietenia*, is another tree that reaches considerable dimensions in the garden. It also produces a very fine wood here but its value in comparison with the Satinwood of commerce is not known.

Of the commercial value of the mahogany, *Swietenia macrophylla*, first known to science from this garden, less is known. This is a much quicker growing tree and it seems unlikely that its timber would possess anything like the value of the older species.

The Students' Garden, for which part of the economic ground has been utilized and to which reference was made in last year's report, continues a centre of attraction for all those visitors who take an interest in the botanical side of gardening. It has been begun in such a way as to allow of expansion and, while the number of species is yet limited, there is no reason why it should not develop into an area containing, named and labelled with notes of interest, many of the common plants found in the Bengal plains. With arboreal species already represented in the garden, the object should be to devote this section to herbaceous and shrubby vegetation. For the present, its expansion is limited by the necessity of maintaining an extra labour force to carry water during the dry season.

During the coming year, and now that the Orchid and Palm Houses are in a better condition, special attention will be paid to renewing and adding to the garden labels. While the cast iron label with double ground fixture now utilized for several years is an improvement on the old type in appearance, experience has shown that it fails to withstand the usage it too often becomes subjected to. Many of these labels are broken, and it is feared a reversion to the old type or a modification of it has become necessary. The disadvantage of the old type lies in the repainting of names that its usage entails, but it is less easily damaged than the modern type and considerations of utility determine a reversion to it.

Several major schemes for the improvement of the garden are under the consideration of Government. Administrative approval to the construction of new coolie quarters is anticipated and work on them will then merely await the provision of funds. A site at the back of the economic ground has been chosen for the new blocks and a tube well centrally placed will provide a safe supply of water for the coolies.

The conditions under which the labour in these gardens at present lives have given cause for much anxiety during the recent widespread epidemic of cholera. But for the presence of an energetic medical officer who induced the coolies to submit en masse to inoculation and who, in spite of objection for interference with the water-supply, had the drinking water tank treated, a spread of the epidemic to the garden would almost certainly have taken place. The few cases of cholera that did occur were promptly dealt with, but it cannot be over-emphasised that the present housing arrangements are a continual source of anxiety to those responsible for the health of the garden, and that work on the new housing scheme with its inclusive water-supply should proceed with as little delay as possible.

Reference has so often been made in past reports to the state of the garden roads that it is pleasing to note these also are scheduled for the attention they require. Here again, however, money awaits a favourable vote and while this is so, any improvement on the roads depends on the meagre savings that may be spared from garden funds proper. Nothing short of resoling and surface tarring will now give the roads the condition that modern traffic demands.

2. **Plant and seed exchange.**—Some 39,000 living plants were distributed during the year. As usual, India itself forms the main area for distribution, but small consignments for despatch abroad are always being prepared. Its geographical position in relation to America, to Europe and to West and South Africa, from all of which requests for living plants frequently arrive, makes India a difficult country from which to cater for foreign correspondents, for, no matter what care is taken in packing, the long journeys with no attention en route often prove more than consignments will stand.

About the usual numbers of packets of seeds were distributed and received throughout the year.

3. **Herbarium and Library.**—The appointment of a permanent Curator of the Herbarium has allowed of arrears of work in this Department being overtaken. Routine work in acquisition, identification distribution and loan has proceeded uninterruptedly throughout the year.

Some 1,400 specimens have been distributed, including a fairly large collection of Chittagong district plants to the herbarium of the Royal Botanic Garden, Edinburgh.

Of plants received, some 1,500 have been mounted and placed in their proper positions in the cabinets.

Identifications for the herbarium or for correspondents cover a range of 1,618 specific names, but, as many species were identified in different collections and at different times, the actual number of specimens examined greatly exceeds the sixteen hundred odd.

Some two thousand specimens were loaned out during the year, the largest loan being a collection of mosses for Dr. Bruhl's use in connection with his forthcoming work on the group as it occurs in South Eastern Asia. A good deal of arrear work has been overtaken in the mounting of 5,158 sheets in addition to the usual repairing of specimens already incorporated.

Besides attending to the routine of the Herbarium, the newly appointed Curator has devoted part of his time to a study of the genus Avicennia and to an analysis of the Algal Flora of the Chilka Lake.

Much valuable assistance in the work of the section has been given by Messrs. Narayanaswami and Srinivasan, the former of whom has brought to a stage near completion an examination of the exact geographical distribution of the collections of Wray, Kunstler and Scortechini. When finished, this work will probably be given to the Asiatic Society whose journal already contains the materials for a Flora of the Malay Peninsula to which the information in Mr. Narayanaswami's paper should form a valuable addition.

Mr. Srinivasan, Second Assistant for systematic work, whose appointment to the department of Botanical Survey was effected during the year, was engaged generally in becoming acquainted with the range of his new duties. To gain experience in field work he was on tour towards the end of the year to the Garo Hills from which he has brought back a carefully prepared collection of some 1,000 specimens representing 250-300 species.

Dr. Cowan, who held charge as Officiating Superintendent for the first seven months of the year, completed his work on the Trees of Northern Bengal and his analysis of the Chakaria Sunderbans Flora.

A scheme for the extension of the Herbarium is under consideration and it is essential, if the continuously accumulating collections are to be properly looked after, that the additional building be undertaken at no distant date. Cabinets in excess of what are now housed, cannot be added to the present structure the capacity of which is already limited by its dimensions and lighting arrangements.

Additions to the library have been limited to serials in view of the necessity of conserving funds for the preparation of Signor Martelli's plates of Asiatic Palms. This work will be finished during 1928-29, but library funds are likely to be taxed thereafter in the preparation of plates for Sir David Prain and Mr. Burkill's monograph of the Asiatic Dioscoreas. The orders issued last year restricting the number of plates required by Signor Martelli for the illustration of the palms have been cancelled, and work on them again proceeds in accordance with the author's views of what is necessary. In the absence of special grants for work of this description, library development has to accommodate itself to the double purpose its fund serves.

4. **Publications.**—No purely garden publications apart from seed lists of the Royal Botanic Garden and the Lloyd Botanic Garden were issued during the year. Dr. Cowan's Trees of Northern Bengal is in the press, and reference is elsewhere made to the progress of work on the Asiatic Palms.

Besides garden publications proper, the Flora of the Chakaria Sunderbans, a survey publication by Dr. Cowan, appeared during the year as Volume XI, No. 2 of the Records.

5. **Finance.**—Out of a total budget allotment of Rs. 42,785 for staff and permanent establishment, Rs. 42,593 were spent. Rupees 800 were surrendered to Government from the allotment for clerical establishment and garden staff, but this was practically balanced by an excess expenditure of Rs. 751 under "Pay of Officers—voted." The grant of Rs. 31,000 under "Temporary Establishment" was practically all used up, and, after a surrender of Rs. 5,200 from a grant of Rs. 38,720 under other heads, there was an expenditure of Rs. 32,913 and a saving of Rs. 607. After a total surrender of Rs. 6,000, there remained a small net saving of Rs. 7 on the year's budget. On the revenue side, the sale proceeds of surplus plants amounted to Rs. 494.

6. **Staff.**—The Officiating Superintendent, Dr. J. M. Cowan, held charge till the undersigned returned from leave on the 20th November to resume his former duties. Mr. K. P. Biswas, Curator of the Herbarium, was confirmed in his appointment after a year's probation on the 1st February 1928.

Mr. W. V. North, substantive holder of the post of Curator of the garden, was on long leave till the 19th July 1927 when he resigned his appointment. Mr. Mitra, who filled the leave vacancy, continued acting after Mr. North's resignation and no permanent Curator has yet been appointed. Messrs. Jones and Joneja occupied the posts of Assistant Curator and first Overseer, respectively.

The permanent Head Clerk, Babu Santosh Kumar Mitra, died while on long leave preparatory to retirement, and the officiating clerk Babu A. T. Bannerjee took charge substantively of the post from the 10th August 1927.

In the at times difficult atmosphere of unrest and discontent amongst the labour force, all subordinate members of the staff and the clerical establishment have carried on their duties tactfully and faithfully.

During the year gazetted rank was conferred on all members of the Provincial Gardeners' Service.

CALCUTTA GARDENS.

Work in these gardens was again mainly of a routine character.

The display of cold weather annuals, a feature of gardening calling for more attention in these than at Sibpur, was quite up to the standard of past years. The proximity of a municipal water-supply system renders the attention beds require after planting out less of a drudgery here than it is at the Royal Botanic Garden.

Some variety to the gardens was given by the formation of new flower beds, and the colour schemes seemed to draw the attention and admiration of visitors.

A rearrangement of the North-East part of the Curzon Gardens has been decided on with a view to improving the rather desolate corner at present utilized by the Tramway Company. New plots of trees and shrubs are to be put in and it is hoped to render less obtrusive the unsightly structures that have disfigured this corner of the maidan for some years. While the condition of this corner detracts from the appearance of the Curzon Gardens it is outside the garden area proper, and the improvement is, therefore, not being carried out departmentally.

In the Eden Garden some fifty new shrubs or trees suitable from the horticulturist's point of view were added during the year. A rockery was rebuilt near the Pagoda lake and the lake itself, which has become badly silted up was partially excavated.

Mr. Mitra acted as Curator while Mr. S. N. Basu was Assistant Curator and Mr. Quasem Ali, Overseer, throughout the year. The total allotment for the three Calcutta Gardens was Rs. 23,372 of which Rs. 23,020 were spent. Passes for fishing in the garden tanks realized Rs. 176.

LLOYD BOTANIC GARDEN, DARJEELING.

With a mild winter during which no damage from snow or hail calls for report, and a rainfall better distributed than was the case in the plains, the year may be said to have been favourable for the garden.

A part of the road from the south gate which had sunk in places was relaid and other roads given surface repairs. Extensive repairs were executed to cold frames many of which were renewed and improved by the fixing of iron gauze as a protection against hail. Other improvements involved attention to the garden fencing, the lavatories and the Summer House.

Of seeds and bulbs received for annual plot purposes those from Europe gave good results; the Japanese supply did not do well. Fifty-four young trees and shrubs were planted out in the garden to replace casualties or as species new to the collections.

A list of seeds available from the garden or possible of collection in the district was prepared and issued to correspondents on the distribution list while the catalogue of garden plants is being revised and brought up to date.

Some 7,773 packets of seeds, 2,481 plants seedlings and 45 tubers were distributed, and 247 packets and 77 plants received.

Mr. Leslie, who has held charge throughout the year, continues to maintain the very high standard of work set by his predecessor and that the gardens are attractive and appreciated may be inferred from the large number of visitors—42,021—willing to undertake the climb back that a visit to them entails. A special feature of the Curator's work continues to be the collection of East Himalayan plants and seeds for correspondents in India and abroad, and the writer's thanks are due to Mr. Leslie for the energetic manner in which he has tackled this somewhat specialized duty. Extensive tours for purposes of collection were made and the requirements of botanical and horticultural institutions throughout the world as fully attended to as was possible.

There was a net saving of Rs. 477, mostly effected under purchase of seeds and implements, out of a total budget allotment of Rs. 21,857.

C. C. CALDER,
Superintendent,
Royal Botanic Gardens, Calcutta.

RESOLUTION ON THE SANITARY ARRANGEMENTS IN CONNECTION WITH THE PROPOSED RAILWAY FROM KALUKHALI TO BHATIAPARA WITH A BRANCH LINE FROM MADHUKALI TO KAMARKHALI IN THE FARIDPUR DISTRICT.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

Public Health.

CALCUTTA, THE 6TH AUGUST 1928.

RESOLUTION—No. 2007P.H.

Minister-in-charge : The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

The Government of Bengal (Ministry of Local Self-Government) are pleased to appoint a Committee consisting of the following members to consider what measures will be necessary to safeguard the health and sanitation of the route of the proposed Railway from Kalukhali to Bhatiapara with a branch line from Madhukali to Kamarkhali in the Faridpur district :—

(1) The Director of Public Health, Bengal ... *President.*
(2) The Chief Medical Officer, Eastern Bengal Railway ... ...
(3) The Engineer-in-Chief, Surveys and Construction, Eastern Bengal Railway ... ...
(4) The Superintending Engineer, Southern Circle... *Members.*
(5) The Assistant Director of Public Health, Malaria Research, Bengal ... ...
(6) The District Magistrate, Faridpur ... ...

2. The Committee will investigate the following points and submit their opinion to Government as early as possible :—

(*a*) The general health conditions of the country through which the line travels, particularly as regards malaria.

(*b*) The medical staff that will be required in order to supervise the medical and preventive arrangements for the construction of the line.

(*c*) What hospital accommodation will be necessary.

(*d*) What localities are to be excluded in selecting places for the location of labour camps and what provisions of water-supply should be made for the labour forces.

(*e*) The extent of interference with the natural drainage which might be caused by the railway embankments and suggestion for remedial measures.

(*f*) The influence of borrow pits on malaria in the district and the possibility of any village in the neighbourhood becoming a centre for the spread of any disease and any suggestion as to preventive measures.

By order of the Government of Bengal

(Ministry of Local Self-Government),

J. G. DRUMMOND,

Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Sugarcane Crop of Bengal, 1928-29.

[NOTE.—On an average of the five years ending 1926-27 the area under Sugarcane in Bengal has represented some 7·1 per cent. of the total area under Sugarcane in British India.]

Character of the season.—During the time of planting and early period of growth, the weather was generally unfavourable owing to drought. Subsequently since the month of May, the conditions have been generally favourable although heavy, showers have affected the prospects in Mymensingh and Bakarganj. The present outlook is reported to be promising on the whole.

Area planted.—The total area planted with sugarcane for the Province is reported to be 195,300 acres this year, against 208,800 and 208,900 acres reported in the corresponding and final forecasts of last year.

R. S. FINLOW,

Director of Agriculture, Bengal.

DACCA:

The 6th August 1928.

APPENDIX.

First Forecast of the Sugarcane Crop of Bengal, 1928-29.

District.	Estimated normal area under sugarcane.	Estimated area under sugarcane.		Date by which the planting of the setts generally commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.
		Last year.	This year.		
1	2	3	4	5	6
	Acres.	Acres.	Acres.		
24-Parganas ..	4,600	1,400	1,500	February and March. Normal.	The increase in area is due to rise in price. The weather has been favourable on the whole.
Nadia ..	10,000	7,500	6,700	Middle of January. Normal.	The decrease in area is due to want of rain at planting time. The weather has not been favourable.
Murshidabad ..	3,600	3,400	2,200	By the end of April. Late	The decrease in area is due to want of timely rain. The weather has not been favourable.
Jessore ..	5,200	2,700	2,400	January and February. Normal.	The weather has been fairly favourable.
Khulna ..	500	200	300	Beginning of March. Normal.	The increase in area is due to high price of raw sugar. The weather has been fairly favourable.
Burdwan ..	11,600	15,800	13,000	Normal	The decrease in area is due to scarcity of rains. The weather has been fair.
Birbhum ..	9,800	8,300	7,400	May. Late ..	The decrease in area is due to want of rain at planting time. Subsequently owing to early monsoon in June weather conditions much improved and the effects were favourable.
Bankura ..	3,100	3,000	2,700	April and May. Normal	The decrease in area is due to drought from January to April, which was very injurious, but subsequent good showers have improved the prospects.
Midnapore ..	6,600	4,400	4,000	March. Normal ..	The decrease in area is due partly to floods which visited Contai subdivision last year and partly to drought at sowing time; but subsequently rainfall has been favourable.
Hooghly ..	8,200	2,900	2,800	Sadar and Arambagh. March. Normal. Serampore. End of April. Late.	The weather was unfavourable at planting time, owing to drought, but has been now favourable.
Howrah ..	5,200	3,600	2,400	Middle of March. Normal	The decrease in area is due to low price of gur last year. Owing to want of rain the weather at planting time was not favourable, but has subsequently been favourable.
Rajshahi ..	7,500	4,900	4,000	February. Normal. ..	The weather was not favourable at sowing time, but is now favourable.
Dinajpur ..	29,500	31,500	32,200	March. Normal ..	The weather was not favourable at planting time, but subsequent rainfall has been favourable.
Jalpaiguri ..	6,000	5,000	5,000	January to April. Normal.	The weather has been favourable.
Darjeeling ..	200	300	300	April. Normal ..	The weather has been favourable and its effects fair.
Rangpur ..	11,900	22,000	22,000	Middle of February. Normal.	The weather was favourable at sowing time, but has been unfavourable afterwards.
Bogra ..	6,700	4,100	4,100	January and February. Normal.	The weather has been favourable on the whole.
Pabna ..	5,600	3,800	3,800	By the middle of March. Somewhat late.	The weather was unfavourable at sowing time, owing to drought, but is now favourable.
Malda ..	300	200	200	December to beginning of May. Normal.	The weather was bad at planting time, but has since been fair.
Dacca ..	21,100	20,200	18,500	High land—November. Normal. Low land—February and March. Normal.	The weather was unfavourable at planting time, but has been favourable later on.
Mymensingh ..	11,100	16,300	16,300	April. Normal ..	The wather was favourable but for heavy rain in June, which has retarded the growth.
Faridpur ..	7,400	6,400	6,500	Latter part of January. Normal.	The weather has been favourable.
Bakarganj ..	18,800	29,000	27,000	February and March. A little late.	The decrease in area was due to unfavourable weather at planting time. The weather has been unfavourable. The drought at planting time followed by continual heavy rain is not favourable to growth.
Chittagong ..	5,300	5,800	5,800	February and March ..	The weather has not been favourable.
Tippera ..	6,100	2,900	1,600	Chandpur—January. Normal. Elsewhere. March. Normal.	The large decrease in area is due to continued drought at planting time. The weather has been fair, but its effects not favourable on the growth.
Noakhali ..	800	1,200	1,400	November. Normal ..	The increase in area is due to increase in the price of gur. The weather has been fair.
Chittagong Hill Tracts.	1,000	1,200	1,200	Second week of March. Normal.	The weather has been favourable.
Total Bengal ..	207,700	208,900	195,300		

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 8th August 1928.

Summary.—During the week the rainfall was generally moderate to heavy. Transplantation of winter paddy seedlings is much advanced. Harvesting of autumn paddy and cutting, steeping and washing of jute are progressing favourably. The standing crops are generally doing well but for some damage to jute crop by insect-pests and excessive rain in some districts. Distress continues to prevail in parts of Bankura and Dinajpur where the number of persons employed on test relief works is reported as 377 and 372, respectively. In Malda the relief works have been closed. The average price of common rice for the province has remained practically stationary as compared with that of the previous week.

Serial No.	District and subdivision.	Rainfall.	Price of common rice, in seers, per rupee.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
1	24-PARGANAS...	7·10	5½	5½	Weather seasonable. Transplantation of *aman* paddy continues in Sadar, Basirhat, Diamond Harbour and Baraset. Growth of jute plants is being retarded to some extent in Sadar owing to heavy rainfall. Some damage to the crop is reported from Sadar, Barrackpore, Basirhat and Baraset by heavy rainfall and insect-pests. In Baraset damage is estimated at 30 per cent. Harvesting is going on except in Diamond Harbour. Fodder and water are sufficient.
	Diamond Harbour.	5·96	5½	5½	
	Barrackpore ...	4·86	5	5	
	Baraset ...	6·92	5½	5½	
	Basirhat ...	5·87	5½	5½	
2	NADIA ...	2·91	5	5	Weather seasonable. Prospects of crops are fair except in Kushtia where condition of *bhadoi* crops is not good. Transplantation of *aman* paddy is going on in Chuadanga, Meherpur and Ranaghat. Jute crop is in fair condition except in Kushtia where some damage is apprehended from flood. Harvesting of jute has commenced at Kushtia only. Damage by insect-pests is reported from some places in Sadar. Rice is being imported into Sadar and Meherpur. Fodder and water are sufficient.
	Kushtia ...	9·50	5½	5½	
	Meherpur ...	3·63	5¼	5¼	
	Chuadanga ...	7·91	5	5	
	Ranaghat ...	5·62	5	5	
3	MURSHIDABAD	3·42	5	5¼	Weather seasonable. Prospects of *aman* paddy are good in Jangipur and fair in other subdivisions. Fodder is insufficient in Kandi. Prospects and effects of weather on jute are fair. Some damage by heavy rain, flood and insect-pests is reported. Harvesting has commenced in Jangipur and in parts of Sadar.
	Lalbagh ...	4·24	5	5	
	Jangipur ...	6·97	5¼	5¼	
	Kandi ...	2·28	5¼	5	
4	JESSORE ...	2·85	5	5	Weather fair. Prospects of jute and other standing crops are fair. Damage to some extent by insect-pests is reported. Effects of weather on the growth of jute are favourable. Harvesting has not commenced. Transplantation of *aman* paddy is in progress on a small scale. Fodder and water are sufficient.
	Jhenidah ...	4·82	6	6	
	Magura ...	2·39	5	5	
	Narail ...	3·24	5½	5½	
	Bongaon ...	5·32	5⅛	5⅛	
5	KHULNA ...	3·13	6½	6¼	Effects of weather on crops are good. Prospects of jute are good. No damage is reported. Harvesting has commenced. Fodder and water are sufficient. Export of paddy is going on slowly. Cattle-disease is reported from Satkhira thana.
	Satkhira ...	5·12	5¾	5 13/16	
	Bagerhat ...	3·10	6	6

			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
6	BURDWAN ...	3·92	5	5	Weather cloudy and hot. Prospects of paddy are good. Transplantation is nearly over. Fodder and water are sufficient. Rice market is steady.
	Asansol ...	2·34	5¼	5¼	
	Katwa ...	1·74	5⅜	5⅜	
	Kalna ...	1·06	5	5	
7	BIRBHUM ...	3·31	6	6	Transplantation of paddy seedlings is nearing completion. Condition of sugarcane is not good. There was no relief work during the week. Water sufficient but fodder insufficient in Rampurhat subdivision.
	Rampurhat ...	4·20	5	5	
8	BANKURA ...	2·62	5⅜	5⅜	Weather hot. Fodder and water are sufficient; 377 labourers were employed on 7th instant on thirteen test-relief works. Cattle-disease is reported from Taldangra police-station.
	Vishnupur ...	7·03	6	6	
9	MIDNAPORE ...	3·64	6¼	6 3/16	Weather cloudy and hot. Prospects of jute are unsatisfactory for heavy rain. Fodder is insufficient in the flooded areas in Contai.
	Contai ...	2·90	6¼	6¼	
	Tamluk ...	4·46	6	6	
	Ghatal ...	8·88	5⅜	5⅜	
	Jhargram ...	3·62	5½	5½	
10	HOOGHLY ...	4·55	5¼	5¼	Weather seasonable. Transplantation of *aman* paddy is closing. Prospects of jute are fair. Harvesting has just commenced. Fodder is sufficient.
	Serampore ...	4·86	4¼	4¼	
	Arambagh ...	10·30	5⅜	5⅜	
11	HOWRAH ...	7·86	5¼	5¼	Prospects of jute on highland are good. Harvesting of the crop in water-logged plots and transplantation of paddy continue.
	Uluberia ...	8·21	5	5	
12	RAJSHAHI (RAMPUR-BOALIA). ...	6·51	5¼	5¼	Condition and prospects of jute and *aus* paddy are fair; harvesting is going on. Transplantation of seedlings of *aman* paddy is proceeding. Fodder and water are sufficient.
	Naogaon ...	3·16	5	5	
	Nator ...	4	5¼	5¼	
13	DINAJPUR ...	5·42	5	5	Effects of weather on agricultural operations are favourable. Harvesting of jute has commenced. Transplantation of *aman* paddy is going on. Fodder and water are sufficient, except in Balurghat where fodder is insufficient. Number of labourers employed on test-relief works on the 7th instant was 372.
	Thakurgaon ...	5·07	5	5	
	Balurghat ...	6·00	5¼	5¼	
14	JALPAIGURI ...	10·82	5	5	Weather favourable. Condition and prospects of jute are good. No damage. Harvesting has not commenced.
	Alipur ...	20·30	4	4½	
15	DARJEELING ...	11·74	4	4	Condition of jute is fair. Effects of weather are unfavourable. No damage. Harvesting has not begun. Potatoes and maize are being harvested. *Marwa* and paddy are being transplanted. Fodder and water are sufficient.
	Kurseong ...	4·52	5	5	
	Siliguri ...	15·34	5	5	
	Kalimpong ...	(*n*)	(*n*)	(*n*)	

(*n*) Not reported.

Surgeons. Taken as a whole, the statement possesses a relative value, although the figures for individual districts probably only approximate to the actual.
respective districts as ordered in Government of Bengal, Municipal Department, letter No. 118 San., dated the 8th February 1918.
of India, Education Department, letter No. 93, dated the 26th March 1918.

CHAS. A. BENTLEY, M.B., D.P.H., D.T.M. & H.,

Director of Public Health, Bengal

CORPORATION OF CALCUTTA.

NOTICE.

In compliance with the provisions of section 481 of the Calcutta Municipal Act, 1923, it is hereby notified for general information that the Corporation of Calcutta propose to frame the following by-laws under clause (33) of section 478 of the said Act for the disposal of carcasses :—

By-laws under section 478 (33) of Act III of 1923 for the disposal of carcasses.

(1) The owner or the occupier of any premises in or upon which any animal is found dead, and the person having the charge of any animal which dies in a street or in any premises shall within three hours after the death of the animal, or, if the death occurs at night, within three hours after sunrise either—

(*a*) remove the carcass or cause it to be removed to some depot or place provided or appointed by the Corporation under section 371 for the temporary deposit or final disposal of carcasses, or

(*b*) report the death of the animal or cause the same to be reported to the proper officer of the Corporation with a view to the removal of the carcass.

(2) When any carcass is removed in pursuance of a report under clause (*b*) of by-law (1) above, a fee for the removal at such rate as may be fixed from time to time by the Corporation shall be paid by the owner of the animal, or, if the owner is not known, by the owner or occupier of such premises in or upon which the animal was found dead or by the person in whose charge the animal was at the time of its death.

(3) No person shall remove or cause to be removed the carcass of any animal—

(*a*) otherwise than to a depot or place provided or appointed for the purpose under section 371, or

(*b*) in such a manner as to create a nuisance.

(4) An officer of the Corporation appointed in this behalf shall have the power to enter into any premises to remove any carcass found lying therein if the owner or occupier of such premises fails to report the death of the animal according to clause (*b*) of by-law (1) above.

(5) Fees as provided in by-law (2) above for the removal of carcasses must be paid within three days from the date of demand.

(6) The word "animal" in these by-laws includes an elephant, camel, horse, mule, donkey, horned beast, sheep, pig, or other large animals, except small animal such as cats, rats or small birds.

Penalty clause.—Whoever is guilty of a breach of by-laws (1) and (3) shall be liable to a fine which may extend to Rs. 10 for every such offence.

A printed copy of the above by-laws is open to inspection free of charge and may be purchased on payment of a fee of annas 2 at the Secretary's Office, Central Municipal Office, on any working day between the hours of 11 A.M. and 4 P.M.

Objections, if any, to the above by-laws will be received by the undersigned up to Friday, the 28th September 1928, after which the proposed bye-laws will be further proceeded with.

J. C. MUKERJEA, *Chief Executive Officer.*

POLICE DEPARTMENT.

NOTIFICATION.

No. 4051Pl.—The 16th August 1928.—In exercise of the power conferred by the second proviso to section 3 of the Village Chaukidari Act, 1870 (Bengal Act VI of 1870), the Governor in Council is pleased to direct that in the local areas of tea gardens west of the Teesta, in the district of Jalpaiguri, the number of persons to be appointed to discharge the duties of a panchayat may be reduced to one.

Jalpaiguri.

2. This cancels notification No. 3787 Pl, dated the 26th July 1928, published at page 1605 of Part I of the *Calcutta Gazette*, dated the 2nd August 1928.

W. S. HOPKYNS,

Chief Secretary to the Government of Bengal (*offg.*).

Orders by the Commissioner of Police, Calcutta.

The following draft of a notification, which, with the previous sanction of the Governor in Council, the Commissioner of Police, Calcutta, proposes to issue under sub-section (*1*) of section 62 of the Calcutta Police Act, 1866 (Bengal Act IV of 1866), is hereby published for the information of persons likely to be affected thereby.

The draft will be taken into consideration on or after the 22nd September 1928, and any objection or suggestion which may be received by the undersigned by that date will be duly considered :—

Draft notification.

In exercise of the power conferred by clause (*b*) of section 62 (*1*) of the Calcutta Police Act, 1866 (Bengal Act IV of 1866), the Commissioner of Police, Calcutta, with the previous sanction of the Governor in Council, hereby makes the following rules for the regulation of traffic in Cross Street, Mullick Street (South), Armenian Street, Amratola Street, Amratola Lane and Portuguese Church Street :—

One-way traffic.

1. Cross Street, Mullick Street (South), Armenian Street, Amratola Street, Amratola Lane and Portuguese Church Street—

From 6 A.M. to 6 P.M.

2. Mullick Street (South) and Amratola Street will be open to traffic proceeding north only. No traffic proceeding south will be permitted to enter Mullick Street (South) from Harrison Road, Cross Street or Rupchand Roy Street. Similarly no traffic proceeding south will be allowed to enter Amratola Street from Mullick Street, Armenian Street or Amratola Lane. No bullock cart traffic will be permitted to proceed along Karbala Mohamed Lane in either direction.

3. Cross Street, Armenian Street and Amratola Lane will be open to traffic proceeding east only. No traffic proceeding west will be allowed to enter Cross Street from Kengraputty Lane, Manohar Dass Street, Pogeyaputty Street, Noormal Lohia Lane or Mullick Street (South).

4. No traffic proceeding west will be permitted to enter Armenian Street from Noormal Lohia Lane, Portuguese Church Street, Mullick Street (South), Amratola Street, Ramjidas Jetia Street, Chitpore Road and Gobind Dhar Lane

5. Bullock cart traffic will only be permitted to proceed south along Portuguese Church Street. No bullock cart traffic proceeding north will be permitted to enter Portuguese Church Street from Canning Street and Synagogue Street.

6. No traffic of any description will be permitted to park along Armenian Street from its junction with Portuguese Church Street to the Mosque.

7. Vehicles will only be permitted to park on the near side of the following streets :—

Cross Street, Mullick Street (South), Amratola Street, Amratola Lane and Portuguese Church Street.

8. Fire Brigade vehicles are exempted from the operation of this rule.

C. A. TEGART,
Commissioner of Police, Calcutta.

Minister-in-charge: The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

No. 2746L. S.-G.—The 14th August 1928.—In exercise of the power conferred by clause (*a*) of section 138 of the Local Self-Government Act, 1885 (Bengal Act III of 1885), the Government of Bengal (Ministry of Local Self-Government) are pleased to make the following amendments in the rules published with notification, dated the 15th December 1885, as subsequently amended :—

Amendment.

I. In rule 21 *delete* the note after clause (*2*) and *add* the following at the end of the rule :—

NOTE.—This rule does not apply to union board areas where the franchise is governed by section 9 (*1*) of the Bengal Local Self-Government Act, 1885, as amended by section 2 (*1*) of the Bengal Village Self-Government Act, 1919.

II. At the end of rule 27 *add* the following :—

NOTE.—This rule does not apply to union board areas where the qualifications required of a candidate for election are those stated in section 9 (*2*) of the Bengal Local Self-Government Act, 1885, as amended by section 2 (*1*) of the Bengal Village Self-Government Act, 1919.

III. In rule 34A *for* the words "After the second hour mentioned in the last preceding rule", *substitute* the words "The hours between which the election will be held shall be stated in the notification published under rule 33 and at the end of that time."

Minister-in-charge: The Hon'ble Nawab Musharruf Hossain, Khan Bahadur.

Faridpur. Bakarganj.

J. N. RAY,
Inspector-General of Registration, Bengal.

COMMERCE DEPARTMENT.

NOTIFICATION.

No. 3648Com.—The 16th August 1928.—It is hereby notified for general information that a license described as the "Rangpur Electric License, 1928", as set forth below, has been granted to the Rangpur Electric Supply Association, Limited.

Rangpur.

THE RANGPUR ELECTRIC LICENSE, 1928.

License for the supply of electrical energy granted by the Government of Bengal under the Indian Electricity Act, 1910.

License is hereby granted to the Rangpur Electric Supply Association, Limited, having its registered office at Rangpur, to supply electrical energy inside the area, with the powers and upon the terms and conditions specified below.

Short Title.

1. This license may be cited as "The Rangpur Electric License, 1928".

Interpretation.

2. The several words, terms, the expressions to which by the Indian Electricity Act, 1910, or any statutory modifications thereof, or by the rules thereunder, meanings are assigned, shall have, in this license, the same respective meanings provided that in this license:—

(*a*) "The Act" shall mean the Indian Electricity Act, 1910, and any statutory modifications thereof.

(*b*) The expression "the licensees" shall mean and include the said Rangpur Electric Supply Association, Limited, a Company registered in India under the Indian Companies Act, having its head office at Rangpur and its permitted assigns.

(*c*) The expression "deposited map" shall mean the plan of the area of supply hereinafter specified which has been deposited with Government in pursuance of the rules under the Act, which plan is signed for the purpose of identification by the Secretary to the Government of Bengal in the Commerce Department, and by the applicants the Rangpur Electric Supply Association, Limited.

(*d*) The term "unit" shall mean the quantity of energy equivalent to a current of one thousand amperes flowing under an electromotive force of one volt during one hour.

Security.

3. (*a*) The period within which, under clause 1 (*a*) of the Schedule to the Act, the licensees shall show to the satisfaction of Government that they are in a position fully and efficiently to discharge the duties and obligations imposed on them by the license throughout the area of supply shall be six months from the notification of the grant of this license.

(*b*) The period within which, under clause 1 (*b*) of the Schedule to the Act, the licensees shall deposit or secure such sum as therein mentioned, and the sum so to be deposited or secured shall, unless otherwise ordered by the Government under the clause, be six months after the notification of the grant of the license and Rs. 5,000, respectively.

Area of supply.

4. The area above referred to and within which the supply of energy is authorised by this license (the area of supply under the Act) is the whole of the area with boundaries as follows:—

North—By Circular Road up to the junction of Circular Road and Dr. Ghose's Canal and thence along the north bank of Dr. Ghose's Canal up to the point where the canal turns south, south-east, and from this point in a direction east, south-east, straight to the 259½th mile of the Eastern Bengal Railway;

East—By a line joining the 259½th mile of the Eastern Bengal Railway and junction of Gossain Bari Road and Dumetari Road, thence along Dumetari Road up to the junction of Dumetari Road and Dewantuli lane;

South—By the parganas Darsana and Dharmadas up to the junction of Nesbetgunj Road and Skrine Canal and thence along the Nesbetgunj Road up to the junction of Bhogi Road and Nesbetgunj Road;

West—By Bhogi Road;

the boundaries whereof are delineated on the deposited map by a heavy red line.

Situation of Generating Station.

5. The licensees will erect the generating station within the area covered by the license.

Compulsory works.

6. The works to be executed to the satisfaction of the Government under clause IV of the Schedule to the Act are as stated below :—

(*a*) Laying down suitable and sufficient feeders and distributing mains : executing works for the purpose of supplying electrical energy to lights, fans and small motors not exceeding 3 brake horse power, in the public streets within the municipal boundary of the town of Rangpur of which a list is appended in the Schedule below : erecting the generating station mentioned in clause 5 with all machinery and apparatus necessary for the purpose of giving a continuous and efficient supply and all other works necessary for the commencement of the supply of energy to consumers.

The licensees shall commence to execute the works aforesaid within one year from the commencement of the license and shall complete the same within three years thereof.

(*b*) At the expiration of each successive period of six months from the commencement of this license until the completion of the compulsory works the licensees shall submit to the Secretary to the Government of Bengal in the Commerce Department, reports specifying all steps taken and the progress made in carrying into effect this license.

(*c*) Separate and distinct accounts shall be kept by the licensees shewing in full detail, as required by the Indian Electricity Act and Rules thereunder, the working of the electrical undertaking for which this license is granted.

Nature of Supply.

7. The system of supply shall be as under :—

For transmission—

3,300 volts 3 phase alternating current at a frequency of 50 cycles per second

For distribution—

Either a medium pressure 3 phase alternating current supply at a pressure of 400 volts between the phases and a frequency of 50 cycles per second or a low pressure supply of 220 volts between phase and neutral at a frequency 50 cycles per second.

The limits of rates to be charged in respect of the supply of energy.

8. The rates to be charged by the licensees for energy supplied by them shall not exceed the following maximum :—

(*a*) For domestic purposes :—

I. *Lighting*—

(*i*) Annas eight per unit metered subject to a minimum charge of Rupees five per month per kilowatt of the rated wattage of lamps installed or

(*ii*) Rupee one and annas twelve per 20 watt lamp per month and proportionately for lamps of higher wattage provided that the total number of lamps installed does not exceed six.

II. *Fans*—

Annas seven per unit subject to a minimum charge of Rupees twenty-five per annum per kilowatt of the rated input of the fans installed.

III. *Flat rate for lights and fans combined*—

Annas seven and pies six per unit metered subject to a minimum charge of Rupees fifty per annum per kilowatt of the rated wattage of the lamps and fans installed.

IV. *Heating and cooking*—

Annas four per unit.

V. *Small motors*—

Annas six per unit.

(*b*) *For industrial purposes*—

(*i*) For motors not exceeding four brake horse power—

Annas five per unit of energy metered.

(*ii*) For each installation having motors whose aggregate brake horse power exceeds four but does not exceeds fifteen :—

Annas three and pies six per unit of energy metered *plus* Rupees eight per month per rated brake horse power of all the motors installed.

(*iii*) For each installation having motors in which the aggregate brake horse power exceeds fifteen :—

Annas three per unit of energy metered *plus* Rupees eight per month per rated brake horse power of all the motors installed.

NOTE.—Where the minimum charge specified in clause 8, sub-clause (*a*) I (*i*) or (*a*) II or (*a*) III is levied then no other charge for energy consumed shall be made.

(*c*) In the case of a method of charge approved by the Government in accordance with section 23, sub-sections (*3*) and (*4*) of the Act, the maxima rates shall be such as the Government may fix on approving the matter.

The licensees shall not be bound to maintain a twenty-four hour supply during the months of November, December, January and February until the expiration of three years from the date of the notification of the grant of this license. During this period and these months the supply may be discontinued daily for ten hours, viz., between 7 A.M. to 5 P.M. (local time). On the expiration of the said period of three years a continuous day and night supply shall be maintained throughout the year.

Purchase of the undertaking.

9. (*a*) Option of purchase given by section 7, sub-section (*i*) of the Act shall first be exercisable on the expiration of 50 years from the date of notification of the grant of this license and on the expiration of every subsequent period of 20 years. The percentage to be added on account of compulsory purchase to the value (as determined in accordance with and for the purpose of sub-section (*i*) of section 7 of the Act) of lands, buildings, works, materials and plant of the licensees shall, in accordance with the second proviso of the said sub-section, be 20 per cent.

(*b*) In accordance with clause (*d*) II of sub-section (*2*) of section 3 of the Act, it is hereby declared that the generating station to be used in connection with the undertaking shall form part of the undertaking for the purpose of purchase under section 5 or section 7.

(*c*) During the period of notice prescribed in section 7 (*4*) of the Act, all extensions and outlays of money debitable to the capital account of the licensees shall be subject to the previous approval of the Government.

(*d*) Within five years from the date of the grant of this license, the licensees shall not seek to transfer, assign charge or otherwise deal with or dispose of this license with a view to obtaining monetary or any other consideration in excess of that expended by them in obtaining the license together with any other preliminary expenses incurred thereby. Full particulars setting out in detail the amounts expended and also those expected to be obtained shall be submitted to Government by the licensees when any application is made for the disposal of this license.

Revocation.

10. If the licensees fail to comply with the provisions of any of the clauses or parts of clauses of this license, the license may be revoked.

Variation from the Schedule to the Act.

11. In pursuance of section 3, sub-section (*2*), clause (*f*), of the Act, it is hereby expressly declared that sub-clause (*1*) of clause VI of the Schedule to the Act shall, for the purpose of incorporation in this license, be varied by the addition of "except for the months of November, December, January and February when the supply shall be maintained daily for 14 hours, viz., between 5 P.M. and 7 A.M. (local time) for a period of three years after the commencement of this license", after the expression "continue to supply energy" occurring in sub-clause (*1*) of clause VI of the Schedule to the Act.

Secretary to the Government of Bengal.

MARINE DEPARTMENT.

NOTIFICATION.

No. 72Marine.—The 16th August 1928.—Mr. E. G. Bacon, Acting Branch Pilot, Bengal Pilot Service, is confirmed in the grade of Branch Pilot, with effect from the 16th August 1928.

A. CASSELLS,
Secretary to the Government of Bengal.

PUBLIC WORKS DEPARTMENT.

NOTIFICATION.

No. 30.—The 10th August 1928.—In exercise of the power conferred by section 19 of the Howrah Bridge Act, 1926 (Bengal Act IV of 1926) the Government of Bengal (Ministry of Public Works) is pleased to make the following rules governing the disqualification and duties of the Commissioners of the New Howrah Bridge including the entertainment of their establishment and all matters connected with such establishment, whether of officers or servants and their mode of transacting business and entering into contracts.

Rules.

1. Every person other than the Chairman or Deputy Chairman who, at any time after his election or appointment as a Commissioner, shall be absent from six consecutive meetings without having the permission in that behalf of the Commissioners, or who, having such permission, shall be absent from the meetings for a period exceeding one year;

(*a*) and every such person who at any time after his election or appointment as a Commissioner shall accept or agree to accept any office or place of profit, under this rule, or

(*b*) who shall, save with the sanction of the Local Government, participate or agree to participate in the profits of any work done by order of the Commissioners or be concerned or participate in the profits of any contract entered into with the Commissioners,

shall henceforth cease to be a Commissioner, and his office shall thereon become vacant:

Provided that no Commissioner shall vacate his office by reason only of his being a shareholder in any Company, registered under the provisions of any Act for the registration of joint-stock companies passed by any Indian Legislature or by the Parliament of the United Kingdom, or incorporated by Act of Parliament, Royal Charter or otherwise, with which the Commissioners may enter into any contract, or by reason of his being interested in any loan of money to the Commissioners:

Provided also that no Commissioner shall vacate his office by reason of his being interested in any purchase or lease of land or premises, the sale or lease of which the Commissioners may determine on at a meeting under the provisions of these rules; or of his being interested in any agreement under which facilities may be granted for the landing and shipment of goods in return for stipulated income guaranteed to the Commissioners in consideration of their undertaking to construct or provide such facilities.

2. (*a*) No act or proceeding of the Commissioners shall be invalidated or illegal in consequence only of there being a vacancy in the number of the Commissioners at the time of doing or executing such act or proceeding.

(*b*) All proceedings of the Commissioners, or of any person acting as a Commissioner in the bona fide belief that he was duly elected or appointed, shall, notwithstanding it be afterwards discovered that there was some defect in the election or appointment of the Commissioner or person acting as aforesaid, be as valid as if every such person had been duly elected or appointed to be a Commissioner.

3. The Commissioners may, from time to time, in accordance with a resolution passed at a meeting, appoint Committeees of their number of carrying into effect any part of the provisions of the Act, with such powers, and under such instructions, direction or limitations, as by such resolution shall be defined; and on any such Committee three members shall be a quorum; and the Commissioners in meeting shall have power to alter or discontinue any such Committee.

4. (*1*) The Commissioners shall, from time to time, prepare, and in meeting sanction, a schedule of the staff of officers and servants whom they shall deem it necessary and proper to maintain for the purposes of such rules.

(*2*) Such schedule shall also set forth the amount and nature of the salaries, fees and allowances which the Commissioners in meeting sanction for each such officer or servant:

Provided that artisans, porters and labourers, and sirdars of porters and labourers, shall not be deemed to be officers or servants within the meaning of this rule or of rule 5, except clauses (*g*) and (*h*) thereof, rule 6 or rule 7 of these rules.

4A. The Commissioners may, with the approval of the Local Government,—

(*i*) establish a provident fund for the benefit of their officers and servants appointed in accordance with the provisions of these rules, and compel all or any of such officers and servants to contribute to, and make supplementary contributions to, such provident fund and make payments thereout in accordance with the rules of such fund; and

(*ii*) make payments out of the Howrah Bridge revenues of bonuses, based on the length of service of the officers and servants appointed in accordance with these rules, to such officers and servants or to the widows or dependent children of such of them as may die while still in the service of the Commissioners.

5. (*1*) The Commissioners in meeting shall, from time to time, frame rules—

(*a*) for regulating the grant of leave to the officers and servants of the Commissioners;

(*b*) for authorizing the payment of allowances to the said officers and servants, or to certain of them whilst absent on leave;

(*c*) for determining the remuneration to be paid to the persons appointed to act for any such officers or servants during their absence on leave;

(*d*) for regulating the period and other terms of service of all such officers and servants;

(*e*) for determining the conditions under which such officers and servants or any of them shall, on retirement, receive pensions, gratuities or compassionate allowances, and the amount of such pensions, gratuities or compassionate allowances; and

(*f*) for authorizing the payment of contributions at certain prescribed rates, and, subject to certain prescribed conditions to any provident fund which may, wih their approval, be established by the officers and servants appointed under these rules;

(*g*) for prescribing the rates and the conditions under which contributions may be paid by the Commissioners and their officers and servants to the provident fund which may be established under rule 4A, and for determining the conditions of payments from the fund and the conditions of payments under clause (*ii*) of rule 4A of bonuses based on length of service; and

(*h*) for determining the conditions under which pensions, gratuities or compassionate allowances may be paid to any of such officers or servants injured, or to surviving relatives of any such officers or servants killed, in the execution of their duty.

(*2*) In the event of any question arising as to the right of any officer or servant, or any surviving relative of any officer or servant, to any pension, gratuity or compassionate allowance referred to in rule 5 (*e*) or rule 5 (*h*), or as to the amount thereof, such question shall be determined by the Local Government.

(*3*) No rules made under rules 5 (*a*) to 5 (*e*) (both inclusive) nor under rules 5 (*g*) and 5 (*h*) shall take effect unless and until they have been confirmed by the Local Government.

6. Subject to the provisions of the said rules, and of the schedule for the time being in force, framed by the Commissioners under rule 4, the power of appointing, promoting, suspending, dismissing, fining, reducing or granting leave to the officers and servants of the Commissioners shall be exercised by the Chairman or the Deputy Chairman, in the case of officers and servants whose monthly salary does not exceed two hundred rupees; and in every other case by the Commissioners in meeting.

6A. All fines realised under the last preceding rule shall be disposed or in such manner as the Commissioners may think fit.

7. The power of dispensing with the services of any officer or servant of the Commissioners otherwise than by reason of such officer's or servant's own misconduct, or of permitting any such officer or servant to retire on a pension, gratuity or compassionate allowance or of granting a pension, gratuity or compassionate allowance to any officer or servant injured, or to surviving relatives of any officer or servant killed in the execution of his duty, shall, subject to the provisions of rule 5, be exercised by the Commissioners in meeting.

8. (*1*) Meetings shall be held upon such day and at such hour as the Commissioners shall from time to time determine.

(*2*) At every meeting of the Commissioners five members shall constitute a quorum.

9. The Chairman, or, in his absence, the Deputy Chairman may, whenever he thinks fit, and shall upon request made in writing by three Commissioners or two members of any Howrah Bridge Committee, call a special meeting of the said Commissioners or Committee, as the case may be.

10. (*1*) The Chairman and the Deputy Chairman shall attend all meetings of the Commissioners held under these rules unless prevented by sickness or other reasonable cause; and the Chairman, or, in his absence, the Deputy Chairman shall preside at every such meeting.

(*2*) In the absence of both the Chairman and the Deputy Chairman, the Commissioners present at any meeting may choose one of their number to preside.

11. The President of any meeting at which a quorum of the Commissioners shall be present may, with the consent of the meeting, adjourn the meeting from time to time and from place to place.

12. (*1*) Minutes of the proceedings of all meetings of the Commissioners under these rules shall be drawn up and fairly entered in a book to be kept for that purpose, and shall be signed by the President after each meeting.

(*2*) The said minutes shall, at all reasonable times, be open at the office of the Commissioners to the inspection of any Commissioner without charge.

13. (*1*) Whenever necessary, the votes of the Commissioners present in meeting shall be taken by the President and the resolution supported by the greater number of votes shall be deemed to be the resolution of the Commissioners at such meeting.

(*2*) The President shall have a second or casting vote in all cases of equality of votes:

Provided that, when votes are taken, any Commissioner present may require that the votes given on each side shall be recorded.

14. A copy of the minutes of every meeting of the Commissioners shall, as soon as conveniently may be, be transmitted to such Secretary of the Local Government as shall, from time to time, be appointed for that purpose, and shall be preserved in the records of the office of such Secretary.

15. All the powers, authorities and duties in and by these rules, conferred or imposed upon the Commissioners, may be exercised and performed by the Chairman or Deputy Chairman save the powers, authorities and duties by these rules, or by any rule, by-law or order made under the provisions of the Howrah Bridge Act, conferred or imposed on, or restricted to, the Commissioners in meeting:

Provided that such powers, authorities and duties shall not be exercised by the Chairman or Deputy Chairman in contravention of any order issued or rule passed by the Commissioners in meeting.

15A. In addition to any powers or duties conferred or imposed on the Deputy Chairman by any other provision of these rules or by any rule, by-law or order made under the Howrah Bridge Act, the Deputy Chairman shall exercise such of the powers and perform such of the duties of the Chairman as the Commissioners in meeting may, subject to the approval of the Local Government, from time to time, direct.

16. The Commissioners, in accordance with a resolution passed at a meeting, may enter into contracts with any body corporate, registered joint-stock company or private person for the execution or supply by them or him of any works, labour, materials, machines, stores or for other matters necessary for carrying into effect the trusts and purposes of the Act.

17. The Commissioners in meeting may sanction works and enter into contracts for their execution;

Provided that no new work, the estimated cost of which exceeds two thousand rupees, shall be commenced until a plan and estimate have been approved by the Commissioners in meeting.

18. Notwithstanding anything contained in rule 17 the Chairman or the Deputy Chairman may direct the execution of any work, the cost of which does not exceed one thousand rupees, and may enter into contracts for the execution of such works.

19. No new work, the estimated cost of which exceeds two lakhs of rupees, shall be commenced by the Commissioners until the plan and estimate thereof have been submitted to, and approved by, the Local Government.

20. The Commissioner may in meeting compound or compromise for, or in respect of, any claim or demand made against them for such sum of money or other compensation as they shall deem sufficient.

21. No officer or servant of the Commissioners shall be in anywise concerned or interested in any contract or work made with or executed for the Commissioners;

and, if any such officer or servant be so concerned or interested, he shall be incapable of afterwards holding or continuing in any office or employment under the Commissioners and shall forfeit and pay the sum of five hundred rupees, which may be recovered by any person with full costs of suits:

Provided that nothing in this rule shall apply to any person by reason only of his being a shareholder in any registered or incorporated company which may enter into any contracts with or execute any works for the Commissioners; or of his being interested as a debenture-holder in any loan contracted by the Commissioners.

AGREEMENT.

Stamp.

Annas twelve.

MEMORANDUM OF AGREEMENT made this sixth day of June one thousand nine hundred and twenty eight BETWEEN TURNER MORRISON & Co. LTD., a Company registered under the Indian Copanies Act, 1882 and having its registered office at 6, Lyons Range, Calcutta and carrying on business at Chittagong and other places (hereinafter called "the Company") of the one Part and THE SECRETARY OF STATE FOR INDIA IN COUNCIL (hereinafter called "the Secretary of State") of the Other Part. WHEREAS for the purpose of the construction of new office buildings, a new metalled road, a passenger-shed, a ticket office, latrine and cooking shed, the Company has applied to the Government of Bengal for the acquisition under the provisions of the Land Acquisition Act, 1894, of the piece or parcel of land containing 2·54 acres or thereabout situate in the village of Goshaildanga in the district of Chittagong and more particularly described in the Schedule hereto and delineated in the plan* hereunto annexed. AND WHEREAS the said Government of Bengal being satisfied by an enquiry held under section 40 of the said Act that the proposed acquisition is needed for the aforesaid purpose and that the said work is likely to prove useful to the public, has consented to acquire on behalf of the Company the piece or parcel of land hereinbefore described. AND WHEREAS the said Government of Bengal has required the Company under the provisions of section 41 of the abovementioned Act to enter into the Agreement with the Secretary of State hereinafter contained. NOW THIS INDENTURE WITNESSETH that it is hereby agreed and declared as follows:—

1. ON demand the Company shall and will pay to the said Government of Bengal all and every compensation in respect of the said land tendered, paid or awarded or to be tendered, paid or awarded by the Collector under the Land Acquisition Act, 1894, or by the Court to which a reference under part III of the said Act may be made, or by the Court or Courts to which an appeal from the award of the said Court may be preferred and all costs charges and expenses of the proceedings in the aforesaid Courts, or otherwise incidental to the proposed acquisition or payable in respect thereof under the provisions of the said Act.

2. ON demand made by the said Collector the obligations of the Company under the last preceding clause not being thereby limited, the Company shall and will deposit with the said Collector such sum or sums of money as in his discretion the said Collector may in anticipation estimate to be necessary for the purposes mentioned in the last preceding clause.

3. ON payment by the Company of all demands under the foregoing first clause, or, in the discretion of the said Government of Bengal (on deposit by the company of all estimated amounts as provided in the second clause), but not before possession shall have been taken under the provisions of the abovementioned Act the Secretary of State shall make over possession of the said land to the company and shall execute and do all such acts and deeds as may be necessary and proper for effectually vesting the same in the company.

4. THE said land shall be held by the company for the purposes of erecting such buildings and road and providing improved facilities as is hereinbefore mentioned and without the sanction in writing of the said Government of Bengal first had and obtained for no other purpose whatsoever.

5. THE said buildings, road and improved facilities shall be completed within five years from the date on which possession of the said land shall have been given to the company.

6. SHOULD the said buildings, road and improvements not be completed within the period stated in the last preceding clause or within such further period as in its discretion may be prescribed or allowed by the said Government of Bengal or should the said land at any time thereafter cease for a period of twelve consecutive months, to be held and used or cease to be required for the purpose or purposes provided for in the foregoing

* Not printed herewith but may be inspected in the office of the Collector of Chittagong.

fourth clause then and in any such case, the said Government may summarily re-enter upon and take possession of the said land together with all buildings thereon, whereon, whether such buildings were erected before or after transfer of the land to the Company, and thereupon the interest of the Company in the said land and buildings shall absolutely cease and determine.

7. ON taking such possession the said Government may sell or otherwise deal with the said land and buildings as it may think proper.

(*i*) SHOULD the said Government sell the land with the buildings the said Government after deducting the expenses incurred in connection with the said taking of possession and with such sale shall pay the proceeds to the Company.

(*ii*) SHOULD the said Government decide not to sell the land and buildings, the said Government shall retain the said land and buildings thereon in which case the Secretary of State shall repay to the Company the market value as on the day of re-entry of all the buildings erected by the Company and all sums received from the company in respect of all and every compensation as provided in the foregoing first clause (less the statutory allowance of 15 per cent. and less any amount received on account of trees and buildings which are not in existence at the time of resumption, but will not repay any sums paid and received on account of costs, charges and expenses.

(*iii*) SHOULD the said Government decide to sell the buildings only, upon such sale, the Secretary of State after deducting the expenses of taking possession and selling, pay the balance of the proceeds of sale to the Company, together with the sum received from the Company in respect of the compensation for the land, (less the statutory allowance of 15 per cent. and less any amount received from the Company on account of trees and buildings which are not in existence at the time of resumption), but will not repay any sum paid and received on account of costs, charges and expenses.

8. SUBJECT to the regulations of the Company the public shall be entitled to use the buildings and the road as passengers by the ships of the Company or for business connected with the Company.

9. SHOULD any dispute or difference arise touching or concerning the subject matter of this agreement or any covenant clause or thing herein contained the same shall be referred to the said Government of Bengal and the opinion and decision of the said Government upon such dispute or difference shall be final and conclusive and binding on the parties hereto.

IN WITNESS whereof Messrs. Turner Morrison & Co., Ltd. has caused its Common Seal to be affixed and the Secretary of State for India in Council hath hereunto set his hand and seal the day and year first above written.

W. H. NELSON,

Secretary to the Government of Bengal (offg.).

FORESTS.

NOTIFICATIONS.

No. 15665 For.—The 17th August 1928.—Under the provisions of section 4 of the Indian Forest Act, 1927 (Act XVI of 1927), the Governor in Council declares that it is proposed to constitute as reserved forests the lands in taluk Sibkata, subdivision Alipur, district Jalpaiguri, and lying between the existing boundary of the Buxa reserved forests and a demarcated line as described below. The approximate area is 9·44 acres which comprise four plots of lands A, B, C and D :—

Jalpaiguri.

Description of boundaries.

North—Buxa forest reserve.

East—A demarcated line from pillars Nos. 25 to 26, being eastern boundary of plot A ; then a demarcated boundary line from pillars Nos. 29 to 30 being eastern boundary of plot B ; then a demarcated line from pillars Nos. 37 to 38 being eastern boundary of plot C ; then a demarcated boundary line from pillars Nos. 39 to 40 being eastern boundary of plot D.

South—Buxa forest reserve being southern boundary of plot A ; then a demarcated boundary line from pillars Nos. 30 to 31 being southern boundary of plot B ; then the Buxa forest reserve being southern boundary of plot C ; then a demarcated boundary line from pillars Nos. 40 to 125 being southern boundary of plot D.

West—Buxa forest reserve being western boundary of all the four plots.

The details of the new boundary line are as follows :—

Pillar No. 13 is on the boundary specified in the notification No. 272T.-R. of the 9th June 1924.

Pillar No			Bearing (degrees).	Distance in feet.

TREASURY NOTICE.

Orders by the Deputy Accountant-General, Bengal.

It is notified that the Refund order book No. 1364, containing fifty orders, is in use in the office of the Income-tax Officer, Central Salaries Circle, from the 28th July 1928.

B. K. CHATTERJI,
Deputy Accountant-General, Bengal.

CALCUTTA, *the 10th August 1928.*

HIGH COURT NOTICES.

ENGLISH DEPARTMENT—CIVIL.

General Letter No. 11, dated Calcutta, the 30th July 1928.

From—H. C. STORK, ESQ., I.C.S., Registrar of the High Court of Judicature at Fort William in Bengal, Appellate Side,

To—The District Judges in Bengal and Assam.

I am directed to address you on the subject of gentlemen who were enrolled as Vakils of this High Court before the 1st July 1928, and who practise wholly or ordinarily in the mufassal courts. It appears that considerable doubt exists as to what their position is under the Indian Bar Councils Act, 1926, which came into force in Bengal on 1st July 1928.

2. I am to say that all the courts subordinate to this High Court should act for the present on the footing that the Indian Bar Councils Act does not abrogate the rights accruing to Vakils by virtue of section 4 of the Legal Practitioners Act, XVIII of 1879.

3. Under the Indian Bar Councils Act, however, no legal practitioner has a right to practise in the High Court unless he gets himself enrolled as an Advocate of the High Court under that Act. Any Vakil, therefore, who desires to retain that right, or to claim any of the advantages given to Advocates under the Indian Bar Councils Act, or to wear any robes that may eventually be prescribed for Advocates, is bound to get himself enrolled as an Advocate under that Act. To do this, he should, in the first instance, pay the sum of Rs. 10 required by the Act to the Chairman of the Bar Council of this High Court, who will furnish him with a receipt. This receipt he should submit to the Registrar, Appellate Side, High Court, with evidence of his identity, that is to say, by giving the year and date (when known) of his enrolment as a Vakil, his name in full, with degrees and titles, if any. He will then be enrolled as an Advocate under the Indian Bar Councils Act by the Registrar who will forward him a certificate to this effect.

4. I am to request you to inform local Bar Associations and individual enquirers accordingly.

CIVIL.

The 17th August 1928.

No. 11872A.—Babu Santosh Sil Banarji, munsif of Contai, in the district of Midnapore, is vested under section 19, sub-section (*2*) of the Bengal, Agra and Assam Civil Courts Act, 1887 (XII of 1887), as amended by the Decentralization Act, 1914 (IV of 1914), with powers to try, under the ordinary procedure, original suits up to the value of Rs. 2,000 arising within the local limits of the Contai munsifi.

The 18th August 1928.

No. 11956A.—Babu Surendra Nath Palit, munsif, under orders of transfer to Malda, in the district of Rajshahi and Malda, is vested with the powers of a Judge of a Court of Small Causes for the trial of suits cognizable by such a Court up to the value of Rs. 100 within the local limits of the Malda munsifi.

By order of the High Court,

H. C. STORK,
Registrar.

ORDERS BY COMMISSIONERS OF DIVISIONS.

Orders and Notifications by the Government of India republished for general information.

FINANCE DEPARTMENT.

NOTIFICATION.

Simla, the 1st August 1928.

No. F.-71-R.-I/28.—The following Resolution by the Secretary of State for India in Council is published for general information :—

In exercise of the powers conferred by sub-section (*2*) of section 96B of the Government of India Act, the Secretary of State, with the concurrence of the majority of votes at a meeting of the Council of India held this 10th day of July 1928, hereby makes the following amendment, which shall have effect from the 1st December 1925, of the Fundamental Rules, namely :—

In Rule 100 of the said Rules, after the words " military leave rules " the words " and to non-commissioned officers in civil employ " shall be inserted.

E. BURDON,

Secretary to the Government of India.

HOME DEPARTMENT.

RESOLUTION.

POLITICAL.

Simla, the 7th August 1928.

No. D.-1752/28.—The Indian Cinematograph Committee, with Diwan Bahadur T. Rangachariar, C.I.E., as Chairman, was appointed by the Governor-General in Council under the orders contained in the Resolution of the Government of India in the Home Department, No. D.-4169Poll., dated the 6th October 1927. The Committee assembled for the first time at Simla on the 18th October 1927 and after settling its questionnaire

reassembled at Bombay on the 6th November 1927. The Committee, after visiting nearly all the provinces and recording evidence from all, adjourned for a period on the 25th February 1928 owing to the claims of the session of the Central Legislature on the time of the majority of the members, and, after reassembling early in April, submitted its report to the Government of India on the 9th June 1928. Before coming to any conclusions on the recommendations made by the Committee, the Governor-General in Council considers that the report should be published for general information and he has been pleased to order accordingly.

2. The Governor-General in Council desires to take this opportunity of expressing his cordial appreciation of the services rendered by the Chairman and the members of the Committee. The numerous problems connected with the rise of the cinematograph industry have been subjected to close examination from every point of view, and the Governor-General in Council has no doubt that the Report of the Committee will prove of great value both as a comprehensive presentment of the conditions now obtaining in India and as material for the determination of future policy.

ORDER.—Ordered that the above Resolution be published in the *Gazette of India* and that a copy be communicated to all local Governments and Administrations and departments of the Government of India (except Legislative Department) for information.

H. G. HAIG,

Secretary to the Government of India.

CHITTAGONG DIVISION.

Rules for the guidance of private candidates for the Matriculation Examination of 1929.

The following rules for the guidance of private candidates for the Matriculation Examination are published for general information.

2. Private students are those who have not attended any recognised or unrecognised school for at least one year previous to the examination. The term "private students" includes *bona-fide* school-masters.

3 Private students must appear at the Test Examination of one of the following institutions on the dates mentioned against it:—

Name of school	Date of examination.
(1) Comilla Zilla School	3rd, 4th, 5th, 6th and 7th December 1928.
(2) Noakhali R. K. Zilla School	
(3) Chittagong Collegiate School	
(4) Rangamati High English School	

Female candidates are not required to undergo any Test Examination.

Each private student will pay a fee of Rs. 3 to the head of the institution in which he appears for the Test Examination. No private student will be admitted to the Test Examination unless he is accompanied for the purpose of identification by some persons known to the headmaster of the institution in which he appears.

4. Application for permission to appear at the Test Examination must be sent in time so as to reach this office not later than the 5th November 1928. The information to be given and the documents to be appended, in original, are the following:—

(*a*) Name of the school in which the candidate last studied.

(*b*) Transfer certificate, in original, granted to the candidate by the headmaster of the school in which he last studied; or

(*c*) In the case of a candidate who previously appeared at the Matriculation Examination, Controller's receipt, in original, for the fee paid.

(*d*) Age of the candidate. No candidate, who will not have completed the age of 15 years on the first day of the Matriculation Examination, will be allowed to appear at it.

(*e*) In the case of school-masters, a certificate of good conduct from the secretary of the school in which he is serving or from the Inspector of the district or subdivision concerned.

(*f*) A certificate from a respectable gentleman to the effect that the candidate has prosecuted a regular course of study and has been subject to proper discipline and that he has not read in any school since the last Matriculation Examination.

(*g*) A statement by the candidate giving the following facts:—

(i) Residence.
(ii) Father's name.
(iii) Second language besides English.
(iv) Vernacular language for composition.
(v) Vernacular language from which translation is to be made into English in the first English paper.
(vi) Which of the following subjects he has taken up:—
(1) Additional mathematics.
(2) Additional paper in the classical language.
(3) History.
(4) Geography.
(5) Elementary mechanics.
(vii) The name of the school at the Test Examination of which the candidate wishes to appear must be stated. Candidates of the plains districts will not be allowed to appear at the Test Examination of the Rangamati High English School.

N.B.—A student who failed to pass or appear at the annual examination for promotion to class X at the end of the session 1927 and then left the school can, under no circumstances, be allowed to appear at the Test Examination

5. The Inspector on being satisfied will countersign and return the application, which will then be the candidate's passport for admission to the Test Examination.

6. Every candidate must deposit his fee for the Test Examination with the headmaster of the institution in which he intends to appear, at least 15 days before the date of that examination. The headmaster will deposit the amount realized by him into the local Treasury and forward a copy of the Treasury chalan to this office. He should also submit to this office an account of the charges incurred by him (including remuneration to examiners) for conducting the examination of private candidates, together with vouchers in support of the charges, on receipt of which the Director of Public Instruction will be moved to sanction the expenditure.

7. The headmasters of the institutions named in paragraph 3 above should direct private students who satisfy the test to appear before them in due time, with their applications for admission to the Matriculation Examination, and to sign them in their

presence. They will then grant the necessary certificates and forward the applications to the Inspector for countersignature, after which they will be sent by the Inspector direct to the candidates.

8. In no circumstances should the fee for the Matriculation Examination be sent to the Inspector's office. It should be sent to the Controller of Examinations, Calcutta University, by the candidates themselves, together with the countersigned applications.

9. Private students must understand that the Test Examination of any school other than those named above will not be accepted by the Inspector.

10. The Matriculation Examination will be held in March 1929, the exact dates of which will be notified by the University.

11. Applications and fees for admission to the Matriculation Examination must reach the office of the Controller of Examinations on or before the date to be fixed by the University.

ABUL HASHEM KHAN CHOWDHURY,
Inspector of Schools, Chittagong Division (offg.).

CHITTAGONG, *the 7th August 1928.*

CALCUTTA UNIVERSITY.

NOTICE.

The Onauthnauth Deb Research Prize for 1928 has been awarded to the following candidate. The subject of his thesis forwarded to and approved by the Board of Examiners, is stated below :—

Name of the candidate.	Subject of his thesis.
Manmathanath Ray	... "The Law of Fixtures in British India."

By order of the Vice-Chancellor and Syndicate,

N. SEN, *Controller of Examinations.*

SENATE HOUSE, *the 16th August 1928.*

CALCUTTA UNIVERSITY.

NOTICE.

The Senate will proceed in the month of August, 1929, to the election of a Tagore Professor of Law for a term of one year, to commence on the 1st August, 1930.

The salary of the Professorship is Rs. 9,000 per annum and the Professor will be expected to deliver a course of not less than twelve lectures on one of the following subjects :—

(*i*) The History of Hindu Law in the Vedic Age and in Post-Vedic times down to the Institutes of Manu.

(*ii*) History of Legal Development in India during the period of Mahomedan Administration in India.

(*iii*) The Law relating to Dissolution of Marriage and Judicial Separation in British India.

The salary of the Professor will be paid in twelve *equal monthly instalments*, the first instalment to be paid on the first day of the month following that in which the first lecture is delivered.

Candidates for the Professorship are required to forward their applications to the Registrar on or before the 1st May 1929, stating on which of the abovenamed three subjects they are prepared to lecture. Each candidate will forward with his application one hundred copies of a brief Synopsis of his proposed lectures ; and if he so pleases, the same number of copies of his Introductory Lecture.

The Professor will, not later than the month of August following his election, forward to the Registrar a complete copy (manuscript or type-written) of the lectures which he proposes to deliver. The copy will be forthwith referred to a Committee of the Faculty of Law, consisting of not more than three Members to be chosen by the Faculty, who will examine the same and before the expiry of two months from the date of the submission of the copy by the Professor to the Registrar, report to the Faculty whether the work is complete and ready for the Press. If, upon such report, the Faculty are satisfied that the work is complete, the Professor will commence to deliver his lectures within three months from the date of the resolution of the Faculty and shall complete the delivery thereof in another three months. The copy of the lectures delivered will remain in the custody of the Registrar and shall be sent to the Press, as soon as practicable after delivery thereof.

If the Professor fails to submit the copy of the lectures, or if the copy submitted be found, on examination, to be incomplete and not ready for the Press, the matter will be referred to the Faculty of Law, upon whose recommendation the Senate may either extend the time or cancel the appointment.

J. C. GHOSH, *Registrar.*

SENATE HOUSE, *the 1st August 1928.*

NOTIFICATION.

Test Examination of private candidates for the Matriculation Examination of 1929.

A Test Examination of private candidates will be held in the Senate Hall, Calcutta, from Monday, the 26th November 1928. *Such candidates only as reside in any of the districts of the Presidency Division, including Calcutta, will be admitted to the examination.* The term "private candidates" includes school-masters.

2. Private candidates are those who have not attended any school recognised or unrecognised for at least one year previous to the Matriculation Examination. They should produce proof that they have not attended any school for such period. They should also produce certificates of conduct and progress in studies from the authorities of the last school where they read, and also a certificate from other reliable authorities regarding conduct and progress in studies after leaving school. The transfer certificates granted to them by the authorities of the schools in which they studied last of the Registrar's receipt for the fee paid in the case of those candidates who previously appeared at the Entrance or the Matriculation Examination, must be submitted in original along with the application for permission to appear at the Test Examination. A statement of the antecedents of the candidate should accompany his application. He should state whether he has read in any unrecognised school, and if so, in what school and in what year. A student, who failed to pass the annual examination for promotion to the first class at the end of the year 1927 and then left school, will in no circumstances be allowed to appear at the Test Examination of 1928.

3. *Bona fide* teachers employed in any of the schools in the Presidency Division may be admitted to the examination. They must produce certificates of service and character from their employers or from the Deputy Inspector of Schools of the district concerned.

4. No one shall be admitted to the Matriculation Examination unless he has completed the age of fifteen years on the first day of the month in which the Matriculation Examination is held.

5. Each candidate should submit to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, not later than the 2nd November 1928, his application for admission to the Test Examination, with the following particulars :—

(1) Age, (2) residence, (3) father's name, (4) whether he appeared at any previous Entrance or Matriculation Examination, (5) second language besides English, (6) vernacular language, and (7) which two of the following optional subjects he has taken up :—

(*a*) Additional Mathematics.
(*b*) Additional paper in a classical language.
(*c*) History.
(*d*) Geography.
(*e*) Elementary Mechanics.

6. The admission fee for the examination is Rs. 6 for each candidate. This must be remitted with the application on or before the prescribed date, after which a fine of Rs. 2 will be imposed for each week's delay. **In no circumstances will the admission fee be refunded.**

7. No private student will be admitted to the Test Examination unless he is satisfactorily identified at the examination hall during the examination.

8. Candidates who are sent up by this office must appear at the Calcutta Examination centre.

9. Those who reside at a distance from Calcutta may, as special cases, be permitted to sit at the Test Examination at the nearest Government High English School. They will be supplied with printed question papers from this office to which their answer papers should be sent by the Head Master concerned.

10. The date of the Matriculation Examination in 1929 will be notified hereafter.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the date to be fixed by the University.

12. *Programme of Test Examination—*

Monday, 26th November—

Morning—English Translation—10-30 A.M. to 1 P.M.
Afternoon—English Text and Grammar—1-30 P.M. to 4-30 P.M.

Tuesday, 27th November—

Morning—Compulsory Mathematics—10-30 A.M. to 1 P.M.

Wednesday, 28th November—

Morning—Compulsory Classical Language—10-30 A.M. to 1 P.M.
Afternoon—Additional Classical Language—1-30 P.M. to 4-30 P.M.

Thursday, 29th November—

Morning—History—10-30 A.M. to 1 P.M.
Afternoon—Additional Mathematics—1-30 P.M. to 4-30 P.M.

Friday, 30th November—

Morning—Geography—10-30 A.M. to 1 P.M.
Afternoon—Mechanics—1-30 P.M. to 4-30 P.M.

Intermediate and B. A. Examinations in 1929.

Deputy Inspectors, Sub-Inspectors and *bonâ fide* teachers of English schools in the Presidency Division, who have been employed as such for at least three years preceding the examination, will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Laboratory assistants and demonstrators and librarians of affiliated colleges will be treated as teachers. *Their applications must reach this office on or before the 3rd December 1928.*

1. In accordance with section 9, Chapter XV, of the revised Regulations dealing with the registration of University students, all candidates who intend to appear at any of the ensuing examinations of the University of Calcutta otherwise than as students of affiliated institutions, and who have applied for or have obtained the special permission of the Senate for the purpose, are required to apply to the Registrar of the Calcutta University for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation. A registration fee of Rs. 2 must accompany very application.

2. Candidates for the B. A. Examination must send to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, their F. A., I. A., or I. Sc. certificates, and candidates for the Intermediate Examination their Entrance and Matriculation certificates, together with a letter in original from the Senate of the Calcutta University, permitting them to appear at the examination.

3. Candidates should carefully read the printed form of application and supply all the information required by the University, including the Registrar's receipt in the case of those school-masters who were admitted to a previous examination of the same class.

4. The dates of the Intermediate and B. A. Examinations in 1929 will be notified hereafter.

5. Applications with the countersignature of the undersigned and fees for admission to the above examinations must reach the *office of the Registrar on or before the dates to be fixed by the University*, and must be sent to that office by the candidates direct.

ALFAZUDDIN AHMAD,
Inspector of Schools, Presidency Division (offg.).

Jalpaiguri, the 16th August 1928. H. P. V. TOWNEND, Deputy Commissioner.

Advertisement of sale.

(*See* Rule 161 of the Government Estates Manual.)

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates, situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate at 12 noon on the 24th September 1928, corresponding with 8th Ashin 1335 B.S.

The purchaser will be subject to the following conditions of sale :—

Conditions of sale.

1st.—The estate to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of the sale. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him revenue free.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid at once.

4th.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

Conditions of sale.

1. The Divisional Forest Officer is not bound to accept the highest or any offer for any lot. The sale of any lot, the value of which exceeds Rs. 2,000, shall not be complete until confirmed by the Conservator of Forests.

2. Successful bidders shall immediately deposit as earnest money $\frac{1}{10}$th of the total bid in currency notes which will be returned if the sale is not confirmed, and will be retained as security deposit if the same is confirmed.

3. Purchasers will be required to sign agreements in printed forms for outright sales. Copy of this form may be seen at the Divisional Forest Office, Cox's Bazar or Chittagong, and at the Range Offices.

4. The following are among the conditions of the agreements for all lots of the sale :—

(1) Felling and extraction to be completed by 30th April 1929.

(2) The purchase money to be paid in four instalments as follows :—

1st instalment	1st November 1928	10%	100%
2nd ,,	1st December 1928	40%	
3rd ,,	1st January 1929	40%	
4th ,,	1st February 1929	10%	

5. Failure to sign the agreement within one month of confirmation of sale will render the purchasers liable to forfeiture of the security deposit.

The lot or lots so affected shall be resold by public auction or otherwise as the Divisional Forest Officer may think fit, and the defaulting purchaser shall be liable to make good any shortage on such resale.

6. If a tree shown as "sound" in the sale notice is found on felling to be "unsound" the Divisional Forest Officer may at his discretion order a refund of a proportionate amount on the unsound portion of the tree.

7. "D" class poles used for saw-benches will not be charged for unless removed. They must, however, be marked by a Forest Officer before felling and if removed will be charged for at schedule rates.

F. J. A. HART,
Divisional Forest Officer,
Cox's Bazar Division.

Cox's Bazar, the 18th July 1928.

Ramna, the 7th August 1928.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 2073L., dated Calcutta, the 18th August, 1928.—His Excellency the Governor having been pleased to order, under rule 18 of the Bengal Legislative Council Rules, 1920, the publication of the following Bill, together with the Statement of Objects and Reasons, which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information :—

THE CALCUTTA SUBURBAN POLICE (AMENDMENT) BILL, 1928.

A

BILL

further to amend the Calcutta Suburban Police Act, 1866.

WHEREAS it is expedient further to amend the Calcutta Suburban Police Act, 1866, in order to make provision for the disposal of certain movable property found in the suburbs of the town of Calcutta; Bengal Act II of 1866.

And whereas the previous sanction of the Governor General has been obtained under sub-section (*3*) of section 80A of the Government of India Act to the passing of this Act; 5 & 6 Geo. V, c. 61; 6 & 7 Geo. V, c. 37; 9 & 10 Geo. V, c. 101.

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Calcutta Suburban Police (Amendment) Act, 1928.

Insertion of new sections 48A and 48B in Ben. Act II of 1866.

2. After section 48 of the Calcutta Suburban Police Act, 1866, the following sections shall be inserted, namely:—

Police to take charge of unclaimed movable property.

"48A. (*1*) The Police shall, for the purpose of safe custody, take temporary charge of— [*Cf.* Ben. Act IV of 1866, s. 100.]

(*a*) all unclaimed movable property found by them, and

(*b*) all movable property found lying in any public street, if the owner or the person in charge of such property on being directed to remove the same, refuses or omits to do so within a reasonable time;

and may, for the said purpose, take temporary charge of any unclaimed movable property made over to them.

(*2*) Property of which the Police have taken charge under sub-section (*1*) shall be handed over to the Commissioner of Police.

Disposal of such property.

48B. (*1*) If the said property appears to have been left by a person who has died intestate, and not to be under two hundred rupees in value, the Commissioner of Police shall communicate with the Administrator-General, with a view to its being dealt with under the Administrator-General's Act, 1913, or any other law for the time being in force. [*Cf.* Ben. Act IV of 1866, s. 101.] III of 1913.

(*2*) In every other case the Commissioner of Police shall issue a proclamation specifying the articles of which such property consists, and requiring any person who may have a claim thereto to appear before himself or some other officer whom he appoints in this behalf and establish his claim within six months from the date of such proclamation.

The Calcutta Suburban Police (Amendment) Bill, 1928.

(Clause 2).

(*3*) If the property, or any part thereof, is subject to speedy and natural decay, or consists of live-stock, or if the property appears to be of less value than five rupees, it may forthwith be sold by auction under the orders of the Commissioner of Police; and the net proceeds of such sale shall be dealt with in the same manner as is hereinafter provided for the disposal of the said property.

(*4*) The Commissioner of Police shall, on being satisfied of the title of any claimant to the possession or administration of any property referred to in sub-section (*2*), order the same to be delivered to him, after deduction or payment of the expenses properly incurred by the Police in the seizure and detention thereof.

(*5*) The Commissioner of Police may, at his discretion, before making any order under sub-section (*4*), take such security as he may think proper from the person to whom the said property is to be delivered; and nothing hereinbefore contained shall affect the right of any person to recover the whole or any part of such property from the person to whom it may have been delivered pursuant to such order.

(*6*) If no person establishes his claim to such property within the period prescribed in sub-section (*2*), it shall be at the disposal of the Government; and the property, or such part thereof as has not already been sold under sub-section (*3*), may be sold by auction under orders of the Commissioner of Police."

STATEMENT OF OBJECTS AND REASONS.

The procedure to be followed by the Police and the District Magistrate in dealing with movable property found in the mufassal is prescribed in sections 25, 26 and 27 of the Police Act, 1861 (V of 1861) and that relating to property found in the town of Calcutta, in sections 100 and 101 of the Calcutta Police Act, 1866 (Ben. Act IV of 1866) as amended by the Amendment Act, 1910 (Ben. Act III of 1910). There is however no provision regarding property found in the suburbs of Calcutta as sections 25, 26 and 27 of the Police Act, 1861 (V of 1861) have not been applied to the suburbs. Government have therefore decided that the Calcutta Suburban Police Act, 1866 (Ben. Act II of 1866) should be amended by including in it the provisions contained in sections 100 and 101 of the Calcutta Police Act.

W. D. R. PRENTICE,
Member-in-charge.

CHITTAGONG.

1. During the year under report the post of Shipping Master, Chittagong, was held by Commander C. R. Bluett, R.I.M.

2. **Financial results.**—The amount received during the year was Rs. 1,042 and that expenditure was Rs. 1,449. The accompanying Statement I shows the particulars of the receipts and expenditure of the past two years.

3. **Seamen shipped and discharged.**—The number of seamen of all nationalities shipped and discharged during the year under report was 175 and 561, respectively, against 223 and 504 in the previous year as shown in Statement II.

4. **Inspection of vessels.**—The ships that arrived at this port during the year 1927-28 numbered 99 (excluding regular coasting steamers) against 58 in the previous year, of these four were manned solely by British, one by Italian, one by Norwegian, one by Italian and Egyptian, one by British, Norwegian and Spanish, two by British and Chinese and the rest by European and Asiatic crews. All the ships were inspected by the Port Health Officer.

5. **Deserters.**—Nineteen Indian seamen deserted during the year under report. There was no deserter among the European seamen.

CHAS. A. BENTLEY, M.B., D.P.H., D.T.M. & H., *Director of Public Health, Bengal.*

CALCUTTA, *the 18th August 1928.*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for July 1928.

I. **Character of the season.**—During the month under review, the rainfall was in excess of the normal throughout the Presidency except in the districts of Darjeeling, Dacca, Mymensingh, Chittagong, and the Chittagong Hill Tracts where it was slightly below the average. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Transplantation of winter paddy seedlings was progressing under favourable conditions. Harvesting of autumn paddy and cutting, steeping and washing of jute were proceeding in East and North Bengal; in West Bengal the operations commenced during the latter part of the month.

III. **State of standing crops.**—The standing crops were growing well.

IV. **Prospects and probable outturn.**—The outturn of summer *til* was estimated at 60 per cent. of the normal. Prospects of standing crops were generally promising, though in some districts jute and autumn paddy suffered somewhat from insect-pests and heavy rain.

V. **Damage to standing crops.**—Damage by heavy rain and insect-pests is reported from parts of the 24-Parganas, Nadia, Murshidabad, Jessore, Burdwan, Hooghly, Rajshahi, Malda, Faridpur, Bakarganj and the Tripura State.

VI. **Condition of agricultural stock.**—The condition of live-stock was generally fair. Stray cases of cattle-disease were, however, reported from fourteen districts.

VII. **Failure of pasturage and fodder.**—Insufficiency of fodder was reported from parts of Murshidabad, Birbhum and Dinajpur.

VIII. **Prices of food-grains.**—During the second fortnight of the month the retail price of common rice of the cheapest quality rose in three districts, fell also in three, and remained stationary in the rest of the Presidency. It varied from 4¾ seers per rupee in Rangpur to 7½ seers per rupee in Chittagong.

IX. **Condition of agricultural population.**—The condition of the agricultural population was, on the whole, fair except in parts of Birbhum, Bankura, Dinajpur and Malda, where distress continued to prevail owing to a partial failure of the winter rice crop. Test relief works continued to help the people of these districts. In Birbhum, however, the relief works were closed during the latter part of the month.

ROBERT S. FINLOW,
Director of Agriculture, Bengal.

DACCA, *the 14th August 1928.*

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 18th August 1928.

Summary.—During the week the rainfall was generally light to moderate except in parts of North and East Bengal where it was heavy. Transplantation of winter paddy seedlings is much advanced. Reaping of autumn paddy and cutting, steeping and washing of jute are going on favourably. Condition and prospects of standing crops are generally fair. Distress continues to prevail in parts of Bankura and Dinajpur where the number of persons employed on test-relief works is reported as 761 and 515, respectively. The average price of common rice for the province has risen by about 0·43 per cent. as compared with that of the previous week.

Form C—BENGAL.

[Section 5 (2) of the Cotton Ginning and Pressing Factories Act, 1925.]

Statement of cotton pressed in the Bengal Presidency for the week ending 10th August 1928.

1	2	3	4	5	6
Name of Division or Block.	Number of bales pressed.		Number of bales pressed.		District included in the block.
	During the week.	During the corresponding week last year.	Since 1st September 1927 (the date prescribed by the Local Government as the commencement of the season).	During the corresponding period last year.	
The Bengal Presidency...	181 bales of 400 lbs. each.	1,107	42,559	48,503	All districts in the Presidency.

R. P. ADAMS,

Chief Inspector of Factories, Bengal.

CORPORATION OF CALCUTTA.

NOTICE.

In compliance with the provisions of clause (*2*) of rule 9 of Schedule XVIII of the Calcutta Municipal Act, 1923, it is hereby notified for general information that in modification of the general order of the Corporation made under rule 9 of Schedule XVIII of Act III of 1923, on the 15th September 1926, and published in the *Calcutta Gazette* of the 17th March 1927 (Supplement portion—page 337), the Corporation of Calcutta at their meeting held on the 1st August 1928 passed, under rule 9 of the aforesaid Schedule, a general order applicable to the whole of the area within their jurisdiction, prohibiting the sinking of tube wells except on the following conditions:—

1. No person shall sink a tube well or allow a tube well to be sunk in any portion of Calcutta until the site has been sanctioned by the Health Officer to the Corporation, provided that if permission is neither granted nor refused within one month from the date of receipt of the application an appeal shall lie to the Health Standing Committee whose decision shall be final.

2. No tube well shall be sunk by any person or firm other than one duly licensed by the Corporation in that behalf.

3. Every application for permission to sink a tube well shall be submitted in duplicate and shall contain particulars as to the size, capacity and depth of the well, and the purpose for which the water will be used. It shall be accompanied by a plan in duplicate, drawn to a scale of 50 feet to the inch, showing the position of the tube well and the position of every building, tank or other structure within 50 feet so far as is known to the applicant and a detailed specification giving full particulars, specially of the method which the applicant proposes to adopt to prevent contamination of the well by the percolation of sub-soil.

4. Every tube well shall be sunk to a depth sufficient to allow the whole of its length of strainer embedded in a layer of sand below at least the third layer of impervious clay.

5. On completion of the tube well, and before the casing pipe is withdrawn, the space between the well pipe and bore hole shall be properly filled up with cement in the presence of an officer of the Corporation authorised in this behalf.

6. Every tube well shall be provided with an impervious platform at ground level sloping away from the tube, and of a radius of at least 8 feet.

7. Every person sinking a tube well shall keep a record and sample of the different layers he taps and submit the same to the Executive Engineer, Waterworks. The records and samples so furnished shall be treated as confidential.

8. No person shall use or allow to be used the water of a tube well for drinking or domestic purposes until the Health Officer of the Corporation has examined the water and certified that it is fit for such purposes.

9. Any tube well the water of which is in the opinion of the Health Officer of the Corporation at any time not bacteriologically safe may be immediately closed on receipt of a notice to that effect from the Health Officer under Schedule XVIII.

10. Every tube well shall be open to inspection between sunrise and sunset by the Health Officer of the Corporation, the Executive Engineer, Waterworks, and such other persons as may be authorised in this behalf by either of them.

11. Any infringement of the above rules shall make the owner of the well or the person in charge of permitting the use of the well liable to punishment under clause 9 of Schedule XVIII.

J. C. MUKERJEA, *Chief Executive Officer.*

CENTRAL MUNICIPAL OFFICE, *the 9th August 1928.*

CORPORATION OF CALCUTTA.

NOTICE.

It is notified for general information that the Corporation of Calcutta under powers vested in them in this behalf have, by a resolution dated the 1st August 1928, cancelled the alignment of a portion of Darga Road in Ward No. 20 as it is affected by the Calcutta Improvement Trust Schemes Nos. VIII and VIIIA.

A copy of the plan prepared in this behalf may be seen in the office of the Surveyor and Valuer of the Corporation any day, during office hours, on payment of usual fees.

A. CASSELLS,
Secretary to the Government of Bengal.

Marine Department.

NOTIFICATION.

No. 73 Marine.—The 25th August 1928.—In exercise of the power conferred by section 87 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), and with the approval of the Governor-General in Council, the Governor in Council is pleased to prescribe the following scales of supply of medicines and appliances to be carried on board by (1) foreign-going British ships and (2) home-trade ships of more than 300 tons burden, other than native passenger ships. These scales shall not apply to ships navigating between the United Kingdom and any port in British India, to which section 200 of the Merchant Shipping Act, 1894, applies.

A. CASSELLS,

Secretary to the Government of Bengal.

I. **Foreign-going British ships other than native passenger ships shall carry such supply—**

(*a*) if there is no surgeon on board—according to Schedule B, hereunto annexed.

(*b*) if there is a surgeon on board—

(*i*) if there are more than 100 persons on board—according to Schedule A, hereunto annexed.

(*ii*) if there are not more than 100 persons on board—according to Schedule B, hereunto annexed.

II. **Home-trade ships of more than 300 tons other than native passenger ships—**

A. In such ships, the following three classes, namely :—

(1) ships making a voyage not exceeding five days from port to port,

(2) ships making a voyage exceeding five days from port to port and carrying not more than 100 persons on board, and

(3) ships carrying more than 100 persons on a voyage exceeding five days from port to port but not having a surgeon on board;

shall carry such supply according to Schedule B, hereunto annexed, and

B. Those ships that carry more than 100 persons on a voyage exceeding five days from port to port and have a surgeon on board shall carry such supply according to Schedule A, hereunto annexed.

Provided that home-trade ships between 300 and 1,000 tons on a voyage not more than 24 hours from port to port (irrespective of the number of the crew and passengers) shall carry such supply according to Schedule C, hereunto annexed.

Sulphuris	2 „	Antimoniale ..	½ oz.
Zinci	1 „	Ipecacuanhæ ..	1 „

Miscellaneous articles for one hundred persons.

Fresh vaccine (anti-small pox). Sufficient for 75 persons.

Fresh vaccine (anti-cholera). 150 cc.

NOTE.—This is to be given in two doses of ½ and 1 cc, respectively, *i. e.*, 1½ cc. in all, per person. It should be kept in cold storage on board and used when required and should be discarded in accordance with the date of the expiry on the phials under orders of the Port Health Officer.

Unless it can be shown that all persons on board have been protected by inoculation just prior to embarkation 1½ cc. for each person on board should be carried.

For short voyages 100 cc. of fresh Cholera vaccine instead of 150 cc. may be carried.

Fresh vaccine (anti-plague). 150 cc.*

NOTE.—This is usually given in doses similar to anti-cholera vaccine but it may be given in one single dose of 1 cc.* The vaccine should be carried under conditions similar to those in regard to cholera vaccine and discarded in a similar way under orders of the Port Health Officer.

30 cc.* instead of 150 cc. may be carried in the case of ships which have been deratised within six months.

Adhesive plaster 1" wide	1 reel of 5 yards.
Calico	2 yards.
Flannel	2 yards.
Lint	4 yards.
Bandages (roller)	½ dozen.
Paper for powders, etc.	1 quire.
Corks for bottles.	1 dozen.
Cotton wool (country)	1 lb.
Bed-pan (metal)	1
Antiseptic gauze	1 yard.

NOTE.—The preparations of ammonia, ether, chloroform, iodine, and all acids should be in well stoppered bottles.

All the drugs, etc., must be properly labelled with the quantities marked on each label. "Poisons" should be especially distinguished by labels with the word "Poison" on them.

Anæsthetics.

Borocaine in tubes	..2 tubes of 25 tablets each for each ship.
Chloroformum	..1 oz. per 100 persons.

NOTE.—Chloroform should be in blue glass or covered from light by dark paper.

Disinfectants for each ship.

Sulphur	.. 32 lbs.
Phenol or other disinfectants of quality approved by the Governor-General in Council.	.. 20 gals.

NOTE.—For conditions of approval and list of approved disinfectants, *see* Appendix.

Bleaching Powder (packed in jars)—20 lbs.
Waterproof sheets 6

*These quantities apply to Lister Institute anti-plague vaccine. For Haffkine Institute, Bombay, vaccine the quantities should be trebled.

Instruments for each ship.

Boxes, chip for ointment (1 oz. each)	18

Glass measures—		
2 oz.	2	
2 drachms	2	
Pestle and mortar (wedgewood)	2	
Scales and weight (grains)	1	
Spare weights (grains)	1	set.
Splints (common)	1	„
Metal catheter (No. 8 size)	1	
India rubber catheters, No. 2, 4, 6, and 10	1	set.
Spatula	1	
Scissors (shop)	1	
Penknife	1	
Syringe—		
Ear, metal	1	
Enema, patent	1	
Urethral (male)	1	
Urethral (female)	1	
Infusion pot	1	

Pocket dressing case to contain 1 probe, 1 director, 1 female catheter, 1 clinical thermometer (in case), 1 pair of scissors, 1 dressing forceps (plated), 6 suture needles, 1 artery forceps, 1 symes' abscess knife, 1 straight and 1 curved bistoury in 1 handle, 1 lancet (bleeding) silk thread for sutures (20) grains.

Steriliser for surgical instruments, small	1
Hypodermic syringe, 20 minim or 2 cc.	1
Tooth forceps—	
Upper incisors	1
Lower incisors	1
Lower molar	1
Upper molar right	1
Upper molar left	1
Clinical thermometer (in addition to the one already supplied in pocket dressing case).	1
Artery forceps (in addition to the one already supplied in pocket dressing case).	3
Eye cup	1
Enamelled bowl	1
Enamelled tray (round)	1
Enamelled tray (kidney shaped)	1
Transfusion apparatus for intravenous saline and a sufficient supply of Hypertonic saline in tablet form.	1

Table showing the quantities of medicines, etc., to be supplied according to the above scale for more than 100 persons.

Number of persons.	*Quantity.*	
From 101 to 250 persons	1½ times	the quantity prescribed for 100 persons.
„ 251 to 400 „	twice	
„ 401 to 550 „	Thrice	
„ 551 to 750 „	Four times	
„ 751 to 950 „	Five times	
„ 951 to 1,150 „	Six times	
„ 1,151 to 1,350 „	Seven times	
„ 1,351 to 1,550 „	Eight times	
„ 1,551 to 1,750 „	Nine times	
„ 1,751 to 1,950 „	Ten times	
„ 1,951 to 2,150 „	Eleven times	
„ 2,151 to 2,350 „	Twelve times	

and so on.

For short voyages within home-trade limits excluding short voyages between Madras ports and the Straits Settlements the scale will be 50% of that shown in Schedule A for medicines and miscellaneous articles, but no reduction will be made for vaccines, anaesthetics, disinfectants and surgical instruments. The multiplication scale at the end of Schedule A will be unaltered for these voyages.

SCHEDULE B.

REVENUE DEPARTMENT.

LAND REVENUE.

NOTIFICATION.

Malda. *No. 16035L.R.—The 24th August 1928.*—In exercise of the powers conferred by section 101 (*1*) of the Bengal Tenancy Act, 1885 (Act VIII of 1885), the Governor in Council is pleased to order that a survey shall be made and a record-of-rights prepared in respect of all lands comprised within the administrative boundaries of the district of Malda excluding the areas already surveyed in pursuance of Government notifications No. 8359L.R., dated the 16th October 1916, and No. 1717T.R., dated the 4th November 1915, but not excluding the area comprised in Government estate Harachandrapur, bearing tauzi No. 616 of the Malda Collectorate.

The particulars to be recorded in the survey and record-of-rights shall be following :—

(*a*) the name of each tenant or occupant ;

(*b*) the class to which each tenant belongs, that is to say, whether he is a tenure-holder, raiyat holding at fixed rents or rates, settled raiyat, occupancy raiyat, non-occupancy raiyat, or under-raiyat, and, if he is a tenure-holder, whether he is a permanent tenure-holder or not, and whether his rent is liable to enhancement during the continuance of his tenure ;

(*c*) the situation and quantity, and one or more of the boundaries of the land held by each tenant or occupier ;

(*d*) the name of each tenant's landlord ;

(*e*) the name of each proprietor, with the character and extent of his interest, and the situation, quantity and one or more of the boundaries of the lands, if any, which are his private lands as defined in Chapter XI of the Act ;

(*f*) the rent and cess lawfully payable by each tenant at the time the record-of-rights is being prepared ;

(*g*) the mode in which that rent has been fixed, whether by contract, by order of a court or otherwise ;

(*h*) if the rent is a gradually increasing rent, the time at which and the steps by which it increases ;

(*i*) the rights and obligations of each tenant and landlord in respect of—

(*i*) the use by tenants of water for agricultural purposes whether obtained from a river, jhil, tank or well or any other source of supply, and

(*ii*) the repair and maintenance of appliances for securing a supply of water for the cultivation of the land held by each tenant, whether or not such appliances be situated within the boundaries of such land ;

(*j*) the special conditions and incidents, if any, of the tenancy ;

(*k*) any right-of-way or other easement attaching to the land for which the record-of-rights is being prepared ;

(*l*) if the land is claimed to be held rent-free, whether or not rent is actually paid, and, if not paid, whether or not the occupant is entitled to hold the land without payment of rent, and if so entitled, under what authority.

W. H. NELSON,

Secretary to the Government of Bengal (*offg.*).

LAND ACQUISITION.

NOTIFICATIONS.

No. 15885L.A.—The 21st August 1928.—In exercise of the powers conferred by section 48 (*1*) of the Land Acquisition Act, I of 1894, the Governor in Council is pleased to withdraw from the acquisition of 0·12 of an acre of land bounded as described below, in the village of Harinathpur, out of 30·68 acres of land, notified for acquisition under declaration No. 17078L.A., dated the 30th November 1927, published at pages 2525-26, Part I of the *Calcutta Gazette* of the 8th December 1927, as amended by erratum No. 15882L A., dated 21st August 1928, and required for the construction of the retired lines at Satkahania, Basudha and Harinathpur in miles 1, 6, and 7 of schedule D, No. 29, Ajoy Right Embankment, in the villages of Satkahania, Basudha and Harinathpur, parganas Senpahari, Sinbhum and Gopbhum, respectively, zilla Burdwan.

Burdwan.

Boundaries.

Educational Notices.

NOTIFICATION.

Test Examination of private candidates for the Matriculation Examination of 1929.

A Test Examination of private candidates will be held in the Senate Hall, Calcutta, from Monday, the 26th November 1928. *Such candidates only as reside in any of the districts of the Presidency Division, including Calcutta, will be admitted to the examination.* The term "private candidates" includes school-masters.

2. Private candidates are those who have not attended any school recognised or unrecognised for at least one year previous to the Matriculation Examination. They should produce proof that they have not attended any school for such period. They should also produce certificates of conduct and progress in studies from the authorities of the last school where they read, and also a certificate from other reliable authorities regarding conduct and progress in studies after leaving school. The transfer certificates granted to them by the authorities of the schools in which they studied last of the Registrar's receipt for the fee paid in the case of those candidates who previously appeared at the Entrance or the Matriculation Examination, must be submitted in original along with the application for permission to appear at the Test Examination. A statement of the antecedents of the candidate should accompany his application. He should state whether he has read in any unrecognised school, and if so, in what school and in what year. A student, who failed to pass the annual examination for promotion to the first class at the end of the year 1927 and then left school, will in no circumstances be allowed to appear at the Test Examination of 1928.

3. *Bona fide* teachers employed in any of the schools in the Presidency Division may be admitted to the examination. They must produce certificates of service and character from their employers or from the Deputy Inspector of Schools of the district concerned.

4. No one shall be admitted to the Matriculation Examination unless he has completed the age of fifteen years on the first day of the month in which the Matriculation Examination is held.

5. Each candidate should submit to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, not later than the 2nd November 1928, his application for admission to the Test Examination, with the following particulars :—

(1) Age, (2) residence, (3) father's name, (4) whether he appeared at any previous Entrance or Matriculation Examination, (5) second language besides English, (6) vernacular language, and (7) which two of the following optional subjects he has taken up :—

(*a*) Additional Mathematics.
(*b*) Additional paper in a classical language.
(*c*) History.
(*d*) Geography.
(*e*) Elementary Mechanics.

6. The admission fee for the examination is Rs. 6 for each candidate. This must be remitted with the application on or before the prescribed date, after which a fine of Rs. 2 will be imposed for each week's delay. **In no circumstances will the admission fee be refunded.**

7. No private student will be admitted to the Test Examination unless he is satisfactorily identified at the examination hall during the examination.

8. Candidates who are sent up by this office must appear at the Calcutta Examination centre.

9. Those who reside at a distance from Calcutta may, as special cases, be permitted to sit at the Test Examination at the nearest Government High English School. They will be supplied with printed question papers from this office to which their answer papers should be sent by the Head Master concerned.

10. The date of the Matriculation Examination in 1929 will be notified hereafter.

11. Applications and fees for admission to the examination must reach the office of the Registrar on or before the date to be fixed by the University.

12. *Programme of Test Examination—*

Monday, 26th November—

Morning—English Translation—10-30 A.M. to 1 P.M.
Afternoon—English Text and Grammar—1-30 P.M. to 4-30 P.M.

Tuesday, 27th November—

Afternoon—Additional Mathematics—1-30 P.M. to 4-30 P.M.

Friday, 30th November—

Morning—Geography—10-30 A.M. to 1 P.M.
Afternoon—Mechanics—1-30 P.M. to 4-30 P.M.

Intermediate and B. A. Examinations in 1929.

Deputy Inspectors, Sub-Inspectors and *bonâ fide* teachers of English schools in the Presidency Division, who have been employed as such for at least three years preceding the examination, will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Laboratory assistants and demonstrators and librarians of affiliated colleges will be treated as teachers. *Their applications must reach this office on or before the 3rd December 1928.*

1. In accordance with section 9, Chapter XV, of the revised Regulations dealing with the registration of University students, all candidates who intend to appear at any of the ensuing examinations of the University of Calcutta otherwise than as students of affiliated institutions, and who have applied for or have obtained the special permission of the Senate for the purpose, are required to apply to the Registrar of the Calcutta University for the registration of their names as University students. No person will be deemed a "University student" unless and until his name has been duly registered, and none but "University students" will be eligible for admission to any University examination other than the Matriculation. A registration fee of Rs. 2 must accompany very application.

2. Candidates for the B. A. Examination must send to the Inspector of Schools, Presidency Division, and *not to the undersigned personally*, their F. A., I. A., or I. Sc. certificates, and candidates for the Intermediate Examination their Entrance and Matriculation certificates, together with a letter in original from the Senate of the Calcutta University, permitting them to appear at the examination.

3. Candidates should carefully read the printed form of application and supply all the information required by the University, including the Registrar's receipt in the case of those school-masters who were admitted to a previous examination of the same class.

4. The dates of the Intermediate and B. A. Examinations in 1929 will be notified hereafter.

5. Applications with the countersignature of the undersigned and fees for admission to the above examinations must reach the *office of the Registrar on or before the dates to be fixed by the University*, and must be sent to that office by the candidates direct.

ALFAZUDDIN AHMAD,
Inspector of Schools, Presidency Division (offg.).

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits ; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. The second quinquennial valuation of the Fund has been completed by the Actuary to the Government of India, and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General, Bengal, Imperial Secretariat Buildings, Calcutta.

ADVERTISEMENT.

1. Applications are invited for appointment to the post of Mechanical Executive Engineer in the Engineering Branch of the Public Health Department, Government of Bengal.

2. Candidates must be natural-born British subjects and the children of British subjects, and be of not less than 30 or more than 43 years of age. They must be of good character and sound physique. They must be corporate members of either the Institution of Mechanical Engineers, or the Institution of Engineers (India); or must possess qualifications equal to those required by those institutions for corporate membership. They must have had at least 5 years training in the workshops of a first class machinery manufacturer, and must have specialised for not less than 5 years in the design, erection and maintenance of waterworks pumping machinery, including filtration plant. Those who have Indian experience or experience about tube-wells should specially mention such experience. They must furnish with their applications—

(1) testimonials written not more than one year before the date of the application from two respectable persons, certifying to their moral character;
(2) evidence of their age; and
(3) a certificate from a registered medical practitioner of the country of their residence (in India, from a Government medical officer), testifying to their sound physique and ability to stand sustained active duty in a tropical climate.

3. They must be prepared, if called upon, to attend at the office of the High Commissioner for India, or the office of the Secretary to the Government of Bengal in the Local Self-Government Department for a personal interview, and to appear before a medical board for examination as to their physical fitness for appointment. There is no charge for this examination, but candidates must be prepared to bear their own travelling expenses

4. The appointment will be on contract on the terms mentioned below :—

(*a*) The selected candidate will be appointed on an agreement for 3 years, terminable at any time by six months' notice on either side.

(*b*) The appointment will carry pay according to the incumbent's age at the rates per month shown in the table below, the overseas pay being drawable only if the incumbent be of non-Asiatic domicile at the time of his appointment :—

Age last birthday.	Basic pay.	Overseas pay.
	Rs.	£
30	650	20
31	700	30
32	750	30
33	800	30
34	850	30
35	900	35
36	950	35
37	950	35
38	1,000	35
39	1,050	35
40	1,100	35
41	1,150	35
42	1,200	35
43	1,200	35
44	1,250	35
45	1,250	35

(*c*) The pay of the appointment will be subject to the vote of the Bengal Legislative Council.

(*d*) The appointment will be non-pensionable, but the incumbent will be required to subscribe to a special provident fund at the rate of 1/12th of his pay each month, to which Government will add half-yearly bonus at the rate of 75 per cent. of the subscriptions of the incumbent for the half year, and interest, calculated monthly and added yearly to the account, at

the rate of $4\frac{3}{4}$ per cent. per annum, or at such other rate as may from time to time be fixed by Government.

(*e*) The incumbent will be eligible for leave as follows:—

(1) Leave on average pay up to one-eleventh of the period spent on duty to which may be added on medical certificate leave on average or half-average pay up to a maximum of three months reckoned in terms of leave on average pay.

(2) Three months' extraordinary leave without pay may be granted in addition to the leave under (1).

(3) If the incumbent's services are dispensed with by Government before the expiry of the contract on grounds of ill-health not brought about by the incumbent's intemperance, he shall be entitled to take all leave due to him before his services are terminated.

(4) Leave may be granted after the expiry of the contract only where it has been applied for during the period of the contract and refused owing to the exigencies of the public service.

(*f*) The incumbent will be entitled to travelling allowance under the provisions of the Fundamental Rules or of such other rules as may for the time being be in force at the rates permissible for officers of the first grade. He will also be entitled to Calcutta House Allowance provided he lives in the area prescribed by the rules and has a wife or child living with him.

(*g*) The incumbent will be required to pass a departmental examination in Bengali and colloquial Hindi within two years of his appointment.

(*h*) The incumbent's services may be extended beyond the term of 3 years on such conditions as may be agreed upon during the term of the agreement, but no undertaking is given in this behalf.

(*i*) If the selected candidate resides in a country outside Asia at the time of his appointment, he will be provided with a first-class passage by sea to Calcutta; and, if he is of non-Asiatic domicile at the time of his appointment, will be granted, if his services terminate at the expiry of the term of 3 years, or are dispensed with by Government at any time within that period for any reason other than misconduct on his part or breach by him of any of the conditions of his contract, a first-class passage by sea from Calcutta to England (or at his option to any other country at a cost not exceeding that of a first-class passage by sea from Calcutta to England).

(*j*) The incumbent will be of gazetted rank.

5. The form of agreement may be seen in the office of the High Commissioner for India and the office of the Secretary to the Government of Bengal, Local Self-Government. In the case of a candidate selected in the United Kingdom, the agreement must be executed with the High Commissioner for India before the journey to India is undertaken; and in the case of a candidate selected in India it must be executed with the Secretary to the Government of Bengal, Local Self-Government Department, before the duties of the post are assumed It must be understood that, although the agreement, as required by law, is in the form of an agreement with the Secretary of State for India in Council, the appointment will be an appointment made by the Government of Bengal. The person selected will be subject in all respects throughout his service to the orders of that Government against which no appeal will ordinarily lie to the Government of India or to the Secretary of State for India in Council. His salary will be subject to the vote of the Bengal Legislative Council

6. The selected candidate will be required to join his appointment at the beginning of December 1928, or as soon after that date as possible.

7. Applications will be received up to the 1st October 1928—

(*a*) in India—by the Secretary to the Government of Bengal, Local Self-Government Department, Writers' Buildings, Calcutta,

(*b*) in England—by the High Commissioner for India, 42, Grosvenor Gardens, England, S. W. 1.

They should be submitted under registered cover marked "Application for post of Mechanical Executive Engineer, Public Health Department, Bengal."

THE BENGAL STATE AID TO INDUSTRIES BILL, 1928.

A

BILL

to provide for the giving of State aid to industries in Bengal.

WHEREAS it is expedient to make provision for the giving of State aid to industries in Bengal; 5 & 6 Geo. V, c. 61; 6 & 7 Geo. V, c. 37; 9 & 10 Geo. V, c. 101.

AND WHEREAS the previous sanction of the Governor-General under sub-section (*3*) of section 80A of the Government of India Act has been obtained to the passing of this Act;

It is hereby enacted as follows:—

Short title, local extent and commencement.

1. (*1*) This Act may be called the Bengal State Aid to Industries Act, 1928.

(*2*) It extends to the whole of Bengal.

(*3*) It shall come into force on such date as the Local Government may, by notification, direct.

Definitions.

2. In this Act, unless there is anything repugnant in the subject or context,—

(*1*) "Board" means the Board of Industries established under section 3;

(*2*) "Chairman" means the Chairman of the Board;

(*3*) "Director" means the Director of Industries, Bengal, and includes any person appointed by the Local Government to discharge the functions of the Director under this Act;

(*4*) "industry" means any industrial business or enterprise, including agriculture, undertaken or conducted by any person;

(*5*) "machinery" includes plant, apparatus, tools and other appliances required for carrying on any industrial operation or process;

(*6*) "notification" means a notification published in the *Calcutta Gazette;*

(*7*) "owner" means the person who owns any industrial undertaking, and includes the successors in interest of such person in respect of such undertaking; and

(*8*) "prescribed" means prescribed by rules made under this Act.

Establishment of a Board of Industries.

3. The Local Government shall, as soon as possible after the commencement of this Act, establish a Board to be called "the Board of Industries," for carrying out the purposes of this Act, and consisting of the following members, namely:—

(*a*) the Director, *ex-officio;*

(*b*) the Registrar, Co-operative Societies, Bengal, *ex-officio;*

(*c*) five members, not being Government servants, to be appointed by the Local Government;

(*d*) one member, being an employee of the Imperial Bank of India, to be appointed by the Local Government;

The Bengal State Aid to Industries Bill, 1928.

(*Clauses 4—8.*)

(*e*) one member to be elected in the prescribed manner by the Bengal Chamber of Commerce;

(*f*) one member to be elected in the prescribed manner by the Bengal National Chamber of Commerce;

(*g*) one member to be elected in the prescribed manner jointly by the Marwari Association and the Marwari Trades Association;

(*h*) one member to be elected in the prescribed manner by the Calcutta Trades Association.

Procedure in default of election of members

4. If, by such date as may be fixed by the Local Government, any of the bodies referred to in clauses (*e*), (*f*), (*g*) and (*h*) of section 3 does not elect the member to be elected by it under the provisions of that section the Local Government shall appoint a suitable person to be such member, and any person so appointed shall be deemed to be a member as if he had been duly elected by the body failing to elect a member under the said provisions. [*Cf.* Ben. Act XII of 1923, s. 2 (3).]

Chairman and Vice-Chairman.

5. (*1*) The Director shall be Chairman of the Board.

(*2*) The Board may from time to time elect, for such period as it thinks fit, one of its members to be Vice-Chairman.

Elections and appointments to be notified in Gazette.

6. The names of the Vice-Chairman and of the appointed and elected members of the Board or, in the case of an *ex-officio* member, the office by virtue of which he is a member shall be published by the Local Government in the *Calcutta Gazette*. [*Cf.* Ben Act XII of 1923, s 2 (4).]

Term of office

7. (*1*) The Vice-Chairman and any other appointed or elected member may resign his office by giving notice in writing to the Chairman; and, on such resignation being accepted by the Chairman, shall be deemed to have vacated his office. [*Cf.* Mad. Act VIII of 1920, s 9 (1).]

(*2*) Subject to the provisions of this Act, the appointed or elected members shall hold office for a term of three years and may, on the expiration of such term, be re-appointed or re-elected.

(*3*) Notwithstanding the expiration of the term of three years mentioned in sub-section (*2*), an appointed or elected member shall continue to hold office until the vacancy caused by the expiration of the said term has been filled.

Removal of members

8. (*1*) The Local Government may, by notification, remove the Chairman, Vice-Chairman or any member of a Board if he— [*Cf.* Mad Act VIII of 1920, s 10.]

(*a*) is absent without leave for more than four months continuously from the jurisdiction of the Board;

(*b*) refuses to act or become incapable of acting as a member of the Board;

(*c*) is declared insolvent;

(*d*) is convicted of any such offence or is subjected by a criminal court to any such order as in the opinion of the Local Government implies a defect of character which unfits him to continue to be a Chairman, Vice-Chairman or member of a Board; or

(*e*) without excuse sufficient in the opinion of the Local Government, is absent without consent of the Board from more than four consecutive meetings of the Board.

The Bengal State Aid to Industries Bill, 1928.

(*Clauses 9—14.*)

(*2*) The Local Government may fix a period during which any person so removed shall not be eligible for re-appointment or re-election.

Casual vacancies.

9. When the place of an appointed or elected member of a Board becomes vacant by his removal, resignation or death, a new member shall be appointed or elected in the manner provided in section 3, and shall hold office so long as the member whose place he fills would have been entitled to hold office if such vacancy had not occurred: [*Cf.* Ben. Act V of 1919, s. 13.]

Provided that no act of the Board, or of its officers, shall be deemed to be invalid by reason only that the number of members of the Board at the time of the performance of such act was less than the number provided by section 3.

Allowances.

10. The members and staff of the Board shall be entitled to travelling and daily allowance of the prescribed amount for attending meetings of the Board or performing any duty assigned to them by the Board for the purposes of this Act.

President at meetings.

11. (*1*) The Chairman, or, in his absence, the Vice-Chairman, shall preside at every meeting of the Board, and shall have a second or casting vote in all cases of equality of votes. [*Cf.* Ben. Act III of 1923, s. 62.]

(*2*) In the absence of both the Chairman and Vice-Chairman, the members present at any meeting may elect one of their number to preside, who shall have a second or casting vote in all cases of equality of votes.

Interested members not to vote.

12. No member of a Board shall vote on any question coming before the Board for consideration in which (otherwise than in its general application to all persons and properties within the province) he has a pecuniary interest. [*Cf.* Mad. Act VIII of 1920, s. 17 (4).]

Delegation of functions of Chairman.

13. (*1*) The Chairman with the consent of the Board may authorise the Vice-Chairman by an order in writing to exercise any of the powers conferred or to perform any of the duties imposed on the Chairman by this Act and thereupon the responsibility of the Chairman in respect of such powers and duties shall devolve upon the Vice-Chairman during the continuance of such order.

(*2*) When the office of Chairman is vacant the Vice-Chairman shall exercise the functions of the Chairman until a new Chairman is appointed.

Power of Board to make regulations.

14. (*1*) The Board may make regulations in regard to the following matters, namely:—

(*i*) the time and place of its meetings;

(*ii*) the manner in which notice of meetings shall be given;

(*iii*) the conduct of proceedings at meetings;

(*iv*) the division of duties among the members of the Board;

(*v*) the appointment, duties and procedure of special committees consisting wholly of members of the Board or partly of such members and partly of other persons; and

(*vi*) generally, the carrying out of the purposes of this Act.

(*2*) Any regulation made under sub-section (*1*) which is repugnant to the provisions of any rule made under section 30 shall, to the extent of such repugnancy, but not otherwise, be void.

The Bengal State Aid to Industries Bill, 1928.

(Clauses 15—19.)

Supersession of Board.

15. (*1*) If at any time it appears to the Local Government that the Board is not properly performing the duties imposed upon it by or under this Act, the Local Government may, by an order in writing specifying the reasons for so doing, remove all appointed and elected members of such Board and direct that the vacancies shall thereupon be filled by election in the manner provided in section 3 in respect of elected members and by appointment in respect of appointed members or that all the vacancies shall be filled by appointment. [*Cf.* Mad. Act VIII of 1920, s. 23.]

(*2*) From the date of an order under sub-section (*1*) until the vacancies are filled, all powers and duties of the Board shall be exercised and performed by such person, in such manner, as the Local Government may direct. [*Cf.* Ben. Act V of 1919, s. 57.]

Duty of Board.

16. It shall be the duty of the Board to receive and, after such inquiry, if any, as it deems necessary or may be required by this Act to report to the Local Government upon applications for State aid.

Documents and reports to be furnished to the Local Government.

17. If the Local Government so directs, the Chairman shall forward to the Local Government any document and prepare and submit any report relating to the work of the Board.

Power of Board to appoint, punish and dismiss its officers and servants.

18. (*1*) With the sanction of the Local Government, the Board may appoint such staff of officers and servants as it may consider necessary to carry out its duties under this Act, and, subject to the prescribed conditions, may fix the salaries of such staff which shall be paid by the Local Government. [*Cf.* Ben. Act V of 1919, s. 36.]

(*2*) Subject to the prescribed conditions, the Board may punish or dismiss members of its staff.

Forms of State aid.

19. (*1*) Subject to the provisions of section 20, the Local Government may grant State aid to an industry in all or any of the following forms, namely:—

(*a*) the grant of a loan to be secured and repaid in the prescribed manner and upon such terms as may be fixed by the order granting it:

Provided that no such loan shall exceed seventy per cent. of the net value of the assets of the industry to which it is granted after deducting all encumbrances thereon existing at the time when an application is made under section 16. Such value shall be ascertained by the Board in the prescribed manner:

Provided also that every such loan shall, unless the Local Government, for reasons to be recorded in writing, otherwise directs, be repayable within not more than twenty years after the date of the advance of the loan or, where the loan is advanced in instalments, after the date of the advance of the last instalment:

Provided also that the Local Government, for reasons to be recorded in writing, may, on the application of the owner of an industry to which such loan has been granted, in exceptional cases, vary the terms fixed by the order granting the loan;

(*b*) the guarantee of a cash credit, overdraft, or fixed advance with a bank to be secured and the amount realised thereunder by any industry to be repaid in the prescribed manner;

The Bengal State Aid to Industries Bill, 1928.

(Clause 20.)

(*c*) the taking of shares and debentures:

Provided that the amount paid by the Local Government for such shares and debentures shall not exceed the amount already paid by other persons for shares and debentures in the same industry;

(*d*) the guarantee of interest on preference shares or debentures to be secured and the amount realised thereunder by any industry to be repaid in the prescribed manner;

(*e*) the guarantee of a minimum return on the whole or part of the capital of a joint stock company to be secured and the amount realised thereunder by any industry to be repaid in the prescribed manner;

(*f*) the grant on favourable terms of land, raw material, firewood, water or any other property of the Local Government;

(*g*) the payment of a subsidy for—

(*i*) the conduct of research;

(*ii*) the purchase of machinery; and

(*h*) subject to the prescribed conditions, the supply of machinery on the hire-purchase system.

(*2*) In the case of the grant of any of the forms of State aid specified in clauses (*f*) and (*g*) of sub-section (*1*), the Local Government shall ordinarily in the order granting such aid fix a period of years and a rate of interest on the capital invested in the industry so aided, and, if within such period the industry pays a rate of interest or a dividend in excess of the rate so fixed, the value of the aid granted, as ascertained by the prescribed authority in the prescribed manner, shall be paid at the expiration of the said period by the owner of the industry to the Local Government.

(*3*) In no case shall the total value of all State aid granted to an industry as ascertained by the prescribed persons in the prescribed manner exceed the limit specified in the first proviso to clause (*a*) of sub-section (*1*).

Industries which may be aided.

20. State aid may be given—

(*a*) in any of the forms specified in sub-section (*1*) of section 19 to—

(*i*) a new or nascent industry, [*Cf.* B. & O. Act VI of 1923, s. 5.]

(*ii*) an industry to be newly established in an area where such industries are undeveloped, and

(*iii*) a cottage industry including industries conducted by groups or organisations of artisans;

(*b*) in the form specified in clause (*h*) of the said sub-section, to agriculture; and

(*c*) in the forms specified in clauses (*b*), (*g*) and (*i*) of the said sub-section to any industry except agriculture:

Provided that no State aid shall be given to any joint-stock company unless:—

(*a*) the company is registered in India with a rupee capital, and

(*b*) the prescribed proportion of the members of the Board of Directors of the company are Indians:

The Bengal State Aid to Industries Bill, 1928.

(Clauses 21—24.)

Provided further that every recipient of State aid shall make such provision for the training of apprentices as may be prescribed.

Inspection and returns.

21. The owner of any industry— [*Cf.* B. & O. Act VI of 1923, s. 11.]

(*i*) when an application has been made for State aid to such industry; or

(*ii*) during the continuance of State aid to such industry in any of the forms specified in clauses (*a*), (*b*), (*c*), (*d*) and (*e*) of sub-section (*1*) of section 19 shall—

(*a*) comply with any general or special order of the Local Government relating to the inspection of the premises, buildings or plant or stock-in-trade, employed, or to be employed, for the purposes of the industry;

(*b*) permit the inspection by the prescribed person of all accounts relating to the industry;

(*c*) submit the accounts relating to the industry to such audit as may be prescribed;

(*d*) furnish in the prescribed manner to the prescribed person full returns of all products manufactured and sold both as regards description and quantity;

(*e*) maintain such special accounts as may be prescribed; and

(*f*) furnish such statements as the Local Government may require.

Disposal of profits during continuance of State aid.

22. (*1*) During the continuance of State aid to any industry under section 19 the profits of such industry shall, if distributed, be distributed only after interest due on debentures and loans has been paid and a reasonable amount has been set aside for depreciation or obsolescence of plant and buildings and a further reasonable amount has been carried to reserve fund to be utilised in the prescribed manner.

(*2*) No dividend shall be paid to shareholders and no profit shall be taken by the owner in excess of such percentage rate upon the amount of the paid-up capital invested in the industry as the Local Government may fix from time to time, during the continuance of State aid to the industry.

Methods of recovery of money due.

23. All arrears of monies payable to the Local Government under this Act, including any interest chargeable thereon and costs, if any, incurred, shall be recoverable as an arrear of land revenue.

Power to Local Government to terminate aid on account of fault

24. If the Local Government decides for reasons to be recorded in writing to terminate aid in respect of an industry on any of the following grounds, namely:—

(*i*) that any portion of the aid given has been misapplied, or

(*ii*) that there has been a breach by the industry of the provisions of this Act or of any rule made thereunder or of any condition of the grant, or,

The Bengal State Aid to Industries Bill, 1928.

(*Clauses 25—29.*)

(*iii*) that the application on which the aid has been granted contained, or was accompanied by, any material statement by the owner which he knew to be false, or any intentional concealment by him of any material fact, which in the opinion of the Local Government it was his duty to disclose, or that any such false statement or concealment was intentionally made in any inquiry made under this Act by or, with the connivance of the owner or in any return under this Act, or, in reply to any requisition for information under this Act, or

(*iv*) that the industry is being managed in such a manner as to endanger the repayment of the value of State aid granted thereto repayable under this Act,

the Local Government may make an order that the aid be terminated and, notwithstanding anything contained elsewhere in this Act or in any other law, may proceed to recover from the owner as an arrear of land revenue—

(*a*) the whole amount of any loan outstanding together with such interest as may be due thereon, or

(*b*) in cases where the aid is given otherwise than by loan, the money value of the grant as fixed at the time when it was made, together with interest at a rate not exceeding twelve and a half per cent. from the date of the grant till the date of realisation, and

(*c*) in the cases mentioned in clause (*a*) or (*b*) the cost of recovery, and, if the Local Government so directs, the cost of any inquiry made in connection therewith,

and such order shall be final.

Fees.

25. The Local Government may charge in respect of applications, inquiries, inspections and audit by whomsoever made under this Act, such fees, if any, as may be prescribed. Arrears of such fees shall be recoverable from the owner as a public demand.

Supervision of assisted industry.

26. During the continuance of State aid to an industry in any of the forms specified in clauses (*a*), (*b*), (*d*) and (*e*) of sub-section (*1*) of section 19 the Local Government may, by appointing directors or inspectors, or otherwise, take such steps as it deems advisable so to control the conduct of the industry as to safeguard the interests of the Local Government therein.

Recovery of sums due.

27. All sums payable under this Act shall, unless otherwise provided therein, be recoverable as if they were public demands.

Powers and protection of persons acting under this Act.

28. Every person who acts on behalf of the Local Government or the Board under this Act (including every person who conducts an inquiry under this Act) shall be deemed to be a public servant within the meaning of section 21 of the Indian Penal Code, and no suit, prosecution or other legal proceeding shall lie against any such or any other person for anything which is in good faith done or intended to be done under this Act. Act XLV of 1860

Finality of decision of Local Government.

29. The decision of the Local Government as to whether the conditions laid down by or under any of the provisions of this Act have been satisfied shall be final. [*Cf.* B. & O Act VI of 1923, s. 31.]

The Bengal State Aid to Industries Bill, 1928.

(Clause 30.)

Power to make rules.

30. (*1*) The Local Government may, by notification, make rules for carrying out the purposes of this Act;

(*2*) In particular, and without prejudice to the generality of the foregoing power, such rules may provide for all or any of the following matters, namely:—

(*a*) the manner of election of the members of the Board referred to in clauses (*e*), (*f*), (*g*) and (*h*) of section 3;

(*b*) the amount of travelling and daily allowance referred to in section 10;

(*c*) the conditions of fixation of the salaries referred to in sub-section (*1*) of section 18;

(*d*) the condition of punishment and dismissal referred to in sub-section (*2*) of section 18;

(*e*) the manner of securing and repaying the loans referred to in clause (*a*) of sub-section (*1*) of section 19;

(*f*) the manner of ascertaining the value of the assets referred to in clause (*a*) of sub-section (*1*) of section 19;

(*g*) the manner of securing and repaying the amounts referred to in clauses (*b*), (*d*) and (*e*) of sub-section (*1*) of section 19;

(*h*) the conditions of the supply of machinery on the hire-purchase system under clause (*h*) of sub-section (*1*) of section 19;

(*i*) the authority by which and the manner in which the values referred to in sub-sections (*2*) and (*3*) of section 19 shall be ascertained;

(*j*) the proportion of members referred to in clause (*b*) of the first proviso to section 20;

(*k*) the provision for training referred to in the second proviso to section 20;

(*l*) the person referred to in clause (*b*) of section 21;

(*m*) the audit referred to in clause (*c*) of section 21;

(*n*) the person to whom and the manner in which the returns referred to in clause (*d*) of section 21 shall be furnished;

(*o*) the accounts referred to in clause (*e*) of section 21;

(*p*) the manner of utilising the amount carried to reserve fund under sub-section (*1*) of section 22;

(*q*) the fees referred to in section 25; and

(*r*) generally, to regulate the conduct of its duties, the management of its proceedings, and the preparation and submission to the Local Government of the minutes thereof by the Board.

STATEMENT OF OBJECTS AND REASONS.

The object of the Bill is to obtain statutory power to enable State aid to be given mainly for the purpose of encouraging cottage industries and industries on a small scale, in the shape of loans, guarantees, the provision of a hire-purchase system, etc. It is proposed to set up a Board of Industries to advise Government on applications for such aid.

The Bill is modelled on the Madras State Aid to Industries Act, 1923, and the Bihar and Orissa State Aid to Industries Act, 1923.

P. C. MITTER,
Member-in-charge.

DARJEELING:
The 8th June, 1928.

NOTES ON CLAUSES.

Clauses 3 to 13 deal with the constitution and method of business of the Board.

Clause 14.—This clause authorises the Board to make regulations in regard to the carrying on of the work of the Board.

Sub-clause (2) provides that if any such regulation is inconsistent with the rules made by Government under clause 30 it shall be void.

Clause 15 gives the Government power to supersede the Board if it does not perform its duties properly and to appoint a person to exercise all the functions of the Board until it is reconstituted.

Clause 16 provides that the Board must report to the Local Government, after inquiry, upon applications received for State aid.

Clause 19.—This clause specifies the various forms in which State aid to industries may be given and the limits of the value of such aid.

Clause 20 enumerates the industries to which State aid may be given, and the provisos prescribe the conditions which must be fulfilled before such aid can be claimed.

Clause 21 specifies the conditions subject to which applications for State aid shall be considered or the aid continued.

Clause 22 provides that during the continuance of State aid an industry shall dispose of profits in the manner laid down in this clause.

Clause 23 gives power to the Local Government to recover all arrears of monies due to it as an arrear of land revenue.

Clause 24 enumerates the grounds on which the Local Government can terminate State aid to an industry.

Clause 25 authorises the Government to charge fees in respect of applications, inquiries, etc.

Clause 26 enables the Government to appoint directors or inspectors to control the conduct of an industry receiving State aid when necessary.

Clause 27 is a general provision for the recovery of all sums payable under the proposed Act as public demands.

Clause 28 is the usual indemnity provision and also gives every person acting under the Act the rights of a public servant in order to give him the necessary protection.

Clause 29 makes the decision of the Local Government final in regard to the fulfilment of conditions laid down under the proposed Act.

Clause 30 authorise the Local Government to make rules for carrying out the purposes of the Act.

J. BARTLEY,
Secretary to the Bengal Legislative Council.

FARIDPUR, *the 19th August 1928.*

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 22nd August 1928.

Summary.—The rainfall was generally heavy in East Bengal and light to moderate elsewhere. More rain is needed in parts of West Bengal for the growth of the standing crops. A satisfactory progress in transplantation of winter paddy has so far been made for the province as a whole. Reaping of autumn crops is proceeding ; some damage by excessive rain is reported from places. Distress continues to prevail in parts of Bankura and Dinajpur where the number of persons employed on test-relief works is reported as 1,873 and 151, respectively. The average price of common rice for the province has fallen by about 0·82 per cent. as compared with that of the previous week.

Serial No.	District and subdivision.	Rainfall.	Price of common rice, in seers, per rupee.		Character of the weather, condition of crops, etc.
			This week.	Previous week.	
1	2	3	4	5	6
		Inches.			
1	24-PARGANAS...	4·35	5½	5½	Weather seasonable. Transplantation of *aman* paddy continues in Sadar, Basirhat and Baraset, and nearly finished in Diamond Harbour subdivision. There has been considerable damage to growth of jute plants in Sadar owing to heavy rainfall. Some damage to the crop is reported from Barrackpore and Baraset by heavy rainfall and insect-pests. In Baraset damage is estimated at 30 per cent. Harvesting is going on except in Diamond Harbour where the operation has been nearly finished. Fodder and water are sufficient. No cattle-disease except in Hasnabad police-station in Basirhat when it has since subsided.
	Diamond Harbour.	6·87	5½	5½	
	Barrackpore ...	3·99	5	5	
	Baraset ...	5·50	5½	5½	
	Basirhat ...	2·69	5½	5½	
2	NADIA ...	1·40	5	5	Weather seasonable. Harvesting of *aus* paddy in continuing. Damage to *aus* paddy in some places of Sadar is reported ; otherwise prospects of crops are fair. Transplantation of *aman* paddy is over. Jute crop is in fair condition. Harvesting of jute continues at Kushtia only. Fodder and water are sufficient.
	Kushtia ...	4·35	5½	5½

RESOLUTION ON THE BUDGET ESTIMATES OF INCOME AND EXPENDITURE OF THE HOWRAH BRIDGE FOR THE YEAR 1928-29.

GOVERNMENT OF BENGAL.

Marine Department.

CALCUTTA, THE 17TH AUGUST 1928.

RESOLUTION—No 2485 Mne.

READ—

The budget estimates of income and expenditure of the Howrah Bridge for the year 1928-29.

Receipts.—The estimate of receipts for the year is placed at Rs. 4,19,888, against the budget and revised estimates of Rs. 4,29,388 and Rs. 4,29,873, respectively, for the preceding year. The estimate of receipts from the East Indian Railway for the year is placed at Rs 3,50,000 against the budget and revised estimates of Rs 3,30,000 and Rs. 3,50,000, respectively, for the preceding year. The Bengal Nagpur Railway again contributed Rs. 26,000 towards the upkeep of the bridge during the year 1928 29.

Expenditure.—The estimate of total ordinary expenditure for the year is Rs 4,10,379 against the budget and revised estimates of Rs. 4,17,029 and Rs 4,05,979, respectively, for the preceding year. The special expenditure of Rs 3,70,000 budgetted for in 1927-28 for the work of substituting eight lattice girders for the old six bowstring girders of the bridge, was reduced to Rs. 2,58,730 in the revised estimate. A provision of Rs. 1,31,383 has been made in the current year's budget for the purpose.

RESOLVED that the budget estimates for 1928-29 be approved under section 21 of the Howrah Bridge Act, 1871.

By order of the Governor in Council,

A. CASSELLS,
Secretary to the Government of Bengal.

Printed at the Bengal Government Press, Alipore, and published by the Bengal Secretariat Book Depôt, Writers Buildings, in the City of Calcutta, on the 30th August 1928.

Chief Secretary to the Government of Bengal (offg.).

Orders by the Commissioner of Police, Calcutta.

The following draft of a notification, which with the previous sanction of the Governor in Council the Commissioner of Police, Calcutta, proposes to issue under section 62 (*1*) (*c*) of the Calcutta Police Act, 1866 (Bengal Act IV of 1866), is hereby published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 6th October 1928, and any objection or suggestion which may be received by the undersigned by that date will be duly considered :—

Draft notification.

In exercise of the power conferred by clause (*c*) of section 62 (*1*) of the Calcutta Police Act, 1866 (Bengal Act IV of 1866), the Commissioner of Police, Calcutta, with the previous sanction of the Governor in Council, hereby makes the following amendment in the rules laid down for the regulation of traffic, etc., in the streets and public places of Calcutta and its suburbs as published on page 435 in Part I of the *Calcutta Gazette* of 8th March 1922, under notification dated the 2nd March 1922 :—

Amendment.

In schedule B referred to in rule 4 in Part 1 (*c*), relating to standing vehicles, after the street "Fairlie Place" *insert* the following as a new entry :—

(1)	(2)
Streets.	Manner in which vehicles are allowed to stand.
Fairlie Place Lane.	In one line on the east side facing south. A clear space of 30 feet must be left at the north end of the lane to enable vehicles to turn.

C. A. TEGART,
Commissioner of Police, Calcutta.

CALCUTTA, *the 1st September 1928.*
